Viera, FL 32940

Public Hearing

H.6.

2/4/2021

Subject:

Tammy McCoy requests a change of zoning classification from AU to EU-1. (20Z00035) (Tax Account 2103412) (District 1)

Fiscal Impact:

None

Dept/Office:

Planning and Development

Requested Action:

It is requested that the Board of County Commissioners conduct a public hearing to consider a change of zoning classification from AU (Agricultural Residential) to EU-1 (Estate Use Residential).

Summary Explanation and Background:

The applicant is requesting a change of zoning classification from AU (Agricultural Residential) to EU-1 (Estate Use Residential) on 0.50 acres for the purpose of legitimizing the parcel and to build a single-family home on the parcel. The proposed EU-1 zoning classification requires a minimum lot size of 12,000 square feet with a minimum lot width and depth of 100 feet, and a minimum living area of 1,800 square feet. The property is located on the south side of E. Main Street, approximately 795 ft. east of Harry T. Moore Avenue, in Mims.

The EU-1 zoning classification is consistent with the current Residential 4 Future Land Use designation. The character of the area is a mixture of single-family residential, agricultural residential, multi-family residential, and general retail commercial.

The Board may wish to consider whether this request for EU-1 is consistent and compatible with the surrounding area.

On January 11, 2021, the Planning and Zoning Board heard the request and unanimously recommended approval.

Clerk to the Board Instructions:

Once resolution is received, please execute and return to Planning and Development.

Resolution 20Z00035

On motion by Commissioner Lober, seconded by Commissioner Smith, the following resolution was adopted by a unanimous vote:

WHEREAS, Tammy McCoy has requested a change of zoning classification from AU (Agricultural Residential) to EU-1 (Estate Use Residential), on property described as Tax Parcel 763, as recorded in ORB 7075, Page 2102, of the Public Records of Brevard County, Florida. **Section 17, Township 21, Range 35.** (.50 acres) Located on the south side of E. Main St., approx. 795 ft. east of Harry T. Moore Ave. (No assigned address. In the Mims area.); and

WHEREAS, a public hearing of the Brevard County Planning and Zoning Board was advertised and held, as required by law, and after hearing all interested parties and considering the adjacent areas, the Brevard County Planning and Zoning Board recommended that the application be approved; and

WHEREAS, the Board, after considering said application and Brevard County Planning and Zoning Board's recommendation, and hearing all interested parties, and after due and proper consideration having been given to the matter, find that the application should be approved as recommended; now therefore,

BE IT RESOLVED by the Board of County Commissioners of Brevard County, Florida, that the requested change of zoning classification from AU to EU-1 be approved. The Planning and Development Director, or designee, is hereby directed to make this change on the official zoning maps of Brevard County, Florida.

BE IT FURTHER RESOLVED that this resolution shall become effective as of February 4, 2021.

BOARD OF COUNTY COMMISSIONERS

Brevard County, Florida

Rita Pritchett, Chair

Brevard County Commission

As approved by the Board on February 4, 2021.

ATTEST:

RACHEL SADOFF, CLERK

(SEAL)

Planning and Zoning Board Hearing – January 11, 2021

Please note: A CUP (Conditional Use Permit) will generally expire on the three-year anniversary of its approval if the use is not established prior to that date. CUPs for Towers and Antennas shall expire if a site plan for the tower is not submitted within one year of approval or if construction does not commence within two years of approval. A Planned Unit Development Preliminary Development Plan expires if a final development plan is not filed within three years. **The granting of this zoning does not guarantee physical development of the property. At the time of development, said development must be in accordance with the criteria of the Brevard County Comprehensive Plan and other applicable laws and ordinances.**

Under Florida law, all correspondence sent to the Clerk's Office, which is not exempt or confidential pursuant to Chapter 119 of the Florida Statutes, is public record. If you do not want the public record contents of your e-mail address to be provided to the public in response to a public records request, please do not send electronic mail to this entity. Instead, contact this office by phone or in writing.

ADMINISTRATIVE POLICIES OF THE FUTURE LAND USE ELEMENT

Administrative Policies in the Future Land Use Element establish the expertise of staff with regard to zoning land use issues and set forth criteria when considering a rezoning action or request for Conditional Use Permit, as follows:

Administrative Policy 1

The Brevard County zoning official, planners and the director of the Planning and Development staff, however designated, are recognized as expert witnesses for the purposes of Comprehensive Plan amendments as well as zoning, conditional use, special exception, and variance applications.

