Viera, FL 32940

Public Hearing

H.17.

7/11/2024

Subject:

Borrows West Suite Developers, LLC (Marbet Lewis) requests a CUP for the on-premises consumption of alcohol in a PUD zoning classification. (24Z00019) (Tax Account 3030134) (District 4)

Fiscal Impact:

None

Dept/Office:

Planning and Development

Requested Action:

It is requested that the Board of County Commissioners conduct a public hearing to consider a CUP (Condition Use Permit) for the on-premises consumption of alcohol in a PUD (Planned Unit Development) zoning classification.

Summary Explanation and Background:

The applicant is requesting a Conditional Use Permit (CUP) for Alcoholic Beverages for On-Premises Consumption (4COP) on 4.66 acres in conjunction with a four-story hotel with 132 guest rooms. The applicant states, "they are seeking a CUP for Alcoholic Beverages for On-Premises Consumption (4COP) for the entire hotel including the bar, guest rooms, outdoor areas such as swimming pool areas or outdoor bars and any other areas around the hotel".

Staff administratively approved (the hotel's restaurant) for Alcoholic Beverages for On-Premises Consumption in conjunction to a restaurant use only, pursuant to Section 62- 1906(4). Since this request is not associated with restaurant with 51% or more from food sales to be administratively approved, it is beyond staff's administrative authority.

The property is in the existing Viera PUD with commercial development surrounding the area. The subject is within a commercial platted subdivision and will have a minimal potential to adversely impact any established residential neighborhoods.

The Board may wish to consider the compatibility of the proposed CUP with the surrounding area. The Board may also wish to consider additional conditions beyond those cited in Sections 62-1906 in order to mitigate potential offsite impacts to the abutting properties.

On June 10, 2024, the Planning and Zoning Board heard the request and unanimously recommended approval.

Clerk to the Board Instructions:

Upon receipt of resolution, please execute and return a copy to Planning and Development.

Resolution 24Z00019

On motion by Commissioner Feltner, seconded by Commissioner Tobia, the following resolution was adopted by a unanimous vote:

WHEREAS, Borrows West Suite Developers, LLC (Marbet Lewis) requests a CUP (Conditional Use Permit) for the on-premises consumption of alcohol in a PUD (Planned Unit Development) zoning classification, on property described as Lot 2.02, Block B, Viera Boulevard Commercial Center III, as recorded in ORB 9588, Pages 1701 – 1711, of the Public Records of Brevard County, Florida. **Section 33, Township 25, Range 36.** (4.66 acres) Located on the northwest corner of Lake Andrew Dr. and Porada Dr. (5487 Onate Ln., Melbourne); and

WHEREAS, a public hearing of the Brevard County Planning and Zoning Board was advertised and held, as required by law, and after hearing all interested parties and considering the adjacent areas, the Brevard County Planning and Zoning Board recommended that the application be approved; and

WHEREAS, the Board, after considering said application and the Planning and Zoning Board's recommendation, and hearing all interested parties, and after due and proper consideration having been given to the matter, find that the application should be approved as recommended; now therefore,

BE IT RESOLVED by the Board of County Commissioners of Brevard County, Florida, that the requested a CUP for the on-premises consumption of alcohol in a PUD zoning classification, be approved. The Planning and Development Director, or designee, is hereby directed to make this change on the official zoning maps of Brevard County, Florida.

BE IT FURTHER RESOLVED that this resolution shall become effective as of July 11, 2024.

BOARD OF COUNTY COMMISSIONERS
Brevard County, Florida

Jason Steele, Chair

Brevard County Commission

As approved by the Board on July 11, 2024.

ATTEST:

RACHEL SADOFF, CLERK

(SEAL)

P&Z Board Hearing – June 10, 2024

Please note: A CUP (Conditional Use Permit) will generally expire on the three-year anniversary of its approval if the use is not established prior to that date. CUPs for Towers and Antennas shall expire if a site plan for the tower is not submitted within one year of approval or if construction does not commence within two years of approval. A Planned Unit Development Preliminary Development Plan expires if a final development plan is not filed within three years. **The granting of this zoning does not guarantee physical development of the property. At the time of development, said development must be in accordance with the criteria of the Brevard County Comprehensive Plan and other applicable laws and ordinances.**

ADMINISTRATIVE POLICIES OF THE FUTURE LAND USE ELEMENT

Administrative Policies in the Future Land Use Element establish the expertise of staff with regard to zoning land use issues and set forth criteria when considering a rezoning action or request for Conditional Use Permit, as follows:

Administrative Policy 1

The Brevard County zoning official, planners and the Director of the Planning and Development, however designated, are recognized as expert witnesses for the purposes of Comprehensive Plan amendments as well as zoning, conditional use, special exception, and variance applications.

Administrative Policy 2

Upon Board request, members of the Brevard County planning and zoning staff shall be required to present written analysis and a recommendation, which shall constitute an expert opinion, on all applications for zoning, conditional uses, comprehensive plan amendments, vested rights, or other applications for development approval that come before the Board of County Commissioners for quasi-judicial review and action. The Board may table an item if additional time is required to obtain the analysis requested or to hire an expert witness if the Board deems such action appropriate. Staff input may include the following:

Criteria:

- A. Staff shall analyze an application for consistency or compliance with comprehensive plan policies, zoning approval criteria and other applicable written standards.
- B. Staff shall conduct site visits of property which are the subject of analysis and recommendation. As part of the site visit, the staff shall take a videotape or photographs where helpful to the analysis and conduct an inventory of surrounding existing uses. Aerial photographs shall also be used where they would aid in an understanding of the issues of the case.
- C. In cases where staff analysis is required, both the applicant and the staff shall present proposed findings of fact for consideration by the Board.
- D. For development applications where a specific use has not been proposed, the worst case adverse impacts of potential uses available under the applicable land use classification shall be evaluated by the staff.

