# Subject:

Renewal of Annual Property Insurance Program Effective 6/1/2022

# **Fiscal Impact:**

Premiums not to exceed \$2,772,594; funds budgeted in Business Area 5050 / Cost Center 389610.

# Dept/Office:

Office of Human Resources / Risk Management

# Requested Action:

It is requested the Board of County Commissioners authorize the Risk Manager to bind and secure placement of the County's Property insurance coverage with an effective date of 6/1/2022 at a premium not to exceed \$2,772,594.

# **Summary Explanation and Background:**

Risk Management instructed the County's property/casualty insurance broker, Brown & Brown, to secure coverage and renewal quotes for the Property Insurance program in order to mitigate the County's loss exposure, maintain the County's ability to recover from a major catastrophic loss, and ensure the County is in compliance with FEMA's "Obtain and Maintain" insurance requirements.

Current market conditions remain unfavorable due to world-wide catastrophic losses in successive years, 2017 through 2021. With total catastrophic losses in the United States exceeding \$100 Billion for the last two (2) years, carriers are reacting to significant increases in costs to repair and rebuild, resulting in an extreme, negative impact to any softening of the market.

After evaluating the County's needs for Property and Flood coverage, Brown & Brown surveyed property insurance markets and solicited quotes from 28 different carriers. Brown & Brown has presented Brevard County with a 6/1/2022 property insurance renewal proposal which reflects a premium cost of (not to exceed) \$2,772,594; this is an increase of \$351,888 (14.5%) over expiring premium. This change is a consequence of the previously-mentioned market conditions and an increase in the County's total insurable property values.

Pursuant to the Stafford Act, FEMA requires the County to obtain and maintain insurance for its assets as long as coverage is reasonably available as determined by the State Insurance Commissioner. Compliance with this requirement is critical to current and future FEMA funding, and a failure to properly insure can result in FEMA defunding or declining to fund claims. In order to maintain adequate levels of insurance coverage, the current proposal includes procuring flood coverage for high hazard zones and for high exposure assets such as piers,

boardwalks and docks.

The broker will continue to vigorously negotiate on behalf of the County, and explore alternative insurance options with interested insurers prior to the 6/1/2022 renewal date. All viable options and cost-saving solutions will be evaluated by County staff with the objective of securing additional rate reductions while maintain current coverage levels.
