Subject:

Florida Fish and Wildlife Conservation Commission contract number FWC21215 - Aquatic Vegetation Control Services

Fiscal Impact:

FY 2022-2023: Potential revenue of \$30,000 to the Brevard Mosquito Control District, and similar potential revenue for each of the following years of the three-year contract.

Dept/Office:

Mosquito Control

Requested Action:

It is requested that the Brevard Mosquito Control District Board authorize the Board Chair to sign the State of Florida, Florida Fish and Wildlife Conservation Commission, Contract Number FWC21215. The contract has been reviewed and approved by the County Attorney's Office, Purchasing, and Risk Management.

Summary Explanation and Background:

The Brevard Mosquito Control District provides aquatic vegetation control services on eligible water bodies within Brevard County as a contractor for the Florida Fish and Wildlife Conservation Commission (FWC). Aquatic vegetation management is a program under FWC's Division of Habitat and Species Conservation, Invasive Plant Management Section. FWC has awarded this Contract to the District for over thirty years pursuant to the requirements of Sections 287.057, Florida Statutes (F.S.) to benefit the State of Florida, its resources, wildlife, and public welfare by reducing the negative impacts of invasive nonindigenous plants in public water bodies. The average annual revenue received by the Mosquito Control District over the last ten years was \$29,441.

Aquatic plant management offers a mutual benefit to the Brevard Mosquito Control District by helping to reduce the mosquito breeding capacity of such public water bodies in Brevard County which, in turn, provides public health benefits by reducing the risk of mosquito-borne diseases to Brevard County residents. By keeping waterways clear of invasive nonindigenous vegetation, natural predators, such as native fish and invertebrates, are able to control mosquito larvae at the source. The District has the resources to effectively conduct these services since aquatic vegetation management is a routine part of the local Mosquito Control program.

Clerk to the Board Instructions:

Please contact the Mosquito Control Department at 264-5032 when the Board action and two original executed FWC contracts are ready for pick up.

INTRODUCTORY CLAUSES

The Commission and the Contractor intend to partner together to provide all labor, equipment, and herbicides for aquatic vegetation control services on eligible water bodies within Brevard County;

The Commission has awarded this Contract pursuant to the requirements of Sections 287.057, Florida Statutes (F.S.); and such benefits are for the ultimate good of the State of Florida, its resources, wildlife, and public welfare.

TERMS OF THE CONTRACT

The Commission and the Contractor, for the considerations stated in this Contract, agree as follows:

Section 1. PROJECT DESCRIPTION

The Contractor shall provide the services and products, and perform the specific responsibilities and obligations, as set forth in the Scope of Work, attached hereto as Attachment A, which specifically identifies project tasks and accompanying deliverables. These deliverables must be submitted and approved by the Commission prior to any payment. The Commission will not accept any deliverable that does not comply with the specified required minimum level of service to be performed and the criteria for evaluating the successful completion of each deliverable. If this Contract was competitively procured, the Contractor's response to the Commission's solicitation is hereby incorporated by reference.

Section 2. PERFORMANCE

A. Contractor Performance.

The Contractor shall perform the activities described in Attachment A in a proper and satisfactory manner. Unless otherwise provided for in Attachment A, any and all equipment, products, or materials necessary or appropriate to perform under this Contract shall be supplied by the Contractor. The Contractor shall obtain all necessary local, state, and federal authorizations necessary to complete this project, and the Contractor shall be licensed as necessary to perform

under this Contract as may be required by law, rule, or regulation; the Contractor shall provide evidence of such compliance to the Commission upon request. The Contractor shall procure all supplies and pay all charges, fees, taxes, and incidentals that may be required for the completion of this Contract. By acceptance of this Contract, the Contractor warrants that it has the capability, integrity, and reliability to assure good-faith performance. The Contractor shall immediately notify the Commission's Contract Manager in writing if its ability to perform under the Contract is compromised in any manner during the term of the Contract. The Commission shall take appropriate action, including potential termination of this Contract in the event the Contractor's ability to perform under this Contract becomes compromised.