Administrative Policy 3

Compatibility with existing or proposed land uses shall be a factor in determining where a rezoning or any application involving a specific proposed use is being considered. Compatibility shall be evaluated by considering the following factors, at a minimum:

Criteria:

- A. Whether the proposed use(s) would have hours of operation, lighting, odor, noise levels, traffic, or site activity that would significantly diminish the enjoyment of, safety or quality of life in existing neighborhoods within the area which could foreseeably be affected by the proposed use.

- B. Whether the proposed use(s) would cause a material reduction (five percent or more) in the value of existing abutting lands or approved development.
- C. Whether the proposed use(s) is/are consistent with an emerging or existing pattern of surrounding development as determined through analysis of:
 - 1. historical land use patterns;
 - 2. actual development over the immediately preceding three years; and
 - 3. development approved within the past three years but not yet constructed.
- D. Whether the proposed use(s) would result in a material violation of relevant policies in any elements of the Comprehensive Plan.

Administrative Policy 4

Character of a neighborhood or area shall be a factor for consideration whenever a rezoning or any application involving a specific proposed use is reviewed. The character of the area must not be materially or adversely affected by the proposed rezoning or land use application. In evaluating the character of an area, the following factors shall be considered:

Criteria:

- A. The proposed use must not materially and adversely impact an established residential neighborhood by introducing types of intensity of traffic (including but not limited to volume, time of day of traffic activity, type of vehicles, et cetera), parking, trip generation, commercial activity or industrial activity that is not already present within the identified boundaries of the neighborhood.
- B. In determining whether an established residential neighborhood exists, the following factors must be present:
 - 1. The area must have clearly established boundaries, such as roads, open spaces, rivers, lakes, lagoons, or similar features.
 - 2. Sporadic or occasional neighborhood commercial uses shall not preclude the existence of an existing residential neighborhood, particularly if the commercial use is non-conforming or pre-dates the surrounding residential use.
 - 3. An area shall be presumed not to be primarily residential but shall be deemed transitional where multiple commercial, industrial or other non-residential uses have been applied for and approved during the previous five (5) years.

Administrative Policy 5

In addition to the factors specified in Administrative Policies 2, 3, and 4, in reviewing a rezoning, conditional use permit or other application for development approval, the impact of the proposed use or uses on transportation facilities either serving the site or impacted by the

use(s) shall be considered. In evaluating whether substantial and adverse transportation impacts are likely to result if an application is approved, the staff shall consider the following:

Criteria:

- A. Whether adopted levels of services will be compromised;
- B. Whether the physical quality of the existing road system that will serve the proposed use(s) is sufficient to support the use(s) without significant deterioration;
- C. Whether the surrounding existing road system is of sufficient width and construction quality to serve the proposed use(s) without the need for substantial public improvements;
- D. Whether the surrounding existing road system is of such width and construction quality that the proposed use(s) would realistically pose a potential for material danger to public safety in the surrounding area;
- E. Whether the proposed use(s) would be likely to result in such a material and adverse change in traffic capacity of a road or roads in the surrounding area such that either design capacities would be significantly exceeded or a de facto change in functional classification would result;
- F. Whether the proposed use(s) would cause such material and adverse changes in the types of traffic that would be generated on the surrounding road system, that physical deterioration of the surrounding road system would be likely;
- G. Whether projected traffic impacts of the proposed use(s) would materially and adversely impact the safety or welfare of residents in existing residential neighborhoods.

Administrative Policy 6

The use(s) proposed under the rezoning, conditional use or other application for development approval must be consistent with, (a), all written land development policies set forth in these administrative policies; and (b), the future land use element, coastal management element, conservation element, potable water element, sanitary sewer element, solid waste management element, capital improvements element, recreation and open space element, surface water element, and transportation elements of the comprehensive plan.

Administrative Policy 7

Proposed use(s) shall not cause or substantially aggravate any, (a), substantial drainage problem on surrounding properties; or (b), significant, adverse and unmitigatable impact on significant natural wetlands, water bodies or habitat for listed species.

Administrative Policy 8

These policies, the staff analysis based upon these policies, and the applicant's written analysis, if any, shall be incorporated into the record of every quasi-judicial review application for development approval presented to the Board including rezoning, conditional use permits, and vested rights determinations.

Section 62-1151(c) of the Code of Ordinances of Brevard County directs, "The planning and zoning board shall recommend to the board of county commissioners the denial or approval of each application for amendment to the official zoning maps based upon a consideration of the following factors:

- (1) The character of the land use of the property surrounding the property being considered.
- (2) The change in conditions of the land use of the property being considered and the surrounding property since the establishment of the current applicable zoning classification, special use or conditional use.
- (3) The impact of the proposed zoning classification or conditional use on available and projected traffic patterns, water and sewer systems, other public facilities and utilities and the established character of the surrounding property.
- (4) The compatibility of the proposed zoning classification or conditional use with existing land use plans for the affected area.
- (5) The appropriateness of the proposed zoning classification or conditional use based upon a consideration of the applicable provisions and conditions contained in this article and other applicable laws, ordinances and regulations relating to zoning and land use regulations and based upon a consideration of the public health, safety and welfare.

