F.21.

2/23/2021

Subject:

Sale of Surplus Property Located at 1415 Walter Street, Cocoa via Bidding Process (District 2)

Fiscal Impact:

Revenue from sale of parcel shall be returned to General Fund less advertising, vegetation overgrowth clearing fees, and administrative fees. The parcel will be re-inserted on the tax rolls.

Dept/Office:

Central Services / Asset Management

Requested Action:

It is requested the Board of County Commissioners:

- Authorize Asset Management to advertise for sale (1) parcel of real property located at 1415 Walter Street, Cocoa (District 2) via bidding process pursuant to Florida Statue §125.35 (1)(a); and
- Authorize the Chair to execute all resulting contracts and contract related documents upon review and approval of the County Attorney's Office, Risk Management, and Purchasing Services.

Summary Explanation and Background:

The subject parcel is .23 acre of land with a dilapidated structure identified as Parcel I.D. 24-36-19-75-17-11, Tax I.D. 2415409 and address of 1415 Walter Street, Cocoa. The parcel was deemed surplus and there is not a need or future use for the parcel by any Departments within the County. The parcel escheated to the County by way of taxes not being paid on May 16, 2019. A complaint about the vegetation overgrowth on the parcel was received and was addressed by clearing and grubbing the overgrowth. An appraisal valued the parcel at \$20,000 and approval is requested to dispose of the parcel by utilizing the bidding process.

Brevard County Ordinance Section 2-244, Sale of real property by a bidding process, provides that when the Board determines it is in the best interest of the County to sell real property, it may direct the utilization of the procedures for requesting bids on the property per F.S. §125.35. Upon receipt and opening of any and all bids received, the highest bid will be brought back to the Board for authorization to sell the parcel, or reject all bids.

MARKET DATA ANALYSIS

Scope of Work, Assumptions and Limiting Conditions

Scope of work is defined in the Uniform Standards of Professional Appraisal Practice as "the type and extent of research and analyses in an assignment." In short, scope of work is simply what the appraiser did and did not do during the course of the assignment. It includes, but is not limited to: the extent to which the property is identified and inspected, the type and extent of data researched, the type and extent of analyses applied to arrive at opinions or conclusions.

The scope of this appraisal and ensuing discussion in this report are specific to the needs of the client, other identified intended users and to the intended use of the report. This report was prepared for the sole and exclusive use of the client and other identified intended users for the identified intended use and its use by any other parties is prohibited. The appraiser is not responsible for unauthorized use of the report.

The appraiser's certification appearing in this appraisal report is subject to the following conditions and to such other specific conditions as are set forth by the appraiser in the report. All extraordinary assumptions and hypothetical conditions are stated in the report and might have affected the assignment results.

1. The appraiser assumes no responsibility for matters of a legal nature affecting the property appraised or title thereto, nor does the appraiser render any opinion as to the title, which is assumed to be good and marketable. The property is appraised as though under responsible ownership.
2. Any sketch in this report may show approximate dimensions and is included only to assist the reader in visualizing the property. The appraiser has made no survey of the property.
3. The appraiser is not required to give testimony or appear in court because of having made the appraisal with reference to the property in question, unless arrangements have been previously made thereto.
4. Neither all, nor any part of the content of this report, copy or other media thereof (including conclusions as to the property value, the identity of the appraiser, professional designations, or the firm with which the appraiser is connected), shall be used for any purposes by anyone but the client and other intended users as identified in this report, nor shall it be conveyed by anyone to the public through advertising, public relations, news, sales, or other media, without the written consent of the appraiser.
5. The appraiser will not disclose the contents of this appraisal report unless required by applicable law or as specified in the Uniform Standards of Professional Appraisal Practice.
6. Information, estimates, and opinions furnished to the appraiser, and contained in the report, were obtained from sources considered reliable and believed to be true and correct. However, no responsibility for accuracy of such items furnished to the appraiser is assumed by the appraiser.
7. The appraiser assumes that there are no hidden or unapparent conditions of the property, subsoil, or structures, which would render it more or less valuable. The appraiser assumes no responsibility for such conditions, or for engineering or testing, which might be required to discover such factors. This appraisal is not an environmental assessment of the property and should not be considered as such.
8. This appraisal report should not be used to disclose the condition of the property as it relates to the presence/absence of defects. The client is invited and encouraged to employ qualified experts to inspect and address areas of concern. If negative conditions are discovered, the opinion of value may be affected.
9. Appraisals involving hypothetical conditions related to completion of new construction, repairs or alteration are based on the assumption that such completion, alteration or repairs will be competently performed.

