

Agenda Report

2725 Judge Fran Jamieson
Way
Viera, FL 32940

Public Hearing

H.3.

5/27/2021

Subject:

Habitat for Humanity of Brevard County, Inc. (Kim Rezanka) requests a change of zoning classification from AU to RU-1-13. (21Z00010) (Tax Account 2802066) (District 5)

Fiscal Impact:

None

Dept/Office:

Planning and Development

Requested Action:

It is requested that the Board of County Commissioners conduct a public hearing to consider a change of zoning classification from AU (Agricultural Residential) to RU-1-13 (Single-Family Residential).

Summary Explanation and Background:

The applicant is seeking a change of zoning classification on vacant property from AU to RU-1-13 for the purpose of developing the property as two single family lots. The current parcel configuration does not meet the minimum lot area for an AU zoned property. However, the proposed RU-1-13 zoning classification would allow the parcel to be split to create two developable lots.

The subject property retains the RES 4 (Residential 4) Future Land Use designation. The existing AU zoning classification and the proposed RU-1-13 are consistent with the RES 4 Future Land Use designation.

The surrounding area along Hoover Lane has a mixture residential zoning classifications including: AU, RR-1 (Rural Residential), RU-1-13 and RU-1-9 (Single-Family Residential) zoned parcels which are developed with single-family homes. Although there are parcels zoned AU (Agricultural Residential) along Hoover Lane, it appears that these parcels are not being used for agricultural pursuits, nor do they meet the minimum zoning classification standards for lot area.

The Board may wish to consider whether the request is consistent and compatible with the surrounding area.

On May 3, 2021, the Planning and Zoning Board heard the request and unanimously recommended approval.

Clerk to the Board Instructions:

Once resolution is received, please execute and return to Planning and Development.

Resolution 21Z00010

On motion by Commissioner Zonka, seconded by Commissioner Lober, the following resolution was adopted by a unanimous vote:

WHEREAS, Habitat for Humanity of Brevard County, Inc. has requested a change of zoning classification from AU (Agricultural Residential) to RU-1-13 (Single-Family Residential), on property described as Tax Parcel 5, as recorded in ORB 7521, Page 1518, of the Public Records of Brevard County, Florida. **Section 12, Township 28, Range 36.** (0.67 acres) Located on the east side of Hoover Lane, approx. 150 ft. south of Henry Ave. (526 Hoover Lane, Melbourne); and

WHEREAS, a public hearing of the Brevard County Planning and Zoning Board was advertised and held, as required by law, and after hearing all interested parties and considering the adjacent areas, the Brevard County Planning and Zoning Board recommended that the application be approved; and

WHEREAS, the Board, after considering said application and Brevard County Planning and Zoning Board's recommendation, and hearing all interested parties, and after due and proper consideration having been given to the matter, find that the application should be approved as recommended; now therefore,

BE IT RESOLVED by the Board of County Commissioners of Brevard County, Florida, that the requested change of zoning classification from AU to RU-1-13 be approved. The Planning and Development Director, or designee, is hereby directed to make this change on the official zoning maps of Brevard County, Florida.

BE IT FURTHER RESOLVED that this resolution shall become effective as of May 27, 2021.

BOARD OF COUNTY COMMISSIONERS
Brevard County, Florida

Rita Pritchett, Chair

Brevard County Commission

As approved by the Board on May 27, 2021.

ATTEST:

RACHEL M. SADOFF, CLERK

(SEAL)

Planning and Zoning Board Hearing – May 3, 2021

Please note: A CUP (Conditional Use Permit) will generally expire on the three-year anniversary of its approval if the use is not established prior to that date. CUPs for Towers and Antennas shall expire if a site plan for the tower is not submitted within one year of approval or if construction does not commence within two years of approval. A Planned Unit Development Preliminary Development Plan expires if a final development plan is not filed within three years. **The granting of this zoning does not guarantee physical development of the property. At the time of development, said development must be in accordance with the criteria of the Brevard County Comprehensive Plan and other applicable laws and ordinances.**

ADMINISTRATIVE POLICIES OF THE FUTURE LAND USE ELEMENT

Administrative Policies in the Future Land Use Element establish the expertise of staff with regard to zoning land use issues and set forth criteria when considering a rezoning action or request for Conditional Use Permit, as follows:

Administrative Policy 1

The Brevard County zoning official, planners and the director of the Planning and Development staff, however designated, are recognized as expert witnesses for the purposes of Comprehensive Plan amendments as well as zoning, conditional use, special exception, and variance applications.

Administrative Policy 2

Upon Board request, members of the Brevard County Planning and Development staff shall be required to present written analysis and a recommendation, which shall constitute an expert opinion, on all applications for development approval that come before the Board of County Commissioners for quasi-judicial review and action. The Board may table an item if additional time is required to obtain the analysis requested or to hire an expert witness if the Board deems such action appropriate. Staff input may include the following:

Criteria:

- A. Staff shall analyze an application for consistency or compliance with comprehensive plan policies, zoning approval criteria and other applicable written standards.
- B. Staff shall conduct site visits of property which are the subject of analysis and recommendation. As part of the site visit, the staff shall take a videotape or photographs where helpful to the analysis and conduct an inventory of surrounding existing uses. Aerial photographs shall also be used where they would aid in an understanding of the issues of the case.
- C. In cases where staff analysis is required, both the applicant and the staff shall present proposed findings of fact for consideration by the Board.
- D. For re-zoning applications where a specific use has not been proposed, the worst case adverse impacts of potential uses available under the applicable land use classification shall be evaluated by the staff.

