The American Public Works Association (APWA) actively promotes the various public works functions (Road and bridge maintenance, storm water and utility services, solid waste management, public buildings, and transportation planning and engineering) provided by governmental bodies.

Each year APWA works with agencies at the national, state, and local level to promote these services through the establishment of "National Public Works Week". This year the week of national recognition is scheduled for May 20th through May 26th, 2018.

The 2018 National Public Works Week theme, "the Power of Public Works" demonstrates the impact the many facets of public works has had on modern civilization.
