

Agenda Report

2725 Judge Fran Jamieson
Way
Viera, FL 32940

Public Hearing

H.2.

9/5/2024

Subject:

Gerald Patterson (Raymond Burnette) requests a change of zoning classification from GU to RRMH-1. (24Z00022) (Tax Account 2000981) (District 1)

Fiscal Impact:

None

Dept/Office:

Planning and Development

Requested Action:

It is requested that the Board of County Commissioners conduct a public hearing to consider a change of zoning classification from GU (General Use) to RRMH-1 (Rural Residential Mobile Home).

Summary Explanation and Background:

The applicant is requesting to rezone the property from GU (General Use) to RRMH-1 (Rural Residential Mobile Home). The subject property lots were created and recorded in a series of OR books and pages listed as ORB 1099 Pg 1042 (October 1969) and ORB 1117 Pg 674 (March 1970) as well as ORB 1421 Pg 967 (February 1974). All of the subject properties' 7 lots were created prior to May 20, 1975; during this time, GU required 1 acre in land area with a width and depth of 150 feet. The subject property is not considered a nonconforming lot of record because the original lot sizes were less than the required 1 acre in size at the time they were established. The applicant intends on combining the lots to create one lot.

When the lots were created, access was not included for the site. There is a 5-foot buffer strip owned by a third-party. The applicant has procured an easement agreement; however, it has not been approved by Planning and Development. The easement review is a separate administrative process. The easement will need to be approved and meet the requirements of Section 62-102 prior to the issuance of a Building Permit

To the North is a single-family residence, zoned RRMH-1 and a RES 1 Future Land Use designation. South is vacant, zoned GU and a RES 1 Future Land Use designation. East, across Blounts Ridge Rd., is a single-family residence, zoned AU and a RES 1 Future Land Use designation. West is vacant, zoned GU and a RES 1 Future Land Use designation.

The Board may wish to consider whether the proposed zoning request is consistent and compatible with the surrounding area.

On August 12, 2024, the Planning and Zoning Board heard the request and unanimously recommended approval.

Clerk to the Board Instructions:

Upon receipt of resolution, please execute and return a copy to Planning and Development.

Resolution 24Z00022

On motion by Commissioner Pritchett, seconded by Commissioner Tobia, the following resolution was adopted by a unanimous vote:

WHEREAS, Gerald Patterson (Raymond Burnette) requests a change of zoning classification from GU (General Use) to RRMH-1 (Rural Residential Mobile Home), on property described as Lots 16 – 18, Block 91, Indian River Park, and Lots 19 – 22, Block 91, Golden Shores Estates, as recorded in ORB 10101, Pages 1020 – 1021, of the Public Records of Brevard County, Florida. **Section 04, Township 20G, Range 34.** (2.02 acres) Located on the west side of Blounts Ridge Dr., approx. 1,533 ft. south of Rose Marie Ln. and 964 ft. north of Patty Ln. (No assigned address. In the Mims area.); and

WHEREAS, a public hearing of the Brevard County Planning and Zoning Board was advertised and held, as required by law, and after hearing all interested parties and considering the adjacent areas, the Brevard County Planning and Zoning Board recommended that the application be approved; and

WHEREAS, the Board, after considering said application and the Planning and Zoning Board's recommendation, and hearing all interested parties, and after due and proper consideration having been given to the matter, find that the application should be approved as recommended; now therefore,

BE IT RESOLVED by the Board of County Commissioners of Brevard County, Florida, that the requested change of zoning classification from GU to RRMH-1, be approved. The Planning and Development Director, or designee, is hereby directed to make this change on the official zoning maps of Brevard County, Florida.

BE IT FURTHER RESOLVED that this resolution shall become effective as of September 5, 2024.

BOARD OF COUNTY COMMISSIONERS
Brevard County, Florida

Jason Steele, Chair
Brevard County Commission

As approved by the Board on September 5, 2024.

ATTEST:

RACHEL SADOFF, CLERK

(SEAL)

P&Z Board Hearing – August 12, 2024

Please note: A CUP (Conditional Use Permit) will generally expire on the three-year anniversary of its approval if the use is not established prior to that date. CUPs for Towers and Antennas shall expire if a site plan for the tower is not submitted within one year of approval or if construction does not commence within two years of approval. A Planned Unit Development Preliminary Development Plan expires if a final development plan is not filed within three years. **The granting of this zoning does not guarantee physical development of the property. At the time of development, said development must be in accordance with the criteria of the Brevard County Comprehensive Plan and other applicable laws and ordinances.**

ADMINISTRATIVE POLICIES OF THE FUTURE LAND USE ELEMENT

Administrative Policies in the Future Land Use Element establish the expertise of staff with regard to zoning land use issues and set forth criteria when considering a rezoning action or request for Conditional Use Permit, as follows:

Administrative Policy 1

The Brevard County zoning official, planners and the Director of the Planning and Development, however designated, are recognized as expert witnesses for the purposes of Comprehensive Plan amendments as well as zoning, conditional use, special exception, and variance applications.

