Consent

F.10.

3/10/2020

Subject:

Zamira and Gezim Doci (Andi Doci) change of zoning classification from RU-1-7 to RU-2-12. (19PZ00124) (Tax Account 2716189) (District 5).

Fiscal Impact:

None.

Dept/Office:

County Attorney / Planning and Development

Requested Action:

Approve the Findings of Fact.

Summary Explanation and Background:

This item (19PZ00124) came before the Brevard County Planning and Zoning Board (P&Z) on January 13, 2020. The Planning and Zoning Board unanimously recommended denial. The item came before the Brevard County Board of County Commissioners on February 6, 2020 and after a public hearing the Board unanimously denied the request and instructed the County Attorney's office to draft the resolution. The County Attorney's Office is requesting that the Board approve or deny the Findings of Fact. The requested resolution is attached.

Clerk to the Board Instructions:

Provide Planning and Development and the County Attorney's office with a copy of the signed resolution.

Tammy Rowe, Clerk to the Board, 400 South Street • P.O. Box 999, Titusville, Florida 32781-0999

RE: Item F.10., Resolution Setting Forth the Findings of Fact and Conclusions of the Board Pertaining to the Denial of Request of Zamira and Gezim Doci

The Board of County Commissioners, in regular session on March 10, 2020, adopted Resolution No. 20-022, setting forth the Findings of Fact and conclusions of the Board of County Commissioners pertaining to the denial of request for RU-2-12 Residential Zoning on property owned by Zamira and Gezim Doci. Enclosed is a fully-executed Resolution.

Your continued cooperation is always appreciated.

Sincerely,

BOARD OF COUNTY COMMISSIONERS
SCOTT ELLIS, CLERK

Tammy Rowe

RESOLUTION NO. 20-022

**A RESOLUTION SETTING FORTH THE FINDINGS OF FACT AND
CONCLUSIONS OF THE BREVARD COUNTY BOARD OF COUNTY
COMMISSIONERS PERTAINING TO THE DENIAL OF REQUEST FOR RU-2-
12 RESIDENTIAL ZONING ON PROPERTY OWNED BY ZAMIRA AND GEZIM
DOCI.**

BE IT RESOLVED by the Board of County Commissioners of Brevard County, Florida
as follows:

STATEMENT OF THE CASE AND FACTS

This item (19PZ00124) came before the Brevard County Planning and Zoning Board (P&Z) on January 13, 2020. The Planning and Zoning Board unanimously recommended denial. The item came before the Brevard County Board of County Commissioners on February 6, 2020 and was denied after a public hearing. The documentary evidence and record page number for the document is listed below. These documents and transcripts or minutes create the record and will be referred to as R-____.

Description	Page Numbers
Minutes of the Planning and Zoning (P&Z) Board Meeting January 13, 2020	1-4
Minutes of the Brevard County Board of County Commissioners meeting February 6, 2020	5-11
Application for rezoning	12-25
Planning & Zoning Staff Comments	26-31
Location Map, Zoning Map, Future Land Use Map and Aerial Photo	32-43
Emails and objections and documents submitted	44-58
Administrative Policies	59-65
62-1255 – Code of Ordinances of Brevard County, Florida – Establishment of zoning classifications and consistency with comprehensive plans	66-71
OSTDS Permit	72-74
Building Permit Application	75-79
Agenda Report February 6, 2020	80-81

The applicants, Zamira and Gezim Doci, requested a zoning change from RU-1-7 to RU-2-12 on 0.18 acres. R-012. The subject property is located at 159 Atlantic Avenue, Indialantic. *Id.* The applicants desire to convert the existing, recently constructed, single-family residence into a duplex. R-017.

Atlantic Avenue is a dead-end street on the west side of N. Highway A1A in Indialantic, Florida.

The subject property is comprised of two lots which were combined to meet the RU-1-7 lot dimension requirements and allow construction of a single-family residence. R-027. While the current single-family residence meets the setbacks for the RU-1-7 zoning classification, converting the single-family residence into a duplex requires three separate variances for the development standards for RU-2-12. R-028-029. The required variances include one for lot coverage, one for side lot setback, and one for front setback. *Id.* The applicants have not applied for the required variances. To obtain the required variances, applicants must meet the requirements of 62-253 of the Brevard County Code of Ordinances. Among the many factors of 62-253, the applicants must show “unnecessary and undue” hardships that “do not result from the actions of the applicant”. Applicants are able to continue using the single-family residence already constructed on the subject property.

The subject property is currently serviced with potable water by the City of Melbourne. R-027. The subject property does not have connectivity to sanitary sewer collection lines. *Id.* The closest sewer line is approximately 2,000 ft. away, along the eastside of N. Highway A1A. R-080. Policy 1.2 of the Comprehensive Plan states, “Where public water service is available, residential development proposals with densities greater than four units per acre shall be required to connect to a centralized sewer system.” The proposed density for the application exceeds this requirement with a potential 11.1 dwelling units per acre. R-080.

The property to the north of the subject property is in the City of Melbourne and developed with single-family residences. R-029. The property is bound on the east and west by single-family residences zoned RU-1-7. *Id.* The closest multi-family zoned property (RU-2-10) is more than a quarter of mile from the subject property abutting N. Highway A1A. A few parcels near the beginning of Atlantic Ave. are zoned RU-2-10. The zoning along Atlantic Ave. then transitions to RU-1-13 and then to RU-1-7 with the majority of Atlantic Ave. being zoned RU-1-7. R-025.

There are no emerging development trends of changing single-family zoning and uses to multi-family zoning and uses within a one-half mile radius of the subject property. R-080.

As stated by the staff report, citizen testimony, and members of the Planning & Zoning Board, the area of the subject property has always been single-family residential. R- 003, 009, 017,

029. Multi-family has been historically present along N. Highway A1A which is the only appropriate area for multi-family.

The Planning and Zoning Board unanimously recommended denial. R-004.

Besides allowing a duplex, the requested RU-2-12 zoning would allow resort dwellings, group homes (level II), or a boarding house; all of which would be incompatible with the neighborhood. R-029.

Pursuant to 62-1151(d) the Board of County Commissioners must consider the factors outlined in county ordinance 62-1151(c) in evaluating a proposed rezoning. The factors in 62-1151(c) are as follows:

- (1) The character of the land use of the property surrounding the property being considered.
- (2) The change in conditions of the land use of the property being considered and the surrounding property since the establishment of the current applicable zoning classification, special use or conditional use.
- (3) The impact of the proposed zoning classification or conditional use on available and projected traffic patterns, water and sewer systems, other public facilities and utilities and the established character of the surrounding property.
- (4) The compatibility of the proposed zoning classification or conditional use with existing land use plans for the affected area.
- (5) The appropriateness of the proposed zoning classification or conditional use based upon a consideration of the applicable provisions and conditions contained in this article and other applicable laws, ordinances and regulations relating to zoning and land use regulations and based upon a consideration of the public health, safety and welfare.

The record facts and testimony, including testimony by Andi Doci, indicate that the applicants purposely applied for and constructed a single-family residence that could readily be converted to a duplex before seeking the appropriate zoning for a duplex. R-003, 008, 011. Applicants later decided to apply for multi-family zoning as an attempted end run around the zoning process. *Id.*

The Board of County Commissioners heard the item on February 6, 2020. R-005. The applicants appeared and were represented by counsel and allowed ample time and due process to present the rezoning request. R-005-011. The Board of County Commissioners has reviewed all of the factual evidence and documents including those submitted by staff, applicants, and

community members and evaluated the requested rezoning using the criteria set forth by County ordinances and the Administrative Policies of the Future Land Use Element.

FINDINGS OF FACT

The Board of County Commissioners finds:

1. The subject property is currently zoned RU-1-7 and developed with a single-family residence.
2. The subject property is currently surrounded by property zoned and developed with single-family uses.
3. If granted, the proposed rezoning will result in one parcel of land zoned RU-2-12 surrounded by land zoned RU-1-7.
4. The rezoning request is inconsistent with Policy 1.2 of the Comprehensive Plan as the proposed density would require connection to a centralized sewer system which is not available.
5. The proposed rezoning to RU-2-12 for multi-family use at this location is not consistent or compatible with the surrounding single-family uses.
6. There are no emerging development trends of changing single-family zoning and uses to multi-family zoning and uses within a one-half mile radius of the subject property. Extending the historical multi-family zoning along N. Highway A1A one-quarter mile down Atlantic Ave. would be inconsistent and incompatible with the existing neighborhood single-family uses.
7. The proposed rezoning to RU-2-12 would materially or adversely affect the character of the area.
8. The showing of hardship needed for the granting of variances required to meet the development standards of RU-2-12 zoning is not present.
9. Applicants appear to have attempted to circumvent the zoning process. Applicants do not come before the Board with clean hands.

CONCLUSION

Based on the foregoing, the Board of County Commissioners hereby finds the proposed use is incompatible with the Comprehensive Plan, inconsistent and incompatible with the surrounding zoning and uses, and would adversely affect the character of the area. Accordingly, the request in 19PZ00124 for rezoning from RU-1-7 to RU-2-12 is hereby denied.

DONE AND RESOLVED this 10 day of March, 2020.

PLANNING AND ZONING BOARD MINUTES

The Brevard County Planning & Zoning Board met in regular session on **Monday, January 13, 2020**, at **3:00 p.m.**, in the Commission Room, Building C, Brevard County Government Center, 2725 Judge Fran Jamieson Way, Viera, Florida.

The meeting was called to order at 3:00 p.m.

Board members present were: Ron Bartcher; Brian Woltz; Brian Hodgers; Ben Glover; Mark Wadsworth; Joe Buchanan; Bruce Moia; Peter Filiberto; and Dane Theodore.

Staff members present were: Jeffrey Ball, Planning and Zoning Manager; Eden Bentley, County Attorney; George Ritchie, Planner III; Paul Body, Planner II; Jeanne Allen, Environmental Specialist I; and Jennifer Jones, Special Projects Coordinator.

Mark Wadsworth introduced new members Joe Buchanan, District 4; and Brian Woltz, District 1. Mr. Wadsworth also recognized the resignation Rochelle Lawandales and thanked her for her service to the Planning and Zoning Board. Bruce Moia stated Ms. Lawandales had a wealth of knowledge as a planner and she will be missed on the board.

Excerpt from Complete Agenda

1. Zamira and Gezim Doci (Andi Doci)

A request for a change of zoning classification from RU-1-7 (Single-Family Residential) to RU-2-12 (Medium Density Multi-Family Residential). The property is 0.18 acres, located on the north side of Atlantic Avenue, approximately 0.40 mile west of Highway A1A. (159 Atlantic Avenue, Indialantic) (Tax Account 2716189) (19PZ00124) (District 5)

Andi Doci, 159 Atlantic Avenue, Indialantic, stated he and his parents originally planned on eventually applying to the Planning and Zoning Board in hopes that the rezoning gets granted. He said the plan that has been modified to a single-family can be modified back to a duplex. He noted the dimensions of the property will remain the same, and from the outside nothing will change. He stated any concern that it might decrease property values is a fake claim, and whether built as a single home or a duplex, it will only increase property values because it is known that a duplex is always more valuable than a single-family home, and a duplex will always yield higher money when sold because the rent is manageable and more families can afford half a home than a single home. He said the capacity for bathroom seems to be a concern for some neighbors because they think the septic system might be overloaded, but it's not going to increase. He said the four bathrooms that are there currently will remain, and there will be two bathrooms on one side and two on the other. He stated the only change will be that they will have to add another water meter and electrical meter, make the divisive wall between the two doors, and add another laundry, which is already planned. He stated the houses to the east and west have setback violations by at least 10 feet, and another house on the street has a variance for a pool that is within the setback. He stated his neighbors are concerned about his house lowering the property values, but their properties have already lowered the values, and any investment in the neighborhood will increase value.

Gezim Doci stated the duplex will be for him and his family, but it's better for him to have a separate kitchen.

Andi Doci stated because they have wonderful neighbors, they might move out and rent the house, but at 3,000 square feet, no one is going to pay \$4,500 a month, but if it is separated they would be close to that amount as if renting it as one. He pointed out that if changed to a duplex, the tax will

automatically be higher, so the County will benefit from the higher tax, and if they rent it the tax will be higher because it's a rental.

