2725 Judge Fran Jamieson Way Viera, FL 32940

Agenda Report

Public Hearing

H.1. 11/5/2020

Subject:

Jennifer Robbins requests a change of zoning classification from GU to RR-1. (20Z00021) (Tax Account 2402990) (District 1)

Fiscal Impact:

None

Dept/Office:

Planning and Development

Requested Action:

It is requested that the Board of County Commissioners conduct a public hearing to consider a change of zoning classification from GU (General Use) to RR-1 (Rural Residential).

Summary Explanation and Background:

The applicant requests to change of zoning classification from GU (General Use) to RR-1 (Rural Residential) on 2.02 acres for the purpose of building a barn and having horses at 5490 Simpson Place, Cocoa Florida. The parcel currently is developed with a 2,823 square-foot single-family residence and an 864 square-foot detached garage. In GU zoning, agricultural pursuits (barns and horses) are permitted with 5 acres or more of land.

Lots 13 and 14, Block 2, were combined and does not allow them to be considered as a "nonconforming lot of record". Therefore, the lots do not fall under the provisions of Sec.62-1188. The combined lots meet the proposed RR-1 zoning minimum 125 feet lot width and depth and the RR-1 minimum one acre lot size requirements. In addition, RR-1 may be considered compatible with the RES 1 (Residential 1) Future Land Use designation.

The parcel abuts GU zoning along its northern, southern, and western boundaries and abuts AU zoning to the east. The abutting parcels to the west are developed as single family residential on substandard GU parcels. Although there is not any RR-1 zoning in the surrounding area, RR-1 does resemble actual development in the surrounding area. In addition, the RR-1 zoning allows agricultural pursuits limited to the keeping of horses and activities of a horticultural nature which are permitted uses in AU. These uses are also permitted in GU if the parcel is five acres in size or may be considered as a Conditional Use with a CUP (Conditional Use Permit) if the parcel is less than five acres in size.

The Board may wish to consider whether this request for RR-1 zoning is consistent and compatible with the surrounding neighborhood which has AU and GU zoning.

H.1. 11/5/2020

On October 5, 2020, the Planning and Zoning Board heard the request and unanimously recommended approval.

Clerk to the Board Instructions:

Upon receipt of resolution, please execute and return to Planning and Development.

Resolution 20Z00021

On motion by Commissioner Pritchett, seconded by Commissioner Lober, the following resolution was adopted by a unanimous vote:

WHEREAS, Jennifer L. Robbins has requested a change of zoning classification from GU (General Use) to RR-1 (Rural Residential), on property described as Lot 13, Block 2, Canaveral Groves Subdivision, as recorded in ORB 8798, Page 2535, of the Public Records of Brevard County, Florida. Section 08, Township 24, Range 35. (2.02 acres) Located on the north side of Simpson Place, approx. 833 feet west of Ocala Street. (5490 Simpson Place, Cocoa); and

WHEREAS, a public hearing of the Brevard County Planning and Zoning Board was advertised and held, as required by law, and after hearing all interested parties and considering the adjacent areas, the Brevard County Planning and Zoning Board recommended that the application be approved; and

WHEREAS, the Board, after considering said application and Brevard County Planning and Zoning Board's recommendation, and hearing all interested parties, and after due and proper consideration having been given to the matter, find that the application should be approved as recommended; now therefore,

BE IT RESOLVED by the Board of County Commissioners of Brevard County, Florida, that the requested change of zoning classification from GU to RR-1 be approved. The Planning and Development Director, or designee, is hereby directed to make this change on the official zoning maps of Brevard County, Florida.

BE IT FURTHER RESOLVED that this resolution shall become effective as of November 5, 2020.

BOARD OF COUNTY COMMISSIONERS

Brevard County, Florida Bryan Undrew Lober

Bryan Andrew Lober, Chair Brevard County Commission

As approved by the Board on November 5, 2020.