B. Contractor Responsibilities.

The Contractor agrees that all the Contractor employees, subcontractors, or agents performing work under the Contract shall be properly trained technicians who meet or exceed any specified training qualifications. Upon request, the Contractor shall furnish a copy of technical certification or other proof of qualification. All employees, subcontractors, or agents performing work under the Contract must comply with all security and administrative requirements of the Commission. The Commission may conduct, and the Contractor shall cooperate in, a security background check or otherwise assess any employee, subcontractor, or agent furnished by the Contractor. The Commission may refuse access to, or require replacement of, any personnel for cause, including, but not limited to, technical or training qualifications, quality of work, change in security status, or non-compliance with the Commission's security or other requirements. Such refusal shall not relieve the Contractor of its obligation to perform all work in compliance with the Contract. The Commission may reject and bar from any facility for cause any of the Contractor's employees, subcontractors, or agents.

C. Commission Rights to Assign or Transfer.

The Contractor agrees that the State of Florida shall at all times be entitled to assign or transfer its rights, duties, or obligations under this Contract to another governmental agency in the State of Florida, upon giving prior written notice to the Contractor.

Section 3. CONTRACT PERIOD

A. Contract Period and Limited Obligation Period.

This Contract shall begin upon execution by both Parties, or February 28, 2022, (whichever is later), and end three-years after date of execution or after February 28, 2022, inclusive. The Commission shall not be obligated to pay for costs related to this Contract prior to its beginning date or after its ending date.

B. Renewal – Competitive Procurement.

If this Contract was competitively procured pursuant to Section 287.057, Florida Statutes, the renewal price(s) must be set forth in the Contractor's response to the Commission's bid document. The renewal price(s) for this Contract are included in Attachment A. If applicable, renewal of this Contract shall be subject to the availability of funds, satisfactory performance evaluations by the Commission, and at the discretion of the Commission; it must also be in writing and subject to the

same terms and conditions of this Contract. Renewal amendments must be executed prior to the end date of the Contract. Any costs associated with a renewal may not be passed onto the Commission.

C. Renewal – Exceptional Purchase.

If this Contract was procured by an exceptional purchase pursuant to Subsections 287.057(3)(a) or (3)(c), Florida Statutes (F.S.), it may not be renewed. Subsection 287.057(13), F.S., provides that contracts for commodities or contractual services may be renewed for up to three (3) years, or for a total term not to exceed the original Contract period, whichever is longer. If applicable, renewal of this Contract shall be subject to the availability of funds, satisfactory performance evaluations by the Commission, and at the discretion of the Commission; it must also be in writing and subject to the same terms and conditions of this Contract. Renewal amendments must be executed prior to the end date of the Contract. Any costs associated with a renewal may not be passed onto the Commission.

D. Renewal Period.

This Contract may be renewed for a period not to exceed three (3) years.

E. Extension.

If this is a contract for contractual services, any extension of this contract as provided for in Attachment A, shall be in writing for a period not to exceed six (6) months and shall be subject to the same terms and conditions set forth in the initial contract. There shall be only one extension of this contract unless the failure to meet the criteria set forth in the contract for completion of the contract is due to events beyond the control of the Contractor.

Section 4. COMPENSATION AND PAYMENTS

A. Compensation.

As consideration for the services rendered by the Contractor under the terms of this Contract, the Commission shall pay the Contractor on a cost reimbursement basis. This is a Master Agreement; funding allocated each fiscal year with an executed Task Assignment Notification Form.

B. Payments.

The Commission shall pay the Contractor for satisfactory performance of the tasks identified in Attachment A, as evidenced by the completed deliverables, upon submission of invoices, accompanied by supporting documentation sufficient to justify invoiced expenses or fees, and after acceptance of services and deliverables in writing by the Commission's Contract Manager. Unless otherwise specified in Attachment A, invoices shall be due monthly, commencing from the start date of this Contract. Invoices must be legible and must clearly reflect the goods or services that were provided in accordance with the terms of the Contract for the invoice period. Unless otherwise specified in Attachment A, a final invoice shall be submitted to the Commission no later than forty-five (45) days following the expiration date of this Contract to assure the availability of

funds for payment. Costs under this Contract must be obligated, and all work completed by the Contractor by the end of the Contract period.

C. Invoices.

Each invoice shall include the Commission Contract Number and the Contractor's Federal Employer Identification (FEID) Number. Invoices may be submitted electronically to the attention of the Commission's Contract Manager. If submitting hard copies, an original and two (2) copies of the invoice, plus all supporting documentation, shall be submitted. All bills for amounts due under this Contract shall be submitted in detail sufficient for a proper pre-audit and post-audit thereof. The Contractor acknowledges that the Commission's Contract Manager shall reject invoices lacking documentation necessary to justify invoiced expenses.

