AGENDA REPORT
BREVARD COUNTY BOARD OF COUNTY COMMISSIONERS

SUBJECT:	St. Johns River Water Management District Cost-Share Agreement for Pines Industrial Pond with Denitrification & Phosphorus Baffle Filters Project #NF003 (D4) Fiscal Impact: Cost Share Revenue of \$556,100; Local Stormwater Match of \$265,900
DEPT/OFFICE:	Natural Resources Management Department (NRM)

Requested Action:

It is requested that the Board of County Commissioners: (1) Authorize the Chairman to execute Cost-Share Agreement Contract #NF003, between Brevard County and Florida Department of Environmental Protection (FDEP) for Pines Industrial Pond with Denitrification & Phosphorus Baffle Filters Project subject to review by the County Attorney's Office and Risk Management; (2) Approve legal venue as Leon County; (3) Authorize the County Manager, or designee, to execute future contract amendments subject to the approval of the County Attorney's Office and Risk Management; and (3) Approve necessary budget change requests.

Summary Explanation & Background:

Attached is the proposed cost-share agreement with FDEP for the Pines Industrial Pond with Denitrification Bioreactor Project. The Project will treat run-off from a 71-acre commercial and industrial area in District 4. This Project will also assist in the County's effort to meet the Federal and State Total Maximum Daily Load reduction mandates for the Indian River Lagoon (IRL). The Project location is immediately south of Barnes Blvd and west of US 1, as illustrated in Attachment A.

This Project will combine the technologies of a retention pond, denitrification media, and phosphorus binding baffle filters to reduce pollution entering the IRL. A 4-acre retention pond will be excavated to intercept two east-west running feeder ditches before they reach the ditch that runs parallel to the railroad tracks. Near the entrance to the pond, phosphorus removing baffle filters will be installed to reduce phosphorus entering from the ditches. Flow from the pond will be directed into a bed of denitrification media prior to treated discharge being conveyed through existing piping under the railroad and out to the Lagoon.

This enhanced pond system is estimated to reduce TP loads by 101 lbs/yr (80.2%), TN by 801 lbs/yr (98.2%), and TSS by 46,720 lbs/year (98.9%).

Local match was approved in the FY15-16 Capital Improvement Plan and can be rolled forward to meet the grant timeline.

Fiscal Impact: FY 15-16: No Impact
 FY 16-17: \$556,100 of Revenue; Fund 1114 match of \$265,900.00

DEP AGREEMENT NO. NF003

STATE OF FLORIDA
GRANT AGREEMENT
PURSUANT TO
ENVIRONMENTAL PROTECTION AGENCY GRANT AWARD(S)

THIS AGREEMENT is entered into between the STATE OF FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION, whose address is 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000 (hereinafter referred to as the "Department") and the BOARD OF COUNTY COMMISSIONERS OF BREVARD COUNTY, FLORIDA, whose address is 2725 Judge Fran Jamieson Way, Suite A219, Viera, Florida 32940, (hereinafter referred to as "Grantee"), local government, to provide financial assistance for the Pines Industrial Pond with Denitrification and Phosphorus Baffle Filters.

WHEREAS, the Department is the recipient of federal financial assistance from the U.S. Environmental Protection Agency (EPA); and,

WHEREAS, the Department was awarded funding by the EPA pursuant to Grant Agreement No. C9-99451515-0; and,

WHEREAS, the Grantee has been determined to be a subrecipient of federal financial assistance from the EPA; and,

WHEREAS, the Grantee is responsible for complying with the appropriate federal guidelines in performance of its activities pursuant to this Agreement.

NOW, THEREFORE, in consideration of the promises and the mutual benefits to be derived herefrom, the Department and the Grantee do hereby agree as follows:

1. The Grantee does hereby agree to perform in accordance with the terms and conditions set forth in this Agreement, **Attachment A, Grant Work Plan**, and all attachments and exhibits named herein which are attached hereto and incorporated by reference.
2. This Agreement shall begin upon execution by both parties and **shall remain in effect until September 30, 2019, inclusive**. The Grantee shall be eligible for reimbursement for work performed on or after the date of execution through the expiration date of this Agreement. The Grantee may claim allowable project expenditures made on or after October 1, 2014 for purposes of meeting its match requirement identified in paragraph 3. This Agreement may be amended to provide for additional services if additional funding is made available by EPA and/or the Legislature.
3.
 - A. As consideration for the satisfactory completion of services rendered by the Grantee under the terms of this Agreement, the Department shall pay the Grantee on a cost reimbursement basis up to a maximum of \$556,100 towards the total estimated project cost of \$822,000. The parties hereto understand and agree that this Agreement requires at least a 32% match on the part of the Grantee. Therefore, the Grantee is responsible for providing \$265,900 through cash or third party in-kind, towards the work funded under this Agreement. All match shall meet the federal requirements established in 40 CFR Part 30, 40 CFR Part 31 and OMB Circulars A-87 (2 CFR 225), A-122 (2 CFR 230) and A-21 (2 CFR 220), as applicable. It is understood that any additional funds necessary for the completion of this project are the responsibility of the Grantee. The Grantee will report those expenditures to the Department in the Final Report as required under Task 6 in Attachment A.
 - B. Prior written approval from the Department's Grant Manager shall be required for changes to this Agreement. Changes to approved budget categories within a single deliverable that are less than

10% of the total approved deliverable budget amount will require a formal Change Order to the Agreement. Changes that are 10% or greater of the total approved deliverable budget amount, or changes that transfer funds from one deliverable to another deliverable, or changes that increase or decrease the project's total funding amount will require a formal Amendment to the Agreement.

