### Subject:

Final Plat and Contract Approval, Re: Egrets Landing Phase 4 Open Space Subdivision (19SD00014) (District 2)  
Developer: Egret's Landing MI, LLC.

### Fiscal Impact:

None

### Dept/Office:

Planning and Development

### Requested Action:

In accordance with Section 62-2841(i) and Section 62-2844, it is requested that the Board of County Commissioners grant final plat approval and authorize the Chair to sign the final plat and contract for Egrets Landing Phase 4.

### Summary Explanation and Background:

There are three stages of review for subdivision plan approval: the pre-application conference, the preliminary plat/final engineering plan review, and the final plat review. The pre-application conference for the above project was held on November 13, 2014. The preliminary plat and final engineering plans, which is the second stage of approval, was approved on October 6, 2015. The third stage of review is the final plat approval for recordation. The applicant is posting a performance bond and contract for guarantee of the completion of the infrastructure improvements.

Egrets Landing Phase 4, formerly known as The Savannah Ridge Open Space Subdivision, meets the design standards for an open space subdivision. An open space subdivision permits the clustering of development to encourage the efficient use of land that is intended to result in an overall reduction in impervious surface coverage and to encourage the creation of open space and preservation.

This project has a Binding Development Plan limiting the development to 222 residential lots, and by utilizing the Open Space Subdivision code, smaller lot sizes are allowed to achieve this goal. The proposed subdivision is located on the north side of Hall Road and the east side of Courtenay Parkway. Egrets Landing Phase 4 contains 64 home sites on 18.61 acres.

Staff has reviewed the final plat and contract for the Egrets Landing Phase 4 subdivision, and has determined that it is in compliance with the applicable ordinances.

This approval is subject to minor engineering changes as applicable. Board approval of this project does not

relieve the developer from obtaining all other necessary jurisdictional permits.