D. Travel Expenses.

If authorized in Attachment A, travel expenses shall be reimbursed in accordance with Section 112.061, F.S.

E. State Obligation to Pay.

The State of Florida's performance and obligation to pay under this Contract is contingent upon an annual appropriation by the Legislature. The Parties hereto understand that this Contract and any renewal thereof is not a commitment to future appropriations but is subject to appropriation and authority to spend provided by the Legislature. The Commission shall be the final authority as to the availability of funds for this Contract, and as to what constitutes an "annual appropriation" of funds to complete this Contract. If such funds are not appropriated or available for the Contract purpose, such event will not constitute a default on behalf of the Commission or the State. The Commission's Contract Manager shall notify the Contractor in writing at the earliest possible time if funds are not appropriated or available.

F. Non-Competitive Procurement and Rate of Payment.

Section 216.3475, F.S., requires that under non-competitive procurements, a Contractor may not receive a rate of payment in excess of the competitive prevailing rate for those services unless expressly authorized in the General Appropriations Act. If applicable, the Contractor warrants, by execution of this Contract, that the amount of non-competitive compensation provided in this Contract is in compliance with Section 216.3475, F.S.

G. Cost Reimbursement

If any deliverables in Attachment A indicate some portion of the Contract is cost reimbursable, the Contractor shall be paid on a cost reimbursement basis for eligible Project costs upon the completion, submittal, and approval of each of those deliverables. To be eligible for reimbursement, costs must be in compliance with other laws, rules, and regulations applicable to expenditures of State funds, including, but not limited to, the Reference Guide for State Expenditures.

Invoices submitted for cost reimbursement must be itemized by expenditure category as outlined in the approved Contract budget. Additionally, the invoice must evidence the completion of all

tasks required to be performed for the deliverable and must show that the Contractor met the minimum performance standards established in the Contract. The Commission is required to maintain detailed supporting documentation and to make it available for audit purposes. By submission of the payment request, the Commission is certifying that the detailed documentation to support each item on the itemized invoice is on file at the agency and is available for audit.

Documentation for each amount for which reimbursement is being claimed must indicate that the item has been paid. Check numbers may be provided in lieu of copies of actual checks. Each piece of documentation should clearly reflect the dates of service. Only expenditures for the categories in the approved Contract budget may be reimbursed. These expenditures must be allowable (pursuant to law) and directly related to the services being provided. The Commission may require more detailed documentation as deemed appropriate to satisfy that the terms of the Contract have been met.

Listed below are types and examples of their supporting documentation:

- i. **Salaries:** Timesheets that support the hours worked on the project or activity must be kept. A payroll register or similar documentation should be submitted and maintained. The payroll register should show gross salary charges, fringe benefits, other deductions and net pay. If an individual for whom reimbursement is being claimed is paid by the hour, a document reflecting the hours worked times the rate of pay will be acceptable.
- ii. **Tuition:** If the Commission determines tuition, stipends, and/or waivers are allowable costs, the payments must result from obligations incurred during the specified Contract period. Documentation must be provided to show compliance with 215.971, F.S. Examples include but are not limited to keeping timesheets/time and effort reports/logs that support the hours worked on the project or activity. If an individual for whom tuition, stipends and/or waivers are being claimed are paid by the hour, a document reflecting the hours worked times the rate of pay will be acceptable.
- iii. **Fringe Benefits:** Supported by invoices showing the amount paid on behalf of the employee (e.g., insurance premiums paid). If the Contract specifically states that fringe benefits will be based on a specified percentage rather than the actual cost of fringe benefits, then the calculation for the fringe benefits amount must be shown.
 - a. Exception: Governmental entities are not required to provide check numbers or copies of checks for fringe benefits.
- iv. **Travel:** To the extent the Commission determines travel is an allowable cost, reimbursement for travel must be in accordance with Section 112.061, Florida Statutes, which includes submission of the claim on the approved State travel voucher along with supporting receipts and invoices.

- v. **Other Direct Costs:** To the extent the Commission determines other direct costs are allowable, reimbursement will be made based on paid invoices/receipts and proof of payment processing (cancelled/processed checks and bank statements).
- vi. **In-House Charges:** Charges which may be of an internal nature (e.g., postage, copies, etc.) may be reimbursed on a usage log which shows the units times the rate being charged. The rates must be reasonable.
- vii. **Indirect Costs:** To the extent the Commission determines that indirect costs are allowable, and the Contract specifies that indirect costs will be paid based on a specified rate, then the calculation should be provided in the Contract's budget breakdown. Indirect costs must be in the approved Contract budget and the Contractor must be able to demonstrate that the costs are not duplicated elsewhere as direct costs. All indirect cost rates must be evaluated for reasonableness and for allowability and must be allocated consistently.