ATTEST:

SCOTT ELLIS, CLERK

(SEAL)

Planning and Zoning Board Hearing – October 5, 2020

Please note: A CUP (Conditional Use Permit) will generally expire on the three-year anniversary of its approval if the use is not established prior to that date. CUPs for Towers and Antennas shall expire if a site plan for the tower is not submitted within one year of approval or if construction does not commence within two years of approval. A Planned Unit Development Preliminary Development Plan expires if a final development plan is not filed within three years. The granting of this zoning does not guarantee physical development of the property. At the time of development, said development must be in accordance with the criteria of the Brevard County Comprehensive Plan and other applicable laws and ordinances.

ADMINISTRATIVE POLICIES OF THE FUTURE LAND USE ELEMENT

Administrative Policies in the Future Land Use Element establish the expertise of staff with regard to zoning land use issues and set forth criteria when considering a rezoning action or request for Conditional Use Permit, as follows:

Administrative Policy 1

The Brevard County zoning official, planners and the director of the Planning and Development staff, however designated, are recognized as expert witnesses for the purposes of Comprehensive Plan amendments as well as zoning, conditional use, special exception, and variance applications.

Administrative Policy 2

Upon Board request, members of the Brevard County Planning and Development staff shall be required to present written analysis and a recommendation, which shall constitute an expert opinion, on all applications for development approval that come before the Board of County Commissioners for quasi-judicial review and action. The Board may table an item if additional time is required to obtain the analysis requested or to hire an expert witness if the Board deems such action appropriate. Staff input may include the following:

Criteria:

- A. Staff shall analyze an application for consistency or compliance with comprehensive plan policies, zoning approval criteria and other applicable written standards.
- B. Staff shall conduct site visits of property which are the subject of analysis and recommendation. As part of the site visit, the staff shall take a videotape or photographs where helpful to the analysis and conduct an inventory of surrounding existing uses. Aerial photographs shall also be used where they would aid in an understanding of the issues of the case.
- C. In cases where staff analysis is required, both the applicant and the staff shall present proposed findings of fact for consideration by the Board.
- D. For re-zoning applications where a specific use has not been proposed, the worst case adverse impacts of potential uses available under the applicable land use classification shall be evaluated by the staff.

Administrative Policy 3

Compatibility with existing or proposed land uses shall be a factor in determining where a rezoning or any application involving a specific proposed use is being considered. Compatibility shall be evaluated by considering the following factors, at a minimum:

Criteria:

- A. Whether the proposed use(s) would have hours of operation, lighting, odor, noise levels, traffic, or site activity that would significantly diminish the enjoyment of, safety or quality of life in existing neighborhoods within the area which could foreseeably be affected by the proposed use.
- B. Whether the proposed use(s) would cause a material reduction (five percent or more) in the value of existing abutting lands or approved development.
- C. Whether the proposed use(s) is/are consistent with an emerging or existing pattern of surrounding development as determined through analysis of:

- 1. historical land use patterns;
- 2. actual development over the immediately preceding three years; and
- 3. development approved within the past three years but not yet constructed.
- D. Whether the proposed use(s) would result in a material violation of relevant policies in any elements of the Comprehensive Plan.

Administrative Policy 4

Character of a neighborhood or area shall be a factor for consideration whenever a rezoning or any application involving a specific proposed use is reviewed. The character of the area must not be materially or adversely affected by the proposed rezoning or land use application. In evaluating the character of an area, the following factors shall be considered:

Criteria:

- A. The proposed use must not materially and adversely impact an established residential neighborhood by introducing types of intensity of traffic (including but not limited to volume, time of day of traffic activity, type of vehicles, et cetera), parking, trip generation, commercial activity or industrial activity that is not already present within the identified boundaries of the neighborhood.
- B. In determining whether an established residential neighborhood exists, the following factors must be present:
 - 1. The area must have clearly established boundaries, such as roads, open spaces, rivers, lakes, lagoons, or similar features.
 - 2. Sporadic or occasional neighborhood commercial uses shall not preclude the existence of an existing residential neighborhood, particularly if the commercial use is non-conforming or pre-dates the surrounding residential use.
 - 3. An area shall be presumed not to be primarily residential but shall be deemed transitional where multiple commercial, industrial or other non-residential uses have been applied for and approved during the previous five (5) years.