Administrative Policy 3

Compatibility with existing or proposed land uses shall be a factor in determining where a rezoning or any application involving a specific proposed use is being considered. Compatibility shall be evaluated by considering the following factors, at a minimum:

Criteria:

- A. Whether the proposed use(s) would have hours of operation, lighting, odor, noise levels, traffic, or site activity that would significantly diminish the enjoyment of, safety or quality of life in existing neighborhoods within the area which could foreseeably be affected by the proposed use.
- B. Whether the proposed use(s) would cause a material reduction (five percent or more) in the value of existing abutting lands or approved development.
- C. Whether the proposed use(s) is/are consistent with an emerging or existing pattern of surrounding development as determined through analysis of:

1. historical land use patterns;
 2. actual development over the immediately preceding three years; and
 3. development approved within the past three years but not yet constructed.
- D. Whether the proposed use(s) would result in a material violation of relevant policies in any elements of the Comprehensive Plan.

Administrative Policy 4

Character of a neighborhood or area shall be a factor for consideration whenever a rezoning or any application involving a specific proposed use is reviewed. The character of the area must not be materially or adversely affected by the proposed rezoning or land use application. In evaluating the character of an area, the following factors shall be considered:

Criteria:

- A. The proposed use must not materially and adversely impact an established residential neighborhood by introducing types of intensity of traffic (including but not limited to volume, time of day of traffic activity, type of vehicles, et cetera), parking, trip generation, commercial activity or industrial activity that is not already present within the identified boundaries of the neighborhood.
- B. In determining whether an established residential neighborhood exists, the following factors must be present:
 1. The area must have clearly established boundaries, such as roads, open spaces, rivers, lakes, lagoons, or similar features.
 2. Sporadic or occasional neighborhood commercial uses shall not preclude the existence of an existing residential neighborhood, particularly if the commercial use is non-conforming or pre-dates the surrounding residential use.
 3. An area shall be presumed not to be primarily residential but shall be deemed transitional where multiple commercial, industrial or other non-residential uses have been applied for and approved during the previous five (5) years.

Administrative Policy 5

In addition to the factors specified in Administrative Policies 2, 3, and 4, in reviewing a rezoning, conditional use permit or other application for development approval, the impact of the proposed use or uses on transportation facilities either serving the site or impacted by the use(s) shall be considered. In evaluating whether substantial and adverse transportation impacts are likely to result if an application is approved, the staff shall consider the following criteria:

Criteria:

- A. Whether adopted levels of services will be compromised;
- B. Whether the physical quality of the existing road system that will serve the proposed use(s) is sufficient to support the use(s) without significant deterioration;

- C. Whether the surrounding existing road system is of sufficient width and construction quality to serve the proposed use(s) without the need for substantial public improvements;
- D. Whether the surrounding existing road system is of such width and construction quality that the proposed use(s) would realistically pose a potential for material danger to public safety in the surrounding area;
- E. Whether the proposed use(s) would be likely to result in such a material and adverse change in traffic capacity of a road or roads in the surrounding area such that either design capacities would be significantly exceeded or a de facto change in functional classification would result;
- F. Whether the proposed use(s) would cause such material and adverse changes in the types of traffic that would be generated on the surrounding road system, that physical deterioration of the surrounding road system would be likely;
- G. Whether projected traffic impacts of the proposed use(s) would materially and adversely impact the safety or welfare of residents in existing residential neighborhoods.

Administrative Policy 6

The use(s) proposed under the rezoning, conditional use or other application for development approval must be consistent with, (a), all written land development policies set forth in these administrative policies; and (b), the future land use element, coastal management element, conservation element, potable water element, sanitary sewer element, solid waste management element, capital improvements element, recreation and open space element, surface water element, and transportation elements of the comprehensive plan.

Administrative Policy 7

Proposed use(s) shall not cause or substantially aggravate any, (a), substantial drainage problem on surrounding properties; or (b), significant, adverse and unmitigatable impact on significant natural wetlands, water bodies or habitat for listed species.

Administrative Policy 8

These policies, the staff analysis based upon these policies, and the applicant's written analysis, if any, shall be incorporated into the record of every quasi-judicial review application for development approval presented to the Board including rezoning, conditional use permits, and vested rights determinations.

Section 62-1151(c) of the Code of Ordinances of Brevard County directs, "The planning and zoning board shall recommend to the board of county commissioners the denial or approval of each application for amendment to the official zoning maps based upon a consideration of the following factors:

- (1) The character of the land use of the property surrounding the property being considered.
- (2) The change in conditions of the land use of the property being considered and the surrounding property since the establishment of the current applicable zoning classification, special use or conditional use.

- (3) The impact of the proposed zoning classification or conditional use on available and projected traffic patterns, water and sewer systems, other public facilities and utilities and the established character of the surrounding property.
- (4) The compatibility of the proposed zoning classification or conditional use with existing land use plans for the affected area.
- (5) The appropriateness of the proposed zoning classification or conditional use based upon a consideration of the applicable provisions and conditions contained in this article and other applicable laws, ordinances and regulations relating to zoning and land use regulations and based upon a consideration of the public health, safety and welfare.

The minutes of the planning and zoning board shall specify the reasons for the recommendation of approval or denial of each application."

CONDITIONAL USE PERMITS (CUPs)

In addition to the specific requirements for each Conditional Use Permit (CUP), Section 62-1901 provides that the following approval procedure and general standards of review are to be applied to all CUP requests, as applicable.