Administrative Policy 2

Upon Board request, members of the Brevard County Planning and Development staff shall be required to present written analysis and a recommendation, which shall constitute an expert opinion, on all applications for development approval that come before the Board of County Commissioners for quasi-judicial review and action. The Board may table an item if additional time is required to obtain the analysis requested or to hire an expert witness if the Board deems such action appropriate. Staff input may include the following:

Criteria:

- A. Staff shall analyze an application for consistency or compliance with comprehensive plan policies, zoning approval criteria and other applicable written standards.
- B. Staff shall conduct site visits of property which are the subject of analysis and recommendation. As part of the site visit, the staff shall take a videotape or photographs where helpful to the analysis and conduct an inventory of surrounding existing uses. Aerial photographs shall also be used where they would aid in an understanding of the issues of the case.
- C. In cases where staff analysis is required, both the applicant and the staff shall present proposed findings of fact for consideration by the Board.
- D. For re-zoning applications where a specific use has not been proposed, the worst case adverse impacts of potential uses available under the applicable land use classification shall be evaluated by the staff.

Administrative Policy 3

Compatibility with existing or proposed land uses shall be a factor in determining where a rezoning or any application involving a specific proposed use is being considered. Compatibility shall be evaluated by considering the following factors, at a minimum:

Criteria:

- A. Whether the proposed use(s) would have hours of operation, lighting, odor, noise levels, traffic, or site activity that would significantly diminish the enjoyment of, safety or quality of life in existing neighborhoods within the area which could foreseeably be affected by the proposed use.
- B. Whether the proposed use(s) would cause a material reduction (five percent or more) in the value of existing abutting lands or approved development.
- C. Whether the proposed use(s) is/are consistent with an emerging or existing pattern of surrounding development as determined through analysis of:

1. historical land use patterns;
 2. actual development over the immediately preceding three years; and
 3. development approved within the past three years but not yet constructed.
- D. Whether the proposed use(s) would result in a material violation of relevant policies in any elements of the Comprehensive Plan.

Administrative Policy 4

Character of a neighborhood or area shall be a factor for consideration whenever a rezoning or any application involving a specific proposed use is reviewed. The character of the area must not be materially or adversely affected by the proposed rezoning or land use application. In evaluating the character of an area, the following factors shall be considered:

Criteria:

- A. The proposed use must not materially and adversely impact an established residential neighborhood by introducing types of intensity of traffic (including but not limited to volume, time of day of traffic activity, type of vehicles, et cetera), parking, trip generation, commercial activity or industrial activity that is not already present within the identified boundaries of the neighborhood.
- B. In determining whether an established residential neighborhood exists, the following factors must be present:
 1. The area must have clearly established boundaries, such as roads, open spaces, rivers, lakes, lagoons, or similar features.
 2. Sporadic or occasional neighborhood commercial uses shall not preclude the existence of an existing residential neighborhood, particularly if the commercial use is non-conforming or pre-dates the surrounding residential use.
 3. An area shall be presumed not to be primarily residential but shall be deemed transitional where multiple commercial, industrial or other non-residential uses have been applied for and approved during the previous five (5) years.

Administrative Policy 5

In addition to the factors specified in Administrative Policies 2, 3, and 4, in reviewing a rezoning, conditional use permit or other application for development approval, the impact of the proposed use or uses on transportation facilities either serving the site or impacted by the use(s) shall be considered. In evaluating whether substantial and adverse transportation impacts are likely to result if an application is approved, the staff shall consider the following criteria:

Criteria:

- A. Whether adopted levels of services will be compromised;
- B. Whether the physical quality of the existing road system that will serve the proposed use(s) is sufficient to support the use(s) without significant deterioration;

- C. Whether the surrounding existing road system is of sufficient width and construction quality to serve the proposed use(s) without the need for substantial public improvements;
- D. Whether the surrounding existing road system is of such width and construction quality that the proposed use(s) would realistically pose a potential for material danger to public safety in the surrounding area;
- E. Whether the proposed use(s) would be likely to result in such a material and adverse change in traffic capacity of a road or roads in the surrounding area such that either design capacities would be significantly exceeded or a de facto change in functional classification would result;
- F. Whether the proposed use(s) would cause such material and adverse changes in the types of traffic that would be generated on the surrounding road system, that physical deterioration of the surrounding road system would be likely;
- G. Whether projected traffic impacts of the proposed use(s) would materially and adversely impact the safety or welfare of residents in existing residential neighborhoods.

Administrative Policy 6

The use(s) proposed under the rezoning, conditional use or other application for development approval must be consistent with, (a), all written land development policies set forth in these administrative policies; and (b), the future land use element, coastal management element, conservation element, potable water element, sanitary sewer element, solid waste management element, capital improvements element, recreation and open space element, surface water element, and transportation elements of the comprehensive plan.

Administrative Policy 7

Proposed use(s) shall not cause or substantially aggravate any, (a), substantial drainage problem on surrounding properties; or (b), significant, adverse and unmitigatable impact on significant natural wetlands, water bodies or habitat for listed species.

Administrative Policy 8

These policies, the staff analysis based upon these policies, and the applicant's written analysis, if any, shall be incorporated into the record of every quasi-judicial review application for development approval presented to the Board including rezoning, conditional use permits, and vested rights determinations.