Administrative Policy 2

Upon Board request, members of the Brevard County planning and zoning staff shall be required to present written analysis and a recommendation, which shall constitute an expert opinion, on all applications for zoning, conditional uses, comprehensive plan amendments, vested rights, or other applications for development approval that come before the Board of County Commissioners for quasi-judicial review and action. The Board may table an item if additional time is required to obtain the analysis requested or to hire an expert witness if the Board deems such action appropriate. Staff input may include the following:

Criteria:

- A. Staff shall analyze an application for consistency or compliance with comprehensive plan policies, zoning approval criteria and other applicable written standards.
- B. Staff shall conduct site visits of property which are the subject of analysis and recommendation. As part of the site visit, the staff shall take a videotape or photographs where helpful to the analysis and conduct an inventory of surrounding existing uses. Aerial photographs shall also be used where they would aid in an understanding of the issues of the case.
- C. In cases where staff analysis is required, both the applicant and the staff shall present proposed findings of fact for consideration by the Board.
- D. For development applications where a specific use has not been proposed, the worst case adverse impacts of potential uses available under the applicable land use classification shall be evaluated by the staff.

Administrative Policy 3

Compatibility with existing or proposed land uses shall be a factor in determining where a rezoning or any application involving a specific proposed use is being considered. Compatibility shall be evaluated by considering the following factors, at a minimum:

Criteria:

- A. Whether the proposed use(s) would have hours of operation, lighting, odor, noise levels, traffic, or site activity that would significantly diminish the enjoyment of, safety or quality of life in existing neighborhoods within the area which could foreseeably be affected by the proposed use.

- B. Whether the proposed use(s) would cause a material reduction (five percent or more) in the value of existing abutting lands or approved development.
- C. Whether the proposed use(s) is/are consistent with an emerging or existing pattern of surrounding development as determined through analysis of:
 - 1. historical land use patterns;
 - 2. actual development over the immediately preceding three years; and
 - 3. development approved within the past three years but not yet constructed.
- D. Whether the proposed use(s) would result in a material violation of relevant policies in any elements of the Comprehensive Plan.

Administrative Policy 4

Character of a neighborhood or area shall be a factor for consideration whenever a rezoning or any application involving a specific proposed use is reviewed. The character of the area must not be materially or adversely affected by the proposed rezoning or land use application. In evaluating the character of an area, the following factors shall be considered:

Criteria:

- A. The proposed use must not materially and adversely impact an established residential neighborhood by introducing types of intensity of traffic (including but not limited to volume, time of day of traffic activity, type of vehicles, et cetera), parking, trip generation, commercial activity or industrial activity that is not already present within the identified boundaries of the neighborhood.
- B. In determining whether an established residential neighborhood exists, the following factors must be present:
 - 1. The area must have clearly established boundaries, such as roads, open spaces, rivers, lakes, lagoons, or similar features.
 - 2. Sporadic or occasional neighborhood commercial uses shall not preclude the existence of an existing residential neighborhood, particularly if the commercial use is non-conforming or pre-dates the surrounding residential use.
 - 3. An area shall be presumed not to be primarily residential but shall be deemed transitional where multiple commercial, industrial or other non-residential uses have been applied for and approved during the previous five (5) years.

Administrative Policy 5

In addition to the factors specified in Administrative Policies 2, 3, and 4, in reviewing a rezoning, conditional use permit or other application for development approval, the impact of the proposed use or uses on transportation facilities either serving the site or impacted by the

use(s) shall be considered. In evaluating whether substantial and adverse transportation impacts are likely to result if an application is approved, the staff shall consider the following:

Criteria:

- A. Whether adopted levels of services will be compromised;
- B. Whether the physical quality of the existing road system that will serve the proposed use(s) is sufficient to support the use(s) without significant deterioration;
- C. Whether the surrounding existing road system is of sufficient width and construction quality to serve the proposed use(s) without the need for substantial public improvements;
- D. Whether the surrounding existing road system is of such width and construction quality that the proposed use(s) would realistically pose a potential for material danger to public safety in the surrounding area;
- E. Whether the proposed use(s) would be likely to result in such a material and adverse change in traffic capacity of a road or roads in the surrounding area such that either design capacities would be significantly exceeded or a de facto change in functional classification would result;
- F. Whether the proposed use(s) would cause such material and adverse changes in the types of traffic that would be generated on the surrounding road system, that physical deterioration of the surrounding road system would be likely;
- G. Whether projected traffic impacts of the proposed use(s) would materially and adversely impact the safety or welfare of residents in existing residential neighborhoods.

Administrative Policy 6

The use(s) proposed under the rezoning, conditional use or other application for development approval must be consistent with, (a), all written land development policies set forth in these administrative policies; and (b), the future land use element, coastal management element, conservation element, potable water element, sanitary sewer element, solid waste management element, capital improvements element, recreation and open space element, surface water element, and transportation elements of the comprehensive plan.

Administrative Policy 7

Proposed use(s) shall not cause or substantially aggravate any, (a), substantial drainage problem on surrounding properties; or (b), significant, adverse and unmitigatable impact on significant natural wetlands, water bodies or habitat for listed species.

Administrative Policy 8

These policies, the staff analysis based upon these policies, and the applicant's written analysis, if any, shall be incorporated into the record of every quasi-judicial review application for development approval presented to the Board including rezoning, conditional use permits, and vested rights determinations.

Section 62-1151(c) of the Code of Ordinances of Brevard County directs, "The planning and zoning board shall recommend to the board of county commissioners the denial or approval of each application for amendment to the official zoning maps based upon a consideration of the following factors:

- (1) The character of the land use of the property surrounding the property being considered.
- (2) The change in conditions of the land use of the property being considered and the surrounding property since the establishment of the current applicable zoning classification, special use or conditional use.
- (3) The impact of the proposed zoning classification or conditional use on available and projected traffic patterns, water and sewer systems, other public facilities and utilities and the established character of the surrounding property.
- (4) The compatibility of the proposed zoning classification or conditional use with existing land use plans for the affected area.
- (5) The appropriateness of the proposed zoning classification or conditional use based upon a consideration of the applicable provisions and conditions contained in this article and other applicable laws, ordinances and regulations relating to zoning and land use regulations and based upon a consideration of the public health, safety and welfare.

