

**AGENDA REPORT**  
**September 18, 2018**

**Temporary Use Acknowledgement (TUA) for Brevard County Dewatering  
Activities for the Grand Canal Muck Removal Project**

---

---

**SUBJECT:**

Temporary Use Acknowledgement (TUA) for Brevard County Dewatering Activities for the Grand Canal Muck Removal Project

**FISCAL IMPACT:**

There will be no fiscal impact for the TUA.

**DEPT/OFFICE:**

Natural Resources Management

**REQUESTED ACTION:**

It is requested that the Board of County Commissioners authorize the Chair to (a) execute the attached Temporary Use Acknowledgement (TUA) to allow NRM to utilize 6.38 acres of the 18.83 acre vacant, County-owned parcel zoned PUD for dewatering activities for the Grand Canal Muck Removal Project and (b) authorize the commencement date of the TUA to coincide with the date of issuance of the Notice to Proceed that will be issued following the execution of the construction contract awarded to the lowest responsive bidder for the Grand Canal Muck Removal Project.

**SUMMARY EXPLANATION and BACKGROUND:**

Five muck dredging project locations were selected by Brevard as part of the County managed restoration initiative funded by the State Legislature with 2014-2017 appropriations: Turkey Creek, Cocoa Beach Canals, Mims Boat Ramp, Sykes Creek and the Grand Canal. The Grand Canal Muck Removal Project is fully permitted and funded through FDEP Grant No. NS005 (\$8,968,000) and Save Our Indian River Lagoon Trust Fund (\$18,020,368), as approved by the Board on December 6, 2016 and April 10, 2018, respectively.

The Grand Canal Muck Removal Project will remove approximately 479,000 cubic yards of muck from the northern portion of Grand Canal system. The muck will be dredged and transported via a pipeline to the proposed 6.38 acre dewatering facility, located on an 18.83 acre County-owned parcel zoned PUD adjacent to Pineda Causeway. A Temporary Use Acknowledgement (TUA) is required to use this site for dewatering. Construction is anticipated to commence in late-2018 and is estimated to last 2 to 3 years. Additional TUAs are likely to be sought after the initial one year period as needed for project

completion.

The use of this parcel as a dredge material dewatering site for the Grand Canal Muck Removal Project has been thoroughly evaluated and selected by Brevard County and the consulting engineering firm as the most cost effective, non-intrusive site for dredge material management in the vicinity of the area to be dredged. During the design and permitting process for this proposed dewatering site, significant efforts were made to avoid impacts to wetlands and minimize impacts to residents adjacent to this parcel. The site design maintains a natural buffer of existing vegetation between the work area and the canal. Additionally, an 8 foot high chain link fence with sound dampening material will be installed around the perimeter of the work area.

A public meeting with the South Patrick Residents' Association (SPRA) was held on April 13, 2015 to discuss the overall project and present the County's preliminary plan for the Grand Canal Muck Removal Project. Public comment was received and residents' concerns regarding the project were heard. A second public meeting with SPRA was held on June 11, 2018 to 1) update area residents on the status of the project, 2) notify residents of the requested TUA for the proposed dewatering facility, and 3) address any concerns area residents may have regarding the use. During the last week of August, letters were mailed to property owners within 1,000 feet of the site notifying them of this public hearing.

Upon completion of construction, the dewatering site will undergo site restoration including returning the site to its pre-construction grades, planting native vegetation, and hydro-seeding the work area.

**RE:** Item H.2., Temporary Use Acknowledgement (TUA) for Brevard County Dewatering Activities for the Grand Canal Muck Removal Project

The Board of County Commissioners, in regular session on September 18, 2018, authorized the Chair to execute the TUA to allow Natural Resources Management to utilize 6.38 acres of the 18.83 acres vacant, County-owned parcel zoned PUD for dewatering activities for the Grand Canal Muck Removal Project; and authorized the commencement date of the TUA to coincide with the date of issuance of the Notice to Proceed that will be issued following the execution of the construction contract awarded to the lowest responsive bidder for the Grand Canal Muck Removal Project. Enclosed is a fully-executed Temporary Use Acknowledgment.

Your continued cooperation is always appreciated.

Sincerely,

BOARD OF COUNTY COMMISSIONERS  
SCOTT ELLIS, CLERK

*Tammy Rowe*

Tammy Rowe, Deputy Clerk

**TEMPORARY USE ACKNOWLEDGMENT**  
**BOARD OF COUNTY COMMISSIONERS OF BREVARD COUNTY**

**THIS ACKNOWLEDGEMENT**, Made this 18 day of, September 2018 by the **BOARD OF COUNTY COMMISSIONERS OF BREVARD COUNTY (“BCC”)**, **FLORIDA**, a political subdivision of the State of Florida, as follows:

**1. TEMPORARY DREDGED MATERIAL DEWATERING ACTIVITIES**

- a) In connection with the Grand Canal Muck Removal Project, the County shall utilize a portion of the County’s property located in the Planned Unit Development (PUD) zoning classification to temporarily allow the construction and operation of a temporary dredged material dewatering facility in conjunction with temporary parking and storage of construction equipment and materials, if necessary.
- b) The purpose is to fulfill the County’s obligation to conduct muck dredging along the northern segment of the Grand Canal as part of the County’s effort to conduct environmental restoration dredging to improve water quality within the Indian River Lagoon. The project is a direct public benefit by removing nutrient-laden muck material that smothers the natural bottom, clouds the water, prevents the growth of seagrass, and contributes to harmful algal blooms.
- c) The temporary dredged material management activities will include (a) clearing of vegetation, (b) site excavation and grading to create staging areas for equipment and materials, drying areas, stormwater swales, an access road, and a containment pond for dredged materials, (c) ingress/egress of highway haul trucks, and (d) loading dredged material onto highway haul trucks. Equipment on-site may include, but is not limited to, front-end loader(s), trackhoe, skid steer, backhoe, and highway haul trucks. Contractor’s activities on-site will typically be between the hours of 7:00 AM to 7:00 PM.
- d) Upon completion of the dredge activities and the associated dewatering of dredged material the County will require the removal of all equipment and materials from the site. Thereafter site restoration will occur. Site Restoration will include (a) removal of temporary construction access road, (b) restoration of site grades to pre-construction conditions, and (c) planting of the site with a variety of native vegetation including a combination of plants and hydroseed. The site restoration plan is attached hereto and made part hereof as Exhibit “B”.
- e) The temporary uses described in paragraph (a) above are to be located on the property described by the Brevard County Property Identification Number as 26-37-22-00-3. The legal description is attached hereto and made part hereof as Exhibit “A”;
- f) This location is no less than approximately 110 feet from the closest property line under different ownership, and no less than 175 feet from the nearest dwelling unit. The temporary dredged material

management area will be buffered from residential property by a 15 foot vegetative buffer and a chain link fence installed with sound dampening material. The temporary use will be subject to the noise limitations prescribed in Chapter 46, Article IV, Sections 46-126 through 46-131 Code of Ordinances of Brevard County, Florida.

g) This temporary use by the County is for a period of one (1) year effective upon execution by Brevard County and the issuance of the Notice to Proceed to the Contractor awarded the construction services contract for the Grand Canal Muck Removal Project.

Hi Walker:

Thanks for your response.

I just want to be sure I understand which page is which.

Please verify per attachments which page should be the the "Exhibit B"

Is it one page of the attached, or 4 pages of the attached.

Thanks in advance.

Deborah,  
In an attempt not to 'mix' use of the terms 'Attachment' and 'Exhibits' I referenced the exhibits to the TUA as attachments in the agenda item. I thought it might eliminate confusion. Clearly that didn't work.

Exhibit B is Attachment B and Exhibit A is Attachment C. Hope this clarifies.

Let me know if you have any additional questions.

Thanks!  
Walker

Hi Carol:

On tomorrow's Agenda, Natural Resources has Item H.2.; a *Temporary Use Acknowledgement*.

Paragraph D mentions **Exhibit B** as an attachment.

There are several attachments with this Item.

However, I do not see one listed as Exhibit B.

Please advise.

Thanks in advance.

**BOARD OF COUNTY COMMISSIONERS**

August 27, 2018

Dear Property Owner:

The Brevard County Planning and Development Department advises you as a property owner within 1,000', that Brevard County is seeking approval of a temporary use for a portion of an 18+ acre parcel owned by Brevard County. The property is located approximately 2,500 feet west of South Patrick Drive and abutting the south side of S.R. 404 Pineda Causeway.

**Specifically: Brevard County has requested a Temporary Use Agreement to utilize approximately 6.38 acres of the 18.83 site for temporary dewatering activities as part of the Grand Canal Muck Removal Project. These activities include the development of the site for construction dewatering of the dredged material, use of heavy equipment to process dredged material and load haul trucks, and the ingress/egress of haul trucks to remove the dredged material from the site. It is anticipated that the project duration will require two to three years to complete. If approved, the site will be used for one year initially. Additional Temporary Use Agreements for this site will likely be sought after the initial one year period to complete the project. All temporary equipment, supplies, etc. shall be removed from the property prior to the expiration of the temporary use agreement. The 365 day TUA will commence on the same date that the Notice to Proceed is issued to the construction contractor who is awarded the contract (anticipated November 1, 2018).**

The public hearing will be held at the Brevard County Government Center Commission Chambers, 2725 - Judge Fran Jamieson Way, Bldg. "C", Viera, Florida by the Board of County Commissioners on **September 18, 2018** beginning at **9:00AM**.

You are invited to attend the public hearing to voice any comments you may have. You may also write to the address shown at the top of this notice. Please direct telephone inquiries to Walker Dawson in Brevard County's Natural Resources Management Department at **(321) 372-5195**.

The needs of hearing or visually impaired persons shall be met if the Natural Resources Management Department is contacted at least **48 hours** prior to the public hearing.

**See location map attached to this memo.**