Section 62-1151(c) of the Code of Ordinances of Brevard County directs, "The planning and zoning board shall recommend to the board of county commissioners the denial or approval of each application for amendment to the official zoning maps based upon a consideration of the following factors:

- (1) The character of the land use of the property surrounding the property being considered.
- (2) The change in conditions of the land use of the property being considered and the surrounding property since the establishment of the current applicable zoning classification, special use or conditional use.

- (3) The impact of the proposed zoning classification or conditional use on available and projected traffic patterns, water and sewer systems, other public facilities and utilities and the established character of the surrounding property.
- (4) The compatibility of the proposed zoning classification or conditional use with existing land use plans for the affected area.
- (5) The appropriateness of the proposed zoning classification or conditional use based upon a consideration of the applicable provisions and conditions contained in this article and other applicable laws, ordinances and regulations relating to zoning and land use regulations and based upon a consideration of the public health, safety and welfare.

The minutes of the planning and zoning board shall specify the reasons for the recommendation of approval or denial of each application."

CONDITIONAL USE PERMITS (CUPs)

In addition to the specific requirements for each Conditional Use Permit (CUP), Section 62-1901 provides that the following approval procedure and general standards of review are to be applied to all CUP requests, as applicable.

- (b) Approval procedure. An application for a specific conditional use within the applicable zoning classification shall be submitted and considered in the same manner and according to the same procedure as an amendment to the official zoning map as specified in Section 62-1151. The approval of a conditional use shall authorize an additional use for the affected parcel of real property in addition to those permitted in the applicable zoning classification. The initial burden is on the applicant to demonstrate that all applicable standards and criteria are met. Applications which do not satisfy this burden cannot be approved. If the applicant meets its initial burden, then the Board has the burden to show, by substantial and competent evidence, that the applicant has failed to meet such standards and the request is adverse to the public interest. As part of the approval of the conditional use permit, the Board may prescribe appropriate and reasonable conditions and safeguards to reduce the impact of the proposed use on adjacent and nearby properties or the neighborhood. A nearby property, for the purpose of this section, is defined as any property which, because of the character of the proposed use, lies within the area which may be substantially and adversely impacted by such use. In stating grounds in support of an application for a conditional use permit, it is necessary to show how the request fulfills both the general and specific standards for review. The applicant must show the effect the granting of the conditional use permit will have on adjacent and nearby properties, including, but not limited to traffic and pedestrian flow and safety, curb-cuts, off-street loading and parking, off-street pickup of passengers, odors, glare and noise, particulates, smoke, fumes, and other emissions, refuse and service areas, drainage, screening and buffering for protection of adjacent and nearby properties, and open space and economic impact on nearby properties. The applicant, at his discretion, may choose to present expert testimony where necessary to show the effect of granting the conditional use permit.
- (c) General Standards of Review.
 - (1) The planning and zoning board and the board of county commissioners shall base the denial or approval of each application for a conditional use based upon

a consideration of the factors specified in Section 62-1151(c) plus a determination whether an application meets the intent of this section.

- a. The proposed conditional use will not result in a substantial and adverse impact on adjacent and nearby properties due to: (1), the number of persons anticipated to be using, residing or working under the conditional use; (2), noise, odor, particulates, smoke, fumes and other emissions, or other nuisance activities generated by the conditional use; or (3), the increase of traffic within the vicinity caused by the proposed conditional use.
 - b. The proposed use will be compatible with the character of adjacent and nearby properties with regard to use, function, operation, hours of operation, type and amount of traffic generated, building size and setback, and parking availability.
 - c. The proposed use will not cause a substantial diminution in value of abutting residential property. A substantial diminution shall be irrebuttably presumed to have occurred if abutting property suffers a 15% reduction in value as a result of the proposed conditional use. A reduction of 10% of the value of abutting property shall create a rebuttable presumption that a substantial diminution has occurred. The Board of County Commissioners carries the burden to show, as evidenced by either testimony from or an appraisal conducted by an M A I certified appraiser, that a substantial diminution in value would occur. The applicant may rebut the findings with his own expert witnesses.
- (2) The following specific standards shall be considered, when applicable, in making a determination that the general standards specified in subsection (1) of this section are satisfied:
- a. Ingress and egress to the property and proposed structures thereon, with particular reference to automotive and pedestrian safety and convenience, traffic flow and control, and access in case of fire and catastrophe, shall be: (1), adequate to serve the proposed use without burdening adjacent and nearby uses, and (2), built to applicable county standards, if any. Burdening adjacent and nearby uses means increasing existing traffic on the closest collector or arterial road by more than 20%, or 10% if the new traffic is primarily comprised of heavy vehicles, except where the affected road is at Level of Service A or B. New traffic generated by the proposed use shall not cause the adopted level of service for transportation on applicable roadways, as determined by applicable Brevard County standards, to be exceeded. Where the design of a public road to be used by the proposed use is physically inadequate to handle the numbers, types or weights of vehicles expected to be generated by the proposed use without damage to the road, the conditional use permit cannot be approved without a commitment to improve the road to a standard adequate to handle the proposed traffic, or to maintain the road through a maintenance bond or other means as required by the Board of County Commissioners.
 - b. The noise, glare, odor, particulates, smoke, fumes or other emissions from the conditional use shall not substantially interfere with the use or enjoyment of the adjacent and nearby property.
 - c. Noise levels for a conditional use are governed by Section 62-2271.

