Subject:

Legislative Intent and Permission to Advertise RE: Code Revisions to Inverted Siphons (Administrative Waivers)

Fiscal Impact:

None

Dept/Office:

Public Works

Requested Action:

Staff requests that the Board Grant legislative intent and permission to advertise an amendment to Article X, Environmental Protection And Conservation, Division 6. - Stormwater Management Criteria, Sec. 62-3756, Exhibit A Subsection 4.6(J) relating to Inverted Siphons.

Summary Explanation and Background:

The development community requested the code be streamlined to allow for inverted siphons within private sites and where maintenance concerns are mitigated. Staff coordinated with the development community on when inverted siphons could be acceptable. The current code does not allow for inverted siphons without a Board Approved waiver. The proposed code change would allow staff to administratively approve inverted siphons on private sites subject to meeting certain criteria.

Brevard County Environmental Protection and Conservation Code Section 62-3756 needs to be updated to reflect these changes to allow for administrative waivers for inverted siphons.
