Dear Ms. Smith,

The Brevard County Board of County Commissioners supports Charter Communication's application to receive state grants through Florida's Broadband Opportunity Program. With this grant, Charter Communications, known as Spectrum in our county, would expand access to high-speed broadband in Brevard County and across the state.

Brevard County's underserved would benefit from improved access to a fast and reliable broadband connection. Charter is proposing to serve approximately 440 homes within an area of need in the northern and southern portions of Brevard County.

We appreciate the work the Department of Economic Opportunity is doing to address Florida's digital needs. As the department considers applications to the newly funded Broadband Opportunity Program, we request your approval of Charter Communication's application for Brevard County.