For cost reimbursement Contracts with another State agency (including State universities):

In lieu of the detailed documentation described above, alternative documentation may be submitted to substantiate the costs requested to be reimbursed. This alternative documentation may be in the form of FLAIR reports or other reports containing sufficient detail.

H. Fixed Price

If any deliverables in Attachment A indicate some portion of the Contract is fixed price, the Contractor shall be paid on a fixed price basis for eligible Project costs upon the completion, submittal, and approval of each of those deliverables. Contracts including services with fixed price deliverables are for tasks that are generally more complex. The units are larger (months or quarters, for example, or a milestones, phases, and tasks) and encapsulate a required level of performance that is quantifiable and measurable. For example, Contracts paying for months of prevention services for 25 youth or to create a museum exhibit (to be paid out in phases upon reaching specified percentages of completion) are frequently paid on a fixed price basis. Invoices for deliverables paid on a fixed price basis must identify the deliverable(s) that was completed and the price per completed deliverable. In addition, the invoice (or invoice backup) must demonstrate that the minimum performance level was met for each deliverable.

I. Fixed Unit Price

If any deliverables in Attachment A indicate some portion of the Contract is fixed fee price, the Contractor shall be paid on a fixed fee/unit rate basis for "as needed" services in which the specific quantity of units to be completed each period are variable as identified in Attachment A. Fixed Fee/Unit Rate deliverables are generally used when the Contracts' tasks are finite and are not complex. Service types may include language translation services (in which the deliverable is each minute of translation services) or health screening test services (in which the deliverable is each health screening test completed.) Invoices for fixed fee/unit rate payment type deliverables must identify the deliverable(s) (unit of service), the number of units completed and the cost per unit. To be eligible for payment, costs must also be in compliance with other laws, rules, and regulations

applicable to expenditures of State funds, including, but not limited to, the Reference Guide for State Expenditures.

J. Time Limits for Payment of Invoices

Payments shall be made in accordance with Sections 215.422 and 287.0585, F.S., governing time limits for payment of invoices. Section 215.422, F.S. provides that agencies have five (5) working days to inspect and approve goods and services, unless bid specifications or Attachment A, specifies otherwise. If payment is not available within forty (40) days, measured from the latter of the date the invoice is received or the goods or services are received, inspected and approved, a separate interest penalty set by the Department of Financial Services pursuant to Section 55.03(1), F.S., will be due and payable in addition to the invoice amount. Invoices returned to a vendor due to preparation errors will result in a payment delay. Invoice payment requirements do not start until a properly completed invoice is provided to the agency.

K. Electronic Funds Transfer.

The Contractor agrees to enroll in Electronic Funds Transfer (EFT), offered by the State's Chief Financial Officer, within thirty (30) days of the date the last Party has signed this Contract. Copies of the Authorization form and a sample blank enrollment letter can be found on the vendor instruction page at: <https://www.myfloridacfo.com/Division/AA/Vendors/default.htm>. Questions should be directed to the State of Florida's EFT Section at (850) 413-5517. Once enrolled, invoice payments will be made by EFT.

L. Vendor Ombudsman.

A Vendor Ombudsman, whose duties include acting as an advocate for vendors who may be experiencing problems in obtaining timely payment(s) from a State agency, may be contacted at (850) 413-5516 or by calling the Chief Financial Officer's Hotline, (800) 342-2762.

Section 5. MYFLORIDAMARKETPLACE VENDOR REGISTRATION AND TRANSACTION FEE

A. MyFloridaMarketPlace

In accordance with Rule 60A-1.033 of the Florida Administrative Code (F.A.C.), each vendor doing business with the State for the sale of commodities or contractual services as defined in Section 287.012, F.S., shall register in the MyFloridaMarketPlace system, unless exempted under Rule 60A-1.033(3), F.A.C. Information about the registration process is available, and registration may be completed, at the MyFloridaMarketPlace website. Interested persons lacking Internet access may request assistance from the MyFloridaMarketPlace Customer Service at (866-352-3776) or from State Purchasing, 4050 Esplanade Way, Suite 300, Tallahassee, Florida 32399.