Administrative Policy 5

In addition to the factors specified in Administrative Policies 2, 3, and 4, in reviewing a rezoning, conditional use permit or other application for development approval, the impact of the proposed use or uses on transportation facilities either serving the site or impacted by the use(s) shall be considered. In evaluating whether substantial and adverse transportation impacts are likely to result if an application is approved, the staff shall consider the following criteria:

Criteria:

- A. Whether adopted levels of services will be compromised:
- B. Whether the physical quality of the existing road system that will serve the proposed use(s) is sufficient to support the use(s) without significant deterioration;

- C. Whether the surrounding existing road system is of sufficient width and construction quality to serve the proposed use(s) without the need for substantial public improvements;
- D. Whether the surrounding existing road system is of such width and construction quality that the proposed use(s) would realistically pose a potential for material danger to public safety in the surrounding area;
- E. Whether the proposed use(s) would be likely to result in such a material and adverse change in traffic capacity of a road or roads in the surrounding area such that either design capacities would be significantly exceeded or a de facto change in functional classification would result:
- F. Whether the proposed use(s) would cause such material and adverse changes in the types of traffic that would be generated on the surrounding road system, that physical deterioration of the surrounding road system would be likely;
- G. Whether projected traffic impacts of the proposed use(s) would materially and adversely impact the safety or welfare of residents in existing residential neighborhoods.

Administrative Policy 6

The use(s) proposed under the rezoning, conditional use or other application for development approval must be consistent with, (a), all written land development policies set forth in these administrative policies; and (b), the future land use element, coastal management element, conservation element, potable water element, sanitary sewer element, solid waste management element, capital improvements element, recreation and open space element, surface water element, and transportation elements of the comprehensive plan.

Administrative Policy 7

Proposed use(s) shall not cause or substantially aggravate any, (a), substantial drainage problem on surrounding properties; or (b), significant, adverse and unmitigatable impact on significant natural wetlands, water bodies or habitat for listed species.

Administrative Policy 8

These policies, the staff analysis based upon these policies, and the applicant's written analysis, if any, shall be incorporated into the record of every quasi-judicial review application for development approval presented to the Board including rezoning, conditional use permits, and vested rights determinations.

Section 62-1151(c) of the Code of Ordinances of Brevard County directs, "The planning and zoning board shall recommend to the board of county commissioners the denial or approval of each application for amendment to the official zoning maps based upon a consideration of the following factors:

- (1) The character of the land use of the property surrounding the property being considered.
- (2) The change in conditions of the land use of the property being considered and the surrounding property since the establishment of the current applicable zoning classification, special use or conditional use.

- (3) The impact of the proposed zoning classification or conditional use on available and projected traffic patterns, water and sewer systems, other public facilities and utilities and the established character of the surrounding property.
- (4) The compatibility of the proposed zoning classification or conditional use with existing land use plans for the affected area.
- (5) The appropriateness of the proposed zoning classification or conditional use based upon a consideration of the applicable provisions and conditions contained in this article and other applicable laws, ordinances and regulations relating to zoning and land use regulations and based upon a consideration of the public health, safety and welfare.

The minutes of the planning and zoning board shall specify the reasons for the recommendation of approval or denial of each application."

CONDITIONAL USE PERMITS (CUPs)

In addition to the specific requirements for each Conditional Use Permit (CUP), Section 62-1901 provides that the following approval procedure and general standards of review are to be applied to all CUP requests, as applicable.