Ron Vesser, 163 Atlantic Avenue, Indialantic, stated he lives on the west side of the subject property and he has some real concerns. He said he doesn't recall if the Doci's applied for a duplex or not, but he feels it is a mis-representation of what the property originally should have been. He said the Doci's also have bought a second lot on Atlantic Avenue and he's concerned about another duplex and another situation where they apply for a single-family and then try to get a multi-family unit. He said multi-family rental housing has a negative effect on single-family home values. He noted that the property in question lacks proper setbacks, plumbing, electrical, and septic specifications for multi-family use. He stated a multi-family rental property will have a substantially larger noise and traffic impact on the neighbors' quality of life. He said the current setbacks were intended for a single-family home and he strongly opposes any kind of variance. Atlantic Avenue doesn't have sewer, storm drains, or sidewalks, and duplexes with more traffic is not healthy for the environmental impact it will have on the street, not to mention public safety vehicles will be compromised in their ability to access Atlantic Avenue. He said the Doci's were granted a building permit for a single-family residence, and the request to already convert the zoning immediately after its completion brings into question whether the Doci's mis-represented their ultimate attempt and were less than transparent with the zoning process. He stated it was brought to his attention that the septic sign-off letter was never submitted to the Building Department, and he doesn't know if the septic system currently in place is legal and certified. He noted there are also two full kitchens in the home, and they have built what looks like a duplex but they did not apply for a permit for a duplex. He distributed letters to the board from other neighbors on Atlantic Avenue. (The letters can be found in file 19PZ00124, located in the Planning and Development Department.)

Jim Baker, 158 Atlantic Avenue, Indialantic, stated he lives across the street from the Doci's and just invested \$400,000 in a single-family home with an advanced aerobic septic system. He said the thing about an aerobic septic system in a single-family home is that it is one system, but in a duplex, someone lives on one side and someone lives on the other, and there is no control as to how many people can live in them and that overwhelms a septic system. He stated a duplex doesn't go with the street's atmosphere, it's not what the street was intended for, and the Canova Beach community was never designed for any kind of multi-family units. He concluded by saying he is opposed to the rezoning request and he hopes the Doci's withdraw their application.

Karen Holloway Adkins, 141 Atlantic Avenue, Indialantic, stated it appears the house was built as though it was going to be a duplex, there's no garages, the space on either side of the house is consumed with driveway areas except for the septic system, and there has already been some parking issues. She said contention with your neighbors is never a good way to start because they are a close-knit family on Atlantic Avenue. She stated when the large home was being built it came to everyone's attention that it was obviously set up for two families, as though it was a duplex.

Christine Britton, 2980 Ericusa Lane, Indialantic, stated she also thinks the house was built as a duplex because both sides look exactly the same; it has two driveways, and they both have a walk-up to a double door, but if you walk inside the double door you can see two doors that already exist, so it's pretty much already a duplex. She said her concern is that they've been less than transparent and it will set a precedent for the future.

Nancy Sowerbutts, 160 Atlantic Avenue, Indialantic, stated she feels the same as her neighbors, and she is concerned about short-term rentals in addition to everything that's already been mentioned.

Mr. Doci stated Atlantic Avenue is a dead-end street, so there's no additional traffic besides people going to their homes, and there's an average of one car every 15 minutes that passes by. He said people are concerned about rentals when they rent themselves. He acknowledged there was a mistake with the septic system because the builder had all the paperwork, but the County made a mistake, and it has been corrected. He said he could rent to five families and they can all live in one single-family residence, but he cannot do that financially. He said the neighbors are jealous, and the only one who can come close to their \$500,000 investment is Mr. Baker who has the \$400,000 house, but his pool is in the setbacks. He said he is planning to invest more, but Mr. Baker is not, and it's just jealousy. He stated their plan was clearly stated in the Building Department, and he said they planned to build as fast as possible with no obstacles and eventually turn it from a duplex to a single so that eventually they can re-apply and try to get a duplex. He said staff can testify that he stated the house was not a duplex, and they were going to build it as single-family with plans to get a duplex, whether it gets approved or not. He stated the septic system will not be overloaded because they have other rental properties in New York and they charge a lot more for additional people that renters want to add. He said Ms. Sowerbutts, at 160 Atlantic Avenue currently rents and she is concerned how he does business, which is nobody's business.

Dane Theodore stated if the board approves the upgraded zoning, it's required that they have a connection to a centralized sewer system, and asked how they would get around that requirement.

Jeffrey Ball replied the Comprehensive Plan requires central water and that they connect to central sewer. As far as staff's research, central sewer is not available, and the only way to get around that is if the Board of County Commissioners waive that requirement.

Bruce Moia stated the property is clearly single-family zoning in the entire area; there's no multi-family zoning anywhere near the subject property except at the very corner abutting a State road, which is a major collector road, which makes more sense. He said the building permit application clearly states it's for a single-family residence. The property is 8,000 square feet, and even on City water the normal requirement is for one-quarter acre to have septic; this is over 2,000 square feet less than one-quarter acre, and to have two families on it would mean having a septic system on a 4,000 square foot lot. He said he knows where multi-family has been historically, and this isn't the area. He agrees with the residents that this is not appropriate, and if the applicants wanted to build multi-family they should have asked for this a long time ago; he's not sure it would have been approved, but it should have been asked for before if that was the intent, because it is clearly single-family residential and it has been for a very long time.

Ben Glover stated he agrees with the residents and he doesn't see this being multi-family at all. He said he doesn't like that they built it to look like a duplex and now they're trying to find a loophole.

Peter Filiberto stated there's a difference between short term rentals and long-term rentals, and the residents were talking about long-term rentals, but the applicant seems to be talking about short-term rentals. He said he doesn't want to set a precedence for a duplex in the area and he feels it will put a strain on utilities.

Motion by Peter Filiberto, seconded by Bruce Moia, to deny the request for a change of zoning classification from RU-1-7 to RU-2-12. The motion passed unanimously.

**VERBATIM OF ITEM H.1., CHANGE OF ZONING CLASSIFICATION FROM RU-1-7 TO RU-2-12 – ZAMIRA
AND GEZIM DOCI – FEBRUARY 6, 2020 ZONING MEETING**

Lober: We're going to move right on into public hearings, Item H.1. If we can have staff just do brief intros for all of them unless the Commissioners decide to have a little bit more. If you can give us an intro, I'd appreciate it.

Ball: Good evening. First Item is 19PZ00124, Zamira and Gezim Doci requests a change of zoning classification from RU-1-7 to RU-2-12. It's located in District 5, Commissioner Isnardi. Staff has received 15 letters in opposition. Just to bring to the Board's attention, the subject property is located in the predominately single-family neighborhood.

Lober: All right, we have some public comment cards on this. First up it looks like we have an attorney George, is it Booras? All right, come on up. And if anyone is the applicant when they come up, please let me know because you're entitled to a different amount of time. If I don't hear that you're the applicant, I'm just going to presume its general public comment as to that Item; and I'm guessing from the posters, you probably str the applicant, or represent the applicant. Okay, thought it was a somewhat safe assumption. All right, welcome sir.

Booras: Good evening. I represent Mr. and Mrs. Doci in this matter. Commission, basically what we have going on here is my clients would like to convert their house into a duplex. Originally the house was meant for two families. It was meant for my clients as a split family. In other words the husband . . . the parents on one side and then their children on the other side. So, after some consideration they decided that they were, they wanted do something different than that, and that's why we're here today to see if they can't alter that. Now they read through all of the documentations that's been provided, the letters that were provided to the Commission and to staff, but looking at staff's analysis of the matter, you know, one of the points I believe that was made by one of the parties was the traffic. There's a .01 percent increase in traffic. We're talking about one or two cars, you know, being added to the neighborhood. In addition, I disagree a little bit with staff's analysis. There are significant amount of multi-family style homes in the area. According to an analysis of Brevard County Property Appraisers records, there are within 1,500 feet of the home, there are 31 condo units, three duplexes, four triplexes, two quadraplexes, and four multi-family usage area homes, and also nine townhomes, which weren't noted in the staff's analysis that was provided to the Commission. So, adding another duplex, especially there are three duplexes on this block already. Basically, I'd like to show the Commission, you know, this is a map of the area that was provided from the Brevard County Property Appraiser's website, and blown up appropriately. This is Atlantic Avenue, the street in question. There is a condominium unit at the end of the street, and then there are two multi-family uses at the big, front of the street as well, two duplexes next to those, and then another duplex actually all the way at the end of the street. I believe that many of the comments that were provided by neighbors kind of reflect that they don't want their neighborhood to become overrun. This isn't the type of action . . . this type of basically altering, giving a variance in this situation would basically not create the types of issues that are being complained of. Now, there is, according to staff and according to their analysis, there were some land use issues as to the property. I believe there were setback issues, there's a 4.2-foot setback. As to the main setback, there's a 20-foot, 25-foot setback that's required. There's also a 5.5, a 4.5 . . . 10 setback as to the west side of the property. The thing is, your honor, this is an already existing home, so by granting a variance you're not actually changing anything. Same thing with the sewage. The sewage will not have any changes. See, there's a lot of complaints that were filed in these letters saying that things would change. Nothing actually does change. The home exists. The only modifications to the

home that would potentially happen are interior not exterior. So, therefore, you know, none of these things where there's increased traffic, that there's going to be a sewage issue in the neighborhood, that there's going to be, you know, there's some sort of imposing on other people's property, none of that happens here. Basically, these are all existing things, so all we're doing is looking to basically have a variance as to an existing property that's already there, basically allowing them to cut it in half so his, so part of their family can live on the one side and then the other part can be rented out to parties as necessary basically; and we've been looking at long-term renters, we're not looking at short-term, parties, you know. They don't want to disrupt the neighborhood, and I think that's a very key concern here because many of the letters were basically addressing the fact that they want, you know, that this is an issue, that they thought they would be disrupted in some way, shape, or form. When you look at the other duplexes, when you look at them on the Property Appraiser's website as well, they're basically, its identical situations, the lot sizes are the exact same, they're both . . . all of the buildings are built on double size lots, they're no . . . so they're no significant differences between the duplexes that already exist other than perhaps the size of the building, but they don't have sewage, yeah, cause there's no sewage, public sewage in the area. There's only public water. So, basically, you know, many of the requirements that are being stated have already been waived for other buildings in the area sometime in the past. Now there's also, when you look at the . . . I believe there's also a concern about rental properties that was brought before the Commission and before staff by the parties . . . according to looking at the Brevard County Property Appraiser's website again, there are approximately 18 properties along that one street that are owned by entities, not owned by persons, owned by entities, trusts, and not family trusts, because I eliminated those so basically just trusts, corporations, you know, other types of entities along those lines, which seems that those buildings would actually be . . . those residences would be rentals, not necessarily home-owned, you know, things where homeowners reside in there. So, in conclusion, the impact here for my client is minimal and we believe that you should grant the variance for the property and allow them to do basically the remainder of the construction that's required in order to, you know, divide the property appropriately. They do have to install some plumbing and electrical work, but there's no outside work that would be done that's in relation to that; and I would reserve my amount, eight minutes remaining to rebuttal.

Lober: I'll give you eight minutes and 45 seconds. Will that work?

Booras: Yeah, that's fine.

Lober: Let me, I've got a question, unless someone else does first.

Booras: Sure, sure.

Lober: You mentioned that they're only going to be interior modifications and that the area doesn't have sewer anywhere that's accessible? Is there just one septic tank there now, or are there two, or what's the set up as far as that's concerned, if you know?

Booras: I don't know off hand. I know it meets the Code requirement. There is, I believe, four bathrooms in the residence.

Lober: Okay, internal . . .

Booras: So, they meet that, so yeah, so they meet that, in total, right. Excuse me.

Lober: Okay, between, between both of the units in the duplex?

Booras: Well, there's not, there's not two, it's one unit, yeah.

Lober: I apologize. Between both portions of the duplex I should say.

Booras: Yeah correct.

Andi Doci: Can I add something?

Lober: Let's do this. When you have the remaining time for rebuttal, we can address anything else that you'd like to add. So, you'll have your eight minutes and 45 seconds. But beyond that, if you know, there's not going to be a change in so far as the septic is concerned, is there where it's either going to be added or . . .?

Booras: No.

Lober: Okay perfect.

Booras: I mean unless it's required. If it's required . . .

Lober: Understood.

Booras: . . . then obviously they'll make the changes that are required, but . . .

Lober: But there's no intent to change it in any way that you're aware of?

Booras: No, because it's already approved as is, there's no real reason to try to change it at this point, so . . .