B. Transaction Fee.

Pursuant to Section 287.057(22), F.S., all payments, unless exempt under Rule 60A-1.033(3), F.A.C., shall be assessed a Transaction Fee, which the Vendor shall pay to the State. For payments within

the State accounting system (Florida Accounting Information Resource, FLAIR, or its successor), the Transaction Fee shall, when possible, be automatically deducted from payments to the Vendor. If automatic deduction is not possible, the Vendor shall pay the Transaction Fee pursuant to Rule 60A-1.031(2), F.A.C. By submission of these reports and corresponding payments, Vendor certifies their correctness. All such reports and payments shall be subject to audit by the State or its designee.

Section 6. RETURN OR RECOUPMENT OF FUNDS

A. Overpayments to Contractor.

The Contractor shall return to the Commission any overpayments due to unearned funds or funds disallowed pursuant to the terms of this Contract that were disbursed to the Contractor by the Commission. In the event that the Contractor or its independent auditor discovers that overpayment has been made, the Contractor shall repay said overpayment within forty (40) calendar days without prior notification from the Commission. In the event that the Commission first discovers an overpayment has been made, the Commission will notify the Contractor in writing. Should repayment not be made in a timely manner, the Commission shall be entitled to charge interest at the lawful rate of interest established pursuant to Section 55.03(1), F.S., on the outstanding balance beginning forty (40) calendar days after the date of notification or discovery. Refunds should be sent to the Commission's Contract Manager and made payable to the "Florida Fish and Wildlife Conservation Commission."

B. Additional Costs or Monetary Loss Resulting from Contractor Non-Compliance.

If the Contractor's non-compliance with any provision of the Contract results in additional cost or monetary loss to the Commission or the State of Florida, the Commission can recoup that cost or loss from monies owed to the Contractor under this Contract or any other contract between the Contractor and the Commission. In the event that the discovery of this cost or loss arises when no monies are available under this Contract or any other contract between the Contractor and the Commission, the Contractor will repay such cost or loss in full to the Commission within thirty (30) days of the date of notice of the amount owed, unless the Commission agrees, in writing, to an alternative timeframe. If the Contractor is unable to repay any cost or loss to the Commission, the Commission shall notify the State of Florida, Department of Financial Services, for resolution pursuant to Section 17.0415, F.S.

Section 7. COMMISSION EXEMPT FROM TAXES, PROPERTY EXEMPT FROM LIEN

The Contractor recognizes that the State of Florida, by virtue of its sovereignty, is not required to pay any taxes on the services or goods purchased under the terms of this Contract. The Contractor is placed on notice that this exemption generally does not apply to other parties of this Contract, contractors, or subcontractors. Any questions regarding this tax exemption should be addressed to the Commission Contract Manager.

If the Contract involves the improvement of real property titled to the State of Florida, then the following paragraph applies.

The Contractor acknowledges that property being improved is titled to the State of Florida and is not subject to lien of any kind for any reason. The Contractor shall include notice of such exemptions in any subcontracts and purchase orders issued hereunder.

Section 8. MONITORING

The Commission's Contract Manager shall actively monitor the Contractor's performance and compliance with the terms of this Contract. The Commission reserves the right for any Commission staff to make scheduled or unscheduled, announced or unannounced monitoring visits. Specific monitoring terms, conditions, and schedules may be included in Attachment A.

Section 9. TERMINATION

A. Commission Unilateral Termination.

The Commission may unilaterally terminate this Contract for convenience by providing the Contractor with thirty (30) calendar days of written notice of its intent to terminate. The Contractor shall not be entitled to recover any cancellation charges or lost profits.

B. Termination – Fraud or Willful Misconduct.

This Contract shall terminate immediately in the event of fraud or willful misconduct on the part of the Contractor. In the event of such termination, the Commission shall provide the Contractor with written notice of termination.

C. Termination - Funds Unavailability.

In the event funds to finance this Contract become unavailable or if federal or state funds upon which this Contract is dependent are withdrawn or redirected, the Commission may terminate this Contract upon no less than twenty-four (24) hours' notice in writing to the Contractor. Said notice shall be delivered by certified mail, return receipt requested or in person with proof of delivery. The Commission shall be the final authority as to the availability of funds and will not reallocate funds appropriated for this Contract to another program thus causing "lack of funds." In the event of termination of this Contract under this provision, the Contractor will be compensated for any work satisfactorily completed prior to notification of termination.