The minutes of the planning and zoning board shall specify the reasons for the recommendation of approval or denial of each application."

CONDITIONAL USE PERMITS (CUPs)

In addition to the specific requirements for each Conditional Use Permit (CUP), Section 62-1901 provides that the following approval procedure and general standards of review are to be applied to all CUP requests, as applicable.

- (b) Approval procedure. An application for a specific conditional use within the applicable zoning classification shall be submitted and considered in the same manner and according to the same procedure as an amendment to the official zoning map as specified in Section 62-1151. The approval of a conditional use shall authorize an additional use for the affected parcel of real property in addition to those permitted in the applicable zoning classification. The initial burden is on the applicant to demonstrate that all applicable standards and criteria are met. Applications which do not satisfy this burden cannot be approved. If the applicant meets its initial burden, then the Board has the burden to show, by substantial and competent evidence, that the applicant has failed to meet such standards and the request is adverse to the public interest. As part of the approval of the conditional use permit, the Board may prescribe appropriate and reasonable conditions and safeguards to reduce the impact of the proposed use on adjacent and nearby properties or the neighborhood. A nearby property, for the purpose of this section, is defined as any property which, because of the character of the proposed use, lies within the area which may be substantially and adversely impacted by such use. In stating grounds in

support of an application for a conditional use permit, it is necessary to show how the request fulfills both the general and specific standards for review. The applicant must show the effect the granting of the conditional use permit will have on adjacent and nearby properties, including, but not limited to traffic and pedestrian flow and safety, curb-cuts, off-street loading and parking, off-street pickup of passengers, odors, glare and noise, particulates, smoke, fumes, and other emissions, refuse and service areas, drainage, screening and buffering for protection of adjacent and nearby properties, and open space and economic impact on nearby properties. The applicant, at his discretion, may choose to present expert testimony where necessary to show the effect of granting the conditional use permit.

(c) General Standards of Review.

- (1) The planning and zoning board and the board of county commissioners shall base the denial or approval of each application for a conditional use based upon a consideration of the factors specified in Section 62-1151(c) plus a determination whether an application meets the intent of this section.
 - a. The proposed conditional use will not result in a substantial and adverse impact on adjacent and nearby properties due to: (1), the number of persons anticipated to be using, residing or working under the conditional use; (2), noise, odor, particulates, smoke, fumes and other emissions, or other nuisance activities generated by the conditional use; or (3), the increase of traffic within the vicinity caused by the proposed conditional use.
 - b. The proposed use will be compatible with the character of adjacent and nearby properties with regard to use, function, operation, hours of operation, type and amount of traffic generated, building size and setback, and parking availability.
 - c. The proposed use will not cause a substantial diminution in value of abutting residential property. A substantial diminution shall be irrebuttably presumed to have occurred if abutting property suffers a 15% reduction in value as a result of the proposed conditional use. A reduction of 10% of the value of abutting property shall create a rebuttable presumption that a substantial diminution has occurred. The Board of County Commissioners carries the burden to show, as evidenced by either testimony from or an appraisal conducted by an M A I certified appraiser, that a substantial diminution in value would occur. The applicant may rebut the findings with his own expert witnesses.
- (2) The following specific standards shall be considered, when applicable, in making a determination that the general standards specified in subsection (1) of this section are satisfied:

- a. Ingress and egress to the property and proposed structures thereon, with particular reference to automotive and pedestrian safety and convenience, traffic flow and control, and access in case of fire and catastrophe, shall be: (1), adequate to serve the proposed use without burdening adjacent and nearby uses, and (2), built to applicable county standards, if any. Burdening adjacent and nearby uses means increasing existing traffic on the closest collector or arterial road by more than 20%, or 10% if the new traffic is primarily comprised of heavy vehicles, except where the affected road is at Level of Service A or B. New traffic generated by the proposed use shall not cause the adopted level of service for transportation on applicable roadways, as determined by applicable Brevard County standards, to be exceeded. Where the design of a public road to be used by the proposed use is physically inadequate to handle the numbers, types or weights of vehicles expected to be generated by the proposed use without damage to the road, the conditional use permit cannot be approved without a commitment to improve the road to a standard adequate to handle the proposed traffic, or to maintain the road through a maintenance bond or other means as required by the Board of County Commissioners.
- b. The noise, glare, odor, particulates, smoke, fumes or other emissions from the conditional use shall not substantially interfere with the use or enjoyment of the adjacent and nearby property.
- c. Noise levels for a conditional use are governed by Section 62-2271.
- d. The proposed conditional use shall not cause the adopted level of service for solid waste disposal applicable to the property or area covered by such level of service, to be exceeded.
- e. The proposed conditional use shall not cause the adopted level of service for potable water or wastewater applicable to the property or the area covered by such level of service, to be exceeded by the proposed use.
- f. The proposed conditional use must have existing or proposed screening or buffering, with reference to type, dimensions and character to eliminate or reduce substantial, adverse nuisance, sight, or noise impacts on adjacent and nearby properties containing less intensive uses.
- g. Proposed signs and exterior lighting shall not cause unreasonable glare or hazard to traffic safety, or interference with the use or enjoyment of adjacent and nearby properties.
- h. Hours of operation of the proposed use shall be consistent with the use and enjoyment of the properties in the surrounding residential community, if any. For commercial and industrial uses adjacent to or near residential uses, the hours of operation shall not adversely affect the use and enjoyment of the residential character of the area.
- i. The height of the proposed use shall be compatible with the character of the area, and the maximum height of any habitable structure shall be not more than 35 feet higher than the highest residence within 1,000 feet of the property line.