The minutes of the planning and zoning board shall specify the reasons for the recommendation of approval or denial of each application."

CONDITIONAL USE PERMITS (CUPs)

In addition to the specific requirements for each Conditional Use Permit (CUP), Section 62-1901 provides that the following approval procedure and general standards of review are to be applied to all CUP requests, as applicable.

- (b) Approval procedure. An application for a specific conditional use within the applicable zoning classification shall be submitted and considered in the same manner and according to the same procedure as an amendment to the official zoning map as specified in Section 62-1151. The approval of a conditional use shall authorize an additional use for the affected parcel of real property in addition to those permitted in the applicable zoning classification. The initial burden is on the applicant to demonstrate that all applicable standards and criteria are met. Applications which do not satisfy this burden cannot be approved. If the applicant meets its initial burden, then the Board has the burden to show, by substantial and competent evidence, that the applicant has failed to meet such standards and the request is adverse to the public interest. As part of the approval of the conditional use permit, the Board may prescribe appropriate and reasonable conditions and safeguards to reduce the impact of the proposed use on adjacent and nearby properties or the neighborhood. A nearby property, for the purpose of this section, is defined as any property which, because of the character of the proposed use, lies within the area which may be substantially and adversely impacted by such use. In stating grounds in

support of an application for a conditional use permit, it is necessary to show how the request fulfills both the general and specific standards for review. The applicant must show the effect the granting of the conditional use permit will have on adjacent and nearby properties, including, but not limited to traffic and pedestrian flow and safety, curb-cuts, off-street loading and parking, off-street pickup of passengers, odors, glare and noise, particulates, smoke, fumes, and other emissions, refuse and service areas, drainage, screening and buffering for protection of adjacent and nearby properties, and open space and economic impact on nearby properties. The applicant, at his discretion, may choose to present expert testimony where necessary to show the effect of granting the conditional use permit.

(c) General Standards of Review.

- (1) The planning and zoning board and the board of county commissioners shall base the denial or approval of each application for a conditional use based upon a consideration of the factors specified in Section 62-1151(c) plus a determination whether an application meets the intent of this section.
 - a. The proposed conditional use will not result in a substantial and adverse impact on adjacent and nearby properties due to: (1), the number of persons anticipated to be using, residing or working under the conditional use; (2), noise, odor, particulates, smoke, fumes and other emissions, or other nuisance activities generated by the conditional use; or (3), the increase of traffic within the vicinity caused by the proposed conditional use.
 - b. The proposed use will be compatible with the character of adjacent and nearby properties with regard to use, function, operation, hours of operation, type and amount of traffic generated, building size and setback, and parking availability.
 - c. The proposed use will not cause a substantial diminution in value of abutting residential property. A substantial diminution shall be irrebuttably presumed to have occurred if abutting property suffers a 15% reduction in value as a result of the proposed conditional use. A reduction of 10% of the value of abutting property shall create a rebuttable presumption that a substantial diminution has occurred. The Board of County Commissioners carries the burden to show, as evidenced by either testimony from or an appraisal conducted by an M A I certified appraiser, that a substantial diminution in value would occur. The applicant may rebut the findings with his own expert witnesses.
- (2) The following specific standards shall be considered, when applicable, in making a determination that the general standards specified in subsection (1) of this section are satisfied:

- a. Ingress and egress to the property and proposed structures thereon, with particular reference to automotive and pedestrian safety and convenience, traffic flow and control, and access in case of fire and catastrophe, shall be: (1), adequate to serve the proposed use without burdening adjacent and nearby uses, and (2), built to applicable county standards, if any. Burdening adjacent and nearby uses means increasing existing traffic on the closest collector or arterial road by more than 20%, or 10% if the new traffic is primarily comprised of heavy vehicles, except where the affected road is at Level of Service A or B. New traffic generated by the proposed use shall not cause the adopted level of service for transportation on applicable roadways, as determined by applicable Brevard County standards, to be exceeded. Where the design of a public road to be used by the proposed use is physically inadequate to handle the numbers, types or weights of vehicles expected to be generated by the proposed use without damage to the road, the conditional use permit cannot be approved without a commitment to improve the road to a standard adequate to handle the proposed traffic, or to maintain the road through a maintenance bond or other means as required by the Board of County Commissioners.
- b. The noise, glare, odor, particulates, smoke, fumes or other emissions from the conditional use shall not substantially interfere with the use or enjoyment of the adjacent and nearby property.
- c. Noise levels for a conditional use are governed by Section 62-2271.
- d. The proposed conditional use shall not cause the adopted level of service for solid waste disposal applicable to the property or area covered by such level of service, to be exceeded.
- e. The proposed conditional use shall not cause the adopted level of service for potable water or wastewater applicable to the property or the area covered by such level of service, to be exceeded by the proposed use.
- f. The proposed conditional use must have existing or proposed screening or buffering, with reference to type, dimensions and character to eliminate or reduce substantial, adverse nuisance, sight, or noise impacts on adjacent and nearby properties containing less intensive uses.
- g. Proposed signs and exterior lighting shall not cause unreasonable glare or hazard to traffic safety, or interference with the use or enjoyment of adjacent and nearby properties.
- h. Hours of operation of the proposed use shall be consistent with the use and enjoyment of the properties in the surrounding residential community, if any. For commercial and industrial uses adjacent to or near residential uses, the hours of operation shall not adversely affect the use and enjoyment of the residential character of the area.
- i. The height of the proposed use shall be compatible with the character of the area, and the maximum height of any habitable structure shall be not more than 35 feet higher than the highest residence within 1,000 feet of the property line.