- C. The Grantee shall be reimbursed on a cost reimbursement basis for all eligible project costs, upon the completion, submittal and approval of the deliverables identified in **Attachment A**. Reimbursement shall be requested, utilizing **Attachment B, Payment Request Summary Form**, in accordance with the schedule in Attachment A. Each payment request must be accompanied by **Attachment C, MBE/WBE Procurement Reporting Form**. Failure to provide Attachment C shall result in a delay in processing the payment until such time as the appropriate information is provided to the Department. To be eligible for reimbursement, costs must be in compliance with laws, rules and regulations applicable to expenditures of State funds, including, but not limited to, the Reference Guide for State Expenditures. All bills for amounts due under this Agreement shall be submitted in detail sufficient for a proper pre-audit and post-audit thereof. A final payment request should be submitted to the Department no later than sixty (60) days following the completion date of the Agreement, to assure the availability of funds for payment. Each payment request submitted shall document all matching funds and/or match efforts (i.e. in-kind services) provided during the period covered by each request.
- D. The State Chief Financial Officer requires detailed supporting documentation of all costs under a cost reimbursement agreement. In accordance with the **Attachment D, Contract Payment Requirements**, the Grantee shall comply with the minimum requirements set forth therein. The Payment Request Summary Form shall be accompanied by supporting documentation and other requirements as follows:
- i. **Contractual** (Subcontractors) - Reimbursement requests for payments to subcontractors must be substantiated by copies of invoices with backup documentation identical to that required from the Grantee. Subcontracts which involve payments for direct salaries shall clearly identify the personnel involved, salary rate per hour, and hours/time spent on the project. All multipliers used (i.e. fringe benefits, overhead, and/or general and administrative rates) shall be supported by audit. If the Department determines that multipliers charged by any subcontractor exceeded the rates supported by audit, the Grantee shall be required to reimburse such funds to the Department within thirty (30) days of written notification. Interest on the excessive charges shall be calculated based on the prevailing rate used by the State Board of Administration. For fixed price (vendor) subcontracts, the following provisions shall apply:
- a. The Grantee may award, on a competitive basis, fixed price subcontracts to consultants/contractors in performing the work described in Attachment A. Invoices submitted to the Department for fixed price subcontracted activities shall be supported with a copy of the subcontractor's invoice and a copy of the tabulation form for the competitive procurement process (Invitation to Bid or Request for Proposals) resulting in the fixed price subcontract.
- b. The Grantee may request approval from the Department to award a fixed price subcontract resulting from procurement methods other than those identified in the paragraph above. In this instance, the Grantee shall request the advance written approval from the Department's Grant Manager of the fixed price negotiated by the Grantee. The letter of request shall be supported by a detailed budget and Scope of Services to be performed by the subcontractor. Upon receipt of the Department Grant Manager's approval of the fixed price amount, the Grantee may proceed in finalizing the fixed price subcontract.

- c. All subcontracts are subject to the provisions of paragraph 13 and any other appropriate provisions of this Agreement which affect subcontracting activities.
 - ii. Travel – The Grantee will not be reimbursed for travel expenses under the terms and conditions of this Agreement.
 - iii. Equipment – The Grantee will not be reimbursed for the purchase of non-expendable equipment costing \$1,000 or more under the terms and conditions of this Agreement.
- E. In addition to the invoicing requirements contained in paragraphs 3.C. and D. above, the Department will periodically request proof of a transaction (invoice, payroll register, etc.) to evaluate the appropriateness of costs to the agreement pursuant to State and Federal guidelines (including cost allocation guidelines), as appropriate. When requested, this information must be provided within thirty (30) calendar days of such request. The Grantee may also be required to submit a cost allocation plan to the Department in support of its multipliers (overhead, indirect, general administrative costs, and fringe benefits). State guidelines for allowable costs can be found in the Department of Financial Services' Reference Guide for State Expenditures at <http://www.fldfs.com/aadir/reference%5Fguide>; allowable costs for Federal Programs can be found under 48 CFR Part 31 and Appendix E of 45 CFR Part 74, at <http://www.access.gpo.gov/nara/cfr/cfr-table-search.html> and OMB Circulars A-87 (2 CFR 225), A-122 (2 CFR 230), A-21 (2 CFR 220); and administrative requirements can be found in OMB Circulars A-102 and A-110 (2 CFR 215) at <http://www.whitehouse.gov/omb/circulars/index.html#numerical>.
- F. Management fees or similar charges in excess of the direct costs and approved indirect rates are not allowable. The term "management fees or similar charges" refers to expenses added to the direct costs in order to accumulate and reserve funds for ongoing business expenses, unforeseen liabilities, or for other similar costs which are not allowable under this Agreement. Management fees or similar charges may not be used to improve or expand the project funded under this Agreement, except to the extent authorized as a direct cost of carrying out the work identified in Attachment A, Grant Work Plan.
- G. Allowable costs will be determined in accordance with the cost principles applicable to the organization incurring the costs. For purposes of this Agreement, the following cost principles are incorporated by reference.

Organization Type	Applicable Cost Principles
State, local or Indian tribal government.	OMB Circular A-87 (2 CFR 225)
Private non-profit organization other than (1) an institution of higher education, (2) hospital, or (3) organization named in OMB Circular A-122 as not subject to that circular.	OMB Circular A-122 (2 CFR 230)
Education Institutions	OMB Circular A-21 (2 CFR 220)
For-profit organization other than a hospital and an organization named in OMB A-122 as not subject to that circular.	48 CFR Part 31, Contract Cost Principles and Procedures, or uniform cost accounting standards that comply with cost principles acceptable to the federal agency.
Hospital	45 CFR Subtitle A - Appendix E to Part 74-Principles for Determining Costs Applicable to Research and Development Under Grants and Contracts with Hospitals

- H. i. The accounting systems for all Grantees must ensure that these funds are not commingled with funds from other agencies. Funds from each agency must be accounted for separately. Grantees are prohibited from commingling funds on either a program-by-program or a project-by-project basis. Funds specifically budgeted and/or received for one project may not be used to support another project. Where a Grantee's, or subrecipient's, accounting system cannot comply with this requirement, the Grantee, or subrecipient, shall establish a system to provide adequate fund accountability for each project it has been awarded.
- ii. If the Department finds that these funds have been commingled, the Department shall have the right to demand a refund, either in whole or in part, of the funds provided to the Grantee under this Agreement for non-compliance with the material terms of this Agreement. The Grantee, upon such written notification from the Department shall refund, and shall forthwith pay to the Department, the amount of money demanded by the Department. Interest on any refund shall be calculated based on the prevailing rate used by the State Board of Administration. Interest shall be calculated from the date(s) the original payment(s) are received from the Department by the Grantee to the date repayment is made by the Grantee to the Department.
- iii. In the event that the Grantee recovers costs, incurred under this Agreement and reimbursed by the Department, from another source(s), the Grantee shall reimburse the Department for all recovered funds originally provided under this Agreement. Interest on any refund shall be calculated based on the prevailing rate used by the State Board of Administration. Interest shall be calculated from the date(s) the payment(s) are recovered by the Grantee to the date repayment is made to the Department by the Grantee.
- I. The federal funds awarded under this Agreement must comply with *The Federal Funding Accountability and Transparency Act (FFATA) of 2006*. The intent of the FFATA is to empower every American with the ability to hold the government accountable for each spending decision. The end result is to reduce wasteful spending in the government. The FFATA legislation requires that information on federal awards (federal financial assistance and expenditures) be made available to the public via a single, searchable website, which is www.USASpending.gov. Grant Recipients awarded a new Federal grant greater than or equal to \$25,000 awarded on or after October 1, 2010 are subject to the FFATA. The Grantee agrees to provide the information necessary, over the life of this Agreement, for the Department to comply with this requirement.
- J. The table below identifies the funding supporting this Agreement and EPA Grants providing the funds.