D. Termination – Other.

The Commission may terminate this Contract if the Contractor fails to: 1.) comply with all terms and conditions of this Contract; 2.) produce each deliverable within the time specified by the Contract or extension; 3.) maintain adequate progress, thus endangering the performance of the Contract; or, 4.) abide by any statutory, regulatory, or licensing requirement. Rule 60A-1.006(3), F.A.C., governs the procedure and consequences for default. The rights and remedies of the

Commission in this clause are in addition to any other rights and remedies provided by law or under the Contract. The Contractor shall not be entitled to recover any cancellation charges or lost profits.

E. Contractor Discontinuation of Activities upon Termination Notice.

Upon receipt of notice of termination, the Contractor shall, unless the notice directs otherwise, immediately discontinue all activities authorized hereunder. Upon termination of this Contract, the Contractor shall promptly render to the Commission all property belonging to the Commission. For the purposes of this section, property belonging to the Commission shall include, but shall not be limited to, all books and records kept on behalf of the Commission.

Section 10. REMEDIES

A. Financial Consequences.

In accordance with Section 287.058(1)(h), F.S., provided for in Attachment A, contains clearly defined deliverables. If the Contractor fails to produce each deliverable within the time frame specified by Attachment A, the budget amount allocated for that deliverable will be deducted from the Contractor's payment. The Commission shall apply any additional financial consequences identified in Attachment A.

B. Cumulative Remedies.

The rights and remedies of the Commission in this paragraph are in addition to any other rights and remedies provided by law or under the Contract.

Section 11. NOTICES AND CORRESPONDENCE

Any and all notices shall be delivered to the individuals identified below. In the event that any Party designates a different Contract Manager after the execution of this Contract, the Party will provide written notice of the name, address, zip code, telephone and fax numbers, and email address of the newest Contract Manager or individual authorized to receive notice on behalf of that Party to all other Parties as soon as possible, but not later than five (5) business days after the new Contract Manager has been named. A designation of a new Contract Manager shall not require a formal amendment to the Contract.

Section 32. PROHIBITION OF UNAUTHORIZED ALIENS

In accordance with Federal Executive Order 96-236, the Commission shall consider the employment by the Contractor of unauthorized aliens a violation of Section 274A(e) of the Immigration and Nationalization Act. Such violation shall be cause for unilateral cancellation of this Contract if the Contractor knowingly employs unauthorized aliens.

Section 33. EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY)

A. Requirement to Use E-Verify.

Section 448.095(2) Florida Statute requires the Contractor to: 1.) utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Contractor during the Contract term; and 2.) include in all subcontracts under this Contract, the requirement that subcontractors performing work or providing services pursuant to this Contract utilize the E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the term of the subcontract.

B. E-Verify Online.

E-Verify is an Internet-based system that allows an employer, using information reported on an employee's Form I-9, Employment Eligibility Verification, to determine the eligibility of all new employees hired to work in the United States. The Department of Homeland Security's E-Verify system can be found online at <https://www.e-verify.gov>.

C. Enrollment in E-Verify.

As a condition precedent to entering a Contract with the Commission, Contractors and Subcontractors shall register with and use the E-Verify system. Failure to do so shall result in the Contract not being issued, or if discovered after issuance, termination of the Contract.

D. E-Verify Recordkeeping.

The Contractor further agrees to maintain records of its participation and compliance with the provisions of the E-Verify program, including participation by its subcontractors as provided above, and to make such records available to the Commission or other authorized state entity consistent with the terms of the Contractor's enrollment in the program. This includes maintaining a copy of proof of the Contractor's and subcontractors' enrollment in the E-Verify Program. If a contractor enters into a contract with a subcontractor, the subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of the contract.

E. Employment Eligibility Verification & Compliance.

Compliance with the terms of the Employment Eligibility Verification provision is made an express condition of this Contract and the Commission may treat a failure to comply as a material breach of the agreement. If the Commission terminates the Contract pursuant to Section 448.095(2)(c) Florida Statute, the Contractor may not be awarded a public contract for at least 1 year after the date on which the contract was terminated and the Contractor is liable for any additional costs incurred by The Commission as a result of the termination of this Contract.