- d. The proposed conditional use shall not cause the adopted level of service for solid waste disposal applicable to the property or area covered by such level of service, to be exceeded.
- e. The proposed conditional use shall not cause the adopted level of service for potable water or wastewater applicable to the property or the area covered by such level of service, to be exceeded by the proposed use.
- f. The proposed conditional use must have existing or proposed screening or buffering, with reference to type, dimensions and character to eliminate or reduce substantial, adverse nuisance, sight, or noise impacts on adjacent and nearby properties containing less intensive uses.
- g. Proposed signs and exterior lighting shall not cause unreasonable glare or hazard to traffic safety, or interference with the use or enjoyment of adjacent and nearby properties.
- h. Hours of operation of the proposed use shall be consistent with the use and enjoyment of the properties in the surrounding residential community, if any. For commercial and industrial uses adjacent to or near residential uses, the hours of operation shall not adversely affect the use and enjoyment of the residential character of the area.
- i. The height of the proposed use shall be compatible with the character of the area, and the maximum height of any habitable structure shall be not more than 35 feet higher than the highest residence within 1,000 feet of the property line.
- j. Off-street parking and loading areas, where required, shall not be created or maintained in a manner which adversely impacts or impairs the use and enjoyment of adjacent and nearby properties. For existing structures, the applicant shall provide competent, substantial evidence to demonstrate that actual or anticipated parking shall not be greater than that which is approved as part of the site plan under applicable county standards.

FACTORS TO CONSIDER FOR A REZONING REQUEST

Section 62-1151(c) sets forth factors to consider in connection with a rezoning request, as follows:

"The planning and zoning board shall recommend to the board of county commissioners the denial or approval of each application for amendment to the official zoning maps based upon a consideration of the following factors:

- (1) The character of the land use of the property surrounding the property being considered.
- (2) The change in conditions of the land use of the property being considered and the surrounding property since the establishment of the current applicable zoning classification, special use or conditional use.
- (3) The impact of the proposed zoning classification or conditional use on available and projected traffic patterns, water and sewer systems, other public facilities and utilities and the established character of the surrounding property.

- (4) The compatibility of the proposed zoning classification or conditional use with existing land use plans for the affected area.
- (5) The appropriateness of the proposed zoning classification or conditional use based upon a consideration of the applicable provisions and conditions contained in this article and other applicable laws, ordinances and regulations relating to zoning and land use regulations and based upon a consideration of the public health, safety and welfare."

These staff comments contain references to zoning classifications found in the Brevard County Zoning Regulations, Chapter 62, Article VI, Code of Ordinances of Brevard County. These references include brief summaries of some of the characteristics of that zoning classification. Reference to each zoning classification shall be deemed to incorporate the full text of the section or sections defining and regulating that classification into the Zoning file and Public Record for that item.

These staff comments contain references to sections of the Code of Ordinances of Brevard County. Reference to each code section shall be deemed to incorporate this section into the Zoning file and Public Record for that item.

These staff comments contain references to Policies of the Brevard County Comprehensive Plan. Reference to each Policy shall be deemed to incorporate the entire Policy into the Zoning file and Public Record for that item.

These staff comments refer to previous zoning actions which are part of the Public Records of Brevard County, Florida. These records will be referred to by reference to the file number. Reference to zoning files are intended to make the entire contents of the cited file a part of the Zoning file and Public Record for that item.

DEFINITIONS OF CONCURRENCY TERMS

Maximum Acceptable Volume (MAV): Maximum acceptable daily volume that a roadway can carry at the adopted Level of Service (LOS).

Current Volume: Building permit related trips added to the latest TPO (Transportation Planning Organization) traffic counts.

Volume with Development (VOL W/DEV): Equals Current Volume plus trip generation projected for the proposed development.

Volume/Maximum Acceptable Volume (VOL/MAV): Equals the ratio of current traffic volume to the maximum acceptable roadway volume.

Volume/Maximum Acceptable Volume with Development (VOL/MAV W/DEV): Ratio of volume with development to the Maximum Acceptable Volume.

Acceptable Level of Service (CURRENT LOS): The Level of Service at which a roadway is currently operating.

Level of Service with Development (LOS W/DEV): The Level of Service that a proposed development may generate on a roadway.

