Good evening Commissioners

I'm here this evening to speak support for Commissioner Lober. For the 1st time in over 12 years District 2 finally has a commissioner who is keeping his campaign promises to restrict the expansion of Government at the local level, bring expenditures under control and assure that we are using county funds to maintain and upgrade infrastructure that is under the County Commissions jurisdiction.

During your campaign you promised that you would get the pot holed section of South Courtney in front of Jefferson Junior High repaired...IT has been resurfaced, along with over 25 residential streets. You promised to get the Kiwanis Island Boat ramp replaced after its destruction during IRMA along with the boat ramp on SR 520 across from the Hospital...BOTH have been done You promised to focus on cleaning up the Lagoon and have worked tirelessly to assure IRL funds or focused on the things that will give us the most "bang for the buck" in an expedited fashion. You promised to evaluate the TDCs expenditure of funds and get effective use of these tax funds.....you are again making a differenceAll this accomplished during your 1st 6 months in office.

So Commissioner Lober you are doing the things that most of us voted for you to do.....and I encourage you to maintain your focused effort. There are partisan forces that are attacking you daily for your counter attacks on social media.....they are the same forces that have attacked our President, and have designated many of us as "Deplorable". They have only recently declared that "2 white men" cannot be allowed to be president and vice president....how partisan and discriminatory can you get.....In any event I believe you have the right to freely speak your mind about issues and to respond in kind to personal attacks. Please continue your focused effort to get fiscal reforms and infrastructure projects to improve our waste management system in Brevard County. Thank you for your willingness to serve and put your personal legal career on hold as you accomplishes these tasks for us.!!
