Requested Action:
In accordance with Section 62-2808(e), it is requested that the Board of County Commissioners grant preliminary plat and final engineering approval for the above referenced project.

Summary Explanation & Background:
There are three stages of review of subdivision plan approval: the pre-application conference, the preliminary plat/final engineering plan review, and the final plat review. The pre-application conference for the above project was held on June 25, 2015. The current request is for approval of the preliminary plat and final engineering plans, which is the second stage of approval. The final engineering portion of this stage includes payment of inspection fees and the approval to begin construction of the infrastructure necessary to support the subdivision. Upon completion of the infrastructure or posting a performance bond, the final plat may be reviewed and recorded, to complete the third stage of the review process. Staff has reviewed the final engineering plans and preliminary plat for compliance with existing applicable ordinances.

The Heritage Isle PUD is approved to allow a total of 2100 units. The Heritage Isle Tract F subdivision contains 40 single family lots on 9.89 acres.

The Heritage Isle PUD subdivision is located north of Wickham Road, south of Judge Fran Jamieson Way and 1400 feet west of Tavistock Drive.