Additional Comments Related To Scope Of Work, Assumptions and Limiting Conditions

Appraiser's Certification

The appraiser(s) certifies that, to the best of the appraiser's knowledge and belief:

1. The statements of fact contained in this report are true and correct.
2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are the appraiser's personal, impartial, and unbiased professional analyses, opinions, and conclusions.
3. Unless otherwise stated, the appraiser has no present or prospective interest in the property that is the subject of this report and has no personal interest with respect to the parties involved.
4. The appraiser has no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
5. The appraiser's engagement in this assignment was not contingent upon developing or reporting predetermined results.
6. The appraiser's compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
7. The appraiser's analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice.
8. Unless otherwise noted, the appraiser has made a personal inspection of the property that is the subject of this report.
9. Unless noted below, no one provided significant real property appraisal assistance to the appraiser signing this certification. Significant real property appraisal assistance provided by:

Purpose of Appraisal

The purpose of this appraisal is to determine the Market Value of the Fee Simple Interest in the Subject Property, as defined in the Uniform Standards of Professional Appraisal Practice USPAP, as of the effective date of this appraisal. The effective date of this appraisal is the date of the report.

Scope of the Appraisal

To develop an opinion of value of land only per lender request. The appraiser has performed a complete appraisal process as defined in USPAP. The development of this appraisal has included an inspection of the Subject site, improvements, comparables, neighborhood, market area and analysis of highest and best use. Then the appropriate approaches to value were considered and applied.

The only applicable approach is the Sales Comparison Approach for vacant land.

According to the 14th Edition of The Appraisal of Real Estate on page 44, the valuation of land begins by identifying the real estate and property rights valued, any encumbrances, use restrictions, and the land's physical characteristics. An appraiser can use several techniques to obtain an indication of land value:

- Sales Comparison
- Extraction
- Allocation
- Subdivision Development
- Land Residual
- Ground Rent Capitalization

Intended User/Use

The intended use is to evaluate the property that is the Subject of this appraisal for internal decisions regarding a surplus property, subject to the stated Scope of Work, purpose of the appraisal and reporting requirements of this report. No additional intended users other than those listed herein may rely upon this report.

Exposure Time

In arriving at the opinion of the market value it includes a reasonable exposure time. It is our opinion that this exposure time would be 1 to 3 months within the current market. Further, it is pointed out that the opinion of value is based on a specific date, wherein a theoretical market exposure has already occurred. To estimate a future value at the end of a marketing time starting at the appraisal date would be a prospective value as opposed to the current value opinion.

Legal Description

Clear Lake Village Unrec Part Of NW 1/4 Of SE 1/4 As Des IN Orb 837 Pg 292 Known As Clear Lake Village Unrecd Subd Lots 11,12 Blk 17

Neighborhood Description

The Subject is located in Cocoa and west of US 1 and south of Hwy 528 which consist of mostly low to average quality homes. The neighborhood is mix of mostly single family with some multi family and condominiums with most commercial property in the surrounding area located along Clearlake Rd Hwy 524 & 520, and US1. Employment in the area is average. Some major employers are Cape Canaveral and Port Canaveral to the north. It is also close to Cocoa Beach and the tourist industry.

The area is mostly adequately maintained and market appeal is average. The area has reasonable access to shopping, schools and employment. It has reasonable access to Hwy 528 for access to the beaches. Hwy 528 and 520 also are in reasonable proximity for access to Interstate 95 which connects the northern and southern parts of Brevard county and the Florida east coast. Schools, local shopping, police & fire stations, and all support facilities are located within a one-three mile radius of the Subject.