- (b) Approval procedure. An application for a specific conditional use within the applicable zoning classification shall be submitted and considered in the same manner and according to the same procedure as an amendment to the official zoning map as specified in Section 62-1151. The approval of a conditional use shall authorize an additional use for the affected parcel of real property in addition to those permitted in the applicable zoning classification. The initial burden is on the applicant to demonstrate that all applicable standards and criteria are met. Applications which do not satisfy this burden cannot be approved. If the applicant meets its initial burden, then the Board has the burden to show, by substantial and competent evidence, that the applicant has failed to meet such standards and the request is adverse to the public interest. As part of the approval of the conditional use permit, the Board may prescribe appropriate and reasonable conditions and safeguards to reduce the impact of the proposed use on adjacent and nearby properties or the neighborhood. A nearby property, for the purpose of this section, is defined as any property which, because of the character of the proposed use, lies within the area which may be substantially and adversely impacted by such use. In stating grounds in support of an application for a conditional use permit, it is necessary to show how the request fulfills both the general and specific standards for review. The applicant must show the effect the granting of the conditional use permit will have on adjacent and nearby properties, including, but not limited to traffic and pedestrian flow and safety, curb-cuts, off-street loading and parking, off-street pickup of passengers, odors, glare and noise, particulates, smoke, fumes, and other emissions, refuse and service areas, drainage, screening and buffering for protection of adjacent and nearby properties, and open space and economic impact on nearby properties. The applicant, at his discretion, may choose to present expert testimony where necessary to show the effect of granting the conditional use permit.
- (c) General Standards of Review.
 - (1) The planning and zoning board and the board of county commissioners shall base the denial or approval of each application for a conditional use based upon

a consideration of the factors specified in Section 62-1151(c) plus a determination whether an application meets the intent of this section.

- a. The proposed conditional use will not result in a substantial and adverse impact on adjacent and nearby properties due to: (1), the number of persons anticipated to be using, residing or working under the conditional use; (2), noise, odor, particulates, smoke, fumes and other emissions, or other nuisance activities generated by the conditional use; or (3), the increase of traffic within the vicinity caused by the proposed conditional use.
- b. The proposed use will be compatible with the character of adjacent and nearby properties with regard to use, function, operation, hours of operation, type and amount of traffic generated, building size and setback, and parking availability.
- c. The proposed use will not cause a substantial diminution in value of abutting residential property. A substantial diminution shall be irrebuttably presumed to have occurred if abutting property suffers a 15% reduction in value as a result of the proposed conditional use. A reduction of 10% of the value of abutting property shall create a rebuttable presumption that a substantial diminution has occurred. The Board of County Commissioners carries the burden to show, as evidenced by either testimony from or an appraisal conducted by an M A I certified appraiser, that a substantial diminution in value would occur. The applicant may rebut the findings with his own expert witnesses.

(2) The following specific standards shall be considered, when applicable, in making a determination that the general standards specified in subsection (1) of this section are satisfied:

- a. Ingress and egress to the property and proposed structures thereon, with particular reference to automotive and pedestrian safety and convenience, traffic flow and control, and access in case of fire and catastrophe, shall be: (1), adequate to serve the proposed use without burdening adjacent and nearby uses, and (2), built to applicable county standards, if any. Burdening adjacent and nearby uses means increasing existing traffic on the closest collector or arterial road by more than 20%, or 10% if the new traffic is primarily comprised of heavy vehicles, except where the affected road is at Level of Service A or B. New traffic generated by the proposed use shall not cause the adopted level of service for transportation on applicable roadways, as determined by applicable Brevard County standards, to be exceeded. Where the design of a public road to be used by the proposed use is physically inadequate to handle the numbers, types or weights of vehicles expected to be generated by the proposed use without damage to the road, the conditional use permit cannot be approved without a commitment to improve the road to a standard adequate to handle the proposed traffic, or to maintain the road through a maintenance bond or other means as required by the Board of County Commissioners.
- b. The noise, glare, odor, particulates, smoke, fumes or other emissions from the conditional use shall not substantially interfere with the use or enjoyment of the adjacent and nearby property.
- c. Noise levels for a conditional use are governed by Section 62-2271.

- d. The proposed conditional use shall not cause the adopted level of service for solid waste disposal applicable to the property or area covered by such level of service, to be exceeded.
- e. The proposed conditional use shall not cause the adopted level of service for potable water or wastewater applicable to the property or the area covered by such level of service, to be exceeded by the proposed use.
- f. The proposed conditional use must have existing or proposed screening or buffering, with reference to type, dimensions and character to eliminate or reduce substantial, adverse nuisance, sight, or noise impacts on adjacent and nearby properties containing less intensive uses.
- g. Proposed signs and exterior lighting shall not cause unreasonable glare or hazard to traffic safety, or interference with the use or enjoyment of adjacent and nearby properties.
- h. Hours of operation of the proposed use shall be consistent with the use and enjoyment of the properties in the surrounding residential community, if any. For commercial and industrial uses adjacent to or near residential uses, the hours of operation shall not adversely affect the use and enjoyment of the residential character of the area.
- i. The height of the proposed use shall be compatible with the character of the area, and the maximum height of any habitable structure shall be not more than 35 feet higher than the highest residence within 1,000 feet of the property line.
- j. Off-street parking and loading areas, where required, shall not be created or maintained in a manner which adversely impacts or impairs the use and enjoyment of adjacent and nearby properties. For existing structures, the applicant shall provide competent, substantial evidence to demonstrate that actual or anticipated parking shall not be greater than that which is approved as part of the site plan under applicable county standards.

FACTORS TO CONSIDER FOR A REZONING REQUEST

Section 62-1151(c) sets forth factors to consider in connection with a rezoning request, as follows:

"The planning and zoning board shall recommend to the board of county commissioners the denial or approval of each application for amendment to the official zoning maps based upon a consideration of the following factors:

- (1) The character of the land use of the property surrounding the property being considered.
- (2) The change in conditions of the land use of the property being considered and the surrounding property since the establishment of the current applicable zoning classification, special use or conditional use.
- (3) The impact of the proposed zoning classification or conditional use on available and projected traffic patterns, water and sewer systems, other public facilities and utilities and the established character of the surrounding property.