- j. Off-street parking and loading areas, where required, shall not be created or maintained in a manner which adversely impacts or impairs the use and enjoyment of adjacent and nearby properties. For existing structures, the applicant shall provide competent, substantial evidence to demonstrate that actual or anticipated parking shall not be greater than that which is approved as part of the site plan under applicable county standards.

FACTORS TO CONSIDER FOR A REZONING REQUEST

Section 62-1151(c) sets forth factors to consider in connection with a rezoning request, as follows:

"The planning and zoning board shall recommend to the board of county commissioners the denial or approval of each application for amendment to the official zoning maps based upon a consideration of the following factors:

- (1) The character of the land use of the property surrounding the property being considered.
- (2) The change in conditions of the land use of the property being considered and the surrounding property since the establishment of the current applicable zoning classification, special use or conditional use.
- (3) The impact of the proposed zoning classification or conditional use on available and projected traffic patterns, water and sewer systems, other public facilities and utilities and the established character of the surrounding property.
- (4) The compatibility of the proposed zoning classification or conditional use with existing land use plans for the affected area.
- (5) The appropriateness of the proposed zoning classification or conditional use based upon a consideration of the applicable provisions and conditions contained in this article and other applicable laws, ordinances and regulations relating to zoning and land use regulations and based upon a consideration of the public health, safety and welfare."

These staff comments contain references to zoning classifications found in the Brevard County Zoning Regulations, Chapter 62, Article VI, Code of Ordinances of Brevard County. These references include brief summaries of some of the characteristics of that zoning classification. Reference to each zoning classification shall be deemed to incorporate the full text of the section or sections defining and regulating that classification into the Zoning file and Public Record for that item.

These staff comments contain references to sections of the Code of Ordinances of Brevard County. Reference to each code section shall be deemed to incorporate this section into the Zoning file and Public Record for that item.

These staff comments contain references to Policies of the Brevard County Comprehensive Plan. Reference to each Policy shall be deemed to incorporate the entire Policy into the Zoning file and Public Record for that item.

These staff comments refer to previous zoning actions which are part of the Public Records of Brevard County, Florida. These records will be referred to by reference to the file number. Reference to zoning files are intended to make the entire contents of the cited file a part of the Zoning file and Public Record for that item.

DEFINITIONS OF CONCURRENCY TERMS

Maximum Acceptable Volume (MAV): Maximum acceptable daily volume that a roadway can carry at the adopted Level of Service (LOS).

Current Volume: Building permit related trips added to the latest TPO (Transportation Planning Organization) traffic counts.

Volume with Development (VOL W/DEV): Equals Current Volume plus trip generation projected for the proposed development.

Volume/Maximum Acceptable Volume (VOL/MAV): Equals the ratio of current traffic volume to the maximum acceptable roadway volume.

Volume/Maximum Acceptable Volume with Development (VOL/MAV W/DEV): Ratio of volume with development to the Maximum Acceptable Volume.

Acceptable Level of Service (CURRENT LOS): The Level of Service at which a roadway is currently operating.

Level of Service with Development (LOS W/DEV): The Level of Service that a proposed development may generate on a roadway.

STAFF COMMENTS

24Z00019

Borrow West Suites Developers LLC

A CUP for Alcoholic Beverages for On-Premises Consumption accessory to a Hotel

(4 COP, with full liquor) on 4.66 acres

Tax Account Number: 3030134
Parcel I.D.s: 25-36-33-50-B-2.02
Location: Northwest corner of Lake Andrew Drive & Porada Drive (District 4)
Acreage: CUP request 4.66 acres

Planning & Zoning Board: 06/10/2024

Board of County Commissioners: 07/11/2024

Consistency with Land Use Regulations

- Current zoning can be considered under the Future Land Use Designation, Section 62-1255.
- The proposal can be considered under the Future Land Use Designation, Section 62-1255.
- The proposal would maintain acceptable Levels of Service (LOS) (XIII 1.6.C)

	CURRENT	PROPOSED
Zoning	PUD	PUD with CUP for Alcoholic Beverages for On-Premises Consumption
Potential*	FAR 1.75	FAR 1.75
Can be Considered under the Future Land Use Map	YES DRI3	YES DRI3

* Zoning potential for concurrency analysis purposes only, subject to applicable land development regulations.

Background and Purpose of Request

The applicant is seeking a Conditional Use Permit (CUP) for Alcoholic Beverages for On-Premises Consumption (4COP) on 4.66 acres in conjunction with a four story hotel with 132 guest rooms. The applicant states, "they are seeking a CUP for Alcoholic Beverages for On-Premises Consumption (4COP) for the entire Hotel including the bar, guest rooms, outdoor areas such as swimming pool areas or outdoor bars and any other areas around the Hotel".

The Hotel's restaurant was Administratively Approved for Alcoholic Beverages for On-Premises Consumption in conjunction to a restaurant use only, per zoning application 24AA00007. Brevard County code allows restaurants with 51% or more from food sales to be administratively approved.

Section 62-1906 requires an application for a CUP for Alcoholic Beverages for On-Premises Consumption in conjunction with a bar.

The request is for 4.66 acres of Lot 2, Block B, Viera Boulevard Commercial Center III as recorded in Plat Book 69, Page 44. The parcel is currently zoned PUD (Planned Unit Development) and is in the Viera DRI (Development of Regional Impact).

