- b) Rates for the Haz-Mat Response by the Special Operations Team will remain the same as Fiscal Year 2021-2022.

- c) Rates for Stand-by Response will be adjusted to reflect the most current published vehicles rates established by the FEMA. Rates for personnel may be adjusted to reflect the maximum rate of each job classification that is routinely needed to staff the corresponding vehicle or, as deemed necessary by the County Fire Chief. Personnel rates shall include the overtime rate and applicable benefits.
- d) Rates for inspection and plan review fees will remain the same as Fiscal Year 2021-2022.

The purpose of this stand-by may be to provide emergency medical services, fire suppression services and/or ocean rescue services to a special event. The requirement(s) for a stand-by is solely reserved to the County Fire Chief and/or their designee. An event provider/promoter may also request a stand-by. Said stand-by fee will be charged to the party responsible for the special event. The County Fire Chief reserves the rights to impose a ten percent (10%) administrative fee for any event in which requires formal planning.

SECTION 4: NEW CONSTRUCTION PLAN REVIEW (SITE DEVELOPMENT) AND INSPECTIONS:

Florida law requires the fire departments to perform plan review and new construction inspections on multi-family residential structures with three or more dwelling units and all commercial property. Proposed site plans are reviewed for access, firefighting water, wild land (urban/rural) interface, and certain property set-backs for fire safety. Subdivisions also require a similar review and site inspection to insure water and access requirements are met. The rates for Site Development Reviews are as follows.

(a)	Pre-application Review and Meeting	\$100.00
(b)	Site Plan Initial Review (includes first revision)	\$100.00
(c)	Each subsequent Site Plan Revision	\$50.00
(d)	Subdivision Initial Review (includes first revision)	\$150 + \$1/lot
(e)	Each subsequent Subdivision Revision	\$50.00
(f)	Alternative Water Supply	\$100.00
(g)	Re-Inspection Fee	\$40.00

SECTION 5: BUILDING PROJECT REVIEW AND INSPECTIONS:

Residential projects with three or more dwelling units and all commercial projects require building permits. Technical assistance may be necessary on certain projects and the fire prevention plan review may need to be performed by an independent third party with expertise in the matter to be reviewed at the submitter's expense. This provision is defined in the Florida Fire Prevention Code. The independent reviewer shall provide an evaluation and recommend necessary changes of the proposed

design, operation, process or new technology to the fire prevention office. Should it be necessary to exercise this provision the permit and inspection fees still apply.

The rates for Building Reviews and Inspections are as follows:

(a)	Building Projects (Value equals the construction value or latest ICC Building Valuation Table construction value, whichever is greater.)	\$50.00 + value X 0.0033
(b)	Design Review is greater	\$100.00 or 15% of permit fee whichever is greater
(c)	Construction without a permit greater	Double all fees or \$250 whichever is greater
(d)	Re-Inspection Fee	\$40.00
(e)	Standby request or fire watch inspector	\$50.00/hour with 3-hour minimum per inspector
(f)	Inspections outside of normal business hours	\$50.00/hour with 3-hour minimum per inspector
(g)	Post Temporary CO Inspections	\$50.00/hour per inspector
(h)	Concurrent Building Plan Review	\$500.00
(i)	Amendments/revisions to plans/submittals (Permit does not have to be issued)	\$5.00 per page with \$25.00 minimum

Building Projects review includes new construction, remodeling, renovations and repairs for all projects requiring a commercial building permit. This includes residential structures with three or more dwelling units.

Design Review is applied to permits when the submitter has numerous (six or more) items that are not code compliant or significant issues that causes plan review to be unduly difficult. This fee is not applied to minor problems/errors but will be applied when the designer did not follow the provisions in the Code or normal design practices. The purpose of the Design Review fee is to help encourage design professionals to ensure they are submitting code compliant plans. Poorly designed projects slow down the entire review process which has a negative impact on other people's projects.

The building and fire codes have language that allows additional charges when work is performed without a permit. To discourage this practice, all permit/inspection fees will be doubled, with a minimum fee of \$250 (e.g. permit fee plus \$250), when work is performed without an approved, paid for permit on site.

Stand-by and fire watch fees are charged when a feature of fire protection (e.g., sprinkler system is nonfunctional) is out of service and the threat of fire poses a life safety concern. These fees will also be charged when a facility or entity is using their property for other than its usual purpose with the fire marshal's approval to ensure the public's/facilities' safety.

Post Temporary Certificate of Occupancy (TCO) Inspection fees will be charged when the Building Official issues a TCO before the project is complete and the conditions of the TCO requires additional inspections by Fire Prevention personnel. This creates additional inspections to ensure that all features of fire protection and services are in working order, therefore, this service has not been calculated into the charges for inspecting a project.