- (4) The compatibility of the proposed zoning classification or conditional use with existing land use plans for the affected area.
- (5) The appropriateness of the proposed zoning classification or conditional use based upon a consideration of the applicable provisions and conditions contained in this article and other applicable laws, ordinances and regulations relating to zoning and land use regulations and based upon a consideration of the public health, safety and welfare."

These staff comments contain references to zoning classifications found in the Brevard County Zoning Regulations, Chapter 62, Article VI, Code of Ordinances of Brevard County. These references include brief summaries of some of the characteristics of that zoning classification. Reference to each zoning classification shall be deemed to incorporate the full text of the section or sections defining and regulating that classification into the Zoning file and Public Record for that item.

These staff comments contain references to sections of the Code of Ordinances of Brevard County. Reference to each code section shall be deemed to incorporate this section into the Zoning file and Public Record for that item.

These staff comments contain references to Policies of the Brevard County Comprehensive Plan. Reference to each Policy shall be deemed to incorporate the entire Policy into the Zoning file and Public Record for that item.

These staff comments refer to previous zoning actions which are part of the Public Records of Brevard County, Florida. These records will be referred to by reference to the file number. Reference to zoning files are intended to make the entire contents of the cited file a part of the Zoning file and Public Record for that item.

DEFINITIONS OF CONCURRENCY TERMS

Maximum Acceptable Volume (MAV): Maximum acceptable daily volume that a roadway can carry at the adopted Level of Service (LOS).

Current Volume: Building permit related trips added to the latest TPO (Transportation Planning Organization) traffic counts.

Volume with Development (VOL W/DEV): Equals Current Volume plus trip generation projected for the proposed development.

Volume/Maximum Acceptable Volume (VOL/MAV): Equals the ratio of current traffic volume to the maximum acceptable roadway volume.

Volume/Maximum Acceptable Volume with Development (VOL/MAV W/DEV): Ratio of volume with development to the Maximum Acceptable Volume.

Acceptable Level of Service (CURRENT LOS): The Level of Service at which a roadway is currently operating.

Level of Service with Development (LOS W/DEV): The Level of Service that a proposed development may generate on a roadway.

STAFF COMMENTS

21Z00010

Habitat for Humanity of Brevard County, Inc. (Kimberly B. Rezanka)

AU (Agricultural Residential) to RU-1-13 (Single-Family Residential)

Tax Account Number: 2802066
Parcel I.D.: 28-36-12-00-5
Location: East side of Hoover Lane, 150 feet south of Henry Avenue (District 5)
Acreage: 0.67 acres

Planning and Zoning Board: 05/03/2021

Board of County Commissioners: 05/27/2021

Consistency with Land Use Regulations

- Current zoning can be considered under the Future Land Use Designation, Section 62-1255.
- The proposal can be considered under the Future Land Use Designation, Section 62-1255.
- The proposal would maintain acceptable Levels of Service (LOS) (XIII 1.6.C)

	CURRENT	PROPOSED
Zoning	AU	RU-1-13
Potential*	No units, parcel size is sub-standard	Two single-family units
Can be Considered under the Future Land Use Map	YES RES 4	YES RES 4

* Zoning potential for concurrency analysis purposes only, subject to applicable land development regulations.

Background and Purpose of Request

The applicant is seeking a change of zoning classification from AU (Agricultural Residential) to RU-1-13 (Single-Family Residential) for the purpose of legitimizing the parcel and to be able to split the parcel into two units and build one single-family home on each lot. The parcel is vacant. The applicant did not provide staff with a proposed development plan submitted with this application for the proposed single-family homes.

The AU zoning is the original zoning of the parcel adopted May 22, 1958. The parcel was subdivided into its current configuration on May 01, 1972, per Official Records Book 1246, Page 455. When this parcel was subdivided, AU zoning required a parcel to be one acre in size, 125 feet wide and 125 feet deep.

Land Use

The subject property retains the RES 4 (Residential 4) Future Land Use designation. The existing zoning classification AU and the proposed RU-1-13 are consistent with the RES 4 Future Land Use designation.

Applicable Land Use Policies

FLUE Policy 1.7 – The Residential 4 Future land use designation affords an additional step down in density from more highly urbanized areas. This land use designation permits a maximum density of up to four (4) units per acre, except as otherwise may be provided for within the Future Land Use Element.

The Board should evaluate the compatibility of this application within the context of Administrative Policies 2 – 8 of the Future Land Use Element.

Analysis of Administrative Policy #3 - Compatibility between this site and the existing or proposed land uses in the area.

The subject property is vacant land and lies within the Residential 4 Future Land Use designation. The abutting parcels and the surrounding area have a Residential 4 Future Land Use designation which is compatible with the current AU zoning and the proposed RU-1-13.

Properties along Hoover Ln. are primarily residential in nature. There have been no Future Land Use changes within the past 20 years.

Analysis of Administrative Policy #4 - Character of a neighborhood or area.

The subject parcel is zoned AU and is vacant.

The developed character of the surrounding area along Hoover Lane is AU, RR-1 (Rural Residential), RU-1-13 and RU-1-9 (Single-Family Residential) zoned parcels which are developed with single-family houses. Although there are parcels zoned AU (Agricultural Residential) along Hoover Lane, it appears that these parcels are not being used for agricultural pursuits.