The site has access to Lorkey Lane a Tract/Right-of-Way which has access to Porada Drive and Hennessy Place, County Maintained Right-of-Ways.

The applicant included the approved site plan, 21SP00035, with the CUP application showing the overall developed site along with parking, ingress/egress on the parcel. On premises consumption of alcohol would be allowed on the entire property unless the Board stipulates restrictions.

The hotel will also include outdoor swimming pool with pool deck area, fitness room and bar areas.

On December 15, 2009, zoning action **Z-11529** approved a change of zoning classification from PUD/DRI (Planned Unit Development/Development of Regional Impact) & AU (Agricultural Residential) to PUD-DRI (Planned Unit Development/Development of Regional Impact).

On November 03, 2015, zoning action **15PZ00073** approved a Minor Amendment of the Viera Central PUD's Preliminary Development Plan (PDP). Changes noted:

- Conversion of Tract D at Duran from a non-residential use to a residential use (6.68 acres) and its removal from the non-residential listing.
- The addition of the Viera Charter School as a non-residential use (5.40 acres). The 5.40 acres of residential use being transferred to Tract D at Duran AKA Modern Duran. This update also amends Note #2 regarding Bresley Commons remaining residential acreage and reduces it from 20.33 acres to 14.93 acres.
- Modification of Note #1 describing the mix of residential and non-residential development potential of Parcel 2 by converting a portion of the site from residential use (40 acres down to 38.72 acres; a reduction of 1.28 acres) and transfer of this residential acreage to Tract D at Duran AKA Modern Duran; the remaining non-residential acreage will increase from 101.87 acres to 103.15 acres.

Land Use

The subject property is currently designated Viera DRI (Development of Regional Impact). The PUD zoning classification can be considered consistent with the Viera DRI FLU designation.

Applicable Land Use Policies

FLUE Policy 2.2 – Role of Zoning Regulations in the Designation of Commercial Lands

The zoning process regulates the types and intensities of uses for a parcel of land. Criteria which aid in assessing zoning compatibility, shall include consideration of the following standards:

Criteria:

A. Permitted/prohibited uses;

Staff analysis: *The owner proposes a CUP for Alcoholic Beverages for On-Premises Consumption accessory (4COP) for the entire hotel including the bar, guest rooms and any outdoor areas such as swimming pool areas or outdoor bars and any other areas around the hotel not associated with the restaurant.*

The Board should consider the compatibility of the proposed CUP with surrounding development.

B. Existing commercial zoning trends in the area;

Staff analysis: *The subject property is currently under development as a hotel all within the Viera PUD.*

C. Compatibility of the proposed use with the area, pursuant to Administrative Policy 3;

Staff analysis: *This CUP request, if approved, could be considered compatible with the PUD zoning with the adjacent commercial uses.*

D. Impact upon Level of Service (LOS) standards for roads, potable water service, sanitary sewer service and solid waste disposal;

Staff analysis: *Based on preliminary review no LOS will be exceeded for road capacity, potable water service, sanitary sewer service and solid waste disposal.*

The Board should evaluate the compatibility of this application within the context of the Board's Administrative Policies 1 through 8 of the Future Land Use Element, outlined in the Administrative Policies.

Analysis of Administrative Policy #3 - Compatibility between this site and the existing or proposed land uses in the area.

Compatibility shall be evaluated by considering the following factors, at a minimum:

Criteria:

- A. Whether the proposed use(s) would have hours of operation, lighting, odor, noise levels, traffic, or site activity that would significantly diminish the enjoyment of, safety or quality of life in existing neighborhoods within the area which could foreseeably be affected by the proposed use;

Staff analysis: Regarding the hours of operation, lighting, odor, noise levels, traffic or site activity, the proposed CUP will need to comply with Brevard County's Performance Standards defined by Sections 62-2251 through 62-2272. The Board may require addition limitations.

- B. Whether the proposed use(s) would cause a material reduction (five per cent or more) in the value of existing abutting lands or approved development.

Staff analysis: Only a certified MAI appraisal can determine if material reduction has or will occur due to the proposed request.

- C. Whether the proposed use(s) is/are consistent with an emerging or existing pattern of surrounding development as determined through an analysis of:

1. historical land use patterns;

Staff analysis: This area is currently being developed with other commercial uses within the platted area.

2. actual development over the immediately preceding three years; and

Staff analysis: The surrounding area has been under development for a restaurant, bar, and hotel for the past year.

3. development approved within the past three years but not yet constructed.

Staff analysis: There is restaurant, bar and hotel development approved in this area under construction for the two years.

- D. Whether the proposed use(s) would result in a material violation of relevant policies in any elements of the Comprehensive Plan.

Staff analysis: No material violation of relevant policies has been identified.

Analysis of Administrative Policy #4 - Character of a neighborhood or area.

Character of a neighborhood or area shall be a factor for consideration whenever a rezoning or any application involving a specific proposed use is reviewed. The character of the area must not be materially or adversely affected by the proposed rezoning or land use application. In evaluating the character of an area, the following factors shall be considered:

Criteria:

- A. The proposed use must not materially and adversely impact an established residential neighborhood by introducing types or intensity of traffic, parking, trip generation, commercial activity or industrial activity that is not already present within the identified boundaries of the neighborhood.

The property is in the existing Viera PUD with commercial development surrounding the area. Staff analysis indicates the request is located in a commercial platted subdivision and will not materially and adversely impact any established residential neighborhoods.