- j. Off-street parking and loading areas, where required, shall not be created or maintained in a manner which adversely impacts or impairs the use and enjoyment of adjacent and nearby properties. For existing structures, the applicant shall provide competent, substantial evidence to demonstrate that actual or anticipated parking shall not be greater than that which is approved as part of the site plan under applicable county standards.

FACTORS TO CONSIDER FOR A REZONING REQUEST

Section 62-1151(c) sets forth factors to consider in connection with a rezoning request, as follows:

“The planning and zoning board shall recommend to the board of county commissioners the denial or approval of each application for amendment to the official zoning maps based upon a consideration of the following factors:

- (1) The character of the land use of the property surrounding the property being considered.
- (2) The change in conditions of the land use of the property being considered and the surrounding property since the establishment of the current applicable zoning classification, special use or conditional use.
- (3) The impact of the proposed zoning classification or conditional use on available and projected traffic patterns, water and sewer systems, other public facilities and utilities and the established character of the surrounding property.
- (4) The compatibility of the proposed zoning classification or conditional use with existing land use plans for the affected area.
- (5) The appropriateness of the proposed zoning classification or conditional use based upon a consideration of the applicable provisions and conditions contained in this article and other applicable laws, ordinances and regulations relating to zoning and land use regulations and based upon a consideration of the public health, safety and welfare.”

These staff comments contain references to zoning classifications found in the Brevard County Zoning Regulations, Chapter 62, Article VI, Code of Ordinances of Brevard County. These references include brief summaries of some of the characteristics of that zoning classification. Reference to each zoning classification shall be deemed to incorporate the full text of the section or sections defining and regulating that classification into the Zoning file and Public Record for that item.

These staff comments contain references to sections of the Code of Ordinances of Brevard County. Reference to each code section shall be deemed to incorporate this section into the Zoning file and Public Record for that item.

These staff comments contain references to Policies of the Brevard County Comprehensive Plan. Reference to each Policy shall be deemed to incorporate the entire Policy into the Zoning file and Public Record for that item.

These staff comments refer to previous zoning actions which are part of the Public Records of Brevard County, Florida. These records will be referred to by reference to the file number. Reference to zoning files are intended to make the entire contents of the cited file a part of the Zoning file and Public Record for that item.

DEFINITIONS OF CONCURRENCY TERMS

Maximum Acceptable Volume (MAV): Maximum acceptable daily volume that a roadway can carry at the adopted Level of Service (LOS).

Current Volume: Building permit related trips added to the latest TPO (Transportation Planning Organization) traffic counts.

Volume with Development (VOL W/DEV): Equals Current Volume plus trip generation projected for the proposed development.

Volume/Maximum Acceptable Volume (VOL/MAV): Equals the ratio of current traffic volume to the maximum acceptable roadway volume.

Volume/Maximum Acceptable Volume with Development (VOL/MAV W/DEV): Ratio of volume with development to the Maximum Acceptable Volume.

Acceptable Level of Service (CURRENT LOS): The Level of Service at which a roadway is currently operating.

Level of Service with Development (LOS W/DEV): The Level of Service that a proposed development may generate on a roadway.

**STAFF COMMENTS
 24Z00022**

Raymond Burnette

GU (General Use) to RRMH-1 (Rural Residential Mobile Home)

Tax Account Number: 2000981
 Parcel I.D.: 20G-34-04-AI-8-1.05
 Location: West side of Blounts Ridge Road, approximately 994 feet north of
 Patty Lane (District 1)
 Acreage: 2.02 acres
 Planning & Zoning Board: 08/12/2024
 Board of County Commissioners: 09/05/2024

Consistency with Land Use Regulations

- Current zoning can be considered under the Future Land Use Designation, Section 62-1255.
- The request can be considered under the Future Land Use Designation, Section 62-1255.
- The request would maintain acceptable Levels of Service (LOS) (XIII 1.6.C)

	CURRENT	PROPOSED
Zoning	GU	RRMH-1
Potential*	0 single family	1 single family
Can be Considered under the Future Land Use Map	YES RES 1	YES RES 1

* Zoning potential for concurrency analysis purposes only, subject to applicable land development regulations.

Background and Purpose of Request

The applicant is requesting to rezone the property from GU (General Use) to RRMH-1 (Rural Residential Mobile Home) on a 2.02 acre parcel. The subject property is comprised of a series of 7 lots. They were part of an unrecorded subdivision known as Golden Shores. According to the County Clerks Office the earliest deed referenced for Golden Shores was March 1963.

The subject property lots were created and recorded in a series of OR books and pages listed as ORB 1099 Pg 1042 (October 1969) and ORB 1117 Pg 674 (March, 1970) as well as ORB 1421 Pg 967(February 1974). All of the subject properties 7 lots were created prior to May 20,

1975 when GU required 1 acre in land area with a width and depth of 150 feet. The subject property is not considered a nonconforming lot because the original lot sizes were less than the required 1 acre in size at the time they were established.