EPA Grant Number	CFDA	Program Title	Funding Amount
C9-99451515-0	66.460	Nonpoint Source Implementation Grants	\$484,900
GAA Line Item	CFSA	Program Title	Funding Amount
1600A, FY 16/17	37.039	Statewide Surface Water Restoration and Wastewater Projects	\$71,200
Total Funding:			\$556,100

4. The State of Florida's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature. The parties hereto understand that this Agreement is not a commitment of future appropriations.

5. A. Progress Reports shall be submitted to the Department's Grant Manager no later than twenty (20) days following the completion of the quarterly reporting period. Each Progress Report shall be submitted on **Attachment E, Progress Report Form**, and shall describe the work performed during the reporting period, problems encountered, problem resolution, schedule updates and proposed work for the next reporting period. The Final Project Report shall be submitted no later than the completion date of the Agreement. The Department's Grant Manager shall have thirty (30) calendar days to review the required reports and deliverables submitted by the Grantee. Final payment, up to ten (10) percent of the total Agreement amount identified in paragraph 3.A., may be withheld until all work is completed, all deliverables have been submitted, match requirements have been met and the Final Project Report has been received and approved.

B. A draft comprehensive final report (hard copy and electronic) must be submitted in accordance with the date(s) identified in Attachment A. The Department will review the draft final report and provide comments for inclusion in the final report within thirty (30) days. One electronic copy in Adobe.pdf format or Microsoft Word Format, of a comprehensive final report must be submitted in accordance with the date(s) identified in Attachment A. Upon request, the Grantee will provide a paper copy of the Final Report. The Grantee's final report shall include an accounting of all project expenses, a report of all matching funds contributed on behalf of the Grantee, and a statement acknowledging that the project has been supported by a grant from the U.S. Environmental Protection Agency. The following language shall be included on the cover page of the final project report:

"This project and the preparation of this report was funded in part by a Section 319 Nonpoint Source Management Program Implementation grant from the U.S. Environmental Protection Agency through an agreement/contract with the Nonpoint Source Management Section of the Florida Department of Environmental Protection. The total cost of the project was \$[show actual amount], of which \$[show actual amount] or [show actual percentage] percent was provided by the U.S. Environmental Protection Agency."

Additionally, all other final deliverables required by this Agreement (such as booklets, pamphlets, videos, scientific papers, etc.) which were funded in whole or in part by federal sources shall include the language below to acknowledge the federal government's participation in the project.

"This _____ (booklet, pamphlet, video, paper, etc. as appropriate) was funded in part by a Section 319 Nonpoint Source Management Program Implementation grant from the U.S. Environmental Protection Agency through an agreement/contract with the Nonpoint Source Management Section of the Florida Department of Environmental Protection."

C. The Grantee agrees to provide a copy of any draft report and/or final report to the Department before making, or allowing to be made, a press release, publication, or other public announcement of the project's outcome. This shall not be construed to be a limitation upon the operation and applicability of Chapter 119, Florida Statutes.

D. The Grantee agrees to comply with the requirements of EPA's Program for Utilization of Small, Minority, and Women's Business Enterprises in procurement under this Agreement.

i. The Grantee accepts the Minority Business Enterprise/Women's Business Enterprise (MBE/WBE) "Fair Share" goals and objectives negotiated with EPA as follows:

Florida Fair Share Goals	
Industry	Goal
Equipment	9% MBE and 3% WBE
Supplies	
Services	
Construction	

ii. If the Grantee does not want to rely on the applicable State's MBE/WBE goals, the Grantee agrees to submit proposed MBE/WBE goals based on availability of qualified minority and women-owned businesses to do work in the relevant market for construction, services, supplies and equipment. "Fair Share" objectives must be submitted to the EPA Grants Management Office, 61 Forsyth Street, Atlanta, GA 30303 within thirty (30) calendar days of award and approved by EPA no later than thirty (30) calendar days thereafter. Copies of all correspondence with EPA shall also be forwarded to the Department's Grant Manager.

iii. The Grantee agrees to ensure, to the fullest extent possible, that at least the applicable "Fair Share" objectives of Federal funds for prime contracts or subcontracts for supplies, construction, equipment or services are made available to organizations owned or controlled by socially and economically disadvantaged individuals, women and Historically Black Colleges and Universities.

iv. The Grantee agrees to include in its bid documents the applicable "Fair Share" objectives and require all of its prime contractors to include in their bid documents for subcontracts the negotiated "Fair Share" percentages.

v. The Grantee agrees to follow the six good faith efforts or positive efforts stated in 40 C.F.R. 33, as appropriate, and retain records documenting compliance.

vi. The Grantee agrees to submit a report documenting MBE/WBE utilization under federal grants in conjunction with the required payment request form (see paragraph 3.C).

vii. If race and/or gender neutral efforts prove inadequate to achieve a "Fair Share" objective, the Grantee agrees to notify the Department and EPA in advance of any race and/or gender conscious action it plans to take to more closely achieve the "Fair Share" objective.

viii. In accordance with Section 129 of Public Law 100-590, the Small Business Administration Reauthorization and Amendment Act of 1988, the Grantee agrees to utilize and to encourage any prime contractors under this Agreement to utilize small businesses located in rural areas to the maximum extent possible. The Grantee agrees to follow the six affirmative steps stated in six good faith efforts stated in 40 C.F.R. 33, as appropriate, in the award of any contracts under this Agreement.

E. In accordance with the policies set forth in EPA Order 1000.25 and Executive Order 13423, Strengthening Federal Environmental, Energy and Transportation Management (January 24, 2007) and/or 40 CFR 30.16, the Grantee agrees to use recycled paper and double sided printing for all reports which are prepared as a part of this Agreement and delivered to the Department. This

requirement does not apply to reports which are prepared on forms supplied by EPA. This requirement does not apply to invoices and their documentation, which are required to be single sided. This requirement applies even when the cost of recycled paper is higher than that of virgin paper.