Lober: Perfect, I appreciate it. I'll keep this time saved and then we'll go on to the other public comment on the item now. All right, next up we have got, I think that's Angie?

Pritchett: Andy.

Lober: Andy Doci. All right, come on up.

Doci: The septic was . . .

Lober: Before you start, I think you just put your name and the city that you live in on the record.

Doci: Indialantic, Florida. Okay, when the, when the septic . . .

Lober: Hang on one second, I'm sorry.

Doci: I'll make it quick.

Lober: Bear with me just one second. I promise I'll give you a chance. Ms. Bentley, if this is also the applicant himself, how would you recommend that I treat this? Should I deduct this from the remaining time that the attorney had?

Bentley: Yes, the applicant has 15 minutes total.

Lober: Okay, so I'll give you the remaining eight 45.

Doci: It's just going to take 30 seconds.

Lober: Okay.

Doci: When we designed . . . when the house was built, the capacity, bathroom capacity was already calculated. So, if anybody's going to live there, we're six people already, and if it gets divided, and we rent it out, because we're going to stay the way we are, but if we rent it out, I would assume we want, we don't want big families. So eight people in total, so there's a change of two. So, all bathrooms are calculated with that septic system. It's an aerobic, it's a new septic type, and it doesn't . . . basically it has more capacity than the usual ones. So everything is planned.

Lober: Okay, everything is septic?

Doci: But in case the Building Department wants an extension, we can remove part of the driveway and make it bigger. Thank you.

Lober: Thank you, sir. All right, we're going to keep the seven minutes and 59 seconds at this point for rebuttal. We've got a couple of more public comments. Ron Vesper, also from Indianalantic, and if you'll bear with me, I'm going to reset this timer if I can figure out how to do this.

Ron Vesper: Good evening to the Board. Thank you listening tonight. We appreciate it, the neighbors of Atlantic Avenue. My name is Ron Vesper. I'm the abutter to the property in question, to the west. I'm going to read something to you quickly. "163 Atlantic Avenue opposed, 140 Atlantic Avenue opposed, 160 Atlantic Avenue opposed, 179 Atlantic Avenue opposed, 169 Atlantic Avenue opposed, 202 Atlantic Avenue opposed, 155 Atlantic Avenue opposed 117 Atlantic Avenue opposed, 100 Atlantic Avenue opposed." We're opposed for objective reasons. First of all, we were told by the County already that multi-family density has to be plugged into sewer. That's not available to this home. We have a few duplexes, and it was a mischaracterization earlier, we have a few duplexes on the east end of our street that are old as dirt, they're probably 40 years old, and they're grandfathered I am sure in that they do not require sewage connections for those dwellings. We have a setback issue to the west and to the east. I will never grant setback waivers for my property, and I can promise you the neighbor to the east of this property owner, Gene, I have to think of his last name, for a moment, he will never grant any waiver exception to a setback on his property line either. We won't do it. The other thing is, is that . . . what else did I want to bring up? Oh, this whole matter has not been conducted in a transparent manner, manner by the applicant. If you drove by the street, or you might have the front elevation of the property in front of you, I don't know if you can see it or not, this thing was spring loaded for a duplex. It looks like a duplex, it smells like a duplex, and it wiggles like a duplex, and that's what they always wanted, and now they're trying to do an end run around the County and have this approved, along with the fact that they recently purchased another property on our street a few houses down that's an empty, vacant lot. We see this end run coming again. So, we have big questions about the septic

system. We had environmental issues discussed last time. We have environmental issues in the County for septic systems. We put a multi-family use on that property, that septic system is probably not properly designed, and it would have to go through review, but we were told that last time by the County, I forgot exactly what P&Z commissioner, mentioned it, that sewer is a must for multi-family. So, in concluding, let me just see if I had anything else to say, that is pretty much my position and the position of the neighbors there. We don't want more duplexes. We have a single-family home, street. There have been new homes that have been built recently. All the new homes that have been built on our street . . . we really haven't had new home building activity on our street for years up until about four or five years ago. I believe, I'm guessing here, about five or six new homes have been built on our street. They are all single-family homes. We have had no new multi-built, and we feel that it will have a negative impact on many, many things. So, I'm in strong opposition of this happening; and I'm available for any questions or comments, and I appreciate your time on the matter, for listening. Thank you.

Lober: Thank you, sir. All right, last up before we go back to the rebuttal time, Roger and Nancy, help me out with this, Sowerbutts, from let's see, Palm City.

Nancy Sowerbutts: I live in Palm City. We bought the, we purchased the home across the street from 159, we're at 160. We currently have it as an annual rental. We purchased our home with long-term plan to retire to a small community with a very personal feel, good neighbors, and a secure, safe, and stable environment. When the property opposite was being built, we raised questions as to the intended use when we noted two virtually identical sides to the house, and the home plan indicated a two-family intent. The zoning was clearly for a single-family home; however, it was explained that it was the same family, just parents and a son who would be sharing, so the zoning was correct for the intent. Now the request for rezoning has come up and it raises many issues for us as property owners. Firstly, was the owners long-term intent to build the home in the single-family zone, and then try to get it rezoned, which is clearly what we're seeing now. The possibility of having short-term rentals in a single-family neighborhood is concerning. I called and asked questions about the RU-2-12, and I was told it changes the ability for rentals, meaning you can have short-term rentals, you can do air bnb's, things like that whereas the zoning we have right now an annual rental is acceptable but not short-term rentals, so that's a concern. Additional traffic on our narrow street is a concern. I know the attorney said that there are condos and all those things, there aren't. There are, there's townhouses at the top of the street up on A-1-A, there's probably eight units, but when you get closer to the, west of the long . . . it's kind of a long street, but it's a dead end. There are nothing but single-family and a couple of old duplexes. There's no, I think he said condos within so many feet on our street, there's none. That's all at the top on A-1-A. There's . . . so added traffic . . . there might not be added traffic with this particular duplex but if they were to change the zoning and other homes become duplexes, they build another duplex, that would significantly add to the traffic on our small street. Yeah, so the concern of changing the zoning would mean that more traffic would be an issue. The duplexes on our street were grand fathered in as far as we know. They are very old, and they're not new. So . . .

Roger Sowerbutts: That's pretty much it. It was just the intent from the start. We see it as being this and then, you know, we wouldn't have bought a house to retire to had there been duplexes around us so that's kind of our position.

Lober: I appreciate y'all coming out, thank you.

Nancy Sowerbutts: Thank you.

Lober: All right, that's it for public comment on this Item. If the applicate wants to come up or if the applicant's attorney would like to come up, I can give you the remainder of the time that you have.

Lober: Welcome back.

Booras: Thank you. Just briefly, basically what we have here there's a lot of feelings going on here. You have a lot of people who are very opinionated about what they have, but basically its opinions. We have to look at the facts in this matter more so and whether a variance, you know, can be granted based on those facts. When we have . . . as I previously presented those facts, you know, exist and there are other consistent uses in that neighborhood. You know, there's a lot of things being said here about traffic. How do one or two cars make such an additional traffic burden in the area? You know, but these are all speculation by other people in the neighborhood. You know, also, you know, when you come up and the first thing you do is try to list, well okay, all of these people are opposed to it, but yet, you know, and there's been letters sent to that but yet we don't know, you know, the extent of their opposition and we don't know the factual reasoning behind their opposition as well here. They're not here, you know, to do that, and the letters don't necessarily, you know, present that fully to the Commission. I believe that as the, you know . . . it's funny as a recording stated before we started today, you know, we're here to listen to the facts, and we're to make decisions based on those, and that's all we'd ask from the Commission to do today. Thank you.

Lober: You're better than I am. Normally when I say I'll be brief I'm not, but I give you credit for that. Commissioner Tobia.

Tobia: I'm just trying to wrap my head around this. I don't know if you misspoke or if you are unfamiliar with the difference between a variance and rezoning, because you mentioned variance a couple of times but that's different that what's in the application. So can you clear . . . was that a . . .

Booras: It's a rezoning issue, and I'm sorry, and that is a, my misspeaking.

Tobia: Those are polar opposites. You understand?

Booras: Yes.

Tobia: All right, just to be clear.

Lober: Okay, Commissioner Isnardi, this is your District. What would you like to do?

Isnardi: I don't have questions for the attorney. Tad, question as far as if we don't, if the, if it's not granted for the rezoning, they can exist how they are now, correct?

Calkins: Yes the . . .

Isnardi: It just means they won't be able to rent it out later.

Calkins: They wouldn't be able to split it as a duplex and create two units there.

Isnardi: Correct, okay. Well, I mean, I, we've gotten, aside from the correspondence in our office it was pretty much in the package. I mean, it's strong opposition against this in this neighborhood; and given

the concerns with the sewer, I mean, I know that's not an option for your client, I definitely have a concern, and it's not going to change the way they're living now. So, we're not putting somebody out on the street; and whether the intent was purposeful or not, it sure appears that way that, that was the intention right from the beginning. So, myself, I know that this is my District, and I, I, there is four of us up here, however, I don't feel comfortable granting it at this time. So I'm not going to be supporting this.

Lober: Commissioner Pritchett.

Pritchett: I was just going . . .

Isnardi: Okay, so I'll make a motion to deny this as it stands.

Pritchett: I second it.

Lober: All right, do you all have that?

Clerk: Yes.

Lober: Perfect, so we have a motion and a second. Any further discussion on it?

Doci: I'd like to make a comment.

Lober: Hang on a second, sir. Seeing none. All right, let's go ahead and we'll take a vote. This is a vote on Commissioner Isnardi's motion to deny the application. So, all in favor of denial, please say Aye.

Pritchett, Lober, Tobia, Isnardi: Aye.

Lober: Any opposed? All right, the denial passes 4:0. And sir, I would just encourage you to speak with your attorney about your options, because at this point we've kind of gone through the process.

Bentley: Do you wish the County Attorney's Office to make a Findings of Fact on the denial?

Lober: Yes, if you would please.

Isnardi: Sure.

Lober: And if that's all right, let's make that a separate motion. Would you care to make that motion?

Isnardi: I'll make a motion to, for a Findings of Fact on this Item.

Lober: I'll go ahead and second that. All in favor.

Pritchett, Lober, Tobia, Isnardi: Aye.

Lober: Any opposed? All right, that passes 4:0. All right, thank you all so much for coming out.

¹If the property is not owned in entirety by the applicant, either an Authorization to Act form or a notarized letter from each/all property owners of the subject property is required.

²Legal Description must be typed on a separate sheet, if not easily described on the deed.

³School Board Concurrency application is required if the request represents an increase of more than one residential unit.

⁴Wetland Survey required on Commercial or Industrial property.

⁵CUP applications require a completed worksheet and a sketch plan with the application signed by a planner.

⁶Must include Comprehensive Plan Amendment supplemental form reviewed by a planner prior to submitting formal application. The supplement must include a written statement explaining the rationale and the appropriate data and analysis necessary to support the proposed change.

⁷Administrative waivers requiring a signed affidavit from all abutting property owners indicating no objection to the requested waiver of lot size, width or depth requirement. The affidavit must state the specific request.

⁸Survey must be submitted if requested by staff.

⁹Variance Hardship Worksheet must be filled out completely, addressing the six criteria for a hardship.

***Additional information may be requested by staff dependent upon the requested action. These include but are not limited to impact analysis studies:**

Traffic Impact Analysis (TIA): TIA must be submitted if required by the County Traffic Engineer. Analysis methodology must be coordinated with the Traffic Engineering Office.

Environmental Impact Analysis: The analysis must be conducted by a qualified environmental professional and dated less than one year old. The analysis must document the types of habitat found on site; identify vegetation types, soils types, wetlands, floodplain; and any other environmental concerns.

Water and Sewer Demand: Identify the potable water and sanitary sewer demand for the amendment based on the current and proposed future land use designations using the per capita water and wastewater standards of the applicable service provider.

Zoning Information Worksheet

Owner(s): Gezim & Zamira Doci
(Does this match the warranty deed?)

Applicant(s): Andi Doci
(Does this person have authorization from everyone listed on the warranty deed?) yes

Parcel ID#: 27 37 13 77-* -39
(If more than one parcel, they must share a property line to be on the same application.)

Present Zoning: RU-1-7

Is there a BDP or a CUP on the property? Yes ☒ No ☐ NO (If yes, attach BDP) N/A

Is this a non-conforming lot of record? ☒ Yes ☐ No: Why?

