Requested Action:

It is requested that the Board of County Commissioners acknowledge receipt of the City of Titusville's FY 2026 Community Redevelopment Agency's Budget Amendment that reallocated \$160,310 within the Community Redevelopment Agency to a project within the Agency.

Summary Explanation and Background:

Pursuant to Section 163.387(6)(b), Florida Statutes, a Community Redevelopment Agency (CRA) created by a city must submit the amendments to its annual budget to the Board of County Commissioners. On February 9, 2026, the County received a budget amendment approved by the Titusville City Council for its Community Redevelopment Agency, transferring funds as follows for the Broad Street Streetscape project:

1. Transferring funds from Space View Pier of (\$65,847)
2. Transferring funds from restricted reserves of (\$94,463)
3. Transferring funds to the Broad Street Streetscape project of \$160,310

Re: City of Titusville FY2026 CRA Budget Amendment

Dear Katherine Wall,

Per Section 164.387 of the Florida Statutes which requires the submittal of Community Redevelopment Agency's (CRA) annual budgets and any budget amendments to be sent to the Board of County Commissioners for the County within which the agency is located. The City of Titusville CRA has enclosed a copy of Titusville CRA's budget amendment for FY2026. The budget amendment was approved on 1/13/2026 and involves transferring \$65,847 from 104-5555-515.65-00 CR2002, titled Space View Pier and \$94,463 from 104-0000-389.11-04 which is CRA Restricted Funds to project 104-5555-515.65.00 CR2501, titled Broad Street Project. This is for consulting and design services for the Broad Street Project.

Please see enclosed supporting documentation. If you have any questions or comments, please contact me at (321)-567-3860.

Sincerely,

Sue E. Williams, FRA-RP

REPORT

To: Members of the Community Redevelopment Agency
From: Thomas Abbate, City Manager
Subject: **Broad Street Streetscape Design Scope of Services**
Department/Office: Community Development

Recommended Action:

Recommend to City Council to approve the Continuing Consultant Contract CO23Q006 Task Order 9 with AECOM Technologies Inc. in the amount of \$440,825 to provide Consulting and Design Services for the Broad Street Streetscape project and authorize the City Manager to execute the task order and approve the associated budget amendment at the next regular City Council meeting.

Summary Explanation & Background:

At the August 12, 2025 Community Redevelopment Agency (CRA) meeting, the Broad Street Streetscape was unanimously approved by the CRA Board. The Broad Street project is envisioned as a signature downtown "festival street" that supports community events, enhances walkability, and strengthens economic activity within the Downtown Titusville CRA District. The City maintains continuing service agreements with two engineering firms to support public works projects. These firms possess specialized technical expertise and adequate resources and are engaged on a rotating, as-needed basis to provide engineering services. In accordance with the existing contract for professional consulting services, the firm of AECOM Technical Services, Inc. ("Consultant") has been requested to provide a proposal for scope of services outlining the professional design services required to advance the project from data collection and conceptual design through final construction documents.

Project Limits

The Broad Street project area is located within downtown Titusville and generally extends from Lemon Avenue South on the west to the parking area near Veterans Memorial Park on the east, encompassing approximately 1,950 linear feet within a 100-foot right-of-way. The corridor includes multiple intersections, including two FDOT-owned U.S. 1 crossings, which will require coordination with FDOT standards and requirements.

Overall Scope and Approach

AECOM's scope is structured to deliver a comprehensive, phased design process. The work includes project administration, site data collection, conceptual design, stakeholder engagement, and preparation of 30%, 60%, and final signed and sealed construction documents. Permitting and construction administration services are excluded and would require a separate authorization.

Project Administration

AECOM will manage the consultant team, coordinate with City and CRA staff, conduct a formal kickoff meeting, and facilitate up to sixteen progress meetings throughout the design process. Written summaries and meeting documentation will be provided to ensure transparency and coordination.

Site Data Collection and Analysis

The consultant team will complete detailed topographic, boundary, tree, and subsurface utility surveys, along with a geotechnical investigation. This work will ensure a site base plan and a strengths-weaknesses-opportunities-threats (SWOT) analysis to guide design decisions and identify constraints early in the process.

Concept Design and Visioning

AECOM will prepare up to two conceptual design alternatives, supported by 3-D visualizations and precedent imagery. Following City selection of a preferred alternative, a Final Concept Plan Package will be prepared to illustrate the overall vision for Broad Street, including paving treatments, landscaping, and site furnishings

Stakeholder and CRA Engagement

The scope includes a dedicated stakeholder meeting and a separate CRA input meeting to gather feedback on the concept design. A summary of input received will be prepared and presented to City and CRA staff to inform refinement of the design.

Design Development (30%, 60%, and Final Plans)

AECOM will advance the approved concept into detailed construction documents in three phases. Each phase includes updated plans, specifications, and cost estimates, allowing the City and CRA to evaluate scope, design, and budget as the project progresses. Elements addressed include grading and drainage, hardscape, landscaping, irrigation, lighting, utilities coordination, and evaluation of EV charging capabilities.

Schedule and Budget

The anticipated design schedule totals approximately 38 weeks, excluding City review periods. The total lump-sum cost for the base scope of services is \$440,825, with fees allocated by task and milestone. An optional wayfinding and signage design task is available for \$25,130 if authorized by the City and CRA. There is \$280,515 in the Broad Street Parking Account. Staff is recommending a budget adjustment of \$65,847 from the Space View Pier and \$94,463 from the CRA Restricted Fun Balance Account.

CRA Board Review

The scope is being presented to the CRA Board to solicit Board input on the overall design approach, engagement process, and project expectations prior to advancing into concept development and detailed design. Board feedback at this stage will help ensure the Broad Street Streetscape reflects the CRA's vision, priorities, and long-term redevelopment goals. Approval is needed to keep this project moving forward.

It is recommended that the CRA recommend to City Council to approve the Continuing Consultant Contract CO23Q006 Task Order 9 with AECOM Technologies Inc. in the amount of \$440,825 to provide Consulting and Design Services for the Broad Street Streetscape project and authorize the City Manager to execute the task order and approve the associated budget amendment at the next regular City Council meeting.