Neighborhood Market Conditions

MLS Area 212 - Cocoa - West of US 1 Residential. Market listing averages according to Space Coast Area Association of REALTORS for this section shows in YTD 2020 there were 454 new listings with 369 sold listings compared to YTD 2019 which had 403 new listings and 294 sold listing. The number of sold listings is up from YTD last year. According to MLS Area 212-The median sales price for existing residential homes has increased to \$170,000 YTD 2020 increasing 33.66%;However the average price is \$180,629, increasing 23.45% from YTD 2019. Median listing price is \$174,950 up 25.05% over YTD the prior year. Mortgage funds are available at rates considered typical to the market. The median sales to listing price ratio are approximately 95%-100% with 44 DOM. This section includes all types, size, condition residential properties.

There are fewer vacant land sales since this area is a mostly built up area. Typically buyers will purchase a site with an old house that needs to be demolished then build new.

Highest and Best Use

The Subject is an unimproved vacant lot located in a residential subdivision. The legally allowable uses only include residential. The subdivision zoned for RU 1-7. It is physically possible to build a single family residence as evidenced by the existing homes in the surrounding area. The current use is financially feasible based upon recent sales and listing in the subdivision. No alternative uses compete. The current use of the property is maximumly productive. The current use is therefore the Highest and Best Use. The most probable buyer is a homeowner or investor.

Site Comments

No adverse environmental conditions observed at the site, nor within the general vicinity of the Subject Property. No unfavorable conditions of any kind were noted. There is no adverse impact on marketability. The Subject does sit on a corner lot across the street from a public recreation park/baseball fields. This should have no adverse affect on marketability. There is an old house on site which would be demolished as it is uninhabitable. This is not adverse and there would not be any different for clearing the Subject versus a raw site in our opinion.

Comments on Sales Comparison

The Subject market area is a mostly built out subdivision know as Cocoa west of US 1. There are few sales or listings located within the Subject neighborhood. This area is an older established neighborhood and most vacant lots are developed. Typically in built out areas properties can be purchased with older improvements then redeveloped. A thorough search of the County's Public Records and MLS was made to find comparable sales that are close to and similar to he Subject in site size. There were few sales in this area similar to the Subject in aspects. The comparables chosen are the best available in our opinion. The sales are adjusted for market conditions, size, location and other differences.

Sale 1 is the only sale within 90 days. Sale 1 is a smaller site located just west of US 1 and north of Dixon Blvd. This location is a similar market are as the Subject. Sale 2 is recent sale located in another similar area. It is similar in site size. Sale 3 is a sale over one year old. It is a much larger site. Typically larger sites will sell and a lower cost per unit, thus a \$1/SF adjustment is warranted for size. This comparable has an old house which will need to be demolished. Comparable 4 is an active/pending listings. Comparable 4 is a smaller site. The listing is adjusted 5% for sales to list price ratios. Comparable 5 also closed on 12/04/2020, after our effective date for \$34,000.

The unadjusted lot sales range from \$18,000 to \$35,000. The adjusted range was from \$18,000 to \$25,900. The listing which sold after the date of value adjusted to \$32,600. Most weight is place below the mean. There were no sales in the Subject immediate area and not one sale is similar in all aspects. There were also no sales with similar utilities such as septic. This should have no adverse affect the value or marketability. No market evidence of adjustment for sewer versus septic was indicated by the data. The sales bracket the adjusted and unadjusted value of the Subject

Conditions of Appraisal

This appraisal is made "As Vacant" subject to the assumptions and limiting conditions explained within the assignment. It is also in accordance with Standards of Ethics and Conduct of the Appraisal Institute and the Uniform Standards of Professional Practice. This form appraisal only presents summary discussions of the Subject and sales.

Definition of Value

Market Value

"As defined in the Agencies' appraisal regulations, the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition are the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

- a. Buyer and seller are typically motivated;
- b. Both parties are well informed or well advised, and acting in what they consider their own best interests;
- c. A reasonable time is allowed for exposure in the open market;

In determining the market value it includes a reasonable exposure time. It is the appraiser's opinion that this exposure time would be 1 to 3 months within the current market. Further, it is pointed out that the opinion value is based on a specific date, wherein a theoretical market exposure has already occurred. To determine a future value at the end of a marketing time starting at the appraisal date would be a prospective value as opposed to the current value opinion.
