Ms. Karin Jamison
Director, Test & Support Products
Fleet Ballistic Missile Program
Lockheed Martin Space Systems Company
Cape Canaveral Air Force Station, FL 32920

Dear Ms. Jamison,

On behalf of myself and the Brevard County Commission, I extend congratulations to Lockheed Martin Space Systems Company and your team that works with the U.S. Navy's Strategic Systems Programs organization and the Naval Ordnance Test Unit (NOTU) on the 60th anniversary of America's Fleet Ballistic Missile Program. This is a major milestone and underscores the enduring importance of the sea-based leg of our nation's strategic nuclear deterrent. The critical role Lockheed Martin and NOTU play, especially here at the Eastern Range, ensures that America's Fleet Ballistic Missile program is always ready to defend our freedom and the national security interests of the U.S. across the globe.

Brevard County is extremely proud of our veterans and the men and women of our Armed Forces, as well as the industry team members – like Lockheed Martin – who serve together to keep the peace. On the occasion of this 60th anniversary celebration, I salute your success and look forward to many more years of Lockheed Martin leading the way on the Space Coast in defense of our nation and its citizens in an increasingly dangerous world.

Sincerely,

Jim Barfield
Brevard County Commissioner
District 2