Non-Conforming to: Two underlying lots are 50' x 80' and non-conforming lots of record per pg. 13. Together

Is this a substandard lot? ☒ Yes ☐ No: the 2 non-conforming lots of record = 1 conforming lot in

Why? Individually, the two lots are non-conforming lots of record and combined, they make one conforming lot in both RU-1-7 and RU-2-12 zoning

Requested Zoning/CUP: Medium Density Multi-family Residential (RU-2-12) without CUP existing & proposed zoning.

What is the FLU Designation of the property?: Residential 15 (RES 15)

- Is the requested zoning consistent with the FLU? ☒ Yes ☐ No (See compatibility table)
- If no, what is the requested small scale plan amendment? (Must be 10 acres or less)

BDP Requested? Yes ☒ No ☐ NA

If CUP Request, do you have a CUP worksheet filled out by the applicant? Yes ☐ No ☒ N/A 16th Aug 5/16

Previously Approved Zoning Actions: Z-2980 Blanket Rezoning 10/19/13

from original single-family zoning to R-1-7 46
when code change created RU-1-7 on 5/30/1972

original zoning was most likely RU-1
Most recent zoning change in same section: 1/2 mile of property 15 PZ 0004 249

Conditional use permit for full 1/2 acre on premises consent
w/restaurant in General Tourist Commercial on 1.3 acres 016
located on west side of ADA between North Court & 4th Street NW

Additional info on FNTT 1000 716 614 1111

If this is a CUP request, list all CUP's on adjacent properties:

NA

Abutting property zoning: N

city of Melbourne

S RU-1-7 E RU-1-7 W RU-1-7

JPA/Special Board/Special Section? Yes/No (Circle one and make a note on the application) PSJ, NMI, MIRA
ROCKLEDGE, MELBOURNE, PALM SHORES, TITUSVILLE, PALM BAY or within 500' of PALM BAY EXTENSION

Reason for Rezoning Request:

to convert existing single-family residence into a duplex under single ownership

- If proposing single-family or multi-family how many units? 2 (An increase from 1 to 2 units)
- If proposing a CUP for alcohol, how many seats? NA Bar or Restaurant? NA
 - Do you have a certified survey indicating there are no churches or schools within 400'? Yes/No
 - Do you have a site plan showing the layout and parking configuration? Yes/No
 - Do you have a CUP worksheet filled out by the applicant? Yes/No
- If the request is for commercial zoning, do you have a wetland survey that includes a legal description of the wetland? Yes/No (If no, NR must have checked no on the front of the application)

Existing structures/uses on the property?

Yes, One 2,857 square foot single-family Residence.

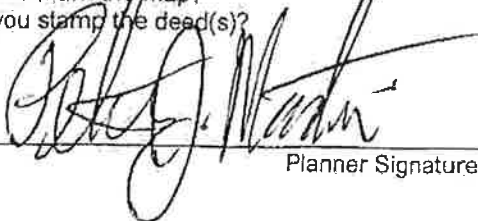

Describe the character of the area based upon Administration Policy 3 of FLUE (attached):

The street is predominantly single-family residential with some duplex and other multifamily. The area is nonconforming on closer to ALA with multifamily zoning. Property to north is multifamily attached in city of Melbourne (CUP?). Concerns raised as part of request: Property has RESIS FLU, but zoning & existing uses predominantly single-family.

Other options discussed with applicant:

Remaining single family, Redevelop as two separate single-family lots utilizing underlying, nonconforming lots of record, no change & keep zoned & develop as SE-SCCPA to RES 30 & rezone to RU-2-30 to get 4 dwelling units - Not really in line with Comp Plan and character of area.

Did you print out the Property Appraiser's Map for this property?
Did you mark the map?
Did you stamp the deed(s)?

Planner Signature

Rezone to RU-2-12 and redevelop as 2 single-family attached.

Administrative Policy 3

Compatibility with existing or proposed land uses shall be a factor in determining where a rezoning or any application involving a specific proposed use is being considered. Compatibility shall be evaluated by considering the following factors, at a minimum:

Criteria:

- A. Whether the proposed use(s) would have hours of operation, lighting, odor, noise levels, traffic, or site activity that would significantly diminish the enjoyment of, safety or quality of life in existing neighborhoods within the area which could foresee ably be affected by the proposed use;
- B. Whether the proposed use(s) would cause a material reduction (five percent or more) in the value of existing abutting lands or approved development.
- C. Whether the proposed use(s) is/are consistent with an emerging or existing pattern of surrounding development as determined through an analysis of:
 - 1. historical land use patterns;
 - 2. actual development over the immediately preceding three years; and
 - 3. development approved within the past three years but not yet constructed.
- D. Whether the proposed use(s) would result in a material violation of relevant policies in any elements of the Comprehensive Plan.

Notice to Applicants for Change of Land Use

The Planning and Zoning Office staff will be preparing a package of written comments concerning your request. These comments will be provided to the Planning and Zoning Board and Board of County Commissioners. The comments will address the following:

The current zoning of the property along with its current development potential and consistency with the Brevard County Comprehensive Plan use and density restrictions.

The proposed zoning of the property along with its development potential and Consistency with the Board County Comprehensive Plan use and density restrictions.

The proposal's impact on services, such as roads and schools.

The proposal's impact upon hurricane evacuation, if applicable.

Environmental factors.

Compatibility with surrounding land uses.

Consistency with the character of the area.

You may place your own written comments regarding these items into the record. Up to two typewritten pages can be included in the package if received 10 working days prior to the Planning and Zoning Board hearing. You are not required to provide written comments. *An Applicant presentation to the Planning and Zoning Board is required regardless of written submittals.* The board may approve the requested classification or a classification which is more intensive than the existing classification, but less intensive than the requested classification.

Staff comments will be available approximately one week prior to the Planning and Zoning Board hearing. These comments will be made available to you at that time. In order to expedite receipt of staff's comments, please provide an e-mail address or fax number below. Alternatively, a copy of staff's comments will be mailed via the U.S. Postal Service.

NOTES:

☒ If your application generates public opposition, as may be expressed in letters, petitions, phone calls, testimony, etc., you are advised to meet with concerned parties in an effort to resolve differences prior to the BCC taking final action on the request; therefore, you are encouraged to meet with affected property owners prior to the public hearing by the Planning & Zoning Board/Local Planning Agency (P&Z/LPA). During the course of conducting the public hearing, if the P&Z/LPA finds the application is controversial, and the applicant has not met with affected property owners, the item shall be tabled to the next agenda to allow such a meeting to take place. If the item is controversial, despite the applicant's efforts to meet with affected property owners, the P&Z/LPA may include, in their motion, a requirement to meet with interested parties again prior to the BCC public hearing. The BCC may also table your request in order for you to meet with interested parties, if this has not occurred prior to the public hearing before the BCC. If you need assistance to identify these parties, please contact the Planning & Zoning Office.

☒ BCC approval of a zoning application does not vest a project nor ensure issuance of a permit. At the time of permit application, land development regulations and concurrency-related level of service standards must be met.

Please transmit staff's comments via.

STAFF COMMENTS 19PZ00124 Zamira and Gezim Doci

RU-1-7 (Single-Family Residential) to RU-2-12 (Medium Density Multi-Family Residential)

Tax Account Number: 2716189
Parcel I.D.: 27-37-13-77-* -39
Location: North side of Atlantic Avenue, approximately 0.40 mile west of Highway A1A. (159 Atlantic Avenue, Indialantic) (District 5)
Acreage: 0.18 acres

Planning and Zoning Board: 01/13/20
Board of County Commissioners: 02/06/20

Consistency with Land Use Regulations

- Current zoning can be considered under the Future Land Use Designation, Section 62-1255.
- The proposal can be considered under the Future Land Use Designation, Section 62-1255.
- The proposal would maintain acceptable Levels of Service (LOS) (XIII 1.6.C)

	CURRENT	PROPOSED
Zoning	RU-1-7	RU-2-12
Potential*	One single-family unit	Two units (duplex)
Can be Considered under the Future Land Use Map	YES Residential 15	YES Residential 15

* Zoning potential for concurrency analysis purposes only, subject to applicable land development regulations.

Background and Purpose of Request

The owners are seeking a zoning change from the Single-Family Residential RU-1-7 zoning classification to the Medium-Density Multi-Family Residential RU-2-12 zoning classification in order to convert an existing single-family residence into a duplex. The existing residence was permitted under Brevard County Building Permit number **17BC08068**. The total area approved for construction was 3,243 square feet. The residence was placed upon the lot to meet the zoning requirements of the RU-1-7 zoning classification (20 foot front and rear setbacks with five foot minimum side yard setbacks).

The property is comprised of two lots which individually fail to meet the current RU-1-7 lot dimensional criteria. The RU-1-7 zoning classification in Section 62-1342 (4) of the Brevard County Code requires each lot to contain an area of not less than 5,000 square feet, having a width of not less than 50 feet and having a depth of not less than 100 feet. Under provisions of Section 62-1188, 259

the two substandard lots were combined into one lot in order to support the development of the current single-family residence.

Land Use

This review contains a two part answer regarding consistency with the Future Land Use Element of Brevard County's Comprehensive Plan.

According to Section 62-1255(b)(2), consistency with future land use map table indicates that the proposed RU-2-12 zoning classifications can be considered with this FLU designation. The RU-2-12 within Res 15 FLU can be considered based upon the geographical delineation of FLU map and locational criteria depicted in the policy of the comprehensive plan and based on the following:

The Residential 15 FLU allows a density that exceeds 10 units per acre on 0.18 acres. According to Policy 1.2 as noted below, states where public water service is available, residential development proposals with densities greater than four units per acre shall be required to connect to a centralized sewer system. The subject property is currently serviced by the City of Melbourne with potable water. Sewer is not available to the site.

Policy 1.2

Minimum public facilities and services requirements should increase as residential density allowances become higher. The following criteria shall serve as guidelines for approving new residential land use designations:

Criteria:

- C. In the Residential 30, Residential 15, Residential 10, Residential 6 and Residential 4 land use designations, centralized potable water and wastewater treatment shall be available concurrent with the impact of the development.
- D. Where public water service is available, residential development proposals with densities greater than four units per acre shall be required to connect to a centralized sewer system.

Environmental Constraints

The site is mapped within the Indian River Lagoon Septic Overlay per Chapter 46, Article II, Division IV - Nitrogen Reduction Overlay. The change in use to a duplex, that allows for two-families, will have septic modification requirements. The use of an alternative septic system designed to provide at least 65% total nitrogen reduction through multi-stage treatment processes may be required if applicable. The applicant shall contact the Florida Department of Environmental Health at 321-633-2100.

Preliminary Transportation Concurrency

The closest concurrency management segment to the subject property is State Road Highway A1A, between Paradise Boulevard and Eau Gallie Boulevard, which has a Maximum Acceptable Volume (MAV) of 41,790 trips per day, a Level of Service (LOS) of D, and currently operates at 61.23% of capacity daily. The maximum development potential from the proposed rezoning does increase the proposed trip generation by 0.01%. The corridor is anticipated to continue to operate at 61.24% of capacity daily (LOS C). The proposal is not anticipated to create a deficiency in LOS.

No school concurrency information has been provided as the development potential of this site falls below the minimum number of new residential lots that would require a formal review.

Applicable Land Use Policies

The owners are seeking a zoning change from the Single-Family Residential RU-1-7 zoning classification to the Medium-Density Multi-Family Residential RU-2-12 zoning classification in order to convert an existing single-family residence into a duplex. The existing residence was permitted under Brevard County Building Permit number **17BC08068**. The total area approved for construction was 3,243 square feet. The residence was placed upon the lot to meet the zoning requirements of the RU-1-7 zoning classification (20 foot front and rear setbacks with five foot minimum side yard setbacks).

The property is comprised of two lots which individually fail to meet the current RU-1-7 lot dimensional criteria. The subdivision creating these lots was recorded in Plat Book 10 Page 13, prior to the adoption of the Zoning code on May 22, 1958, each lot would be considered to be nonconforming if they met the minimum standards established in Section 62-1188 (1) of the Brevard County Code. Those standards state buildings and uses may be established on such lots, provided the lot has a width of not less than 50 feet, a depth of not less than 75 feet, and an area of not less than 5,000 square feet. Subsection (4) continues to state if two or more lots or a combination of lots and portions of lots with contiguous frontage in single ownership are of record, and if all or part of the lots do not meet the requirements for lot width, lot area and lot depth as established in this section, the lands involved shall be considered to be an undivided parcel for the purposes of this chapter. Under this provision, the two substandard lots were combined into one lot in order to support the development of the current single-family residence.

