Requested Action:

It is requested that the Board of County Commissioners approve a Supplemental Budget for the Third Quarter of Fiscal Year 2021-2022, authorize the Chair to sign the Resolution, and approve the budget changes and such actions as are necessary to implement the adopted changes.

Summary Explanation and Background:

The County's Supplemental Budget for the Third Quarter of FY 2021-2022 is adopted by a resolution after holding a public hearing as required by Chapter 129, Florida Statutes. Supplemental Budget Changes Requests, for applicable County Agencies, are included in the Supplemental package. These documents are attached for review and approval.

A summary of the proposed Budget Supplement, along with a notice of date and time of the public hearing, was advertised in the April 1, 2022 edition of the Florida Today.

General Funds increase by \$2.1M, which is primarily due to increases associated with the following departments and programs: Public Works for Facilities Management capital projects and Engineering Review inspection fees; Natural Resources due to Environmental Management and Environmental Remediation Compliances programs; Planning and Development associated with collecting more than anticipated in fines and forfeits in Code Enforcement as well as higher than anticipated permits, fees and special assessments in the Planning and Zoning Land Development fund.

Transportation Trust Funds increase by \$6.1M, primarily due to increases in Balance Forward associated with Countywide Road and Bridge Fund, as well as the Road and Bridge MSTU Funds for multi-year major repair and maintenance projects that were not completed or progressed as anticipated in FY2020-2021, as well as an increase in the Local Option Gas Tax Fund associated with collecting more revenue than anticipated.

Special Revenue increase by \$41.4M due to the following departments and programs that collect Special Revenue Funds: Natural Resources for the Save Our Indian River Lagoon 1/2 Cent Sales Tax and Stormwater programs; Tourism Development for TDT tax increases; Planning & Development due to Impact Fees and

Permit revenue; and Fire Rescue due primarily to delays in the purchase of capital equipment and capital improvement projects.

Capital Project Funds decrease by \$132K primarily due to progress made with Parks and Recreation projects.

Enterprise Funds decrease \$8.1M, primarily due to a decrease in the Solid Waste Disposal Renewal & Replacement Fund in alignment of the department's five-year projections for capital projects; offset by increases in Utility Services and Transit Services for capital projects and equipment being carried-forward.

Internal Service Funds decrease by \$2M, which is primarily the result decreases in the Employee Benefit and Risk Management funds due to claims expenses being higher than anticipated in FY 2020-2021.

Upon completion of the FY20-21 financial statements, the actual balance forward is \$6,345,473, an increase of \$743,215. Justification:

Balance Forward for the 800 MHz Surcharges fund for the intergovernmental radio communication program was projected at \$965,000 during the FY21-22 budget development. Upon completion of the FY20-21 financial statements, the actual balance forward is \$1,163,439, an increase of \$198,439. This budget request appropriates the additional balance forward to continue funding the transition of the 800 MHz Radio Frequency equipment/sites to Project 25 (P25), an unfunded critical need for the 800 MHz Public Safety Radio System to conform to the latest FCC standards and the interoperability requirements, as approved by the Board of County Commissioners, in regular session on February 12, 2019 and awarded on July 31, 2019 for \$3,664,321, as a multi-year project.

Total: \$1,467,696

Justification:

Balance Forward for Library Services Fund 1070 was projected at \$7,336,810 during FY21-22 budget development. Upon completion the FY20-21 financial statements, the actual balance forward is \$8,804,506, which is an increase of \$1,467,696. This increase was a combined result of collecting more than anticipated revenues (FEMA reimbursements, insurance proceeds), less than anticipated staff costs and delays in CIP projects. This budget change request appropriates additional balance forward: increase of \$61,114 in individual libraries' general budgets to offset (\$66,450) in reductions in Fines & Fees budgets; Titusville security \$19,000; Additional tuition reimbursement \$30,000; Capital equipment from FY20-21 to be purchased in FY 21-22 \$21,000; IT equipment & technology improvements \$90,000; Materials Management System \$500,000; Library Media \$113,932; Operating Equipment Youth Area improvements \$15,000 and increases in Operating Expenses \$4,100. Funding is also appropriated for CIP projects including: Melbourne Beach parking lot lighting \$110,000; Additional costs for Cocoa Beach HVAC, CSR Central Plumbing and CSR Central Fire Alarm replacement \$100,000; River House stairs repair & replacement \$50,000 and increases in contingencies for plumbing

Alternative:

Upon completion of the annual audit and reconciliation of the financial statements, the actual balance forward is \$1,591,882 which is an increase of \$634,260. The two programs affecting Balance Forward are the Environmental Management Program (ERM) with an increase in balance forward due to increased permitting revenues and savings related to lower than expected operating costs and the Environmental Remediation and Compliance Program (ERC) with savings related to position reclassifications, travel as well as less than expected operating expenses. Upon completion of the annual audit and reconciliation of the financial statements, the actual balance forward is \$163,785 which is a decrease of \$21,947. The increase in balance forward in the Beaches and Coastal Admin program is due to less than expected operating expenditures. The decrease in Balance Forward to the Boating and Waterways program is due to higher than anticipated operating expenditures due to additional cost related to replacing marine pilings. The decrease in Balance Forward to the Griffis Landing Program is the result of greater than expected expenditures resulting from a one-time transfer to MIRA for the renovation of Doc's Bait House. ---------------	-----------------	---------------	-----------------

Justification:

Balance Forward for the North Area Parks Operating Fund was projected at \$3,292,100 during FY21-22 budget development. Upon completion of FY20-21 financial statements, the actual balance forward is \$3,312,554 an increase of \$20,454. This budget request increases funding for the Stuart Park pavilion replacement, \$100,000 and the Marina Park pavilions replacement, \$53,384. The Cuyler Park playground replacement and the Isaac Campbell Park shade structure projects will reflect a total reduction of (\$151,000) since both were completed and paid for in FY20-21. Additionally there will be an increase of \$18,070 to operating expenses for field repairs. This adjustment also properly accounts for the internal loan due to Risk Management.