RRMH-1 zoning requires an area of not less than one acre, having a lot width and depth of not less than 125 feet. The requested rezoning to RRMH-1 meets zoning requirements. The rezoning would allow for one single-family residence.

The subject property is located on the west side of Blounts Ridge Road, a County maintained roadway. When the lots were created access was not included for the site. There is a 5 foot buffer strip owned by a third party. The applicant has procured an easement agreement, however, it has not been approved to date. The easement will need to be approved and meet the requirements of Section 62-102.

For administrative approval for an access easement, the applicant will need to demonstrate compliance with Section 62-102 regarding access through an easement.

Surrounding Area

	Existing Land Use	Zoning	Future Land Use
North	Single-family residence	RRMH-1	RES 1
South	Vacant lots	GU	RES 1
East	Single-family residence across Blounts Ridge Rd.	AU	RES 1
West	Vacant Land	GU	RES 1

The current GU classification is a holding category, allowing single-family residences on five acre lots with a minimum width and depth of 300 feet. The minimum house size in GU is 750 square feet.

The proposed RRMH-1 classification permits single-family mobile homes and detached single-family residential land uses on minimum one acre lots, with a minimum width and depth of 125 feet. This classification permits horses, barns, and horticulture as accessory uses. The minimum house size is 600 square feet.

AU zoning classification permits single-family residences and agricultural uses on 2.5 acre lots, with a minimum lot width and depth of 150 feet. The minimum house size in AU is 750 square feet. The AU classification also permits the raising/grazing of animals, fowl and beekeeping.

Future Land Use

The subject property is currently designated as RES 1 FLUM designation. The current GU zoning and the proposed RRMH-1 zoning are consistent with the existing RES 1 FLUM designation.

FLUE Policy 1.9 –The Residential 1 Future land use designation permits low density residential development with a maximum density of up to one (1) dwelling unit per acre, except as otherwise may be provided for within the Future Land Use Element.

The applicant's request can be considered consistent with the proposed Future Land Use. The Board should evaluate the compatibility of this application within the context of Administrative Policies 2 – 8 of the Future Land Use Element.

Analysis of Administrative Policy #3 - Compatibility between this site and the existing or proposed land uses in the area:

Compatibility shall be evaluated by considering the following factors, at a minimum:

Criteria:

- A. Whether the proposed use(s) would have hours of operation, lighting, odor, noise levels, traffic, or site activity that would significantly diminish the enjoyment of, safety or quality of life in existing neighborhoods within the area which could foreseeably be affected by the proposed use;

The applicant intends to build one single-family residence on the subject parcel. The request is not anticipated to diminish the enjoyment of safety or quality of life in existing residential area.

- B. Whether the proposed use(s) would cause a material reduction (five per cent or more) in the value of existing abutting lands or approved development.

Only a certified MAI (Master Appraiser Institute) appraisal can determine if material reduction has or will occur due to the proposed request.

- C. Whether the proposed use(s) is/are consistent with an emerging or existing pattern of surrounding development as determined through an analysis of:
1. historical land use patterns;

The historical land use patterns of the surrounding development can be characterized as single-family residences on properties one acre to 5.5 acres in size.

RES 1 is the prominent FLU in this area.

2. actual development over the immediately preceding three years; and

Zoning actions within a 0.5 mile radius include 22Z00056 which is a rezoning from GU to RRMH 1 and improved with a single-family home. It is located across Blounts Ridge Rd approximately 50 feet south of the subject.

3. development approved within the past three years but not yet constructed.

Zoning actions approved within a 0.5 mile radius include 22Z00043 which changed the zoning from RRMH-1 to AU and 22Z0002 rezoning from GU to RRMH 1. Both remain vacant of a dwelling unit.

- D. Whether the proposed use(s) would result in a material violation of relevant policies in any elements of the Comprehensive Plan.

No material violation of relevant policies has been identified.

Analysis of Administrative Policy #4 - Character of a neighborhood or area.

Character of a neighborhood or area shall be a factor for consideration whenever a rezoning or any application involving a specific proposed use is reviewed. The character of the area must not be materially or adversely affected by the proposed rezoning or land use application. In evaluating the character of an area, the following factors shall be considered:

Criteria:

- A. The proposed use must not materially and adversely impact an established residential neighborhood by introducing types or intensity of traffic (including but not limited to volume, time of day of traffic activity, type of vehicles, etc.), parking, trip generation, commercial activity or industrial activity that is not already present within the identified boundaries of the neighborhood.

Staff analysis has determined the area can be categorized as single-family residential on lots one acre or larger greater.

There are multiple zoning classifications within a 0.5 mile radius of the subject. They include TR-2, TR-1, RRMH-1 single family mobile home classifications, SR, RR-1, GU single-family residential zone, AU agricultural zone and PUD a Planned Unit Development.

The closest parcels with RRMH-1 zoning are located abutting the subject parcel to the north and east across Blounts Ridge Road. The RRMH-1 parcel to the north was rezoned from GU to RRMH-1 on 7/3/95 per zoning action Z-9566 and is developed with a single-family mobile home. The RRMH-1 parcel east across Blounts Ridge Road was rezoned from GU to RRMH-1 on 05/04/2023 per zoning action 22Z00056 and is developed with a single-family mobile home.

RRMH-1 has been established zoning classification in the surrounding area.

The request provides consistency with the proposed zoning classification lot size and FLUM. It will also recognize existing development trends.

