## Sec. 86-67. Penalty.

(a) It shall be unlawful for any person to construct any improvement or any part of an improvement within a right-of-way or easement dedicated to the county without a valid right-of-way/easement permit issued for such construction or providing the appropriate bond for activities under the provision of this article. Any person found guilty of violating this article or guilty of constructing an improvement or any part of an improvement without a valid right-of-way/easement permit shall be punished as provided pursuant in section 1-7 of this Code. Each day a person constructs any improvement or part of an improvement without a valid permit constitutes a separate offense under this article.

(b) Any person damaging any county road or easement shall be required to either restore the road or easement to its condition prior to the damage, or shall pay to the board of county commissioners the sum of money determined by the road and bridge department to be necessary to restore the road or easement to its condition prior to the damage.

(c) No person shall knowingly affix, install, place, attach, maintain, or fail to remove an unauthorized attachment to county-owned infrastructure or other property of the county on demand by the county or any authorized representative thereof.

(d) No person shall use an attachment on county-owned infrastructure or other property of the county to provide a service not authorized by a right-of-way/easement permit.

(e) It is a violation of this article to fail to pay the costs to remove abandoned improvements from the right-of-way as required in section 86-108.

(f) Each unauthorized attachment or use is a separate offense. Each day a violation of this article continues is a separate offense.

Hello Ms. Rutkowski.

As discussed yesterday, a permit is not an option for a single family residence to allow for plantings to remain in the right-of-way.

Also, as discussed, Crystal Lake Property Owners Association, Inc. does have a Use Agreement with the County in place and is current with their insurance requirement. Should you wish to explore the option of allowing plantings to remain, the Property Owner's Association would have to amend and update their current agreement with us. Once that was done, they would be able to submit applications and plans for review. If the plans meet the requirements, a permit would then be issued and covered under the Agreement. I'm providing a very generic explanation; however, should the Association wish to find out what amending and updating the agreement would entail, a board member would need to reach out to me and I could explain further.

Regards,

Christine Verrett

Ms Verrett:

RE: Case No. 25CE-00553

Address: 5070 Seiler Street, Melbourne Beach FL

We recently received a Notice of Violation, referencing Section 86-67, Brevard County Code ROW-Penalty

Specifically: All shrubs must be placed within property lines indicated on the land survey.

We would like to apply for a right-of-way/easement permit to be considered. Can you please help with this process?

Code enforcement Supervisor is Denny Long.

We have been ordered to appear before Special Magistrate next week. We must be out of town and scrambling to put together some sort of plan to get this worked out.

Thank you,

Annette Armstrong-Rutkowski

Good afternoon,

Thank you for contacting Commissioner Adkinson's office regarding this matter.

The function of the Commissioner's Office is legislative in nature. While I will bring it to Commissioner Adkinson's attention, it is highly unlikely that a compelling policy position would be to permit the unregulated obstruction of County Right-of-Ways. The administration, including enforcement and interpretation of code, is the function of County Staff. Having reviewed records related to the Code Enforcement matter you are referencing, there have been opportunities to address compliance with the assistance of county staff that were not capitalized upon. While the hearing date may be quickly approaching it has been rescheduled to accommodate your availability, and the notice of violation is several months old at this point. The available information does not indicate that there are procedural shortcomings that need to be addressed by Board action.

Private legal counsel would be able to aid you in the interpretation and application of County Code, particularly if you believe it should differ from the County's actions. Fines do not accrue until after the determination is made by the Special Magistrate. There will also be an opportunity for you to request additional time to address the violation, though this is at the discretion of the Magistrate.

Code enforcement violations, unless they endanger public health and safety, are only responded to as the result of a named complainant contacting Code Enforcement.

Thank you,

It was a pleasure speaking with the D3 office today. Liz went over and beyond establishing a repour and had helpful knowledge with suggestions moving forward with our Code Enforcement case #25CE-00553.

I have made several attempts to both the Interim Manager Contractor & Code Compliance Planning & Development, Denny Long as well as Ashton Styron, Contractor & Code Compliance Officer II by voice messages and emails without response in preparing for our mandated appearance August 21 with the Special Magistrate. I feel we are in crunch time with our efforts to prepare and without communication with them it is extremely difficult.

What we hope to gain is the knowledge of what specifically is considered an "improvement" under Sec. 86-67 and what specifically defines that term. I have spent time reading through Muni code and coming up empty there with Plantings falling into this category. Then in turn follow through with a valid right-of-way/easement permit as suggested in the same Sec. 86-67. Although, after reaching out to Christine Verrett, Special Projects Coordinator III ([Christine.Verrett@brevardfl.gov](mailto:Christine.Verrett@brevardfl.gov)) requesting a permit was emailed by her with response of "a permit is not an option for a single family residence to allow for plantings to remain in the right-of-way." However, the satisfy the Code Enforcement Officer's sited violation that is the next step in the process.

Our biggest concern with this enforcement is that in our neighbor and throughout Brevard

County a very common theme amongst homeowners is that there are plantings along Right of Ways. We have collected 83 homesites within biking distance of our home that have plantings of some kind within 25 feet and if this Code is being so grossly ignored by so many homeowners in Brevard County, why? Is there a misunderstanding somewhere or is it really not a code violation?

We appreciate your attention into this matter as we move forward to raise awareness.

Thank you,

Annette Armstrong - Rutkowski