The County's Natural Resources Department has identified that this lot lies within the Indian River Lagoon Septic Overlay per Chapter 46, Article II, Division IV - Nitrogen Reduction Overlay zone requiring additional septic requirements to be followed. However, converting this single-family residence to a duplex requires that the property be connected at the time of development to centralized sewer. The structural shell of this home has already been developed; the future internal conversion will require a building permit.

The proposed duplex will not comply with the RU-2-12 setbacks and lot coverage standards. The property will need three variances to meet the RU-2-12 zoning classification prior to obtaining further development approvals. The variances are as follows:

- (1) Variance of 4.2 feet from the required 25 foot front setback pursuant to Section 62-1372 (5) (c) (1) of Brevard County Code.

- (2) Variance of 4.5 feet from the required 10 foot west side yard setback pursuant to Section 62-1372 (5) (c) (3) of Brevard County Code.
- (3) Variance of 1.4% over the 40% maximum lot coverage requirement pursuant to Section 62-1372 (4) (e) of Brevard County Code.

The property is bounded on the east and west sides with lots under the RU-1-7 zoning classification. The Brevard County Property Appraiser's web site notes that these adjacent lots are developed with a single-family usage. Property to the north of this site lies within the city limits of Melbourne. It has a Future Land Use identified as Medium Density Residential. The property also contains a zoning of R-2 (10), up to 10 units per acre, and is developed as single-family residences.

There have been no rezoning actions within one-half mile of this site within the last three years.

For Board Consideration

The owners are seeking a zoning change from the Single-Family Residential RU-1-7 zoning classification to the Medium-Density Multi-Family Residential RU-2-12 zoning classification in order to convert an existing single-family residence into a duplex. The residence was placed upon the lot to meet the zoning requirements of the RU-1-7 zoning classification (20 foot front and rear setbacks with five foot minimum side yard setbacks). The existing building will not meet the required front and west side yard setbacks of the proposed RU-2-12 zoning classification nor will it meet the maximum percentage of lot coverage requirement.

The Board may wish to consider whether allowing uses such as short-term rentals (resort dwellings), group homes (level II), and a boarding house use within the RU-2-12 zoning classification are consistent and compatible with the surrounding single-family residential dwellings. Additionally, the Board may consider the availability and necessity of central sewer with the increased development potential.

**NATURAL RESOURCES MANAGEMENT DEPARTMENT
Zoning Review & Summary**

Item # 19PZ00124

Applicant: Andi Doci

Zoning Request: RU-1-7 to RU-2-12

Note: Applicant wants to convert single family residence to duplex

P&Z Hearing Date: 01/13/20; **BCC Hearing Date:** 02/06/20

Tax ID No: 2716189

- This is a preliminary review based on best available data maps reviewed by the Natural Resources Management Department (NRM) and does not include a site inspection to verify the accuracy of the mapped information.
- In that the rezoning process is not the appropriate venue for site plan review, specific site designs submitted with the rezoning request will be deemed conceptual. Board comments relative to specific site design do not provide vested rights or waivers from Federal, State or County regulations.
- **This review does not guarantee whether or not the proposed use, specific site design, or development of the property can be permitted under current Federal, State, or County Regulations.**

Summary of Mapped Resources and Noteworthy Land Use Issues:

- Aquifer Recharge Soils
- Indian River Lagoon Septic Overlay
- Protected Species

The site is mapped within the Indian River Lagoon Septic Overlay per Chapter 46, Article II, Division IV - Nitrogen Reduction Overlay. The change in use to a duplex, that allows for two-families, will have septic modification requirements. The use of an alternative septic system designed to provide at least 65% total nitrogen reduction through multi-stage treatment processes may be required if applicable. The applicant shall contact the Florida Department of Environmental Health at 321-633-2100.

Land Use Comments:

Aquifer Recharge Soils

The entire subject parcel contains mapped aquifer recharge soils (Canaveral-Palm Beach-urban land complex) as shown on the USDA Soil Conservation Service Soils Survey map. The applicant is hereby notified of the development and impervious restrictions within Conservation Element Policy

263

10.2 and the Aquifer Protection Ordinance. The issued building permit (17BC08068) showed the project site to have approximately 44.4 percent impervious area. If any further construction activities increase the impervious area over 45 percent, then stormwater retention is required for impervious area over 45 percent.

Indian River Lagoon Septic Overlay

The site is mapped within the Indian River Lagoon Septic Overlay per Chapter 46, Article II, Division IV - Nitrogen Reduction Overlay. The use of an alternative septic system designed to provide at least 65% total nitrogen reduction through multi-stage treatment processes shall be required if applicable. The change in use to a duplex, that allows for two-families, may have additional requirements. The applicant shall contact the Florida Department of Environmental Health at 321-633-2100.

Protected Species

Information available to NRM indicates that federally and/or state protected species may be present on the property. Specifically, gopher tortoises can be found in areas of aquifer recharge soils. In addition, the parcel is mapped with a Scrub Jay Occupancy polygon. The structure already has Certificate of Occupancy. If applicable, the applicant should obtain any necessary permits or clearance letters from the Florida Fish and Wildlife Conservation Commission and/or U.S. Fish and Wildlife Service.

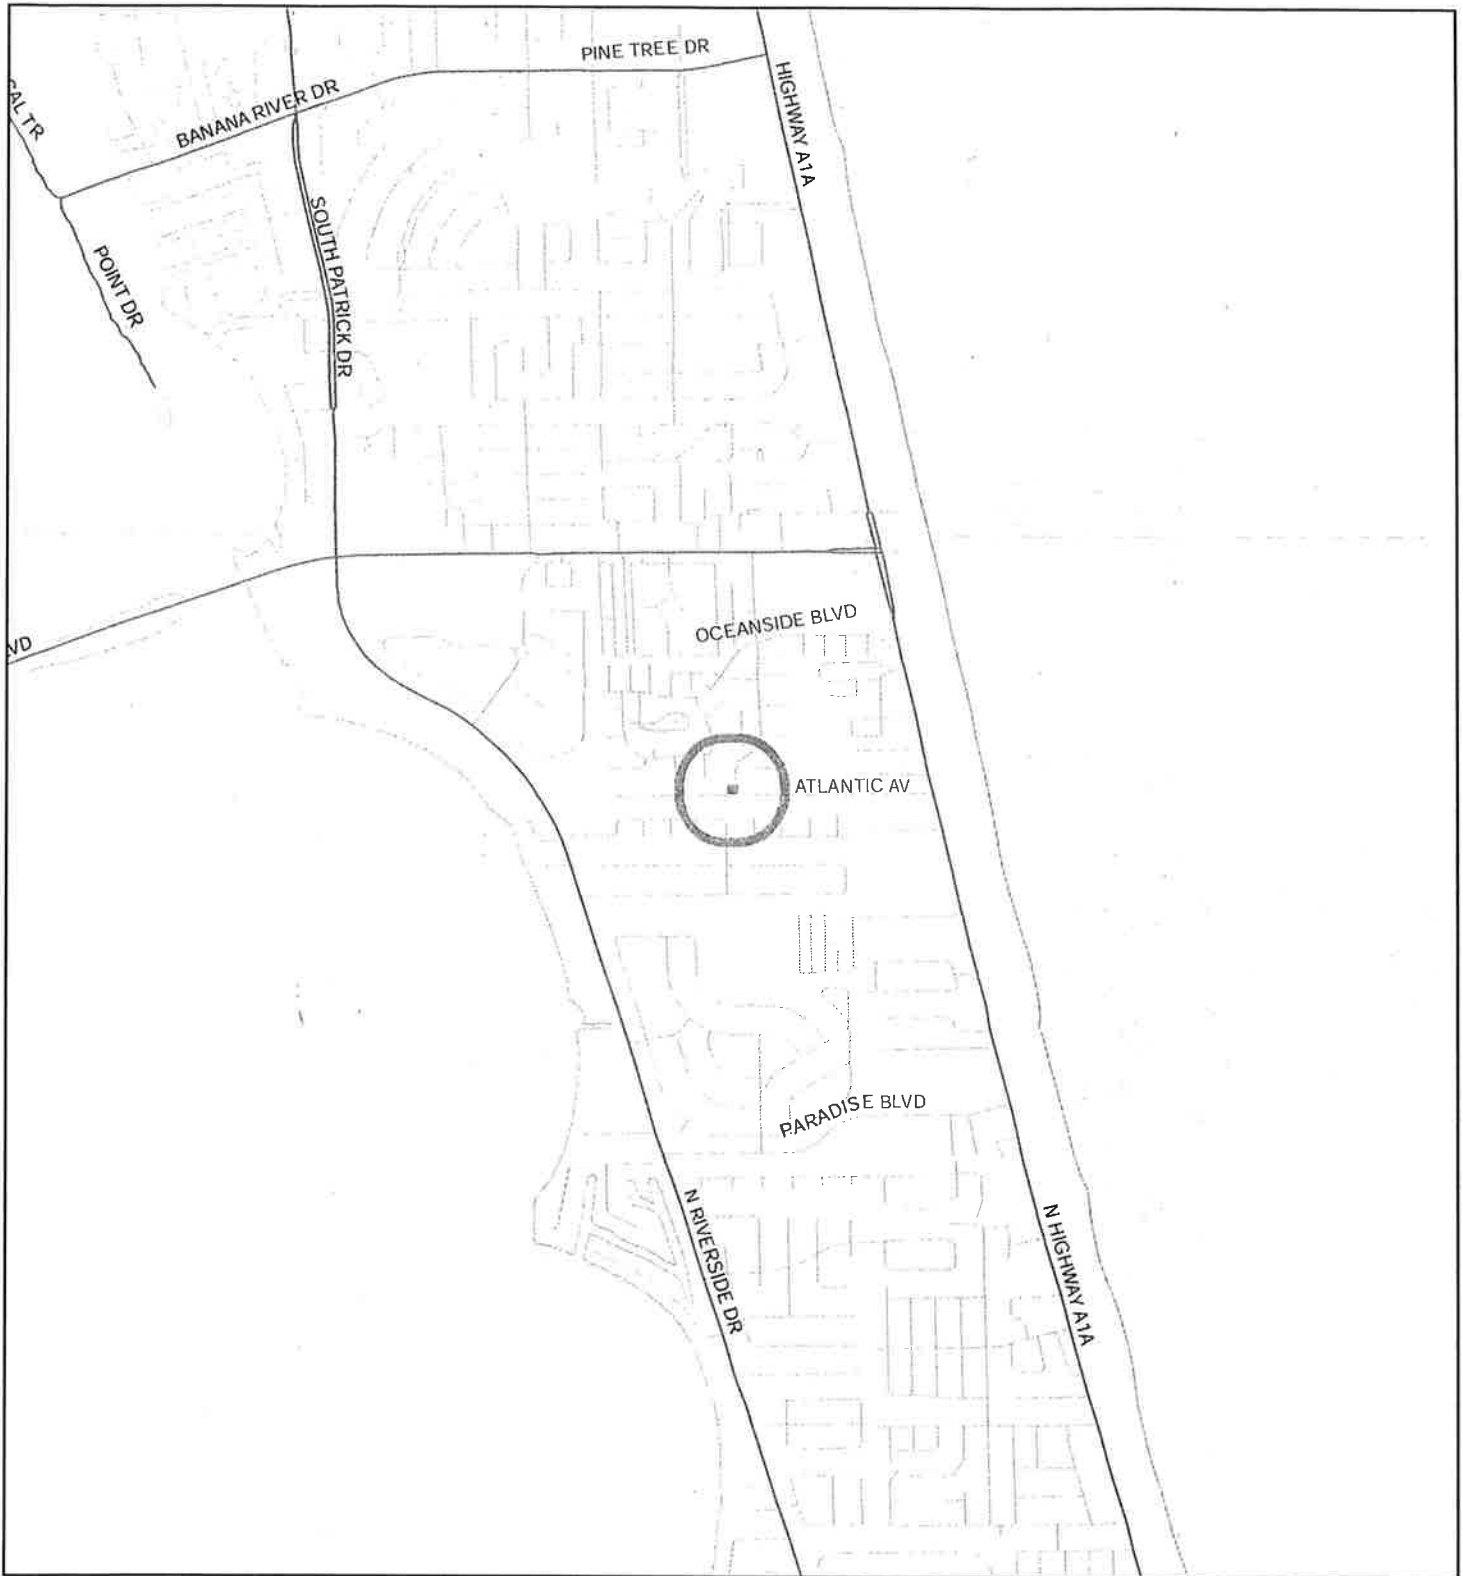

Land Clearing & Landscape Requirements

The applicant is advised to refer to Article XIII, Division 2, entitled Land Clearing, Landscaping, and Tree Protection, for specific requirements for preservation and canopy coverage requirements. Land clearing is not permitted without prior authorization by NRM.