The request is not anticipated to impact the surrounding established residential neighborhood materially or adversely.

B. In determining whether an established residential neighborhood exists, the following factors must be present:

1. The area must have clearly established boundaries, such as roads, open spaces, rivers, lakes, lagoons, or similar features.

The properties location can be considered an existing residential area.

2. Sporadic or occasional neighborhood commercial uses shall not preclude the existence of an existing residential neighborhood, particularly if the commercial use is non-conforming or pre-dates the surrounding residential use.

The request is not for commercial use. It is located in an existing single-family residential neighborhood.

3. An area shall be presumed not to be primarily residential but shall be deemed transitional where multiple commercial, industrial or other non-residential uses have been applied for and approved during the previous five (5) years.

The area is primarily single-family residential with no commercial zoning nearby.

Preliminary Concurrency

The closest concurrency management segment to the subject property is Highway US-1 located between Burkholm Road and Volusia County, which has a Maximum Acceptable Volume (MAV) of 40,300 trips per day, a Level of Service (LOS) of C, and currently operates at 11.04% of capacity daily. The maximum development potential from the proposed rezoning increases the percentage of MAV utilization by 0.02%. The corridor is anticipated to operate at 11.06% of capacity daily. The proposal is not anticipated to create a deficiency in LOS.

No school concurrency information has been provided as the development potential of this site falls below the minimum number of new residential lots that would require a formal review.

The parcel is not within any public potable water or sewer lines. The proposed single-family homes will be on well for potable water and on septic.

Environmental Constraints

Summary of Mapped Resources and Noteworthy Land Use Issues:

- Aquifer Recharge Soils
- Floodplain Protection
- Protected and Specimen Trees
- Protected Species
- Potential Code Enforcement

Protected (≥ 10 inches in diameter) and Specimen Trees (≥ 24 inches in diameter) likely exist on the parcel. Brevard County Landscaping, Land Clearing and Tree Protection ordinance, Section 62-4331(3), encourages the protection of Specimen Trees. The applicant is advised to refer to Article XIII, Division 2, entitled Land Clearing, Landscaping, and Tree Protection, for specific requirements for preservation and canopy coverage requirements. **Applicant should contact NRM at 321-633-2016 prior to performing any land clearing activities.**

Information available to NRM indicates that unpermitted land clearing activities may have occurred on this parcel between 2021 and 2022. The confirmation of unpermitted land clearing activities may result in code enforcement action.

For Board Consideration

The Board may wish to consider if the request is consistent and compatible with the surrounding area.

**NATURAL RESOURCES MANAGEMENT DEPARTMENT
Zoning Review & Summary**

Item No. 24Z00022

Applicant: Raymond Burnette (Owner: Gerald Patterson)

Zoning Request: GU to RRMH-1

Note: for single family residence or mobile home

Zoning Hearing: 08/12/2024; **BCC Hearing:** 09/05/2024

Tax ID No.: 2000981

- This is a preliminary review based on best available data maps reviewed by the Natural Resources Management Department (NRM) and does not include a site inspection to verify the accuracy of the mapped information.
- In that the rezoning process is not the appropriate venue for site plan review, specific site designs submitted with the rezoning request will be deemed conceptual. Board comments relative to specific site design do not provide vested rights or waivers from Federal, State or County regulations.
- **This review does not guarantee whether or not the proposed use, specific site design, or development of the property can be permitted under current Federal, State, or County Regulations.**

Summary of Mapped Resources and Noteworthy Land Use Issues:

- Aquifer Recharge Soils
- Floodplain Protection
- Protected and Specimen Trees
- Protected Species
- Potential Code Enforcement

Protected (≥ 10 inches in diameter) and Specimen Trees (≥ 24 inches in diameter) likely exist on the parcel. Brevard County Landscaping, Land Clearing and Tree Protection ordinance, Section 62-4331(3), encourages the protection of Specimen Trees. The applicant is advised to refer to Article XIII, Division 2, entitled Land Clearing, Landscaping, and Tree Protection, for specific requirements for preservation and canopy coverage requirements.

Applicant should contact NRM at 321-633-2016 prior to performing any land clearing activities.

Information available to NRM indicates that unpermitted land clearing activities may have occurred on this parcel between 2021 and 2022. The confirmation of unpermitted land clearing activities may result in code enforcement action.

Land Use Comments:

Aquifer Recharge Soils

The eastern two-thirds of the property contains Pomello sand and Candler fine sand, classified as aquifer recharge soils. Mapped topographic elevations indicate the soils may consist of Type 3 Aquifer Recharge soils that have impervious area restrictions. The applicant is hereby notified of the development and impervious restrictions within Conservation Element Policy 10.2 and the Aquifer Protection Ordinance.

Floodplain Protection

The western portion of this property is within an area mapped as FEMA Special Flood Hazard Area (SFHA) A, as identified by the Federal Emergency Management Agency, and as shown on the FEMA Flood Map. The parcel is subject to the development criteria in Conservation Element Objective 4, its subsequent policies, and the Floodplain Ordinance. Chapter 62, Article X, Division 6 states, "No site alteration shall adversely affect the existing surface water flow pattern." Chapter 62, Article X, Division 5, Section 62-3723 (2) states, "Development within floodplain areas shall not have adverse impacts upon adjoining properties."