- B. In determining whether an established residential neighborhood exists, the following factors must be present:

1. The area must have clearly established boundaries, such as roads, open spaces, rivers, lakes, lagoons, or similar features.

The area has development of roads, open spaces, and similar existing features. It is not located in a residential neighborhood or subdivision but is in a platted commercial subdivision.

2. Sporadic or occasional neighborhood commercial uses shall not preclude the existence of an existing residential neighborhood, particularly if the commercial use is non-conforming or pre-dates the surrounding residential use.

Staff analysis indicates that the area is not residential in character.

3. An area shall be presumed not to be primarily residential but shall be deemed transitional where multiple commercial, industrial or other non-residential uses have been applied for and approved during the previous five (5) years.

The subject parcel is located in a commercial platted subdivision.

Administrative Policy #5 - the impact of the proposed use or uses on transportation facilities either serving the site or impacted by the use(s) shall be considered.

The proposed CUP will access Stadium Pkwy. segment between Viera Blvd. to Judge Fran Jamieson Way and access Lake Andrew Drive segment between Viera Blvd. to Judge Fran Jamieson Way. The maximum development potential from the proposed CUP increases the percentage of MAV utilization by 1.62%. The Stadium Pkwy. corridor is anticipated to operate at 42.50% of capacity daily. The Lake Andrew Drive corridor is anticipated to operate at 44.36% of capacity daily. The request is not anticipated to create a deficiency in LOS.

Surrounding Area

	Existing Use	Zoning	Future Land Use
North	Restaurant & Bar	PUD	DRI 3
South	Office Center	PUD	DRI 3
East	Hotel across Lake Andrew Blvd.	PUD	DRI 3
West	Retail Hardware Store	PUD	DRI 3

The subject property is surrounded by PUD zoning with commercial uses.

The Planned Unit Development (PUD) zoning encourages and permits variation in development by allowing deviation in lot size, bulk or type of dwellings, density, lot coverage and open space from that required in any one residential zoning classification. The purpose of a PUD is to encourage the development of planned residential neighborhoods and communities that provide a full range of residence types, as well as industrial, commercial and institutional land uses.

There have been no changes to the PUD within a half-mile radius of the subject property within the last three years.

Preliminary Concurrency

The closest concurrency management segment to the subject property is Stadium Pkwy., between Viera Blvd. to Porada Drive, which has a Maximum Acceptable Volume (MAV) of 39,800 trips per day, a Level of Service (LOS) of D, and currently operates at 41.68% of capacity daily. And Lake Andrew Drive between Viera Blvd. to Judge Fran Jamieson Way, which has a Maximum Acceptable Volume (MAV) of 39,800 trips per day, a Level of Service (LOS) of D, and currently operates at 43.54% of capacity daily. The maximum development potential from the proposed CUP increases the percentage of MAV utilization by 1.62%. The Stadium Pkwy. corridor is anticipated to operate at 42.50% of capacity daily. The Lake Andrew Drive corridor is anticipated to operate at 44.36% of capacity daily. The request is not anticipated to create a deficiency in LOS.

No school concurrency information has been provided as the development proposal is for commercial and not residential use.

The parcel is serviced by the City of Cocoa Utilities for public water. The property is serviced by Brevard County Utilities for sewer.

Special Considerations for CUP (Conditional Use Permit)

The Board should consider the compatibility of the proposed CUP pursuant to Section 62-1151(c) and to Section 62-1901, as outlined on pages 6 – 8 of these comments. Section 62-1901 provides that the approval of a conditional use shall authorize an additional use for the affected parcel of real property

in addition to those permitted in the applicable zoning classification. **The initial burden is on the applicant to demonstrate that all applicable standards and criteria are met. Applications which do not satisfy this burden cannot be approved.** The applicant's responses and staff observations, if any, are indicated below.

Section 62-1151(c) directs the Board to consider the character of the land use of the property and its surroundings; changes in the conditions of the land use being considered; impact upon infrastructure; compatibility with land use plans for the area; and appropriateness of the CUP based upon consideration of applicable regulations relating to zoning and land use within the context of public health, safety and welfare. The applicant has submitted documentation in order to demonstrate consistency with the standards set forth in Section 62-1901 and Section 62-1936, Land Alteration.

This request should be evaluated in the context of **Section 62-1906** which governs alcoholic beverages for on-premises consumption which states in, specifically 62-1906 (3) and (5):

- 3) Except for restaurants with more than 50 seats, no alcoholic beverages shall be sold or served for consumption on the premises from any building that is within 300 feet from the lot line of a school or church if the use of the property as a school or church was established prior to the commencement of the sale of such alcoholic beverages. For the purposes of this subsection, a school shall include only grades kindergarten through 12. For the purpose of establishing the distance between the proposed alcoholic beverage use and churches and schools, a certified survey shall be furnished from a registered engineer or surveyor. Such survey shall indicate the distance between the front door of the proposed place of business and all property lines of any church or school within 400 feet. Each survey shall indicate all such distances and routes.

Staff analysis: The owner/applicant has provided a survey which states that there are no churches or schools within 300 feet from the hotel building to the lot line of a school or church and 400 feet between the front door of the proposed place of business and all property lines of any church or school within the area this CUP request.

