Section	Consent
Item No.	II.C.1

AGENDA REPORT
BREVARD COUNTY BOARD OF COUNTY COMMISSIONERS

SUBJECT:	Approval of Change Order with L7 Construction, Inc. for Emergency Repairs of Deep Injection Well Pumping System at South Beaches Wastewater Treatment Plant. (District 3, 4, 5) (Fiscal Impact: \$141,499.52)
DEPT/OFFICE:	Central Services/Purchasing Services on behalf of Utility Services

Requested Action:

It is requested that the Board of County Commissioners approve a Change Order to existing Emergency Purchase Order #4500090874 in the amount of \$46,499.52 for emergency repairs of deep injection well pumping system at South Beaches Wastewater Treatment Plant (WWTP) and authorize any associated budgetary changes.

Summary Explanation & Background:

The County has identified the need to replace or rehabilitate certain wastewater facilities identified as South Beaches WWTP Deep Injection Well Pumping System.

The deep injection well system surge tanks started to deteriorate and were replaced with a vacuum breaker system. This caused an unanticipated separation of the deep injection well manifold which needs to be repaired immediately to stay in compliance with DEP permits.

This project was being considered for the FY2017 O&M Budget, but unexpected circumstances made this repair an emergency.

CDM Smith was issued an emergency task order to evaluate the system and an initial emergency purchase order was issued in the amount of \$95,000.00 during the Board's break in June to get the repairs started by L7 Construction, Inc. The final proposal for the repair was \$141,499.52 which in accordance with procurement policy exceeds the \$100,000 threshold requiring Board approval.

Funds are available for this project in Fund 4150, Cost Center 365140.