- (b) Approval procedure. An application for a specific conditional use within the applicable zoning classification shall be submitted and considered in the same manner and according to the same procedure as an amendment to the official zoning map as specified in Section 62-1151. The approval of a conditional use shall authorize an additional use for the affected parcel of real property in addition to those permitted in the applicable zoning classification. The initial burden is on the applicant to demonstrate that all applicable standards and criteria are met. Applications which do not satisfy this burden cannot be approved. If the applicant meets its initial burden, then the Board has the burden to show, by substantial and competent evidence, that the applicant has failed to meet such standards and the request is adverse to the public interest. As part of the approval of the conditional use permit, the Board may prescribe appropriate and reasonable conditions and safeguards to reduce the impact of the proposed use on adjacent and nearby properties or the neighborhood. A nearby property, for the purpose of this section, is defined as any property which, because of the character of the proposed use, lies within the area which may be substantially and adversely impacted by such use. In stating grounds in support of an application for a conditional use permit, it is necessary to show how the request fulfills both the general and specific standards for review. The applicant must show the effect the granting of the conditional use permit will have on adjacent and nearby properties, including, but not limited to traffic and pedestrian flow and safety, curb-cuts, off-street loading and parking, off-street pickup of passengers, odors, glare and noise, particulates, smoke, fumes, and other emissions, refuse and service areas, drainage, screening and buffering for protection of adjacent and nearby properties, and open space and economic impact on nearby properties. The applicant, at his discretion, may choose to present expert testimony where necessary to show the effect of granting the conditional use permit.
- (c) General Standards of Review.
 - (1) The planning and zoning board and the board of county commissioners shall base the denial or approval of each application for a conditional use based upon

- a consideration of the factors specified in Section 62-1151(c) plus a determination whether an application meets the intent of this section.
- a. The proposed conditional use will not result in a substantial and adverse impact on adjacent and nearby properties due to: (1), the number of persons anticipated to be using, residing or working under the conditional use; (2), noise, odor, particulates, smoke, fumes and other emissions, or other nuisance activities generated by the conditional use; or (3), the increase of traffic within the vicinity caused by the proposed conditional use.
- b. The proposed use will be compatible with the character of adjacent and nearby properties with regard to use, function, operation, hours of operation, type and amount of traffic generated, building size and setback, and parking availability.
- c. The proposed use will not cause a substantial diminution in value of abutting residential property. A substantial diminution shall be irrebuttably presumed to have occurred if abutting property suffers a 15% reduction in value as a result of the proposed conditional use. A reduction of 10% of the value of abutting property shall create a rebuttable presumption that a substantial diminution has occurred. The Board of County Commissioners carries the burden to show, as evidenced by either testimony from or an appraisal conducted by an M A I certified appraiser, that a substantial diminution in value would occur. The applicant may rebut the findings with his own expert witnesses.
- (2) The following specific standards shall be considered, when applicable, in making a determination that the general standards specified in subsection (1) of this section are satisfied:
- a. Ingress and egress to the property and proposed structures thereon, with particular reference to automotive and pedestrian safety and convenience, traffic flow and control, and access in case of fire and catastrophe, shall be: (1), adequate to serve the proposed use without burdening adjacent and nearby uses, and (2), built to applicable county standards, if any. Burdening adjacent and nearby uses means increasing existing traffic on the closest collector or arterial road by more than 20%, or 10% if the new traffic is primarily comprised of heavy vehicles, except where the affected road is at Level of Service A or B. New traffic generated by the proposed use shall not cause the adopted level of service for transportation on applicable roadways, as determined by applicable Brevard County standards, to be exceeded. Where the design of a public road to be used by the proposed use is physically inadequate to handle the numbers, types or weights of vehicles expected to be generated by the proposed use without damage to the road, the conditional use permit cannot be approved without a commitment to improve the road to a standard adequate to handle the proposed traffic. or to maintain the road through a maintenance bond or other means as required by the Board of County Commissioners.
- b. The noise, glare, odor, particulates, smoke, fumes or other emissions from the conditional use shall not substantially interfere with the use or enjoyment of the adjacent and nearby property.
- c. Noise levels for a conditional use are governed by Section 62-2271.