Upon completion of FY20-21 financial statements, the actual balance forward is \$1,930,108 which is an increase of \$292,181. This increase was a result of Inspection Fees collected FY 2020-2021 which were greater than anticipated. Additionally, it was recently discovered that Planning and Development was mistakenly collecting Minor Site Plan Review Fees, throughout FY2017 to FY21; this error has been corrected. Total: \$298,552

Justification:

Balance Forward for the West Melbourne CRA fund was projected at \$204,300 during budget development of the FY 2021-2022 budget. Upon completion of FY20-21 financial statements, the actual balance forward is \$502,852 which is a increase in Balance Forward of \$298,552. This increase was a result of insufficient funds to complete an entire road resurfacing project. Therefore, funds will continue to grow until such time that they reach a sufficient balance. This budget request appropriates the balance forward to Reserves- Operating to be utilized in FY23 for the Road Resurfacing initiative. Funds will be utilized to fully fund roads that are currently partially funded.

Alternative:

If this Mid-Year Supplement is not recognized, funds will not be available to fully-fund road resurfacing projects aligned to this fund.

Balance Forward for the Local Option Gas Tax Bond fund was projected at \$901,927 during FY21-22 budget development. Upon completion of FY20-21 financial statements, the actual balance forward is \$16,310, a decrease of \$885,617. This decrease is the result of adjusting the bond reserve. It was determined that the LOGT debt (2016 and 2020B) doesn't have a debt service reserve requirement, therefore the amount transferred into this fund in FY20-21 was less than anticipated. This budget request decreases balance forward and establishes a transfer in the current fiscal year to meet debt service requirements.

Upon completion of the annual audit and reconciliation of the financial statement, the actual Balance Forward is \$912,268, which is an increase in Balance Forward of \$912,268. This increase was the result of revenue generated from Charges For Service that was not expended in FY 2020-2021 due the continued use of the Federal Transit Administration CARES Act grant funding for operating expenses. This budget request appropriates the Balance Forward to Operating Expenses and increases the flexibility to use this funding as a local match for the new Federal Infrastructure grants and future State grants; therefore, significantly reducing the use of the General Fund as a local match. These funds can also be applied to payments for increases in fuel costs.

Justification:

This budget change request increases the Tourist Development Tax Budget in accordance with current collection trends, we are anticipating growth of Tourist Development Tax in excess of budgeted amount by \$2.5 million to an annual amount of \$17.5 million. This increased Tourist Development Tax revenue is due to positive market conditions including post-COVID consumers' desire to travel, strong marketing efforts, and significant growth in hotel inventory in FY 2021-22. This budget request appropriates \$40,000 of the additional \$2.5 million Tourist Development Tax from Marketing Fund 1441 by transfer toward current fiscal year Tourism Administration needs.

Alternative:

Marketing fund 1441 transfer will not be recognized in fund 1440 and associated expense budgets will be understated.

Justification:

Balance Forward for the Utility Services Countywide System Operating fund was projected at \$36,893,763 during development of the FY 2021-2022 budget. Upon completion of the annual audit and reconciliation of the financial statements, the actual balance forward is \$39,336,621, which is an increase in Balance Forward of \$2,442,858. This increase was primarily the result of underestimating carry forward for projects that were under construction at the end of F Y 2020-2021. This budget request appropriates \$371,858 to reserves and a transfer (companion BCR 50015718) from this fund to the Water Resources CIP fund for \$2,071,000 which is for \$1,950,000 for the South Beaches Blower Improvements project FDEP grant match and \$121,000 for the Sykes Creek Plant Headworks project.

Justification:

Balance Forward for the Barefoot Bay Operating fund was projected at \$2,569,356 during development of the FY 2021-2022 budget. Upon completion of the financial statements, the actual balance forward is \$2,881,875 which is an increase of \$312,519. This increase is primarily a result of underestimating carry forward from construction and maintenance projects in FY 2020-2021. This budget request appropriates \$296,419 to reserves and a transfer (companion BCR 50015713) from this fund to the Barefoot Bay Construction Fund for \$16,100 for the Booster Station project.

Alternative:

If this budget adjustment is not approved, cash flow will be understated and the Booster Station may not be completed this fiscal year.

Upon completion of the financial statements, the actual balance forward is \$325,188 which is an increase of \$55,188. This increase is a result of underestimating connection fee revenue for FY 2020-2021. Connection fee revenue is very volatile and dependent on the number of newly constructed commercial and residential units. This budget request appropriates the additional balance forward to reserves for future eligible projects.

Upon completion of FY 20-21 financial statements, the actual balance forward is \$447,947, a decrease of \$186,768. This decrease is the result of more than anticipated progress associated with the grant funded projects that required local match. This budget request reduces funding associated with the Repairs and Maintenance that is not expected to occur in the current fiscal year as well as fuel based on current usage levels. The remaining balance is being offset by a reduction in Capital Reserves.