Protected and Specimen Trees

Protected (≥ 10 inches in diameter) and Specimen Trees (≥ 24 inches in diameter) likely exist on the parcel. Brevard County Landscaping, Land Clearing and Tree Protection ordinance, Section 62-4331(3), encourages the protection of Specimen Trees. The applicant is advised to refer to Article XIII, Division 2, entitled Land Clearing, Landscaping, and Tree Protection, for specific requirements for preservation and canopy coverage requirements. **Applicant should contact NRM at 321-633-2016 prior to performing any land clearing activities.**

Protected Species

Federally and/or state protected species may be present on the property. Specifically, Gopher Tortoises can be found in areas of aquifer recharge soils. Prior to any plan, permit submittal, or development activity, including land clearing, the applicant should obtain any necessary permits or clearance letters from the Florida Fish and Wildlife Conservation Commission (FWC), and/or U.S. Fish and Wildlife Service, as applicable. The applicant is advised to call Valeria Guerrero at 561-882-5714 (O) or 561-365-5696 (C) with the FWC to obtain any necessary permits or clearance letters for Gopher Tortoises.

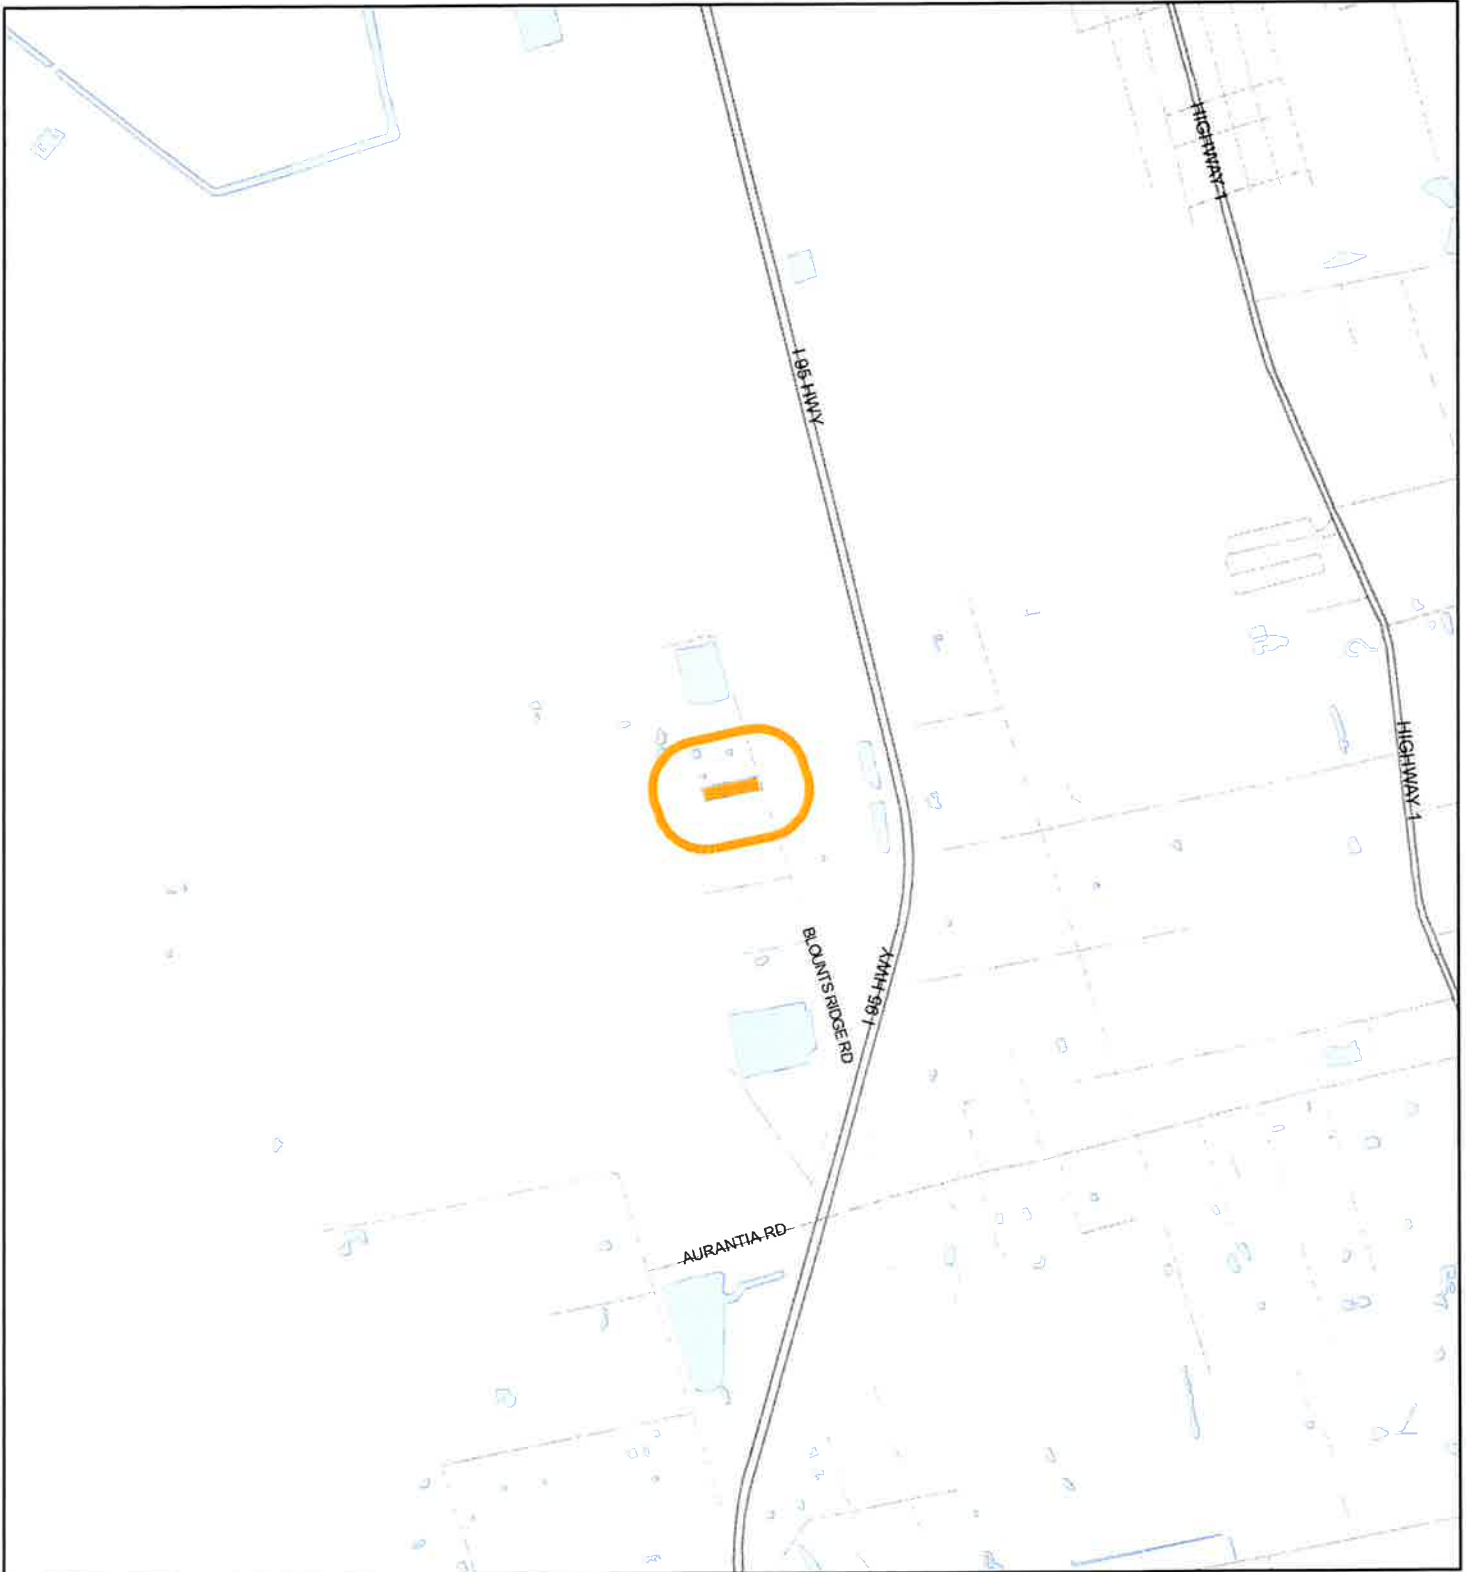

Potential Code Enforcement

Information available to NRM indicates that unpermitted land clearing activities may have occurred on this parcel between 2021 and 2022. The confirmation of unpermitted land clearing activities may result in code enforcement action.

PLANNING AND ZONING BOARD/LOCAL PLANNING AGENCY MINUTES

The Brevard County Planning & Zoning Board met in regular session on **Monday, August 12, 2024**, at **3:00 p.m.**, in the Florida Room, Building C, Brevard County Government Center, 2725 Judge Fran Jamieson Way, Viera, Florida.