- d. The proposed conditional use shall not cause the adopted level of service for solid waste disposal applicable to the property or area covered by such level of service, to be exceeded.
- e. The proposed conditional use shall not cause the adopted level of service for potable water or wastewater applicable to the property or the area covered by such level of service, to be exceeded by the proposed use.
- f. The proposed conditional use must have existing or proposed screening or buffering, with reference to type, dimensions and character to eliminate or reduce substantial, adverse nuisance, sight, or noise impacts on adjacent and nearby properties containing less intensive uses.
- g. Proposed signs and exterior lighting shall not cause unreasonable glare or hazard to traffic safety, or interference with the use or enjoyment of adjacent and nearby properties.
- h. Hours of operation of the proposed use shall be consistent with the use and enjoyment of the properties in the surrounding residential community, if any. For commercial and industrial uses adjacent to or near residential uses, the hours of operation shall not adversely affect the use and enjoyment of the residential character of the area.
- i. The height of the proposed use shall be compatible with the character of the area, and the maximum height of any habitable structure shall be not more than 35 feet higher than the highest residence within 1,000 feet of the property line.
- Off-street parking and loading areas, where required, shall not be created or maintained in a manner which adversely impacts or impairs the use and enjoyment of adjacent and nearby properties. For existing structures, the applicant shall provide competent, substantial evidence to demonstrate that actual or anticipated parking shall not be greater than that which is approved as part of the site pan under applicable county standards.

FACTORS TO CONSIDER FOR A REZONING REQUEST

Section 62-1151(c) sets forth factors to consider in connection with a rezoning request, as follows:

"The planning and zoning board shall recommend to the board of county commissioners the denial or approval of each application for amendment to the official zoning maps based upon a consideration of the following factors:

- (1) The character of the land use of the property surrounding the property being considered.
- (2) The change in conditions of the land use of the property being considered and the surrounding property since the establishment of the current applicable zoning classification, special use or conditional use.
- (3) The impact of the proposed zoning classification or conditional use on available and projected traffic patterns, water and sewer systems, other public facilities and utilities and the established character of the surrounding property.

- (4) The compatibility of the proposed zoning classification or conditional use with existing land use plans for the affected area.
- (5) The appropriateness of the proposed zoning classification or conditional use based upon a consideration of the applicable provisions and conditions contained in this article and other applicable laws, ordinances and regulations relating to zoning and land use regulations and based upon a consideration of the public health, safety and welfare."

These staff comments contain references to zoning classifications found in the Brevard County Zoning Regulations, Chapter 62, Article VI, Code of Ordinances of Brevard County. These references include brief summaries of some of the characteristics of that zoning classification. Reference to each zoning classification shall be deemed to incorporate the full text of the section or sections defining and regulating that classification into the Zoning file and Public Record for that item.

These staff comments contain references to sections of the Code of Ordinances of Brevard County. Reference to each code section shall be deemed to incorporate this section into the Zoning file and Public Record for that item.

These staff comments contain references to Policies of the Brevard County Comprehensive Plan. Reference to each Policy shall be deemed to incorporate the entire Policy into the Zoning file and Public Record for that item.

These staff comments refer to previous zoning actions which are part of the Public Records of Brevard County, Florida. These records will be referred to by reference to the file number. Reference to zoning files are intended to make the entire contents of the cited file a part of the Zoning file and Public Record for that item.

DEFINITIONS OF CONCURRENCY TERMS

Maximum Acceptable Volume (MAV): Maximum acceptable daily volume that a roadway can carry at the adopted Level of Service (LOS).

Current Volume: Building permit related trips added to the latest TPO (Transportation Planning Organization) traffic counts.

Volume with Development (VOL W/DEV): Equals Current Volume plus trip generation projected for the proposed development.

Volume/Maximum Acceptable Volume (VOL/MAV): Equals the ratio of current traffic volume to the maximum acceptable roadway volume.

Volume/Maximum Acceptable Volume with Development (VOL/MAV W/DEV): Ratio of volume with development to the Maximum Acceptable Volume.

Acceptable Level of Service (CURRENT LOS): The Level of Service at which a roadway is currently operating.