The AU agricultural residential zoning classification encompasses lands devoted to agricultural pursuits and single-family residential development of spacious character. The classification is divided into two types, AU and AU(L). The AU is the standard agricultural residential classification, while the AU(L) is a low intensity sub-classification more suited to smaller lots where the neighborhood has a more residential than agricultural character. The current AU zoning classification permits single-family residences and agricultural uses on 2.5 acre lots, with a minimum lot width and depth of 150 feet. The minimum house size in AU is 750 square feet. The AU classification also permits the raising/grazing of animals, fowl and beekeeping, plant nurseries and all agricultural pursuits, including the packing, processing, and sales of commodities raised on the premises are a permitted use in AU zoning.

The RU-1-13 single-family residential zoning classifications encompass lands devoted to single-family residential development of spacious character, together with such accessory uses as may be necessary or are normally compatible with residential surroundings. The proposed RU-1-13 permits

single-family residences on minimum 7,500 square foot lots, with minimum widths and depths of 75 feet. The minimum house size is 1,300 square feet.

The RR-1 rural residential zoning classification encompasses lands devoted to single-family residential development of spacious character, together with such accessory uses as may be necessary or are normally compatible with residential surroundings, and at the same time permits uses which are conducted in such a way as to minimize possible incompatibility with residential development. The RR-1 classification permits single family residences on minimum 1 acre lot, with a minimum width and depth of 125 feet. The minimum house size is 1,200 square feet. Keeping of horses and agricultural uses are accessory to a principle residence within the RR-1 zoning district.

There have been no rezoning applications in the surrounding area in the past 10 years.

Surrounding Area

The abutting parcels to the north are zoned AU and RR-1 and are developed with single-family residences. The AU zoned parcel to the north was subdivided into its configuration before the zoning code was established in Brevard County on May 22, 1958. The abutting RR-1 parcel to the north appears to be sub-standard to the RR-1 zoning size requirement. The abutting parcels to the east are in the city limits of West Melbourne and are developed with commercial buildings and uses. The abutting parcel to the south is zoned AU and is undeveloped and is sub-standard to the AU zoning size requirement. The parcels along the west side of Hoover Lane are zoned AU, RR-1 and RU-1-13 and are developed with single-family residences. The parcels on the west side of Hoover Lane zoned AU and RR-1 appear to be sub-standard to their zoning size requirements.

Environmental Constraints

Summary of Mapped Resources and Noteworthy Land Use Issues:

- Hydric Soils/Wetlands
- Protected Species
- Protected and Specimen Trees

The subject parcel contains mapped hydric soils, an indicator that wetlands may be present on the property. A wetland determination will be required prior to any land clearing activities, site plan design or building permit submittal. Per Section 62-3694(c)(2), residential land uses within wetlands shall be limited to not more than one (1) dwelling unit per five (5) acres unless strict application of this policy would render a legally established parcel as of September 9, 1988, which is less than five (5) acres, as unbuildable. Application of the one-unit-per-five-acres limitation shall limit impacts to wetlands for single family residential development on a cumulative basis, to not more than 1.8% of the total property acreage. Any permitted wetland impacts must meet the requirements of Section 62-3694(e) including avoidance of impacts, and will require mitigation in accordance with Section 62-3696. The applicant is encouraged to contact NRM at (321) 633-2016 prior to any site plan design.

Preliminary Transportation Concurrency

The closest concurrency management segment to the subject property is Minton Road, between Milwaukee Avenue and Henry Avenue, which has a Maximum Acceptable Volume of 39,800 trips per

day, a Level of Service (LOS) of D, and currently operates at 87.99% of capacity daily. The maximum development potential from the proposed rezoning increases the percentage of MAV utilization by 0.05%. The corridor is anticipated to continue to operate at 88.04% of capacity daily (LOS D). The proposal is not anticipated to create a deficiency in LOS.

No school concurrency information has been provided as the development potential of this site falls below the minimum number of new residential lots that would require a formal review.

The parcel is not serviced by Brevard County sewer or water. The closest available Brevard County sewer line is located approximately 6.4 miles north of the parcel. The closest available Brevard County water line is located approximately 14.7 miles southeast of the parcel.

For Board Consideration

The Board may wish to consider whether the request is consistent and compatible with the surrounding area given the fact that RU-1-13 zoning has been established.

**NATURAL RESOURCES MANAGEMENT DEPARTMENT
Zoning Review & Summary
Item # 21Z00010**

Applicant: Kim Rezanka

Zoning Request: AU to RU-1-13

Note: Applicant wants to build two homes on 0.67 acres.

P&Z Hearing Date: 05/03/21; **BCC Hearing Date:** 05/27/21

Tax ID No: 2802066

- This is a preliminary review based on best available data maps reviewed by the Natural Resources Management Department (NRM) and does not include a site inspection to verify the accuracy of the mapped information.
- In that the rezoning process is not the appropriate venue for site plan review, specific site designs submitted with the rezoning request will be deemed conceptual. Board comments relative to specific site design do not provide vested rights or waivers from Federal, State or County regulations.
- **This review does not guarantee whether or not the proposed use, specific site design, or development of the property can be permitted under current Federal, State, or County Regulations.**

Summary of Mapped Resources and Noteworthy Land Use Issues:

- Hydric Soils/Wetlands
- Protected Species
- Protected and Specimen Trees

The subject parcel contains mapped hydric soils, an indicator that wetlands may be present on the property. A wetland determination will be required prior to any land clearing activities, site plan design or building permit submittal. Per Section 62-3694(c)(2), residential land uses within wetlands shall be limited to not more than one (1) dwelling unit per five (5) acres unless strict application of this policy would render a legally established parcel as of September 9, 1988, which is less than five (5) acres, as unbuildable. Application of the one-unit-per-five-acres limitation shall limit impacts to wetlands for single family residential development on a cumulative basis, to not more than 1.8% of the total property acreage. Any permitted wetland impacts must meet the requirements of Section 62-3694(e) including avoidance of impacts, and will require mitigation in accordance with Section 62-3696. The applicant is encouraged to contact NRM at (321) 633-2016 prior to any site plan design.