STAFF COMMENTS

20Z00035

Tammy McCoy

AU (Single-Family Agricultural) to EU-1 (Estate Use Residential)

Tax Account Number: 2103412
Parcel I.D.: 21-35-17-00-763
Location: No address assigned, on the south side of E. Main Street 795 feet east of Harry T. Moore Avenue, in the Mims area (District 1)
Acreage: 0.50 acre

Planning and Zoning Board: 01/11/2021

Board of County Commissioners: 02/04/2021

Consistency with Land Use Regulations

- Current zoning can be considered under the Future Land Use Designation, Section 62-1255.
- The proposal can be considered under the Future Land Use Designation, Section 62-1255.
- The proposal would maintain acceptable Levels of Service (LOS) (XIII 1.6.C)

	CURRENT	PROPOSED
Zoning	AU	EU-1
Potential*	0 units, requires 2.5 acres	1 single-family unit
Can be Considered under the Future Land Use Map	Yes, RES 4	Yes, RES 4

* Zoning potential for concurrency analysis purposes only, subject to applicable land development regulations.

Background and Purpose of Request

The applicant is requesting a change of zoning classification from AU (Agricultural Residential) to EU-1 (Estate Use Residential) on 0.50 acres for the purpose of legitimizing the parcel and to build a single-family home on the parcel.

The applicant has not provided a site plan showing the location and size of a future home.

The AU zoning is the original zoning for the parcel as established by Brevard County in 1958. The parent parcel was subdivided into two parcels on March 13, 1963 per Official Records Book 574, Page 860 which created two 0.50 acres parcels including the abutting parcel to the south. The parent parcel had a single-family home that was built in 1962 before the parcel was subdivided. In 1963, AU zoning required a minimum lot size of one acre with a minimum lot width and lot depth of 125 feet. This subdivision of the lot in 1963 created two lots that are substandard to the AU minimum lot size

requirement. The subject parcel has a 25 feet wide ingress/egress access easement across the west 25 feet of the parcel for accessing the abutting developed parcel to the south.

Land Use

The subject property retains the RES 4 (Residential 4) FLU designation. The current zoning of AU on the subject property is consistent with the RES 4 FLU per 62-1255 (2). The proposed zoning of EU-1 is consistent with the RES 4 FLU per 62-1255 (2).

Environmental Constraints

Summary of Mapped Resources and Noteworthy Land Use Issues:

- Aquifer Recharge Soils
- Land Clearing and Landscape Requirements
- Protected Species

No noteworthy land use issues were identified. Natural Resources Management (NRM) reserves the right to assess consistency with environmental ordinances at all applicable future stages of development.

Preliminary Concurrency

The closest concurrency management segment to the subject property is Highway US-1, between Dairy Road and State Road 46, which has a Maximum Acceptable Volume (MAV) of 41,790 trips per day, a Level of Service (LOS) of D, and currently operates at 40.58% of capacity daily. The maximum development potential from the proposed rezoning increases the percentage of MAV utilization by 0.03%. With the maximum development potential from the proposed rezoning, the corridor is anticipated to operate at 40.61% of capacity daily (LOS D). The proposal is not anticipated to create a deficiency in LOS.

No school concurrency information has been provided as the development potential of this site falls below the minimum number of new residential lots that would require a formal review.

The parcel is not serviced by Brevard County sewer. The closest available Brevard County sewer line is located along the east side of Highway US-1 approximately 2,315 feet west of the westerly property line of the subject parcel as measured along Main Street.

The parcel can be serviced by Brevard County water. The closest available Brevard County water line is located across from the parcel along the north side of E. Main Street.

Applicable Land Use Policies

The Board should evaluate the compatibility of this application within the context of the Board's Administrative Policies 1 through 8 of the Future Land Use Element, outlined in the Administrative Policies.

Analysis of Administrative Policy #3 - Compatibility between this site and the existing or proposed land uses in the area.

The abutting parcels to the east, south and west all have FLU designation of RES 4 (Residential 4). The proposed zoning change from AU to EU-1 is consistent with the RES 4 FLU designation.

Policy #3C Whether the proposed use(s) is/are consistent with an emerging or existing pattern of surrounding development approved within the past three year, but not yet constructed.

There has not been any approved development in the surrounding area within the last three years. Although there is no EU-1 zoning in the immediate area it appears the developing trend in this area is moving away from Agricultural uses to single-family residential use.

Analysis of Administrative Policy #4 - Character of a neighborhood or area.

The subject parcel is currently undeveloped with AU zoning that abuts E. Main Street to the north.

The abutting parcel to the east is zoned AU and is undeveloped. The abutting parcel to the south is zoned AU and is developed with a 2,476 sq. ft. single-family home. The parcels to the west along the south side of E. Main Street are substandard AU zoned parcels that are developed with single-family homes along with undeveloped substandard AU zoned parcels. The parcel 390 feet west of the subject parcel is zoned RU-2-30 (High-Density Multi Family Residential) and is a multi-family residential development.

All the area around the subject parcel has a FLU (Future Land Use) designation of RES 4 which is consistent with the AU and proposed EU-1 zoning classifications. The surrounding developed and undeveloped AU zoned parcels are not being used for agricultural pursuit.

Surrounding Properties

There has been one zoning action within a half-mile of the subject property within the last three years.