Level of Service with Development (LOS W/DEV): The Level of Service that a proposed development may generate on a roadway.

STAFF COMMENTS 20Z00021 Jennifer L. Robbins GU (General Use) to RR-1 (Rural Residential)

Tax Account Number:

2402990

Parcel I.D.:

24-35-08-01-2-13

Location:

North side of Simpson Place, approximately 833 feet west of Ocala Street

(District 1)

Acreage:

2.02 acre

Planning and Zoning Board:

10/05/2020

Board of County Commissioners: 11/05/2020

Consistency with Land Use Regulations

- Current zoning can be considered under the Future Land Use Designation, Section 62-1255.
- The proposal can be considered under the Future Land Use Designation, Section 62-1255.
- The proposal would maintain acceptable Levels of Service (LOS) (XIII 1.6.C)

	CURRENT	PROPOSED
Zoning	GU	RR-1
Potential*	One Single Family Unit	Two Single Family Unit
Can be Considered under the	YES	YES
Future Land Use Map	Residential 1	Residential 1

^{*} Zoning potential for concurrency analysis purposes only, subject to applicable land development regulations.

Background and Purpose of Request

The applicant desires to change of zoning classification from GU (General Use) to RR-1 (Rural Residential) for the purpose of building a barn and having horses on the property. The parcel is two combined lots located in the Canaveral Groves area. In GU zoning, Agricultural pursuits (barns and horses) are permitted with 5 acres or more of land. The parcel currently is developed with a 2,823 sq. ft. single-family residence and an 864 sq. ft. detached garage.

The GU zoning is original to the parcel adopted May 22, 1958; no previous zoning actions have been applied for. The parcel is two combined lots located in the Canaveral Groves area. The lots were recorded in Survey Book 2, Page 61 on September 29, 1960. When these lots were recorded in the Survey Book, GU zoning required a minimum lot with and depth of 150 feet and a minimum lot size of one acre. These two lots have a lot width of 147 feet each and although they were recorded in Survey 2, Page 61, they did not meet the GU zoning 150 feet minimum lot width required to be Nonconforming Lots of Record. The lots do meet the proposed RR-1 zoning minimum 125 feet lot

width and depth and the RR-1 minimum one acre lot size requirements. The proposed RR-1 zoning would legitimize the lots for lot size requirements.

Land Use

The subject property retains the RES 1 (Residential 1) Future Land Use designation. The existing GU zoning and the proposed RR-1 zoning are consistent with the RES 1 Future Land Use designation.

Environmental Constraints

Summary of Mapped Resources and Noteworthy Land Use Issues:

- National Wetlands Inventory (NWI) Wetlands
- Hydric Soils
- Aguifer Recharge Soils
- Protected and Specimen Trees
- Protected Species

No noteworthy land use issues were identified. Natural Resources Management (NRM) reserves the right to assess consistency with environmental ordinances at all applicable future stages of development.

Preliminary Concurrency

The closest concurrency management segment to the subject property is Citrus Boulevard, between Pine Street and Lee Street, which has a Maximum Acceptable Volume (MAV) of 15,600 trips per day, a Level of Service (LOS) of E, and currently operates at 28.85% of capacity daily. The maximum development potential from the proposed rezoning does increase the percentage of MAV utilization by 0.06%. The corridor is anticipated to continue to operate at 28.91% of capacity daily. The proposal is not anticipated to create a deficiency in LOS.

No school concurrency information has been provided as the development potential of this site falls below the minimum number of new residential lots that would require a formal review.

The parcel is not serviced by Brevard County sewer. The closest available sewer line is approximately 2 miles southeast of the subject property on the west side of Adams Road.

The parcel is serviced by City of Cocoa water.

Applicable Land Use Policies

FLUE Policy 1.9 –The Residential 1 land use designation permits low density residential development with a maximum density of up to one (1) unit per acre, except as otherwise may be provided for within this element. The Residential 1 land use designation may be considered for lands within the following generalized locations, unless otherwise limited by this Comprehensive Plan.