- F. Any State agency or agency of a political subdivision of a State which is using appropriated Federal funds shall comply with the requirements set forth in Section 6002 of the Resource Conservation and Recovery Act (RCRA) (42 U.S.C. 6962). Regulations issued under RCRA Section 6002 apply to any acquisition of an item where the purchase price exceeds \$10,000 or where the quantity of such items acquired in the course of the preceding fiscal year was \$10,000 or more. RCRA Section 6002 requires that preference be given in procurement programs to the purchase of specific products containing recycled materials identified in guidelines developed by EPA. These guidelines are listed in 40 CFR 247.
- 6. Each party hereto agrees that it shall be solely responsible for the negligent or wrongful acts of its employees and agents. However, nothing contained herein shall constitute a waiver by either party of its sovereign immunity or the provisions of Section 768.28, Florida Statutes.
 - 7.
 - A. The Department may terminate this Agreement at any time in the event of the failure of the Grantee to fulfill any of its obligations under this Agreement. Prior to termination, the Department shall provide thirty (30) calendar days written notice of its intent to terminate and shall provide the Grantee an opportunity to consult with the Department regarding the reason(s) for termination.
 - B. The Department may terminate this Agreement for convenience by providing the Grantee with thirty (30) calendar days written notice.
 - C. This Agreement may be unilaterally canceled by the Department for refusal by the Grantee to allow public access to all documents, papers, letters, or other material made or received by the Grantee in conjunction with this Agreement, unless the records are exempt from Section 24(a) of Article I of the State Constitution and Section 119.07(1)(a), Florida Statutes.
 - 8. No payment will be made for deliverables deemed unsatisfactory by the Department. In the event that a deliverable is deemed unsatisfactory by the Department, the Grantee shall re-perform the services needed for submittal of a satisfactory deliverable, at no additional cost to the Department, within ten (10) days of being notified of the unsatisfactory deliverable. If a satisfactory deliverable is not submitted within the specified timeframe, the Department may, in its sole discretion, either: 1) terminate this Agreement for failure to perform, or 2) the Department Grant Manager may, by letter specifying the failure of performance under this Agreement, request that a proposed Corrective Action Plan (CAP) be submitted by the Grantee to the Department. All CAPs must be able to be implemented and performed in no more than sixty (60) days.
 - A. A CAP shall be submitted within ten (10) calendar days of the date of the letter request from the Department. The CAP shall be sent to the Department Grant Manager for review and approval. Within ten (10) calendar days of receipt of a CAP, the Department shall notify the Grantee in writing whether the CAP proposed has been accepted. If the CAP is not accepted, the Grantee shall have ten (10) calendar days from receipt of the Department letter rejecting the proposal to submit a revised proposed CAP. Failure to obtain the Department approval of a CAP as specified above shall result in the Department's termination of this Agreement for cause as authorized in this Agreement.
 - B. Upon the Department's notice of acceptance of a proposed CAP, the Grantee shall have ten (10) calendar days to commence implementation of the accepted plan. Acceptance of the proposed CAP by the Department does not relieve the Grantee of any of its obligations under the Agreement. In the event the CAP fails to correct or eliminate performance deficiencies by Grantee, the Department shall retain the right to require additional or further remedial steps, or to terminate this

Agreement for failure to perform. No actions approved by the Department or steps taken by the Grantee shall preclude the Department from subsequently asserting any deficiencies in performance. The Grantee shall continue to implement the CAP until all deficiencies are corrected. Reports on the progress of the CAP will be made to the Department as requested by the Department Grant Manager.

- C. Failure to respond to a Department request for a CAP or failure to correct a deficiency in the performance of the Agreement as specified by the Department may result in termination of the Agreement.

The remedies set forth above are not exclusive and the Department reserves the right to exercise other remedies in addition to or in lieu of those set forth above, as permitted by the Agreement.

- 9. If the Grantee materially fails to comply with the terms and conditions of this Agreement, including any Federal or State statutes, rules or regulations, applicable to this Agreement, the Department may take one or more of the following actions.
 - A. Temporarily withhold cash payments pending correction of the deficiency by the Grantee.
 - B. Disallow (that is, deny both use of funds and any applicable matching credit for) all or part of the cost of the activity or action not in compliance.
 - C. Wholly or partly suspend or terminate this Agreement.
 - D. Withhold further awards for the project or program.
 - E. Take other remedies that may be legally available.
 - F. Costs of the Grantee resulting from obligations incurred by the Grantee during a suspension or after termination of the Agreement are not allowable unless the Department expressly authorizes them in the notice of suspension or termination. Other Grantee costs during suspension or after termination which are necessary and not reasonably avoidable are allowable if the following apply.
 - i. The costs result from obligations which were properly incurred by the Grantee before the effective date of suspension or termination, are not in anticipation of it, and in the case of termination, are noncancellable.
 - ii. The cost would be allowable if the Agreement were not suspended or expired normally at the end of the funding period in which the termination takes place.
 - G. The remedies identified above, do not preclude the Grantee from being subject to debarment and suspension under Executive Orders 12549 and 12689.
- 10. The Department shall have the right to demand a refund, either in whole or part, of the funds provided to the Grantee for noncompliance with the terms of this Agreement.
- 11. A. The Grantee shall maintain books, records and documents directly pertinent to performance under this Agreement in accordance with generally accepted accounting principles consistently applied. The United States Environmental Protection Agency, the Comptroller General of the United States, the Department of Environmental Protection, the State, or their authorized representatives shall have access to such records for audit purposes during the term of this Agreement and for five (5) years following Agreement completion. In the event any work is subgranted or subcontracted, the Grantee shall similarly require each subgrantee and subcontractor to maintain and allow access to such records for audit purposes.