Land Use Comments:

Hydric Soils/Wetlands

The entire parcel is mapped with hydric soils (Riviera sand) as shown on the USDA Soil Conservation Service Soils Survey map; an indicator that wetlands may be present on the property. A wetland determination will be required prior to any land clearing activities, site plan design or building permit submittal. Per Section 62-3694(c)(2), residential land uses within wetlands shall be limited to not more than one (1) dwelling unit per five (5) acres unless strict application of this policy would render a legally established parcel as of September 9, 1988, which is less than five (5) acres, as unbuildable. Application of the one-unit-per-five-acres limitation shall limit impacts to wetlands for single family

residential development on a cumulative basis, to not more than 1.8% of the total property acreage. Any permitted wetland impacts must meet the requirements of Section 62-3694(e) including avoidance of impacts, and will require mitigation in accordance with Section 62-3696. The applicant is encouraged to contact NRM at (321) 633-2016 prior to any site plan design.

Protected Species

Information available to NRM indicates that federally and/or state protected species may be present on the property. Prior to any plan, permit submittal, or development activity, including land clearing, the applicant should obtain any necessary permits or clearance letters from the Florida Fish and Wildlife Conservation Commission and/or U.S. Fish and Wildlife Service, as applicable.

Protected and Specimen Trees

Aerials indicate that Protected (greater than or equal to 10 inches in diameter) and Specimen Trees (greater than or equal to 24 inches in diameter) may exist on subject property. Per Brevard County Landscaping, Land Clearing and Tree Protection ordinance, Section 62-4331(3), the purpose and intent of the ordinance is to encourage the protection of Heritage Specimen trees. The applicant is advised to refer to Article XIII, Division 2, entitled Land Clearing, Landscaping, and Tree Protection, for specific requirements for tree preservation and canopy coverage requirements. Land clearing is not permitted without prior authorization by NRM.

Description of Request: Rezone from AU to RU-1-13

Notice to Applicants for Change of Land Use

The Planning and Zoning Office staff will be preparing a package of written comments concerning your request. These comments will be provided to the Planning and Zoning Board and Board of County Commissioners. The comments will address the following:

The current zoning of the property along with its current development potential and consistency with the Brevard County Comprehensive Plan use and density restrictions.

The proposed zoning of the property along with its development potential and Consistency with the Board County Comprehensive Plan use and density restrictions.

The proposal's impact on services, such as roads and schools.

The proposal's impact upon hurricane evacuation, if applicable.

Environmental factors.

Compatibility with surrounding land uses.

Consistency with the character of the area.

You may place your own written comments regarding these items into the record. Up to two typewritten pages can be included in the package if received 10 working days prior to the Planning and Zoning Board hearing. You are not required to provide written comments. *An Applicant presentation to the Planning and Zoning Board is required regardless of written submittals.* The board may approve the requested classification or a classification which is more intensive than the existing classification, but less intensive than the requested classification.

Staff comments will be available approximately one week prior to the Planning and Zoning Board hearing. These comments will be made available to you at that time. In order to expedite receipt of staff's comments, please provide an e-mail address or fax number below. Alternatively, a copy of staff's comments will be mailed via the U.S. Postal Service.

NOTES:

- ☐ If your application generates public opposition, as may be expressed in letters, petitions, phone calls, testimony, etc., you are advised to meet with concerned parties in an effort to resolve differences prior to the BCC taking final action on the request; therefore, you are encouraged to meet with affected property owners prior to the public hearing by the Planning & Zoning Board/Local Planning Agency (P&Z/LPA). During the course of conducting the public hearing, if the P&Z/LPA finds the application is controversial, and the applicant has not met with affected property owners, the item shall be tabled to the next agenda to allow such a meeting to take place. If the item is controversial, despite the applicant's efforts to meet with affected property owners, the P&Z/LPA may include, in their motion, a requirement to meet with interested parties again prior to the BCC public hearing. The BCC may also table your request in order for you to meet with interested parties, if this has not occurred prior to the public hearing before the BCC. If you need assistance to identify these parties, please contact the Planning & Zoning Office.
- ☐ BCC approval of a zoning application does not vest a project nor ensure issuance of a permit. At the time of permit application, land development regulations and concurrency-related level of service standards must be met.