OBJECTION
19PZ00124
DOC1

ID# 19PZ00124

It appears the property located at 159 Atlantic Ave, Indialantic, FL 32903 is already being used at a multi-family residence.

We are strongly opposed to this being changed from Single family to multi-family.

We feel this will bring down the property values. Also, it has been our experience that rental property is faced with many problems. The property is not kept up, devaluing property around it. Transient renters are less stable and more likely to mean that the risk of having a trouble maker tenant is higher.

It also appears that the owner already requested the change of zoning and was denied. It appears that they went ahead and built a multi-unit property anyway.

We are strongly opposed this to become multi-family.

Sincerely

A handwritten signature in cursive script, appearing to read "R. DuBois".

Ronald DuBois

Doc i

BREVARD COUNTY BOARD OF COUNTY COMMISSIONERS

From: James & Brenda Baker

158 Atlantic Ave

Indianapolis, FL 32903

Subject: Atlantic Ave Zoning Request RU-2-12

To Whom it may concern,

We strongly suggest against any zoning changes that would allow for multi-family or duplex housing on Atlantic Ave. Reference house is 159 Atlantic Ave which was built with the intention of becoming a duplex home after construction and includes identical side by side kitchens, two family rooms and two bedrooms. The front access way was left open but with the addition of a wall will turn this home into a duplex. Should the commission decide to grant zoning change we will consider litigation to prevent this from occurring. We spent two years in search of the perfect lot and street and decided on Atlantic Avenue to build a new home which was completed in August of 2019. We would not have considered this location if new homes were allowed to be duplexes as this would decrease our property values.

Sincerely,

James & Brenda Baker

OBJECTION
19PZ00124
Doc:

January 4th, 2020

Dear Brevard County Planning and Zoning Commissioners,

RE: ID#19PZ00124 Zoning change from Single-Family Residential to Medium Density Multi-Family Residential

We reside at 163 Atlantic Avenue, Indialantic, FL 32903

We strongly oppose this Zoning change for the following reasons:

- 1.) Multi-family rental housing has a negative effect on single family home property values.
- 2.) The property in question lacks proper setbacks, plumbing, electrical and septic specifications for multi family use,
- 3.) The west side of the dwelling lacks legal setback requirements from our single-family residence and home. A multi-family rental property as opposed to an owner occupied dwelling will have a substantially larger noise and foot traffic impact on our quality of life. The current setback was intended for a single-family home and we strongly oppose any variance be granted regarding this matter.
- 4.) The traffic load on Atlantic Avenue is currently at 100% capacity.
In recent years many new homes have been added to our diminished and narrow county road. Any additional vehicular traffic poses a safety risk to pedestrian traffic. If this property were to be rezoned it will exacerbate this issue further and set a detrimental precedent.
The ability of fire rescue, public safety and other county and city service vehicles will be compromised in their ability to access and service Atlantic Avenue. Decades ago, this street was never conceived with this population load and environmental impact. Enough is enough!
- 5.) The single-family building permit for this property was granted as such. The request to already convert the zoning on the heels of its recent completion bring into question whether the owners misrepresented their ultimate intent, and were less than transparent with our zoning process.

Truly,

Ronald and Leah Veser

OBJECTION
19P200124
Doc i

Roger and Nancy Sowerbutts

160 Atlantic Avenue

Indialantic,

Florida, 32903

Brevard County Planning and Zoning Commission

Planning and Development Department

2725 Judge Fran Jamieson Way, Building A

Viera, Florida 32940

January 6th 2020

To Whom it May Concern,

It has come to our attention that there has been a request for rezoning of the property located at 159 Atlantic Avenue, directly opposite our property.

We purchased our house with a long term plan to retire to a small community with a very personal feel, good neighbor's and a secure, safe and stable environment. When the property opposite was being built we raised questions as to the intended use when we noted two virtually identical sides to the house and the home plan indicated a two family intent. The zoning was clearly for a single family home, however, it was explained that it was the same family, just parents and son who would be sharing so the zoning was correct for the intent.

Now the request for re-zoning has come up it raises many issues for us as property owners, firstly was this the owners long term goal to build under a single family zoning and then try to rezone knowing full well the zoning status at the time? The possibility of having short term rentals in a single family neighborhood is concerning. Parking at 159 is a huge concern as it takes up the whole lot size with no garage, which would affect our property opposite with driveway access. The additional traffic on our narrow street, the possibility of an unknown number of renters, plumbing and drainage issues due to the size of the septic system, as well as the general effect on the environment are a concern to us and many neighbors.

We respectfully request that the board maintain the current zoning as was the intent for this area of Indialantic and continue with a logical and sensible approach to population growth and density for areas determined a long time ago to be for single family use.

Sincerely

Rm and Nancy Sowerbutts

RE: ID#19PZ00124 Zoning change from Single-Family Residential to Medium Density Multi Family Residential

Current owners of

100 Atlantic Ave, 102 Atlantic Ave, 106 Atlantic Ave, 108 Atlantic Ave and 110 Atlantic Ave

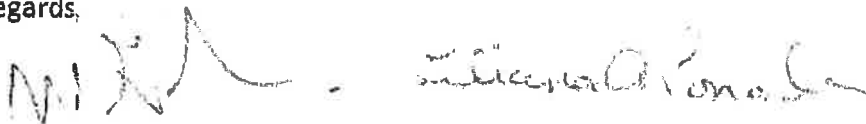

I have resided at 102 Atlantic Ave for 56 years. With additional family living on the street since 1947. I was also the developer of 117 Atlantic Ave two years ago, which at that time, I was not allowed to build a multi-family residential building.

My family and I have many concerns with additional traffic and the sheer fact that a house that was built within the last two years already has the appearance of a multi-family residence, and now they are trying get a variance for density codes which were already in place at the time of construction. Additionally, it is my understanding that two families are residing there at the property now and that the residence has two kitchens. It appears to me, that they are now asking for forgiveness instead of permission which was denied during the original permitting process.

Here are some additional concerns

- Additional noise and car traffic resulting from multi-family residence. Atlantic Ave is a narrow, dead end county street that already has significant traffic.
- Concerns of Fire rescue and other county vehicles to safely reach the existing properties on the street. If the property in question does not have sufficient parking for multi-family, cars would be parking on the street which would impact service vehicles as well as current residents.
- Additional traffic concerns for foot traffic and safety for current residents who walk/bike/run to the beach and nearby since the street has virtually no sidewalks forcing residents to use the road and share with vehicles.

RE: ID#19PZ00124 Zoning change from Single-Family Residential to Medium Density Multi Family Residential

I reside at 117 Atlantic Avenue and oppose the above referenced zoning change.

- Multi-family homes have a negative effect on Single Family property values
- Atlantic Ave is a narrow street with no sidewalks, multi-family homes on lots permitted for single family residences will add more traffic to an already congested street.
- Multi-family homes on lots designed for single family creates situations where more cars are parked on the streets. This raises concerns for fire, rescue and other county vehicles to safely reach the existing properties on the street. As well as concerns for current residents who walk, bike, run and share the road with vehicles.

Regards,

Jennifer L Snyder

Dear Brevard County planning and zoning commissioners:

RE:ID number 19PZ0012 for zoning change from single-family residential to medium density city multi family residential.

I live at Palm Colony condominiums in Indialantic, FL. I have multiple friends and family that live on Atlantic Ave and I visit them often. I am opposed to the zoning change as I have many concerns with additional traffic in that street. Due to the narrow 2 lane street, traffic is burdensome to begin with. Parking is also an issue when there are commercial/residential contractors doing work on any of these properties. Thank you for your consideration,

Marisol Masferrer

Dear Brevard County Planning and Zoning Board and Commissioners,

RE: ID#19PZ00124 Zoning change from Single-Family Residential to Medium Density Multi-Family Residential

We strongly oppose this Zoning change for the following reasons:

- 1.) Multi-family rental housing has a negative effect on single family home property values and the character of Atlantic Avenue.
- 2.) The property in question lacks proper setbacks, plumbing, electrical and septic specifications for multi family use,
- 3.) The west side of the dwelling lacks multiple legal setback requirements from other single-family residences. A multi-family rental property as opposed to an owner occupied dwelling will have a substantially larger noise and foot traffic impact on their quality of life. The current setback was intended for a single-family home and we strongly oppose any variance be granted regarding this matter.
- 4.) The traffic load on Atlantic Avenue is currently at 100% capacity. In recent years many new homes have been added to our diminished and narrow county road. Any additional vehicular traffic poses a safety risk to pedestrian traffic. If this property were to be rezoned it will exacerbate this issue further and set a detrimental precedent.
The ability of fire rescue, public safety and other county and city service vehicles will be compromised in their ability to access and service Atlantic Avenue. Decades ago, this street was never conceived with this population load and environmental impact. Enough is enough!
- 5.) The single-family building permit for this property was granted as such. The request to already convert the zoning on the heels of its recent completion bring into question whether the owners misrepresented their ultimate intent, and were less than transparent with the Brevard County zoning process and it's agents.

Truly,

To: Brevard County Planning and Zoning Commissioners

From: Karen Holloway-Adkins and Daryl Adkins,

Homeowners on Atlantic Ave., Indialantic, FL

Re: ID#19PZ00124 Zoning change from single-family residential to medium density multi-family residential

Dear Planning and Zoning Commissioners,

We are writing to you in opposition of a request to change the previous zoning from a single-family residential to a multi-family residential on Atlantic Ave. (ID#19PZ00124). We are aware of the request for this change that was considered by the homeowner only after they had proceeded and completed the construction of a multi-family resident in violation of the Brevard County's current planning and zoning regulations for this area. Our opposition is based on the following anticipated impacts to the current and future status, economics and environment for the residents within adjacent properties on Atlantic Ave.:

- Multi-family properties are typically rental properties which have a negative impact on surrounding single-family property values.
- Legal setbacks from the road and adjacent properties appear to have been compromised in the construction.
- The property was built without garage(s) space and currently 50% of the front yard has been converted to two driveways on either side of the property. The septic system occupies the area between the two driveways (see next point)
- We question the capacity of the single-family residential septic system that was installed under the current occupancy-load. A multi-family system would require additional septic capacity and said property is not likely large enough to support this expansion.

In addition, a two-story structure has been constructed in the backyard that interferes with the privacy of adjacent neighbors and has likely not been permitted.

We anticipate that the current reasoning to officially/properly request a change to the residential zoning for this property is either for the purposes of renting the property as a duplex or for the re-sale value to the homeowner to sell the property as a multi-family rental property. The request to convert the zoning of this property after the dwelling's construction has been completed for several months raises suspicion. Intended or otherwise, there is a seeming lack of compliance and/or respect for current zoning regulations as well as no consideration to the impacts to neighbors and residents of this street. We oppose this zoning change.

Thank you for your time and consideration,

Karen G. H. Adkins

ADMINISTRATIVE POLICIES OF THE FUTURE LAND USE ELEMENT

Administrative Policies in the Future Land Use Element establish the expertise of staff with regard to zoning land use issues and set forth criteria when considering a rezoning action or request for Conditional Use Permit, as follows:

Administrative Policy 1

The Brevard County zoning official, planners and the director of the Planning and Development staff, however designated, are recognized as expert witnesses for the purposes of Comprehensive Plan amendments as well as zoning, conditional use, special exception, and variance applications.