- B. The Grantee agrees that if any litigation, claim, or audit is started before the expiration of the record retention period established above, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved and final action taken.
 - C. Records for real property and equipment acquired with Federal funds shall be retained for five (5) years following final disposition.
12. A. In addition to the requirements of the preceding paragraph, the Grantee shall comply with the applicable provisions contained in **Attachment F, Special Audit Requirements**, attached hereto and made a part hereof. **Exhibit I to Attachment F** summarizes the funding sources supporting the Agreement for purposes of assisting the Grantee in complying with the requirements of **Attachment F**. A revised copy of **Exhibit I** must be provided to the Grantee for each amendment which authorizes a funding increase or decrease. If the Grantee fails to receive a revised copy of **Exhibit I**, the Grantee shall notify the Department's Grant Manager to request a copy of the updated information.
- B. The Grantee is hereby advised that the Federal and/or Florida Single Audit Act Requirements may further apply to lower tier transactions that may be a result of this Agreement. The Grantee shall consider the type of financial assistance (federal and/or state) identified in **Attachment F, Exhibit I** when making its determination. For federal financial assistance, the Grantee shall utilize the guidance provided under OMB Circular A-133, Subpart B, Section __.210 for determining whether the relationship represents that of a subrecipient or vendor. For state financial assistance, the Grantee shall utilize the form entitled "Checklist for Nonstate Organizations Recipient/Subrecipient vs Vendor Determination" (form number DFS-A2-NS) that can be found under the "Links/Forms" section appearing at the following website:

<https://apps.fldfs.com/fsaa>

The Grantee should confer with its chief financial officer, audit director or contact the Department for assistance with questions pertaining to the applicability of these requirements.

13. A. The Grantee may not subcontract work under this Agreement without the prior written consent of the Department's Grant Manager. The Grantee shall submit a copy of the executed subcontract to the Department within ten (10) days after execution. Regardless of any subcontract, the Grantee is ultimately responsible for all work performed under this Agreement. The Grantee agrees to be responsible for the fulfillment of all work elements included in any subcontract and agrees to be responsible for the payment of all monies due under any subcontract. It is understood and agreed by the Grantee that the Department shall not be liable to any subcontractor for any expenses or liabilities incurred under the subcontract and that the Grantee shall be solely liable to the subcontractor for all expenses and liabilities incurred under the subcontract.
- B. The Grantee agrees to comply with the procurement requirements contained in 40 C.F.R. 31.36 for its selection of subcontractors.
- C. The Department of Environmental Protection supports diversity in its procurement program and requests that all subcontracting opportunities afforded by this Agreement embrace diversity enthusiastically. The award of subcontracts should reflect the full diversity of the citizens of the State of Florida. A list of minority-owned firms that could be offered subcontracting opportunities may be obtained by contacting the Office of Supplier Diversity at (850) 487-0915.
14. A. The Grantee certifies that no Federally-appropriated funds have been paid or will be paid, on or after December 22, 1989, by or on behalf of the Grantee, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress, in connection with the awarding,

renewal, amending or modifying of any Federal contract, grant, or cooperative agreement. ATTACHMENT A GRANT WORK PLAN

PROJECT TITLE: Pines Industrial Pond with Denitrification and Phosphorus Baffle Filters

PROJECT LOCATION: Unincorporated Brevard County, just outside the limits of City of Rockledge (Figure 1); Latitude: 28.29194, Longitude: -80.70056. Just south of Barnes Boulevard, immediately west of US 1 and the Florida East Coast Railroad tracks lie open ditches that carry stormwater runoff from the adjacent industrial area along Barnes Boulevard (Figure 2). The ditches currently convey untreated stormwater from Pines Industrial Park through culverts under the railroad and out to the Indian River Lagoon (IRL).

PROJECT BACKGROUND: This project outfalls to a section of the IRL within Zone B of the North IRL BMAP which was designated as impaired due to the loss of seagrasses, and the BMAP requires allocations for both Total Nitrogen (TN) and Total Phosphorus (TP) reductions in this area. This project will combine the technology of a retention pond, denitrification media, and phosphorus binding baffle filters with the nutrient and sediment reduction benefits of a natural wetland to reduce pollution entering the IRL. The enhanced pond system is estimated to reduce TP loads by 101 lbs/yr (80.2%), TN by 801 lbs/yr (98.2%), and Total Suspended Solids (TSS) by 46,720 lbs/year (98.9%). Since this system will employ two effective technologies for combined treatment, no future phases are anticipated for this project.

PROJECT DESCRIPTION: The Grantee will construct a treatment train system. Initial treatment will take place through the installation of a stainless steel frame with phosphorus removing baffle filters in the two east-west running feeder ditches. These baffle filters will be recharged or replaced by the County, as needed, through the County's routine maintenance of all stormwater capital improvement infrastructure. To avoid clogging of the phosphorus filter the filter may be moved to the pond outfall, if calculated treatment efficiencies are not affected. A short culvert run will discharge the primary treated water into a 4 acre retention pond to be excavated between the roadway and the railroad right-of-way. Discharge from the pond will be through a constant gravity flow floating outfall orifice into a bed of denitrification media constructed between the pond and the property line. The dimensions of the denitrification media filled chamber will be sized to provide a consistent 4-5 hours of contact time for denitrification to occur. The Grantee will also install a standard high flow outfall structure for large storm events, which along with the denitrification-filled chamber will discharge by short culvert runs to the existing channel which parallels the railroad tracks. The channel will be stabilized at the discharge point of the high flow outfall. The existing drainage system will carry the treated discharge through existing culverts under the railroad to the stormwater system leading to the lagoon.

TASKS and DELIVERABLES:

Task 1: Preconstruction and Bidding and Contractor Selection

Description: The Grantee will procure professional engineering and surveying services in accordance with state law. The Grantee will complete the design of a treatment train system as described in Task 2 and obtain all necessary permits for construction of the project. These interim deliverables must be submitted 14 prior to each payment request and may be submitted no more frequently than quarterly.

Performance Standard: The Department's Grant Manager will review each submitted interim deliverable to verify that it meets the specifications in the Grant Work Plan and this task description and that work is being performed in accordance with the Grantee's construction contract documents and specifications. Upon review and written acceptance of each quarterly interim deliverables submittal by the Department's Grant Manager, the Grantee may proceed with payment request submittal for costs associated with that quarter under this task.

Contractor's Application and Certification for Payment should include the following supporting documentation:

Performance Standard: The Department's Grant Manager will review the final deliverables to verify that they meet the specifications in the Grant Work Plan and this task description and that work is being performed in accordance with the Grantee's construction contract documents and specifications. Upon review and written approval by the Department's Grant Manager of all final deliverables under this task, the Grantee may proceed with payment request submittal.