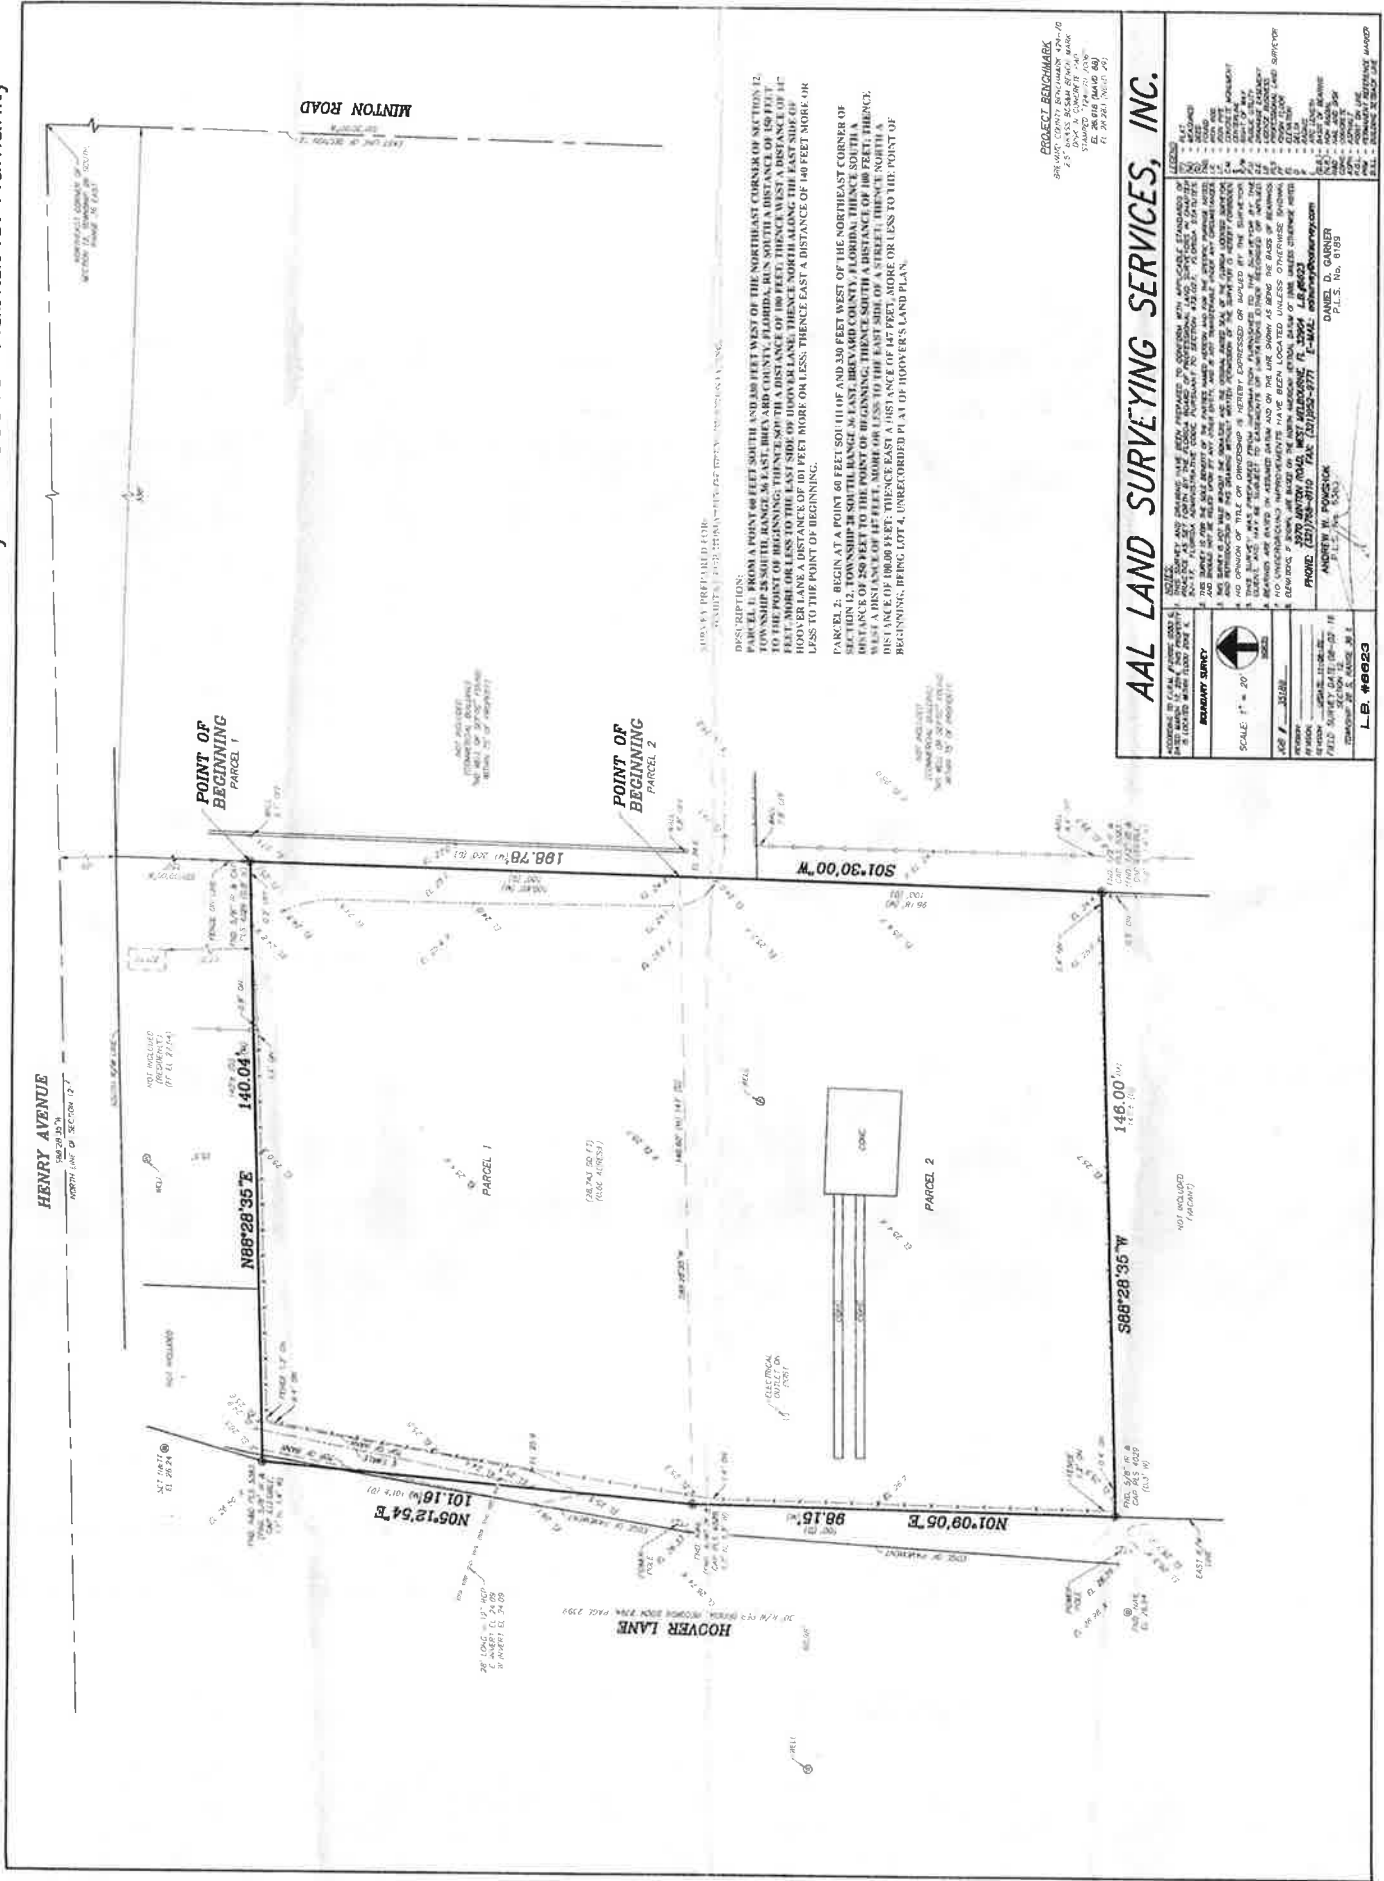

Please transmit staff's comments via:

AFFIDAVIT

STATE OF FLORIDA
COUNTY OF BREVARD

Before me, this undersigned authority, personally appeared, Brian Lock,
to me well known and known to me to be the person described in and who executed the foregoing
affidavit, after being first duly sworn, says:

1. That the affiant posted the notice provided by the Brevard County Planning & Zoning Office, which contains the time(s) and date(s) of the Public Hearing(s) involved.
2. Said posted notice contains the name of the applicant, the total acreage of the property in question, the existing land use classification, special use classification or conditional use designation, and the requested amendment to the official zoning maps. Said notice also contains the time and place of the public hearing on the consideration of said application by the Board of County Commissioners of Brevard County, if applicable.
3. The said notice has been posted in a conspicuous place on the subject property not more than twenty-five (25) days, nor less than fifteen (15) days prior to the first public hearing before the applicable board (as indicated on notice). If the property abuts a public road right-of-way, the notice has been posted within ten (10) feet of the road right-of-way in such a manner as to be visible from the road right-of-way.
4. The affiant understands that this affidavit is intended to be submitted as a requirement for a public hearing, and as such, will be officially filed with the Government of Brevard County, Florida.

PLANNING AND ZONING BOARD MINUTES

The Brevard County Planning & Zoning Board met in regular session on **Monday, May 3, 2021**, at **3:00 p.m.**, in the Florida Room, Building C, Brevard County Government Center, 2725 Judge Fran Jamieson Way, Viera, Florida.

The meeting was called to order at 3:00 p.m.

Board members present were: Ron Bartcher; Brian Hodgers; Bruce Moia; Mark Wadsworth, Chair; William Capote; and Joe Buchanan.

Staff members present were: Jeffrey Ball, Planning and Zoning Manager; George Ritchie, Planner III; Paul Body, Planner II; Peter Martin, Planner II; Abigail Jorandby, Assistant County Attorney; and Jennifer Jones, Special Projects Coordinator.

