BOARD OF COUNTY COMMISSIONERS

Resolution

WHEREAS, among American men, prostate cancer is both the second most commonly diagnosed cancer and the second-leading cause of cancer deaths; and

WHEREAS, although prostate cancer incidence and mortality rates have declined over the past two decades, in 2015 alone, an estimated 220,800 men in the United States will be diagnosed with the illness and almost 30,000 men will die from this disease; and

WHEREAS, during National Prostate Cancer Awareness Month, we remember those lost to prostate cancer, offer our support to patients and their families, and highlight our commitment to better prevention, detection, and treatment methods; and