Task 3: Quality Assurance Project Plan

Description: The Grantee will prepare, submit, and receive approval on a Quality Assurance Project Plan (QAPP) prior to commencement of any monitoring associated with the project. The QAPP must specify the sampling procedures, locations, instruments, and parameters to be sampled. The Grantee will use the format provided by the Department's Grant Manager, if applicable.

Instructions:

A. General Instructions:

MBE/WBE utilization is based on 40 CFR Part 33. The reporting requirement reflects the class deviation issued on November 8, 2013, clarified on January 9, 2014 and modified on December 2, 2014. EPA Form 5700-52A must be completed annually by recipients of financial assistance agreements where the combined total of funds budgeted for procuring supplies, equipment, construction or services exceeds \$150,000. This reporting requirement applies to all new and existing awards and voids all previous reporting requirements.

In determining whether the \$150,000 threshold is exceeded for a particular assistance agreement, the analysis must focus on funds budgeted for procurement under the supplies, equipment, construction, services or "other" categories, and include funds budgeted for procurement under sub-awards or loans

Reporting will also be required in cases where the details of the budgets of sub-awards/loans are not clear at the time of the grant awards and the combined total of the procurement and sub-awards and/or loans exceeds the \$150,000 threshold.

When reporting is required, all procurement actions are reportable, not just the portion which exceeds \$150,000.

If at the time of award the budgeted funds exceed \$150,000 but actual expenditures fall below, a report is still required.

If at the time of award, the combined total of funds budgeted for procurements in any category is less than or equal to \$150,000 and is maintained below the threshold, no DBE report is required to be submitted.

Recipients are required to report 30 days after the end of each federal year, per the terms and conditions of the financial assistance agreement.

Last reports are due October 30th or 90 days after the end of the project period, whichever comes first.

MBE/WBE program requirements, including reporting, are material terms and conditions of the financial assistance agreement.

B. Definitions:

Procurement is the acquisition through contract, order, purchase, lease or barter of supplies, equipment, construction or services needed to accomplish Federal assistance programs.

A **contract** is a written agreement between an EPA recipient and another party (also considered "prime contracts") and any lower tier agreement (also considered "subcontracts") for equipment, services, supplies, or construction necessary to complete the project. This definition excludes written agreements with another public agency. This definition includes personal and professional services, agreements with consultants, and purchase orders.

A **minority business enterprise (MBE)** is a business concern that is (1) at least 51 percent owned by one or more minority individuals, or, in the case of a publicly owned business, at least 51 percent of the stock is owned by one or more minority

individuals; and (2) whose daily business operations are managed and directed by one or more of the minority owners. In order to qualify and participate as an MBE prime or subcontractor for EPA recipients under EPA's DBE Program, an entity must be properly certified as required by 40 CFR Part 33, Subpart B.

U.S. citizenship is required. Recipients shall presume that minority individuals include Black Americans, Hispanic Americans, Native Americans, Asian Pacific Americans, or other groups whose members are found to be disadvantaged by the Small Business Act or by the Secretary of Commerce under section 5 of Executive order 11625. The reporting contact at EPA can provide additional information.

A **woman business enterprise (WBE)** is a business concern that is, (1) at least 51 percent owned by one or more women, or, in the case of a publicly owned business, at least 51 percent of the stock is owned by one or more women and (2) whose daily business operations are managed and directed by one or more of the women owners. In order to qualify and participate as a WBE prime or subcontractor for EPA recipients under EPA's DBE Program, an entity must be properly certified as required by 40 CFR Part 33, Subpart B.

Business firms which are 51 percent owned by minorities or women, but are in fact not managed and operated by minorities or females do not qualify for meeting MBE/WBE procurement goals. U.S. Citizenship is required.

Good Faith Efforts

A recipient is required to make the following good faith efforts whenever procuring construction, equipment, services, and supplies under an EPA financial assistance agreement. These good faith

efforts for utilizing MBEs and WBEs must be documented. Such documentation is subject to EPA review upon request:

1. Ensure DBEs are made aware of contracting opportunities to the fullest extent practicable through outreach and recruitment activities. For Indian Tribal, State and Local and Government recipients, this will include placing DBEs on solicitation lists and soliciting them whenever they are potential sources.
2. Make information on forthcoming opportunities available to DBEs and arrange time frames for contracts and establish delivery schedules, where the requirements permit, in a way that encourages and facilitates participation by DBEs in the competitive process. This includes, whenever possible, posting solicitations for bids or proposals for a minimum of 30 calendar days before the bid or proposal closing date.
3. Consider in the contracting process whether firms competing for large contracts could subcontract with DBEs. For Indian Tribal, State and local Government recipients, this will include dividing total requirements when economically feasible into smaller tasks or quantities to permit maximum participation by DBEs in the competitive process.
4. Encourage contracting with a consortium of DBEs when a contract is too large for one of these firms to handle individually.
5. Use the services and assistance of the SBA and the Minority Business Development Agency of the Department of Commerce.
6. If the prime contractor awards subcontracts, require the prime contractor to take the steps in paragraphs (a) through (e) of this section.

C. Instructions for Part I:

1A. Specify Federal fiscal year this report covers. The Federal fiscal year runs from October 1st through September 30th (e.g. **November 29, 2014 falls within Federal fiscal year 2015**)

1B. Specify report type. Check the annual reporting box. Also indicate if the project is completed.

1C. Indicate if this is a revision to a previous year and provide a brief description of the revision you are making.

2A-B. Please refer to your financial assistance agreement for the mailing address of the EPA financial assistance office for your agreement.

The "EPA DBE Reporting Contact" is the DBE Coordinator for the EPA Region from which your financial assistance agreement was originated. For a list of DBE Coordinators please refer to the EPA OSBP website at http://epa.gov/osbp/dbe_cord.

3A-B. Identify the agency, state authority, university or other organization which is the recipient of the Federal financial assistance and the person to contact concerning this report.

4A. Provide the Assistance Agreement number assigned by EPA. A separate report must be submitted for each Assistance Agreement.

***For SRF recipients:** In box 4a list numbers for ALL OPEN Assistance Agreements being reported on this form.

4B. Refer back to Assistance Agreement document for this information.

5A. Provide the total amount of the Assistance Agreement which includes Federal funds plus recipient matching funds and funds from other sources.

***For SRF recipients only:** SRF recipients will not enter an amount in 5a. SRF recipients should check the "N/A" box.

5B. Self-explanatory.