Analysis of Administrative Policy #3 - Compatibility between this site and the existing or proposed land uses in the area. The subject parcel is currently developed with a single-family Page 2

residence and lies within the Residential 1 Future Land Use designation. The surrounding area has GU and AU zoning and lies within the Residential 1 Future Land Use designation. The existing GU, AU and the proposed RR-1 zoning may be considered to be consistent with the Residential 1 Future Land Use designation.

Analysis of Administrative Policy #4 - Character of a neighborhood or area. The developed character of the surrounding area along Simpson Place is developed with single-family homes and undeveloped land on lots of one acre or more variously zoned GU and AU. The subject parcel and the surrounding area along Simpson Place have a Future Land Use (FLU) designation of RES 1, which may be considered to be consistent with the existing GU zoning and proposed RR-1 zoning. The current GU classification is a holding category, allowing single-family residences on five acre lots with a minimum width and depth of 300 feet. The minimum house size in GU is 750 square feet. Any agricultural use, pursuit or activity permitted in the agricultural zoning classifications (AU or AGR) may be considered as a conditional use for the GU zoning classification, provided that the applicant specifies the exact use in the request or application for the conditional use and meets all criteria for the use, if any, as set forth for the AU zoning classification. A conditional use permit is not required on GU parcels equal to or exceeding five acres.

The proposed RR-1 classification permits single-family residential land uses on minimum one acre lots, with a minimum lot width and depth of 125 feet. The RR-1 classification permits horses, barns and horticulture as accessory uses to a single-family residence. The minimum house size is 1,200 square feet. The keeping of horses and agricultural pursuits are accessory to a principle residence within the RR-1 (Rural Residential) zoning classification pursuant to the following limitations. Horses, not to exceed four per acre, are permitted for the personal, noncommercial use of the occupant of the property, provided there is a minimum of 10,000 square feet of land for each animal. Agricultural pursuits shall be limited to the keeping of horses and activities of a horticultural nature. No other farm animals or fowl shall be kept on the property except as provided in this chapter, and no produce shall be sold from the premises.

The AU zoning classification permits single-family residences and agricultural uses on 2.5 acre lots, with a minimum lot width and depth of 150 feet. The minimum house size in AU is 750 square feet. The AU classification permits all agricultural pursuits, including the packing, processing, and sales of commodities raised on the premises. The AU classification also permits the raising/grazing of animals, fowl, beekeeping and plant nurseries.

Surrounding Area

The parcel abuts GU zoning along its northern, southern and western boundaries and abuts AU zoning to the east. The abutting parcels to the north, east and south are undeveloped. The abutting parcel to the west is developed with a 2,231 sq. ft. single-family home and residential amenities.

Although there is not any RR-1 zoning in the surrounding area, the RR-1 zoning does allow agricultural pursuits limited to the keeping of horses and activities of a horticultural nature which are permitted uses in AU. These uses are also permitted in GU if the parcel is five acres in size or may be considered as a Conditional Use with a Conditional Use Permit (CUP) if the parcel is less than five acres in size.

There have been no zoning actions within a half-mile of the subject property within the last five years.

Page 3

For Board Consideration

The Board may wish to consider whether this request for RR-1 zoning is consistent and compatible with the surrounding neighborhood which has AU and GU zoning.

NATURAL RESOURCES MANAGEMENT DEPARTMENT Zoning Review & Summary Item # 20Z00021

Applicant: Jennifer Robbins **Zoning Request**: GU to AU

Note: Applicant wants to have horses and barn for boarding. **P&Z Hearing Date**: 10/05/20; **BCC Hearing Date**: 11/05/20

Tax ID No: 2402990

- ➤ This is a preliminary review based on best available data maps reviewed by the Natural Resources Management Department (NRM) and does not include a site inspection to verify the accuracy of the mapped information.
- ➤ In that the rezoning process is not the appropriate venue for site plan review, specific site designs submitted with the rezoning request will be deemed conceptual. Board comments relative to specific site design do not provide vested rights or waivers from Federal, State or County regulations.
- This review does not guarantee whether or not the proposed use, specific site design, or development of the property can be permitted under current Federal, State, or County Regulations.

