...

Shameful. Hightower Park Preserve is supposed to be for preservation of endangered and threatened plants, mouse and sea turtle species - for education - and recreation. This is extent of education signs - 2 faded old signs. Where are the plant educational signs along boardwalk; the sea turtle identification sign; the hatchling info signs; the mouse educational sign? This is very faded Keep off Dunes signs - unreadable in area where people cut through dune. No keep off dunes signs on beach where people walk, sit and pee inside dune area.