- 5) Imposition of additional operational requirements. When deemed appropriate, as based upon circumstances revealed through the general and specific standards of review set forth in this division, the Board shall have the option of imposing operational requirements upon an establishment approved for a conditional use for alcoholic beverages for on-premises consumption. Requirements may include, but are not limited to, the following: maximum number of patrons; hours of operation; limitations upon outdoor seating and service of alcoholic beverages; limitations upon outside music and/or public address systems; additional buffering requirements; additional parking requirements; internal floor plan arrangement; or other specific restrictions based upon special neighborhood considerations. Additional requirements shall not exceed the limits of regulatory authority granted to local governments in the State Beverage Law, F.S. § 562.45.

Staff analysis: The applicant is requesting a CUP (Conditional Use Permit) for Alcoholic Beverages for On-Premises Consumption (4COP) in conjunction with a 97,414 sq. ft. four story Hotel with 132 guest rooms. The applicant states, "they are seeking a CUP for 4COP for the entire Hotel including the bar, guest rooms and any outdoor areas such as swimming pool areas or outdoor bars and any other areas around the Hotel".

General Standards of Review

Section 62-1901(c)(1)(a): The proposed conditional use will not result in a substantial and adverse impact on adjacent and nearby properties due to: (1) the number of persons anticipated to be using, residing or working under the conditional use; (2) noise, odor, particulates, smoke, fumes and other emissions, or other nuisance activities generated by the conditional use; or (3) the increase of traffic within the vicinity caused by the proposed conditional use.

Applicant's Response: The proposed building and site development was previously approved via site plan 21SP00035.

Staff analysis: The use will be located in conjunction with a 97,414 sq. ft. four story Hotel with 132 guest rooms. The applicant is seeking a CUP for alcoholic Beverages for On-Premises Consumption (4COP) for the entire Hotel including the bar, guest rooms and any outdoor areas such as swimming pool areas or outdoor bars and any other areas around the Hotel". The proposed CUP will need to comply with Brevard County's Performance Standards defined by Sections 62-2251 through 62-2272. The request is not anticipated to create a deficiency in Stadium Pkwy., traffic Level of Service (LOS).

Section 62-1901(c)(1)(b): The proposed use will be compatible with the character of adjacent and nearby properties with regard to use, function, operation, hours of operation, type and amount of traffic generated, building size and setback, and parking availability.

Applicant's Response: The proposed building and site development was previously approved via site plan 21SP00035. The proposed building meets all applicable regulations for size, setback, and required parking.

Staff analysis: The parcel is located in a Commercial area and is not adjacent to any residential development.

Section 62-1901(c)(1)(c): The proposed use will not cause a substantial diminution in value of abutting residential property. Note: A substantial diminution shall be irrebutably presumed to have occurred if abutting property suffers a 15 percent reduction in value as a result of the proposed conditional use. A reduction of ten percent of the value of abutting property shall create a reputable presumption that a substantial diminution has occurred. The board of county commissioners carries the burden to show, as evidenced by either testimony from or an appraisal conducted by a MAI certified appraiser, that a substantial diminution in value would occur. The applicant may rebut the findings with his own expert witnesses.

Applicant's Response: The proposed use does not abut residential property.

Staff analysis: Competent and substantial evidence by a MAI certified appraiser has not been provided by the applicant.

Section 62-1901(c)(2)(a): Ingress and egress to the property and proposed structures thereon, with particular reference to automotive and pedestrian safety and convenience, traffic flow and control, and access in case of fire and catastrophe, shall be: (1) adequate to serve the proposed use without burdening adjacent and nearby uses, and (2) built to applicable county standards, if any.

Note: Burdening adjacent and nearby uses means increasing existing traffic on the closest collector or arterial road by more than 20 percent, or ten percent if the new traffic is primarily comprised of heavy vehicles, except where the affected road is at level of service A or B. New traffic generated by the proposed use shall not cause the adopted level of service for transportation on applicable roadways, as determined by applicable county standards, to be exceeded. Where the design of a public road to be used by the proposed use is physically inadequate to handle the numbers, types or weights of vehicles expected to be generated by the proposed use without damage to the road, the conditional use permit cannot be approved without a commitment to improve the road to a standard adequate to handle the proposed traffic, or to maintain the road through a maintenance bond or other means as required by the Board of County Commissioners.

Applicant's Response: The proposed building and site development was previously approved via site plan 21SP00035. The vehicular and pedestrian safety and convenience, traffic flow and control, and emergency response access is (1) adequate to serve the proposed use without burdening adjacent and nearby uses, and (2) built to applicable county standards, as previously approved.

Staff analysis: This property has ingress and egress from Lorkey Lane to Stadium Pkwy. and Lake Andrew Drive.

Section 62-1901(c)(2)(b): The noise, glare, odor, particulates, smoke, fumes or other emissions from the conditional use shall not substantially interfere with the use or enjoyment of the adjacent and nearby property.

Applicant's Response: The proposed use will not generate any adverse effects on adjacent or nearby properties.

Staff analysis: The CUP must be in compliance with Brevard County's Performance Standards defined by Sections 62-2251 through 62-2272. Any proposed outdoor lighting and noise standards should remain within code parameters, or a violation will be created.

Section 62-1901(c)(2)(c): Noise levels for a conditional use are governed by section 62-2271.

Applicant's Response: The proposed use will meet the applicable County Code requirements related to noise levels.

Staff analysis: Proposed CUP includes outdoor areas and must comply with noise ordinance.

Section 62-1901(c)(2)(d) The proposed conditional use shall not cause the adopted level of service for solid waste disposal applicable to the property or area covered by such level of service, to be exceeded.

Applicant's Response: The proposed use has been adequately planned for this location.

Staff analysis: The adopted level of service for solid waste disposal should not be affected by the CUP.