Section 34. FORCE MAJEURE AND NOTICE OF DELAY FROM FORCE MAJEURE

Neither Party shall be liable to the other for any delay or failure to perform under this Contract if such delay or failure is neither the fault nor the negligence of the Party or its employees or agents and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond the Party's control, or for any of the foregoing that affects subcontractors or suppliers if no alternate source of supply is available. However, in the event of delay from the foregoing causes, the Party shall take all reasonable measures to mitigate any and all resulting delay or disruption in the Party's performance obligation under this Contract. If the delay is excusable under this paragraph, the delay will not result in any additional charge or cost under the Contract to either Party. In the case of any delay the Contractor believes is excusable under this paragraph, the Contractor shall notify the Commission's Contract Manager in writing of the delay or potential delay and describe the cause of the delay either: (1) within ten (10) calendar days after the cause that creates or will create the delay first arose, if the Contractor could reasonably foresee that a delay could occur as a result; or (2) within five (5) calendar days after the date the Contractor first had reason to believe that a delay could result, if the delay is not reasonably foreseeable. **THE FOREGOING SHALL CONSTITUTE CONTRACTOR'S SOLE REMEDY OR EXCUSE WITH RESPECT TO DELAY.** Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. The Commission, in its sole discretion, will determine if the delay is excusable under this paragraph and will notify the Contractor of its decision in writing. No claim for damages, other than for an extension of time, shall be asserted against the Commission. Contractor shall not be entitled to an increase in the Contract price or payment of any kind from the Commission for direct, indirect, consequential, impact, or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of

the causes described in this paragraph, after the causes have ceased to exist, Contractor shall perform at no increased cost, unless the Commission determines, in its sole discretion, that the delay will significantly impair the value of the Contract to the Commission or the State, in which case, the Commission may do any or all of the following: (1) accept allocated performance or deliveries from Contractor, provided that Contractor grants preferential treatment to the Commission with respect to products or services subjected to allocation; (2) purchase from other sources (without recourse to and by Contractor for the related costs and expenses) to replace all or part of the products or services that are the subject of the delay, which purchases may be deducted from the Contract quantity; or (3) terminate the Contract in whole or in part.

Section 35. MEDIA REQUESTS

Contractors shall refer all requests by the media or public relations personnel to the Commission's Contract Manager. Contractors must submit a written request for permission before consulting with the media and, if approved, the Commission may provide consultation and talking points. Any alterations, variations, changes, modifications or waivers of provisions of this Contract shall only be valid when they have been reduced to writing, and duly signed by each of the Parties hereto, unless otherwise provided herein. In the event of conflict, the following order of precedence shall prevail: this contract and its attachments, the terms of the solicitation and the Contractor's response to the solicitation.

Each State fiscal year a Task Assignment Notification Form (Task) will be issued. Copies of Task Assignment Notification Form and Task Assignment Change Order Form (TACO) are attached as Attachments B and C. The Task will inform the Contractor of the time-period for services to be conducted and the funding allocated for expenses during the service period. If the time-period for services or funding changes during a State fiscal year a TACO will be created and fully executed.

Once an executed contract and Task are in place, the Commission's Site Manager (RBs) will work together with the Contractor, regarding aquatic plant management on eligible water bodies. The Contractor and/or the Commission's Site Manager (RBs) shall submit a weekly Schedule of Operations in the Commission's Invasive Plant Management Section (IPM) Plant Management Authorization Reporting System (PMARS) application. The weekly schedule will contain, treatment locations, target plant species and acreages, control methods and any additional requirements of the treatment. It is the Contractor's responsibility to read and understand all treatment protocols as listed in the schedule.

B. BACKGROUND

The control of aquatic vegetation is a program under the Commission's Division of Habitat and Species Conservation, Invasive Plant Management Section (IPM). The program staff manages aquatic vegetation on approximately 465 public water bodies throughout the State of Florida. Management of aquatic vegetation involve State, Federal and Local governments and is funded by State dollars and sometimes Federal dollars.

C. SUPPORT OF COMMISSION MISSION/RETURN ON INVESTMENT

The aquatics program works to reduce the negative impacts from invasive nonindigenous plants, such as, water hyacinth, water lettuce and hydrilla to preserve approximately 465 public water bodies within Florida. The management and maintenance of aquatic vegetation is critical and key to keeping low levels of invasive aquatic vegetation to sustain navigational, flood control and recreation, while also protecting native plant habitat for fish and wildlife. The Commission's IPM Tallahassee staff and Site Managers work with stakeholders to identify primary uses and functions of each waterbody.