Excerpt from Complete Minutes

Habitat for Humanity of Brevard County (Kim Rezanka)

A change of zoning classification from AU (Agricultural Residential) to RU-1-13 (Single-Family Residential). The property is 0.67 acres, located on the east side of Hoover Lane, approx. 150 ft. south of Henry Ave. (526 Hoover Lane, Melbourne) (21Z00010) (Tax Account 2802066) (District 5)

Kim Rezanka, with the Law Firm of Lacey, Lyons, Rezanka, stated she represents Habitat for Humanity. [Ms. Rezanka distributed a handout to the board and staff. The handout can be found in file 21Z00010, located in the Planning and Development Department.] She stated the property was given to Habitat for Humanity in 2013; it is a vacant piece of residential property in the unincorporated County, but adjacent to West Melbourne to the west, which is mostly commercial. To the north is the West Melbourne Police Department, to the west is Cumberland Farms, some office uses, a single-family rental, and a used auto business. To the south is residential use, but the overall area has a variety of zoning classifications. Habitat for Humanity wishes to split the lot to create two properties to build homes to dedicate to low-income families. Habitat for Humanity cannot use the property right now because the value is too great. Some of the residential zonings in the area are AU, RR-1, RU-1-13, and RU-1-9, so the request fits in the area.

No public comment.

Joe Buchanan asked if the homes are homes given away.

Carrie Gleason, Vice President of Real Estate and Development for Habitat for Humanity, replied, each essential worker's families work for the homes; they have to do sweat equity, and they have to be qualified. She said there is a closing with a title company, and at the dedication the keys are turned over to the families once they have gone through all of the protocols.

Motion by Joe Buchanan, seconded by William Capote, to approve the change of zoning classification from AU to RU-1-13. The motion passed unanimously.