Concurrent building plan review application fees will be applied to projects requesting building plans be reviewed prior to the site plan approval by the County. These plans require a full review, but the submitter is under no obligation to build what has been reviewed.

SECTION 6: FIRE PROTECTION SYSTEMS PLAN & REVIEW INSPECTIONS:

Fire protection systems include automatic fire sprinkler systems, fire standpipe systems, fire alarm systems and automatic fire extinguishing systems. The below fees reflect the time commitment to perform these inspections:

(a)	Fire Sprinkler System Plan Review & Permit	\$200.00
(b)	Fire Sprinkler System Inspection floor	\$150.00 per and/or riser
(c)	Underground Inspection	\$150.00
(d)	Fire Pump Test	\$100.00
(e)	Underground Permit (if separated from sprinkler plan)	\$100.00
(f)	Minor Sprinkler System (less than 25 heads, not underground)	\$150.00
(g)	Sprinkler Work Without a Permit fees, or \$250 greater	Double all whichever is
(h)	Re-Inspection Fee	\$100.00

Fire sprinkler system inspections include a two-hour hydrostatic test and final inspection upon project completion. Each floor of a building or each zone risers are tested separately. Underground piping requires a two-hour hydrostatic test, a witnessed system flush inspection and a final inspection. Fire pump inspections require a flow test.

SECTION 7: FIRE PROTECTION SYSTEMS AUTOMATIC FIRE EXTINGUISHING SYSTEM AND FIRE PROTECTION SYSTEMS FIRE ALARM SYSTEMS:

The rates for review, permitting, inspections and testing of automatic fire extinguishing systems and fire alarm systems are as follows:

(a)	Automatic Extinguishing System Review & Permit	\$75.00
(b)	Automatic Extinguishing System Inspection/Functional Test	\$75.00 each
(c)	Automatic Extinguishing System Work Without a Permit whichever is greater	Double all fees, or \$250

- | | | |
|-----|---|---|
| (d) | Automatic Extinguishing System Re-Inspection Fee | \$40.00 |
| (e) | Fire Alarm System Review, Permit, Inspections/Test
<u>(Item (e) only applies to single story structures with less than ten (10) devices and a value of less than \$5000)</u> | \$150.00 |
| (f) | Fire Alarm System Review & permit
<u>(Item (f) applies to all systems with 10 or more devices or than a single story or a value of \$5000 or more)</u> | \$100.00 |
| (g) | Fire Alarm System Inspections/Test
<u>(Item (g) applies to all systems with 10 or more devices or more than a story or a value of \$5000 or more)</u> | \$150.00 per floor |
| (h) | Fire Alarm System Work Without a Permit
<u>is greater</u> | Double all fees <u>or \$250 whichever</u> |
| (i) | Fire Alarm System Re-Inspection Fee | \$40.00 |

Section 8: BUSINESS TAX RECEIPT REVIEW:

The rates for Business Tax Receipt review, special event review and inspections are as follows:

- | | | |
|-----|-----------------------------|---------|
| (a) | Business Tax Receipt Review | \$15.00 |
|-----|-----------------------------|---------|

Business Tax Receipt inspection fees will be in accordance with Table 9-1.

SECTION 9: FIRE PREVENTION SAFETY INSPECTION RATES:

Fire Prevention and Life Safety inspections are based on the square footage of the building. Fees charged for Fire Prevention and Life Safety inspections will be in accordance with Table 9-1. If no code violations are found at the initial inspection, the fee charged will be in accordance with column A. If no code violations remain at the time of the first re-inspection, the fee charged will be in accordance with column A. If a second, third or fourth re-inspection is required to gain compliance with the Code the fee charged will be according to columns C, D, or E respectively.

If the owner and/or tenant is taken to the Code Enforcement Board, in addition to any fees, fines or penalties charged or imposed by Code Enforcement and/or the Special Magistrate, the Office of Fire Prevention will charge an administrative fee of \$250. Each additional inspection required will be charged at a rate equal to those in column A of Table 9-1.

All of the above fees are cumulative.

Fire Prevention and Life Safety inspections will be conducted annually on those occupancies where people gather and/or where they sleep. Storage over 9,999 square feet, mercantile over 2,999 square feet, business over 30,000 square feet, industrial over 9,999 square feet and all high hazard

facilities/operations will also be inspected annually. Specifically, the fire prevention office will target hazard associated with the potential for large loss of life or property damages.

Certain operations and occupancies will be inspected as required by Florida Statute and/or the Florida Administrative Code.

The remaining commercial properties will be inspected every three years.

Total fees are based on the historical trends in the fire prevention data base.

Below is the Fire Prevention Safety Inspection Fee Matrix (Table 9-1)