On November 05, 2020, application **20Z00023** requests were heard by the County Commission to a change of zoning classification from RU-1-9 and BU-1 to BU-1-A on 0.98 acres; and a BDP limited to 4 units per acre on 2.29 acres on the RU-1-9 portion. This parcel is located on the south side of E. Main Street, approximately 843 feet west of the subject property.

The current AU zoning classification permits single-family residences and agricultural uses on 2.5 acre lots, with a minimum lot width and depth of 150 feet. The minimum house size in AU is 750 square feet. The AU classification also permits the raising/grazing of animals, fowl and beekeeping.

The proposed EU-1 zoning classification is an estate single family residential zoning classification. The minimum lot size is 12,000 square feet with minimum lot width and lot depth of 100'. The minimum living area is 1,800 square feet.

For Board Consideration

The Board may wish to consider whether this request for EU-1 is consistent and compatible with the surrounding area.

**NATURAL RESOURCES MANAGEMENT DEPARTMENT
Zoning Review & Summary
Item # 20Z00035**

Applicant: Tammy McCoy

Zoning Request: AU to EU-1

Note: Applicant wants to legitimize lot size.

P&Z Hearing Date: 01/11/21; **BCC Hearing Date:** 02/04/21

Tax ID No: 2103412

- This is a preliminary review based on best available data maps reviewed by the Natural Resources Management Department (NRM) and does not include a site inspection to verify the accuracy of the mapped information.
- In that the rezoning process is not the appropriate venue for site plan review, specific site designs submitted with the rezoning request will be deemed conceptual. Board comments relative to specific site design do not provide vested rights or waivers from Federal, State or County regulations.
- **This review does not guarantee whether or not the proposed use, specific site design, or development of the property can be permitted under current Federal, State, or County Regulations.**

Summary of Mapped Resources and Noteworthy Land Use Issues:

- Aquifer Recharge Soils
- Land Clearing and Landscape Requirements
- Protected Species

No noteworthy land use issues were identified. Natural Resources Management (NRM) reserves the right to assess consistency with environmental ordinances at all applicable future stages of development.

Land Use Comments:

Aquifer Recharge Soils

The subject parcel contains mapped aquifer recharge soils (Pomello sand) as shown on the USDA Soil Conservation Service Soils Survey map. The applicant is hereby notified of the development and impervious restrictions within Conservation Element Policy 10.2 and the Aquifer Protection Ordinance.

Land Clearing and Landscape Requirements

The applicant is advised to refer to Article XIII, Division 2, entitled Land Clearing, Landscaping, and Tree Protection, for specific requirements for tree preservation and canopy coverage requirements. Land clearing is not permitted without prior authorization by NRM.

