County Attorney's Office

Requested Action:

It is requested that the Board of County Commissioners authorize legislative intent and permission to advertise an ordinance amending Section 74, Article VI Brevard County Code, pertaining to restrictions for sexual offenders and sexual predators.

Summary Explanation and Background:

The County currently has a series of ordinances in place contained within Chapter 74, Article VI Brevard County Code whereby certain restrictions are placed on sexual offenders and sexual predators. The amendment to this section will allow access with appropriate conditions to County government buildings for the limited purpose of conducting county business and accessing government services that require in-person attendance, allow access to public meetings and establish a process allowing private businesses to self-certify that the business is a place where children regularly congregate and a primary aspect of its business involves recreation so that it would be included in the 1000-foot buffer zone as defined in the County ordinance.