5C. Provide the total dollar amount of **ALL** procurements awarded this reporting period by the recipient, sub-recipients, and SRF loan recipients, **including** MBE/WBE expenditures, not just the portion which exceeds \$150,000. For example: Actual dollars for procurement from the procuring office; actual contracts let from the contracts office; actual goods, services, supplies, etc., from other sources including the central purchasing/ procurement centers).

***NOTE:** To prevent double counting on line 5C, if any amount on 5E is for a subcontract and the prime contract has already been included on Line 5C in a prior reporting period, then report the amount going to MBE or WBE subcontractor on line 5E, but exclude the amount from Line 5C. To include the amount on 5C again would result in double counting because the prime contract, which includes the subcontract, would have already been reported.

***For SRF recipients only:** In 5c please enter the total annual procurement amount under all of your SRF Assistance Agreements. The figure reported in this section is **not** directly tied to an individual Assistance Agreement identification number. **(SRF state recipients report state procurements in this section)**

5D. State whether or not sub-awards and/or subcontracts have been issued under the financial assistance agreements by indicating "yes" or "no".

5E. Where requested, also provide the total dollar amount of all MBE/WBE procurement awarded during this reporting period by the recipient, sub-recipients, SRF loan recipients, and prime contractors in the categories of construction, equipment, services and supplies. These amounts include Federal funds plus recipient matching funds and funds from other sources.

6. If there were no MBE/WBE accomplishments this reporting period, please briefly how certified MBEs/WBEs were notified of the opportunities to compete for the procurement dollars entered in Block 5C and why certified MBEs /WBEs were not awarded any procurements during this reporting period.

7. Name and title of official administrator or designated reporting official.

8. Signature, month, day, and year report submitted.

D. Instructions for Part II:

For each MBE/WBE procurement made under this financial assistance agreements during the reporting period, provide the following information:

1. Check whether this procurement was made by the recipient, sub-recipient/SRF loan recipient, or the prime contractor.

2. Check either the MBE or WBE column. If a firm is both an MBE and WBE, the recipient may choose to count the entire procurement towards EITHER its MBE or WBE accomplishments. The recipient may also divide the total amount of the procurement (using any ratio it so chooses) and count those divided amounts toward its MBE and WBE accomplishments. If the recipient chooses to divide the procurement amount and count portions toward its MBE and WBE accomplishments, please state the appropriate amounts under the MBE and WBE columns on the form. **The combined MBE and WBE amounts for that MBE/WBE contractor must not exceed the "Value of the Procurement" reported in column #3**

3. Dollar value of procurement.

4. Date of procurement, shown as month, day, year. Date of procurement is defined as the date the contract or procurement was awarded, **not** the date the contractor received payment under the awarded contract or procurement, unless payment occurred on the date of award. **(Where direct purchasing is the procurement method, the date of procurement is the date the purchase was made)**

5. Using codes at the bottom of the form, identify type of product or service acquired through this procurement (e.g., enter 1 if construction, 2 if supplies, etc.).

6. Name, address, and telephone number of MBE/WBE firm.

****This data is requested to comply with provisions mandated by: statute or regulations (40 CFR Parts 30, 31, and 33 and/or 2 CFR Parts 200 and 1500); OMB Circulars; or added by EPA to ensure sound and effective assistance management. Contract Payment Requirements Florida Department of Financial Services, Reference Guide for State Expenditures *Cost Reimbursement Contracts*

Invoices for cost reimbursement contracts must be supported by an itemized listing of expenditures by category (salary, travel, expenses, etc.). Supporting documentation must be provided for each amount for which reimbursement is being claimed indicating that the item has been paid. Check numbers may be provided in lieu of copies of actual checks. Each piece of documentation should clearly reflect the dates of service. Only expenditures for categories in the approved contract budget should be reimbursed.

Listed below are examples of the types of documentation representing the minimum requirements:

- (1) Salaries: A payroll register or similar documentation should be submitted. The payroll register should show gross salary charges, fringe benefits, other deductions and net pay. If an individual for whom reimbursement is being claimed is paid by the hour, a document reflecting the hours worked times the rate of pay will be acceptable.
- (2) Fringe Benefits: Fringe Benefits should be supported by invoices showing the amount paid on behalf of the employee (e.g., insurance premiums paid). If the contract specifically states that fringe benefits will be based on a specified percentage rather than the actual cost of fringe benefits, then the calculation for the fringe benefits amount must be shown.

Exception: Governmental entities are not required to provide check numbers or copies of checks for fringe benefits.
- (3) Travel: Reimbursement for travel must be in accordance with Section 112.061, Florida Statutes, which includes submission of the claim on the approved State travel voucher or electronic means.
- (4) Other direct costs: Reimbursement will be made based on paid invoices/receipts. If nonexpendable property is purchased using State funds, the contract should include a provision for the transfer of the property to the State when services are terminated. Documentation must be provided to show compliance with Department of Management Services Rule 60A-1.017, Florida Administrative Code, regarding the requirements for contracts which include services and that provide for the contractor to purchase tangible personal property as defined in Section 273.02, Florida Statutes, for subsequent transfer to the State.
- (5) In-house charges: Charges which may be of an internal nature (e.g., postage, copies, etc.) may be reimbursed on a usage log which shows the units times the rate being charged. The rates must be reasonable.
- (6) Indirect costs: If the contract specifies that indirect costs will be paid based on a specified rate, then the calculation should be shown.

Contracts between state agencies, and or contracts between universities may submit alternative documentation to substantiate the reimbursement request that may be in the form of FLAIR reports or other detailed reports.

2. In connection with the audit requirements addressed in Part I, paragraph 1, the recipient shall fulfill the requirements relative to auditee responsibilities as provided in Subpart C of OMB Circular A-133, as revised.
3. If the recipient expends less than \$500,000 in Federal awards in its fiscal year, an audit conducted in accordance with the provisions of OMB Circular A-133, as revised, is not required. In the event that the recipient expends less than \$500,000 in Federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of OMB Circular A-133, as revised, the cost of the audit must be paid from non-Federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from other than Federal entities).