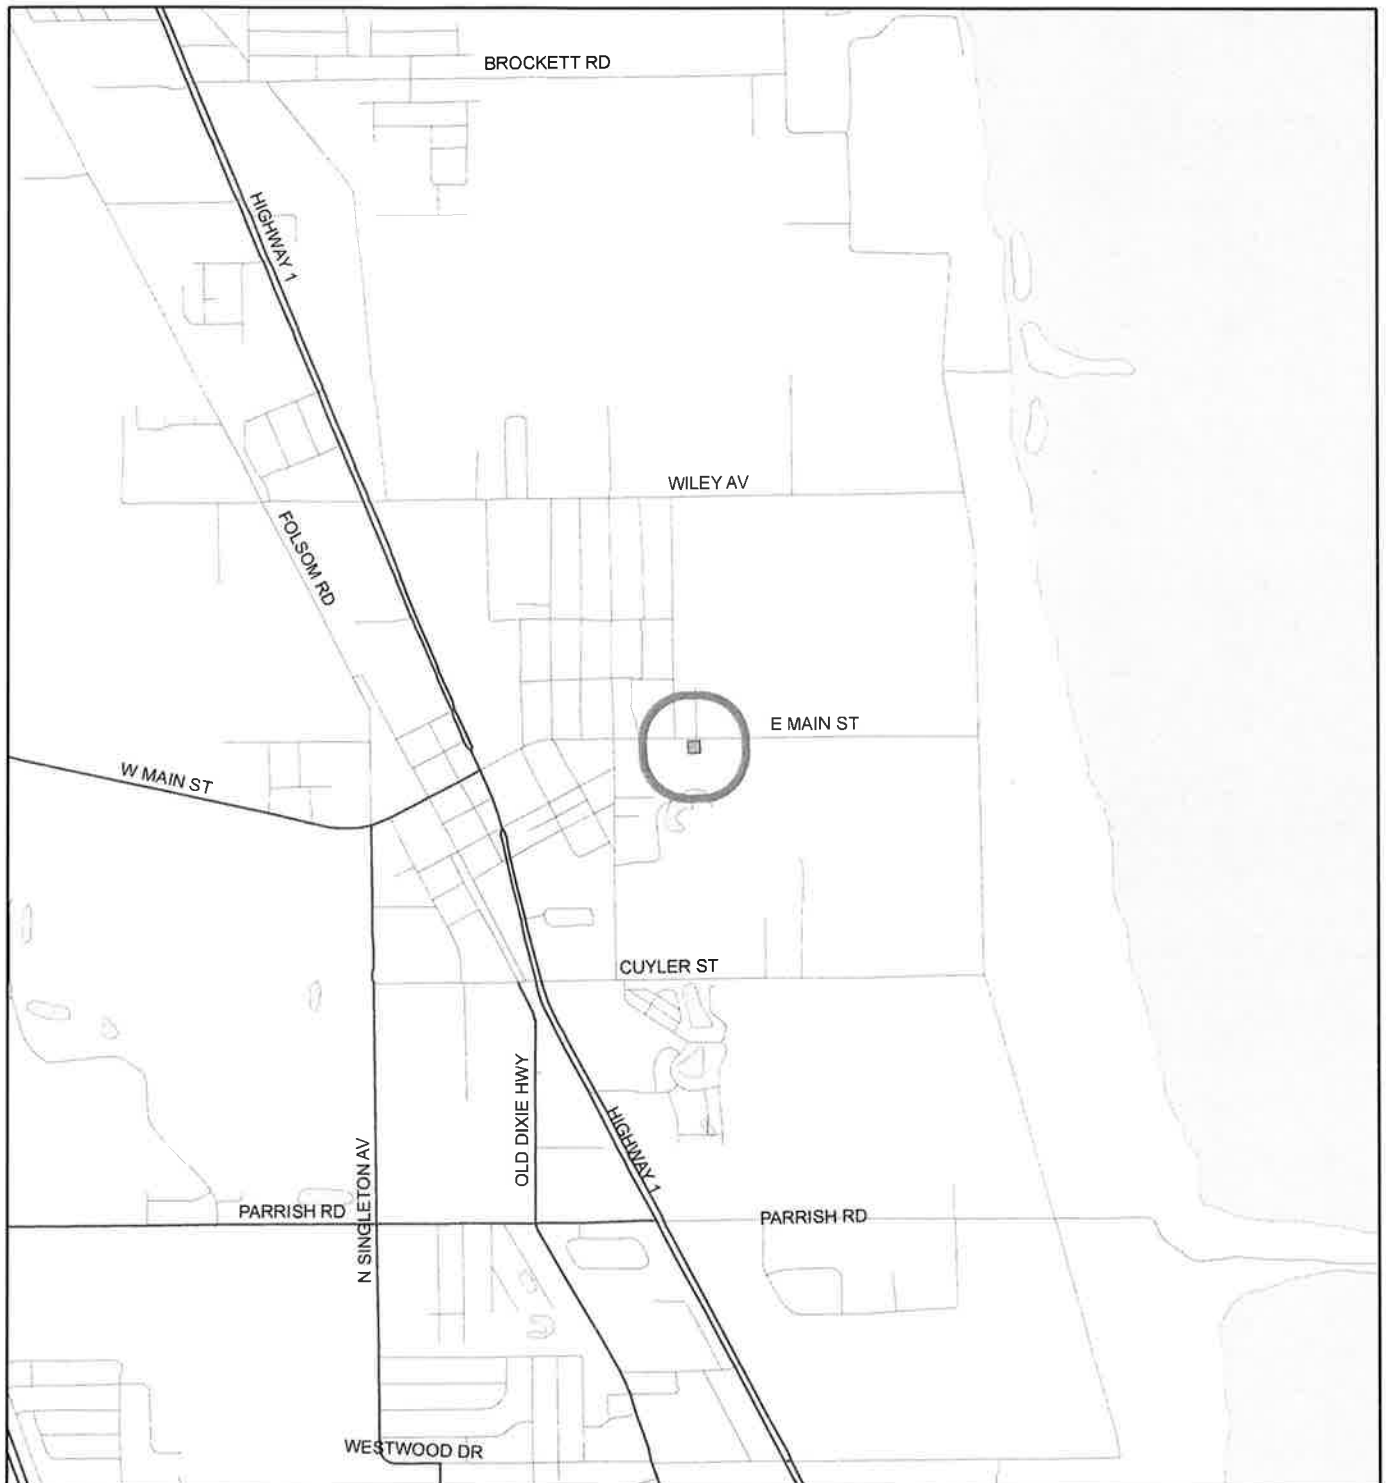

Protected Species

Information available to NRM indicates that federally and/or state protected species may be present on the property. Specifically, gopher tortoises can be found in areas of aquifer recharge soils. Prior to any plan, permit submittal, or development activity, including land

clearing, the applicant should obtain any necessary permits or clearance letters from the Florida Fish and Wildlife Conservation Commission and/or U.S. Fish and Wildlife Service, as applicable.

Description of Request: Rezone from AU to EU-1

Notice to Applicants for Change of Land Use

The Planning and Zoning Office staff will be preparing a package of written comments concerning your request. These comments will be provided to the Planning and Zoning Board and Board of County Commissioners. The comments will address the following:

The current zoning of the property along with its current development potential and consistency with the Brevard County Comprehensive Plan use and density restrictions.