Administrative Policy 2

Upon Board request, members of the Brevard County Planning and Development staff shall be required to present written analysis and a recommendation, which shall constitute an expert opinion, on all applications for development approval that come before the Board of County Commissioners for quasi-judicial review and action. The Board may table an item if additional time is required to obtain the analysis requested or to hire an expert witness if the Board deems such action appropriate. Staff input may include the following:

Criteria:

- A. Staff shall analyze an application for consistency or compliance with comprehensive plan policies, zoning approval criteria and other applicable written standards.
- B. Staff shall conduct site visits of property which are the subject of analysis and recommendation. As part of the site visit, the staff shall take a videotape or photographs where helpful to the analysis and conduct an inventory of surrounding existing uses. Aerial photographs shall also be used where they would aid in an understanding of the issues of the case.
- C. In cases where staff analysis is required, both the applicant and the staff shall present proposed findings of fact for consideration by the Board.
- D. For re-zoning applications where a specific use has not been proposed, the worst case adverse impacts of potential uses available under the applicable land use classification shall be evaluated by the staff.

Administrative Policy 3

Compatibility with existing or proposed land uses shall be a factor in determining where a rezoning or any application involving a specific proposed use is being considered. Compatibility shall be evaluated by considering the following factors, at a minimum:

Criteria:

- A. Whether the proposed use(s) would have hours of operation, lighting, odor, noise levels, traffic, or site activity that would significantly diminish the enjoyment of, safety or quality of life in existing neighborhoods within the area which could foreseeably be affected by the proposed use.
- B. Whether the proposed use(s) would cause a material reduction (five percent or more) in the value of existing abutting lands or approved development.
- C. Whether the proposed use(s) is/are consistent with an emerging or existing pattern of surrounding development as determined through analysis of: 292

1. historical land use patterns;
 2. actual development over the immediately preceding three years; and
 3. development approved within the past three years but not yet constructed.
- D. Whether the proposed use(s) would result in a material violation of relevant policies in any elements of the Comprehensive Plan.

Administrative Policy 4

Character of a neighborhood or area shall be a factor for consideration whenever a rezoning or any application involving a specific proposed use is reviewed. The character of the area must not be materially or adversely affected by the proposed rezoning or land use application. In evaluating the character of an area, the following factors shall be considered:

Criteria:

- A. The proposed use must not materially and adversely impact an established residential neighborhood by introducing types of intensity of traffic (including but not limited to volume, time of day of traffic activity, type of vehicles, et cetera), parking, trip generation, commercial activity or industrial activity that is not already present within the identified boundaries of the neighborhood.
- B. In determining whether an established residential neighborhood exists, the following factors must be present:
 1. The area must have clearly established boundaries, such as roads, open spaces, rivers, lakes, lagoons, or similar features.
 2. Sporadic or occasional neighborhood commercial uses shall not preclude the existence of an existing residential neighborhood, particularly if the commercial use is non-conforming or pre-dates the surrounding residential use.
 3. An area shall be presumed not to be primarily residential but shall be deemed transitional where multiple commercial, industrial or other non-residential uses have been applied for and approved during the previous five (5) years.

Administrative Policy 5

In addition to the factors specified in Administrative Policies 2, 3, and 4, in reviewing a rezoning, conditional use permit or other application for development approval, the impact of the proposed use or uses on transportation facilities either serving the site or impacted by the use(s) shall be considered. In evaluating whether substantial and adverse transportation impacts are likely to result if an application is approved, the staff shall consider the following criteria:

Criteria:

- A. Whether adopted levels of services will be compromised;
- B. Whether the physical quality of the existing road system that will serve the proposed use(s) is sufficient to support the use(s) without significant deterioration;

- C. Whether the surrounding existing road system is of sufficient width and construction quality to serve the proposed use(s) without the need for substantial public improvements;
- D. Whether the surrounding existing road system is of such width and construction quality that the proposed use(s) would realistically pose a potential for material danger to public safety in the surrounding area;
- E. Whether the proposed use(s) would be likely to result in such a material and adverse change in traffic capacity of a road or roads in the surrounding area such that either design capacities would be significantly exceeded or a de facto change in functional classification would result;
- F. Whether the proposed use(s) would cause such material and adverse changes in the types of traffic that would be generated on the surrounding road system, that physical deterioration of the surrounding road system would be likely;
- G. Whether projected traffic impacts of the proposed use(s) would materially and adversely impact the safety or welfare of residents in existing residential neighborhoods.

Administrative Policy 6

The use(s) proposed under the rezoning, conditional use or other application for development approval must be consistent with, (a), all written land development policies set forth in these administrative policies; and (b), the future land use element, coastal management element, conservation element, potable water element, sanitary sewer element, solid waste management element, capital improvements element, recreation and open space element, surface water element, and transportation elements of the comprehensive plan.

Administrative Policy 7

Proposed use(s) shall not cause or substantially aggravate any, (a), substantial drainage problem on surrounding properties; or (b), significant, adverse and unmitigatable impact on significant natural wetlands, water bodies or habitat for listed species.

Administrative Policy 8

These policies, the staff analysis based upon these policies, and the applicant's written analysis, if any, shall be incorporated into the record of every quasi-judicial review application for development approval presented to the Board including rezoning, conditional use permits, and vested rights determinations.

Section 62-1151(c) of the Code of Ordinances of Brevard County directs, "The planning and zoning board shall recommend to the board of county commissioners the denial or approval of each application for amendment to the official zoning maps based upon a consideration of the following factors:

- (1) The character of the land use of the property surrounding the property being considered.
- (2) The change in conditions of the land use of the property being considered and the surrounding property since the establishment of the current applicable zoning classification, special use or conditional use.

- (3) The impact of the proposed zoning classification or conditional use on available and projected traffic patterns, water and sewer systems, other public facilities and utilities and the established character of the surrounding property.
- (4) The compatibility of the proposed zoning classification or conditional use with existing land use plans for the affected area.
- (5) The appropriateness of the proposed zoning classification or conditional use based upon a consideration of the applicable provisions and conditions contained in this article and other applicable laws, ordinances and regulations relating to zoning and land use regulations and based upon a consideration of the public health, safety and welfare.

The minutes of the planning and zoning board shall specify the reasons for the recommendation of approval or denial of each application."

CONDITIONAL USE PERMITS (CUPs)

In addition to the specific requirements for each Conditional Use Permit (CUP), Section 62-1901 provides that the following approval procedure and general standards of review are to be applied to all CUP requests, as applicable.

- (b) Approval procedure. An application for a specific conditional use within the applicable zoning classification shall be submitted and considered in the same manner and according to the same procedure as an amendment to the official zoning map as specified in Section 62-1151. The approval of a conditional use shall authorize an additional use for the affected parcel of real property in addition to those permitted in the applicable zoning classification. The initial burden is on the applicant to demonstrate that all applicable standards and criteria are met. Applications which do not satisfy this burden cannot be approved. If the applicant meets its initial burden, then the Board has the burden to show, by substantial and competent evidence, that the applicant has failed to meet such standards and the request is adverse to the public interest. As part of the approval of the conditional use permit, the Board may prescribe appropriate and reasonable conditions and safeguards to reduce the impact of the proposed use on adjacent and nearby properties or the neighborhood. A nearby property, for the purpose of this section, is defined as any property which, because of the character of the proposed use, lies within the area which may be substantially and adversely impacted by such use. In stating grounds in support of an application for a conditional use permit, it is necessary to show how the request fulfills both the general and specific standards for review. The applicant must show the effect the granting of the conditional use permit will have on adjacent and nearby properties, including, but not limited to traffic and pedestrian flow and safety, curb-cuts, off-street loading and parking, off-street pickup of passengers, odors, glare and noise, particulates, smoke, fumes, and other emissions, refuse and service areas, drainage, screening and buffering for protection of adjacent and nearby properties, and open space and economic impact on nearby properties. The applicant, at his discretion, may choose to present expert testimony where necessary to show the effect of granting the conditional use permit.

(c) General Standards of Review.

- (1) The planning and zoning board and the board of county commissioners shall base the denial or approval of each application for a conditional use based upon

a consideration of the factors specified in Section 62-1151(c) plus a determination whether an application meets the intent of this section.

- a. The proposed conditional use will not result in a substantial and adverse impact on adjacent and nearby properties due to: (1), the number of persons anticipated to be using, residing or working under the conditional use; (2), noise, odor, particulates, smoke, fumes and other emissions, or other nuisance activities generated by the conditional use; or (3), the increase of traffic within the vicinity caused by the proposed conditional use.
 - b. The proposed use will be compatible with the character of adjacent and nearby properties with regard to use, function, operation, hours of operation, type and amount of traffic generated, building size and setback, and parking availability.
 - c. The proposed use will not cause a substantial diminution in value of abutting residential property. A substantial diminution shall be irrebuttably presumed to have occurred if abutting property suffers a 15% reduction in value as a result of the proposed conditional use. A reduction of 10% of the value of abutting property shall create a rebuttable presumption that a substantial diminution has occurred. The Board of County Commissioners carries the burden to show, as evidenced by either testimony from or an appraisal conducted by an M A I certified appraiser, that a substantial diminution in value would occur. The applicant may rebut the findings with his own expert witnesses.
- (2) The following specific standards shall be considered, when applicable, in making a determination that the general standards specified in subsection (1) of this section are satisfied:
- a. Ingress and egress to the property and proposed structures thereon, with particular reference to automotive and pedestrian safety and convenience, traffic flow and control, and access in case of fire and catastrophe, shall be: (1), adequate to serve the proposed use without burdening adjacent and nearby uses, and (2), built to applicable county standards, if any. Burdening adjacent and nearby uses means increasing existing traffic on the closest collector or arterial road by more than 20%, or 10% if the new traffic is primarily comprised of heavy vehicles, except where the affected road is at Level of Service A or B. New traffic generated by the proposed use shall not cause the adopted level of service for transportation on applicable roadways, as determined by applicable Brevard County standards, to be exceeded. Where the design of a public road to be used by the proposed use is physically inadequate to handle the numbers, types or weights of vehicles expected to be generated by the proposed use without damage to the road, the conditional use permit cannot be approved without a commitment to improve the road to a standard adequate to handle the proposed traffic, or to maintain the road through a maintenance bond or other means as required by the Board of County Commissioners.
 - b. The noise, glare, odor, particulates, smoke, fumes or other emissions from the conditional use shall not substantially interfere with the use or enjoyment of the adjacent and nearby property.
 - c. Noise levels for a conditional use are governed by Section 62-2271.

- d. The proposed conditional use shall not cause the adopted level of service for solid waste disposal applicable to the property or area covered by such level of service, to be exceeded.
- e. The proposed conditional use shall not cause the adopted level of service for potable water or wastewater applicable to the property or the area covered by such level of service, to be exceeded by the proposed use.
- f. The proposed conditional use must have existing or proposed screening or buffering, with reference to type, dimensions and character to eliminate or reduce substantial, adverse nuisance, sight, or noise impacts on adjacent and nearby properties containing less intensive uses.
- g. Proposed signs and exterior lighting shall not cause unreasonable glare or hazard to traffic safety, or interference with the use or enjoyment of adjacent and nearby properties.
- h. Hours of operation of the proposed use shall be consistent with the use and enjoyment of the properties in the surrounding residential community, if any. For commercial and industrial uses adjacent to or near residential uses, the hours of operation shall not adversely affect the use and enjoyment of the residential character of the area.
- i. The height of the proposed use shall be compatible with the character of the area, and the maximum height of any habitable structure shall be not more than 35 feet higher than the highest residence within 1,000 feet of the property line.
- j. Off-street parking and loading areas, where required, shall not be created or maintained in a manner which adversely impacts or impairs the use and enjoyment of adjacent and nearby properties. For existing structures, the applicant shall provide competent, substantial evidence to demonstrate that actual or anticipated parking shall not be greater than that which is approved as part of the site plan under applicable county standards.

FACTORS TO CONSIDER FOR A REZONING REQUEST

Section 62-1151(c) sets forth factors to consider in connection with a rezoning request, as follows:

"The planning and zoning board shall recommend to the board of county commissioners the denial or approval of each application for amendment to the official zoning maps based upon a consideration of the following factors:

- (1) The character of the land use of the property surrounding the property being considered.
- (2) The change in conditions of the land use of the property being considered and the surrounding property since the establishment of the current applicable zoning classification, special use or conditional use.
- (3) The impact of the proposed zoning classification or conditional use on available and projected traffic patterns, water and sewer systems, other public facilities and utilities and the established character of the surrounding property.

- (4) The compatibility of the proposed zoning classification or conditional use with existing land use plans for the affected area.
- (5) The appropriateness of the proposed zoning classification or conditional use based upon a consideration of the applicable provisions and conditions contained in this article and other applicable laws, ordinances and regulations relating to zoning and land use regulations and based upon a consideration of the public health, safety and welfare."