EXHIBIT I to this Attachment indicates state financial assistance awarded through the Department of Environmental Protection by this Agreement. In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from the Department of Environmental Protection, other state agencies, and other nonstate entities. State financial assistance does not include Federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.
2. In connection with the audit requirements addressed in Part II, paragraph 1; the recipient shall ensure that the audit complies with the requirements of Section 215.97(7), Florida Statutes. PART III: OTHER AUDIT REQUIREMENTS

(NOTE: This part would be used to specify any additional audit requirements imposed by the State awarding entity that are solely a matter of that State awarding entity's policy (i.e., the audit is not required by Federal or State laws and is not in conflict with other Federal or State audit requirements). Pursuant to Section 215.97(8), Florida Statutes, State agencies may conduct or arrange for audits of State financial assistance that are in addition to audits conducted in accordance with Section 215.97, Florida Statutes. In such an event, the State awarding agency must arrange for funding the full cost of such additional audits.)

ATTACHMENT I
QUALITY ASSURANCE REQUIREMENTS

1. All sampling and analyses performed under this Contract must conform to the requirements set forth in Chapter 62-160, Florida Administrative Code (F.A.C.) and "Requirements for Field and Analytical Work performed for the Department of Environmental Protection under Contract" (DEP-QA-002/02), February 2002.
2. **LABORATORIES**
 - a. The GRANTEE shall ensure that all standard laboratory testing activities are performed by laboratories certified by the Florida Department of Health Environmental Laboratory Certification Program (DoH ELCP) for all applicable matrix/method/analyte combinations to be measured. For non-potable water matrix, the certification requirement is considered satisfied if the laboratory is certified for the contracted analyte in at least one method that uses the same analytical technology as the contract-proposed method.
 - b. If the laboratory is not certified for some or all of the proposed test measurements, the laboratory shall apply for certification within one month of Contract execution. Within six months of Contract execution, the laboratory shall be fully certified for all applicable matrix/method (or analytical technology)/analyte combinations to be performed. Regardless of when the laboratory receives certification, the laboratory must implement all applicable standards of the National Environmental Laboratory Accreditation Conference (NELAC) upon Contract execution.
 - c. Laboratories shall maintain certification as specified in item 2.a above during the life of the Contract. Should certification for an analyte or test method be lost, all affected tests shall be immediately sub-contracted to a laboratory with current DoH ELCP certification in the appropriate matrix/method/analyte combination(s). The GRANTEE shall notify the DEP contract manager in writing before any change to a sub-contracted laboratory is made.
 - d. A copy of the DoH ELCP Certificate and the associated list of specific fields of accreditation for each contracted or sub-contracted laboratory shall be provided to the DEP contract manager upon Contract execution or upon receiving DoH certification (see items 2.a and 2.b above).
 - e. The GRANTEE shall ensure that an acceptable initial demonstration of capability (IDOC), as described in Appendix C of Chapter 5 of the NELAC Standards is performed. Each laboratory that performs any of the proposed matrix/method (or analytical technology)/analyte combination(s) must have the requisite IDOC documentation and supporting laboratory records. IDOCs shall be performed and shall meet the contract specified requirements for precision, accuracy, and the method detection limit (MDL) and/or practical quantitation limit(PQL) before the test procedure is used to generate data for this Contract. If requested by the Department, documentation that supports the IDOC shall be made available for review.
 - f. When performance test samples are not required by DoH ELCP for certification, the laboratory shall obtain, analyze and evaluate performance test samples, standard reference materials (SRM) or other externally assayed quality control (QC) samples, hereinafter known collectively as quality control check (QCC) samples.
 - (i) The laboratory shall ensure that the selected QCC samples(s) represent all matrix/method/analyte combinations that are not subject to certification requirements.
 - (ii) These samples shall be analyzed at six-month intervals and the results shall be within the acceptable range established by the QCC sample provider.
 - (iii) Before providing analytical services for this Contract, the laboratory must provide to the DEP contract manager the results of the QCC sample(s) and the associated acceptable range(s) as established by the QCC sample provider. The submitted results must be from QCC samples that have been completed within the previous six months prior to the submission date.
 - g. Any non-standard laboratory procedures or methods that are proposed for use (i.e., those not approved by DEP for standard environmental analyses) shall be submitted for review and approval in accordance with DEP-QA-001/01, "New and Alternative Analytical Laboratory Methods," February 1, 2004. These procedures or methods shall be approved by the DEP contract manager before use under this Contract and must be cited or described in the required planning document (see Section 6).
 - h. The GRANTEE shall ensure that Practical Quantitation Limits (PQLs) and Method Detection Limits (MDLs) are listed in the planning document (see Section 6).
 - i. The GRANTEE shall ensure that the selected laboratory test methods listed in the planning document can provide results that meet the Contract data quality objectives.
 - j. The GRANTEE shall ensure that all laboratory testing procedures follow the analytical methods as approved in the planning document (see Section 6).

- k. The GRANTEE shall ensure that the all laboratory quality control measures for standard methods are consistent with Chapter 5 of the NELAC standards.
- l. In addition, the GRANTEE shall ensure that the quality control requirements specified in the attached addenda are followed.
- m. The GRANTEE shall ensure that all sample results are calculated according to the procedures specified in the analytical methods approved in the planning document.

3. **FIELD ACTIVITIES**

The GRANTEE shall ensure that all sample collection and field testing activities are performed in accordance with applicable Department "Standard Operating Procedures for Field Activities" (DEP-SOP-001/01, March 1, 2014). The specific standard operating procedures (SOPs) to be used for this Contract shall be cited in the planning document (see Section 6). SOPs for field sample collection or testing not included in the Department's SOPs shall be included or cited in the planning document.
- c. Any non-standard field procedure shall be submitted for review and approval to the DEP contract manager. All non-standard procedures and methods must be approved by the DEP contract manager before use under this Contract and must be cited or described in the planning document.

 - (2) One in each additional 20 samples of the sample collection matrix, after the first 20 samples; and
 - (3) The last time samples are collected for the sample collection matrix.
 - (ii) Field-Generated Quality Control (QC) Blanks – Blanks associated with field activities as defined in part FQ 1210 of DEP SOP FQ 1000 shall be collected according to the requirements of part FQ 1230.
 - (1) If an analyte detected in the sample is also found in any field-generated QC blank that is associated with the sample, the GRANTEE shall investigate and attempt to determine the cause of the QC blank contamination. The outcome of this investigation shall be reported and shall include a discussion of the corrective measures taken to minimize future occurrences of QC blank contamination.
 - (2) If an analyte detected in the sample is also found in any field-generated QC blank that is associated with the sample, the GRANTEE shall ensure that the analyte in any affected sample is reported as estimated ("G" data qualifier code, with a narrative explanation), unless the analyte concentration in the blank is $\leq 10\%$ of the reported concentration in the associated sample.