The proposed zoning of the property along with its development potential and Consistency with the Board County Comprehensive Plan use and density restrictions.

The proposal's impact on services, such as roads and schools.

The proposal's impact upon hurricane evacuation, if applicable.

Environmental factors.

Compatibility with surrounding land uses.

Consistency with the character of the area.

You may place your own written comments regarding these items into the record. Up to two typewritten pages can be included in the package if received 10 working days prior to the Planning and Zoning Board hearing. You are not required to provide written comments. *An Applicant presentation to the Planning and Zoning Board is required regardless of written submittals.* The board may approve the requested classification or a classification which is more intensive than the existing classification, but less intensive than the requested classification.

Staff comments will be available approximately one week prior to the Planning and Zoning Board hearing. These comments will be made available to you at that time. In order to expedite receipt of staff's comments, please provide an e-mail address or fax number below. Alternatively, a copy of staff's comments will be mailed via the U.S. Postal Service.

NOTES:

- ☐ If your application generates public opposition, as may be expressed in letters, petitions, phone calls, testimony, etc., you are advised to meet with concerned parties in an effort to resolve differences prior to the BCC taking final action on the request; therefore, you are encouraged to meet with affected property owners prior to the public hearing by the Planning & Zoning Board/Local Planning Agency (P&Z/LPA). During the course of conducting the public hearing, if the P&Z/LPA finds the application is controversial, and the applicant has not met with affected property owners, the item shall be tabled to the next agenda to allow such a meeting to take place. If the item is controversial, despite the applicant's efforts to meet with affected property owners, the P&Z/LPA may include, in their motion, a requirement to meet with interested parties again prior to the BCC public hearing. The BCC may also table your request in order for you to meet with interested parties, if this has not occurred prior to the public hearing before the BCC. If you need assistance to identify these parties, please contact the Planning & Zoning Office.
- ☐ BCC approval of a zoning application does not vest a project nor ensure issuance of a permit. At the time of permit application, land development regulations and concurrency-related level of service standards must be met.

Please transmit staff's comments via:

THIS AFFIDAVIT IS TO BE PRESENTED AT THE PUBLIC HEARING

AFFIDAVIT

STATE OF FLORIDA
COUNTY OF BREVARD

Before me, this undersigned authority, personally appeared, Brian Lat,
to me well known and known to me to be the person described in and who executed the foregoing
affidavit, after being first duly sworn, says:

1. That the affiant posted the notice provided by the Brevard County Planning & Zoning Office, which contains the time(s) and date(s) of the Public Hearing(s) involved.
2. Said posted notice contains the name of the applicant, the total acreage of the property in question, the existing land use classification, special use classification or conditional use designation, and the requested amendment to the official zoning maps. Said notice also contains the time and place of the public hearing on the consideration of said application by the Board of County Commissioners of Brevard County, if applicable.
3. The said notice has been posted in a conspicuous place on the subject property not more than twenty-five (25) days, nor less than fifteen (15) days prior to the first public hearing before the applicable board (as indicated on notice). If the property abuts a public road right-of-way, the notice has been posted within ten (10) feet of the road right-of-way in such a manner as to be visible from the road right-of-way.
4. The affiant understands that this affidavit is intended to be submitted as a requirement for a public hearing, and as such, will be officially filed with the Government of Brevard County, Florida.

PLANNING AND ZONING BOARD MINUTES

The Brevard County Planning & Zoning Board met in regular session on **Monday, January 11, 2021**, at **3:00 p.m.**, in the Florida Room, Building C, Brevard County Government Center, 2725 Judge Fran Jamieson Way, Viera, Florida.

The meeting was called to order at 3:00 p.m.

Board members present were: Ron Bartcher; Harry Carswell; Brian Hodgers; Ben Glover; Joe Buchanan; and Peter Filiberto, Vice Chair.

Staff members present were: Tad Calkins, Planning and Development Director; George Ritchie, Planner III; Abigail Jorandby, Assistant County Attorney; and Jennifer Jones, Special Projects Coordinator.

Excerpt of Complete Minutes

Tammy McCoy

A change of zoning classification from AU (Agricultural Residential) to EU-1 (Estate Use Residential). The property is .50 acres, located on the south side of E. Main St., approx. 795 ft. east of Harry T. Moore Ave. (No assigned address. In the Mims area.) (20Z00035) (Tax Account 2103412) (District 1)

Tammy McCoy, 1373 Middleburg Street, Apt. 102, Rockledge, stated the property has been in her family for her entire life, until her mom's passing in 2015. Her family owned the property to west and to the south and there wasn't an issue because they all lived there, but now she needs to make the lot comply with the current zoning in order to sell it.

No public comment.

Motion by Ron Bartcher, seconded by Joe Buchanan, to approve the change of zoning classification from AU to EU-1. The motion passed unanimously.