These staff comments contain references to zoning classifications found in the Brevard County Zoning Regulations, Chapter 62, Article VI, Code of Ordinances of Brevard County. These references include brief summaries of some of the characteristics of that zoning classification. Reference to each zoning classification shall be deemed to incorporate the full text of the section or sections defining and regulating that classification into the Zoning file and Public Record for that item.

These staff comments contain references to sections of the Code of Ordinances of Brevard County. Reference to each code section shall be deemed to incorporate this section into the Zoning file and Public Record for that item.

These staff comments contain references to Policies of the Brevard County Comprehensive Plan. Reference to each Policy shall be deemed to incorporate the entire Policy into the Zoning file and Public Record for that item.

These staff comments refer to previous zoning actions which are part of the Public Records of Brevard County, Florida. These records will be referred to by reference to the file number. Reference to zoning files are intended to make the entire contents of the cited file a part of the Zoning file and Public Record for that item.

DEFINITIONS OF CONCURRENCY TERMS

Maximum Acceptable Volume (MAV): Maximum acceptable daily volume that a roadway can carry at the adopted Level of Service (LOS).

Current Volume: Building permit related trips added to the latest TPO (Transportation Planning Organization) traffic counts.

Volume with Development (VOL W/DEV): Equals Current Volume plus trip generation projected for the proposed development.

Volume/Maximum Acceptable Volume (VOL/MAV): Equals the ratio of current traffic volume to the maximum acceptable roadway volume.

Volume/Maximum Acceptable Volume with Development (VOL/MAV W/DEV): Ratio of volume with development to the Maximum Acceptable Volume.

Acceptable Level of Service (CURRENT LOS): The Level of Service at which a roadway is currently operating.

Level of Service with Development (LOS W/DEV): The Level of Service that a proposed development may generate on a roadway.

Sec. 62-1255. - Establishment of zoning classifications and consistency with comprehensive plan.

(a) *Zoning classifications established.* Within the unincorporated areas of the county, the following zoning classifications are hereby established, such zoning classifications being created under this article or being zoning classifications incorporated by reference under this article:

- (1) Unimproved, agricultural and residential zoning classifications:
 - a. General use zoning classification, GU.
 - b. Productive agricultural zoning classification, PA.
 - c. Agricultural zoning classification, AGR.
 - d. Agricultural residential zoning classification, AU.
 - e. Rural estate use residential zoning classification, REU.
 - f. Rural residential zoning classification, RR-1.
 - g. Suburban estate residential use zoning classification, SEU.
 - h. Suburban residential zoning classification, SR.
 - i. Estate use residential zoning classifications, EU, EU-1 and EU-2.
 - j. Single-family residential zoning classifications, RU-1-13 and RU-1-11.
 - k. Single-family residential zoning classification, RU-1-9.
 - l. Single-family residential zoning classification, RU-1-7.
 - m. Single-family attached residential zoning classifications, RA-2-4, RA-2-6, RA-2-8 and RA-2-10.
 - n. Residential-professional zoning classification, RP.
- (2) Multiple-family residential zoning classifications:
 - a. Low-density multiple-family residential zoning classifications, RU-2-4, RU-2-6 and RU-2-8.
 - b. Medium-density multiple-family residential zoning classifications, RU-2-10, RU-2-12 and RU-2-15.
 - c. High-density multiple-family residential zoning classification, RU-2-30.
- (3) Mobile home residential and recreational vehicle park zoning classifications:
 - a. Rural residential mobile home zoning classifications, RRMH-1, RRMH-2.5 and RRMH-5.
 - b. Single-family mobile home zoning classifications, TR-1 and TR-1-A.
 - c. Single-family mobile home zoning classification, TR-2.
 - d. Mobile home park zoning classification, TR-3.
 - e. Single-family mobile home cooperative zoning classification, TRC-1.
 - f. Recreational vehicle park zoning classification, RVP.
- (4) Planned unit development zoning classifications:
 - a. Planned unit development zoning classification, PUD.
 - b. Residential planned unit development zoning classification, RPUD.
 - c. Tiny House planned unit development zoning classification, THPUD.
- (5) Commercial zoning classifications:
 - a. Restricted neighborhood retail commercial zoning classification, BU-1-A.
 - b. General retail commercial zoning classification, BU-1.
 - c. Retail, warehousing and wholesale commercial zoning classification, BU-2.
- (6) Tourist commercial and transient commercial zoning classifications:
 - a. General tourist commercial zoning classification, TU-1.

- b. Transient tourist commercial zoning classification, TU-2.
- (7) Industrial zoning classifications:
 - a. Planned business park zoning classification, PBP.
 - b. Planned industrial park zoning classification, PIP.
 - c. Light industrial zoning classification, IU.
 - d. Heavy industrial zoning classification, IU-1.
- (8) Special zoning classifications:
 - a. Environmental area zoning classification, EA.
 - b. Government managed land zoning classification, GML.
 - c. Institutional zoning classification, IN.
- (b) *Consistency of zoning classifications with comprehensive plan.* The 1988 county comprehensive plan establishes specific future land use designations, which are depicted on the future land use map within the future land use element. The future land use element also has policies and criteria which delineate how the various designations shall be applied. The zoning classifications depicted on the official zoning map of the county shall be consistent with the future land use map and the policies and criteria relating to the application of future land use designations on the future land use map.
- (1) *Future land use designations.*
 - a. *Residential.* Residential uses include single-family detached, single-family attached, multiple-family, recreational vehicle park and mobile home developments.
 - 1. Residential 30:
 - A. Maximum, unless otherwise provide herein: 30 units per acre.
 - B. Merritt Island redevelopment area: Development containing a mixture of uses: 50 units per acre per policy 1.3(B)(2) of the Future Land Use Element.
 - C. Redevelopment district: 37.5 units per acre per policies 1.3(B)(1) and 11.2(F) of the Future Land Use Element.
 - D. Planned unit development: 37.5 units per acre per policy 1.3(C) of the Future Land Use Element.
 - 2. Residential 15:
 - A. Maximum, unless otherwise provide herein: 15 units per acre.
 - B. Redevelopment district: 18.75 units per acre per policy 11.2(F) of the Future Land Use Element.
 - C. Planned unit development: 18.75 units per acre per policy 1.4(E) of the Future Land Use Element.
 - 3. Residential 10:
 - A. Maximum, unless otherwise provide herein: 10 units per acre.
 - B. Redevelopment district: 12.5 units per acre per policy 11.2(F) of the Future Land Use Element.
 - C. Planned unit development: 12.5 units per acre per policy 1.5(E) of the Future Land Use Element.
 - 4. Residential 6:
 - A. Maximum, unless otherwise provide herein: 6 units per acre.
 - B. Redevelopment district: 7.5 units per acre per policy 11.2(F) of the Future Land Use Element.
 - C. Planned unit development: 7.5 units per acre per policy 1.6(D) of the Future Land Use Element.
 - 5. Residential 4:
 - A. Maximum, unless otherwise provide herein: 4 units per acre.
 - B. Redevelopment district: 5 units per acre per policy 11.2(F) of the Future Land Use Element.

- C. Planned unit development: 5 units per acre per policy 1.7(D) of the Future Land Use Element.
 - 6. Residential 2:
 - A. Maximum, unless otherwise provide herein: 2 units per acre.
 - B. Redevelopment district: 2.5 units per acre per policy 11.2(F) of the Future Land Use Element.
 - C. Planned unit development: 2.5 units per acre per policy 1.8(D) of the Future Land Use Element.
 - 7. Residential 1:
 - A. Maximum, unless otherwise provide herein: 1 unit per acre.
 - B. Redevelopment district: 1.25 units per acre per policy 11.2(F) of the Future Land Use Element.
 - C. Planned unit development: 1.25 units per acre per policy 1.9(D) of the Future Land Use Element.
 - 8. Residential 1:2.5: 1 unit per 2.5 acres.
 - b. *Neighborhood commercial*. Appropriate uses within the neighborhood commercial designation are specified in the Future Land Use Element. Residential densities shall be subject to the conditions set forth in the Future Land Use Element.
 - c. *Community commercial*. Appropriate uses within the community commercial designation are specified in the Future Land Use Element. Residential densities shall be subject to the conditions set forth in the Future Land Use Element.
 - d. *Planned industrial*. Appropriate uses within the planned industrial designation are specified in the Future Land Use Element.
 - e. *Heavy/light industrial*. Appropriate uses within the heavy/light industrial designation are specified in the Future Land Use Element.
 - f. *Agricultural*. Appropriate uses within the agricultural designation are specified in the Future Land Use Element. Residential densities shall not exceed one dwelling unit per five acres.
 - g. *Public facilities*. Appropriate uses within the public facilities designation are specified in the Future Land Use Element.
 - h. *Recreation*. Recreation uses include all public parks and recreational facilities.
 - i. *Public conservation*. Conservation land uses include lands under the ownership of the county, the St. Johns River Water Management District or other such agencies for the purpose of environmental protection and lands within the environmental area (EA) zoning classification. Residential densities shall not exceed one unit per 50 acres.
 - j. *Private conservation*. Conservation land uses include lands under private ownership and are zoned (EA) zoning classification. Residential densities shall not exceed one unit per ten acres.
 - k. *Developments of Regional Impact (DRI)*. DRI land uses include lands that have an adopted Development Order pursuant to the requirements of Chapter 380, Florida Statutes, Chapters 9J-12 and 28-24 Florida Administrative Code and applicable local ordinances.
- (2) *Consistency with future land use map*. The following table depicts where the various zoning classifications can be considered based upon the geographic delineation of future land uses on the future land use map and locational criteria defined in the policies of the future land use element of the 1988 county comprehensive plan. Where an application for a change of residential zoning classification is not consistent with the residential future land use map designation as depicted on the following table, the rezoning may be considered if the applicant limits the project to a density equal to or less than the maximum density threshold for the subject property.

Agenda Report

2725 Judge Fran Jamieson
Way
Viera, FL 32940

Public Hearing

H.1.

2/6/2020

Subject:

Zamira and Gezim Doci (Andi Doci) request a change of zoning classification from RU-1-7 to RU-2-12. (19PZ00124) (Tax Account 2716189) (District 5)

Fiscal Impact:

None

Dept/Office:

Planning and Development

Requested Action:

It is requested that the Board of County Commissioners conduct a public hearing to consider a change of zoning classification from RU-1-7 (Single-Family Residential) to RU-2-12 (Medium Density Multi-Family Residential).

Summary Explanation and Background:

The applicants are seeking a change of zoning classification from RU-1-7 to RU-2-12 on 0.18 acres. The subject property is located at 159 Atlantic Avenue, Indialantic. The applicants intend to convert the existing single-family residence into a duplex.

The property is comprised of two lots which were combined to meet the RU-1-7 lot dimension requirements and allow a single-family residence. While the current single-family residence meets the setbacks for the RU-1-7 zoning classification, converting the SFR into a duplex will require three variances for the development standards for RU-2-12. The required variances include one for lot coverage and two for setbacks (front and side).

The proposed RU-2-12 zoning classification may be considered to be consistent with the Future Land Use designation of Residential 15. However, Policy 1.2 of the Comprehensive Plan, "Where public water service is available, residential development proposals with densities greater than four units per acre shall be required to connect to a centralized sewer system." The proposed density for the application exceeds this requirement with 11.1 dwelling unit per acre. The subject property is currently serviced with potable water by the City of Melbourne. The closest sewer line is approximately 2,000 ft. away, along the eastside of N. Highway A1A.

The property is bound on the east and west by single-family residences zoned RU-1-7; the property to the north is in the City of Melbourne and developed with single-family residences in an R-2(10) zoning classification, with a Future Land Use designation of Medium Density Residential. While the closest multi-family zoned property (RU-2-10) is more than a quarter of mile from the subject property, there are no emerging development trends of changing single family to multi-family within the one-half mile radius.

313

The Board may wish to consider whether the allowed uses including, but not limited to, a duplex, resort dwellings, group homes (level II), or a boarding house, within the RU-2-12 zoning classification are consistent and compatible with the surrounding single-family residential dwellings. Additionally, the Board may wish to consider the availability of central sewer and necessity of the aforementioned variances to support the increased development potential.

On January 13, 2020, the Planning and Zoning Board heard the request and unanimously recommended denial.

Clerk to the Board Instructions:

Once resolution is received, please execute and return to Planning and Development.