The meeting was called to order at 3:00 p.m.

Board members present were: Henry Minneboo, Vice-Chair (D1); Ron Bartcher (D1); Robert Sullivan (D2); Brian Hodgers (D2); Debbie Thomas (D4); Mark Wadsworth, Chair (D4); Logan Luse (D4-Alt); and John Hopengarten (BPS).

Staff members present were: Tad Calkins, Director (Planning and Development); Alex Esseesse, Deputy County Attorney; Billy Prasad, Deputy Director (Planning and Development); Edward Fontanin, Director (Utility Services); Jeffrey Ball, Planning and Zoning Manager; Trina Gilliam, Planner; Desiree Jackson, Planner; and Kristen Champion, Special Projects Coordinator.

Mark Wadsworth stated that if any Board Member has had an ex-parte communication regarding any application, please disclose so now.

Excerpt of complete agenda.

G.1. Gerald Patterson (Raymond Burnette) requests a change of zoning classification from GU (General Use) to RRMH-1 (Rural Residential Mobile Home), on property described as Lots 16 – 18, Block 91, Indian River Park, and Lots 19 – 22, Block 91, Golden Shores Estates. The property is 2.02 acres, located on the west side of Blounts Ridge Dr., approx. 1,533 ft. south of Rose Marie Ln. and 964 ft. north of Patty Ln. **(24Z00022)** (No assigned address. In the Mims area.) (Tax Account 2000981) (District 1)

Trina Gilliam read the application into the record.

Gerald Patterson, 1803 Persimmon Circle, Edgewater, Florida 32132. As the applicant he stated that the property was busted up into small lots, so he's pieced together enough that meets or exceeds all properties around there that are RRMH-1. He just needs to get that where he can get a building permit.

No public comment.

No board comment.

Motion to approve rezoning from GU to RRMH-1 by Brian Hodgers, seconded by Ron Bartcher. The motion passed unanimously.