Section 62-1901(c)(2)(e): The proposed conditional use shall not cause the adopted level of service for potable water or wastewater applicable to the property or the area covered by such level of

service, to be exceeded by the proposed use.

Applicant's Response: The proposed use has been adequately planned for this location.

Staff analysis: The CUP should not exceed the adopted level of service for potable water or wastewater. Potable water and sewer capacity were approved during building permit (22BC17417) review.

Section 62-1901(c)(2)(f): The proposed conditional use must have existing or proposed screening or buffering, with reference to type, dimensions and character to eliminate or reduce substantial, adverse nuisance, sight, or noise impacts on adjacent and nearby properties containing less intensive uses.

Applicant's Response: The proposed building and site development was previously approved via site plan 21SP00035. The proposed use and site design meets all applicable buffering, lighting, and landscaping requirements to eliminate any adverse nuisance, sight, or noise impacts on adjacent and nearby properties.

Staff analysis: An approved site plan demonstrated compliance of county codes and regulations. The CUP will need to meet these requirements.

Section 62-1901(c)(2)(g): Proposed signs and exterior lighting shall not cause unreasonable glare or hazard to, traffic safety, or interference with the use or enjoyment of adjacent and nearby properties.

Applicant's Response: The proposed building and site development was previously approved via site plan 21SP00035.

Staff analysis: The parcel has an approved site plan, 21SP00035 which meet current code.

Section 62-1901(c)(2)(h): Hours of operation of the proposed use shall be consistent with the use and enjoyment of the properties in the surrounding residential community, if any. For commercial and industrial uses adjacent to or near residential uses, the hours of operation shall not adversely affect the use and enjoyment of the residential character of the area.

Applicant's Response: The hours are consistent with the County Code.

Staff analysis: The hours of operation have been addressed. The Board may determine that additional measures may be necessary, the Board may wish additional stipulations as part of the request.

Section 62-1901(c)(2)(i): The height of the proposed use shall be compatible with the character of the area, and the maximum height of any habitable structure shall be not more than 35 feet higher than the highest residence within 1,000 feet of the property line.

Applicant's Response: The proposed building and site development was previously approved via site plan 21SP00035.

Staff analysis: The hotel is four stories high and meets the height requirements.

Section 62-1901(c)(2)(j): Off-street parking and loading areas, where required, shall not be created or maintained in a manner which adversely impacts or impairs the use and enjoyment of adjacent and nearby properties. For existing structures, the applicant shall provide competent, substantial evidence to demonstrate that actual or anticipated parking shall not be greater than that which is approved as part of the site plan under applicable county standards.

Note: for existing structures, the applicant shall provide competent, substantial evidence to demonstrate that actual or anticipated parking shall not be greater than that which is approved as part of the site plan under applicable county standards.

Applicant's Response: The proposed building and site development was previously approved via site plan 21SP00035.

Staff analysis: The parcel has an approved site plan 22SP00035 and impacts to parking should not be affect.

Environmental Constraints

No formal review by the Natural Resources Management Department is required for a CUP for on-premises consumption of alcoholic beverages. Natural Resources Management (NRM) reserves the right to assess consistency with environmental ordinances at all applicable future stages of development.

For Board Consideration

The Board may wish to consider the compatibility of the proposed CUP with the surrounding area. The Board may also wish to consider additional conditions beyond those cited in Sections 62-1901 and 62-1906 in order to mitigate any offsite impacts.

PLANNING AND ZONING BOARD/LOCAL PLANNING AGENCY MINUTES

The Brevard County Planning & Zoning Board met in regular session on **Monday, June 10, 2024**, at **3:00 p.m.**, in the Florida Room, Building C, Brevard County Government Center, 2725 Judge Fran Jamieson Way, Viera, Florida.

The meeting was called to order at 3:00 p.m.

Board members present were: Henry Minneboo (D1); Ron Bartcher (D1); Ian Golden (D1 Alternate); Robert Sullivan (D2); Brian Hodgers (D2); Ben Glover (D3); Mark Wadsworth, Chair (D4); Debbie Thomas (D4); Bruce Moia (D5); Robert Brothers (D5); and John Hopengarten (BPS).

Staff members present were: Tad Calkins, Planning and Development Director; Jeffrey Ball, Planning and Zoning Manager; Alex Esseeesse, Deputy County Attorney; Trina Gilliam, Senior Planner; and Kristen Champion, Special Projects Coordinator.

Excerpt of complete agenda.

Borrows West Suite Developers, LLC (Marbet Lewis) requests a Conditional Use Permit for the on-premises consumption of alcohol in a PUD (Planned Unit Development) zoning classification. The parcel is 4.66 acres, located on the northwest corner of Lake Andrew Dr. and Porada Dr. (5487 Onate Ln., Melbourne) (24Z00019) (Tax Account 3030134) (District 4)

Jeffrey Ball read the application into the record.

Mickey Grindstaff, Shutts & Bowen LLP, 300 South Orange Ave. Suite 1600, Orlando, is here on behalf of his partner, Marbet Lewis, the attorney from Miami who primarily represents the property owner. They're currently building a 4-story hotel. We're here today to ask for a Conditional Use Permit to allow on-premises alcohol consumption within the bar(s), the restaurant(s), the pool, and within the sundry shop.

Mark Wadsworth asked the audience if anyone was here to speak for or against this item.

No public comment.

No Board comment.

Motion to approve Conditional Use Permit by Bruce Moia, seconded by Debbie Thomas. The vote was unanimous.