Summary of Mapped Resources and Noteworthy Land Use Issues:

- National Wetlands Inventory (NWI) Wetlands
- Hydric Soils
- Aguifer Recharge Soils
- Protected and Specimen Trees
- Protected Species

No noteworthy land use issues were identified. Natural Resources Management (NRM) reserves the right to assess consistency with environmental ordinances at all applicable future stages of development.

Land Use Comments:

Wetlands

The subject parcel contains mapped NWI (Freshwater forested shrub wetlands), and hydric soils (Terra Ceia muck, Valkaria sand and Basinger sand) as shown on the NWI Wetlands, and USDA Soil Conservation Service Soils Survey maps, respectively. These are indicators that wetlands may be present on the property. A wetland delineation will be required prior to any site plan design, land clearing activities, or building permit submittal. Any permitted wetland impacts must meet the requirements of Sections 62-3694(e) including avoidance of impacts, and 62-3696. The applicant is encouraged to contact NRM at 321-633-2016 prior to any site plan design.

Pursuant to the Florida Agricultural Lands and Practices Act (Chapter 163.3162(4), Florida Statutes), any activity of a Bona Fide Agricultural Use on land classified as agricultural land pursuant to Section 193.461, Florida Statute is exempt. The Brevard County Property Appraiser Office establishes Bona Fide Agricultural land classification, and is not based on the zoning alone. If Bona Fide Agriculture

Page 5

classification is not established, then land clearing and accessory structures, including barns, are not permitted in wetlands. Any permitted wetland impacts must meet the requirements of Sections 62-3694(e) including avoidance of impacts, and 62-3696. The applicant is encouraged to contact NRM at 321-633-2016 prior to any site plan design or permit submittal.

If applicable, per Section 62-3694(c)(2), residential land uses within wetlands shall be limited to not more than one (1) dwelling unit per five (5) acres unless strict application of this policy would render a legally established parcel as of September 9, 1988, which is less than five (5) acres, as unbuildable. The preceding limitation of one dwelling unit per five (5) acres within wetlands may be applied as a maximum percentage limiting wetland impacts as described in Section 65-3694(c)(1)a above. Application of the one-unit-per-five-acres limitation shall limit impacts to wetlands for single family residential development on a cumulative basis, to not more than 1.8% of the total property as defined in Section 65-694(c)(6).

Aquifer Recharge Soils

Valkaria and Basinger sands may also function as aquifer recharge soils. The applicant is hereby notified of the development and impervious restrictions within Conservation Element Policy 10.2 and the Aquifer Protection Ordinance.

Heritage Specimen Trees

Aerials indicate that Heritage Specimen Trees (greater than or equal to 24 inches in diameter) may reside on subject property. Per Brevard County Landscaping, Land Clearing and Tree Protection ordinance, Section 62-4341(18), Protected and Specimen Trees shall be preserved or relocated on site to the Greatest Extent Feasible. Per Section 62-4332, Definitions, Greatest Extent Feasible shall include, but not be limited to, relocation of roads, buildings, ponds, increasing building height to reduce building footprint or reducing Vehicular Use Areas. The applicant is advised to refer to Article XIII, Division 2, entitled Land Clearing, Landscaping, and Tree Protection, for specific requirements for tree preservation and canopy coverage requirements. Land clearing is not permitted without prior authorization by NRM.

Protected Species

Information available to NRM indicates that federally and/or state protected species may be present on the property. Prior to any plan, permit submittal, or development activity, including land clearing, the applicant should obtain any necessary permits or clearance letters from the Florida Fish and Wildlife Conservation Commission and/or U.S. Fish and Wildlife Service, as applicable.

PLANNING AND ZONING BOARD MINUTES

The Brevard County Planning & Zoning Board met in regular session on **Monday, October 5, 2020**, at **3:00 p.m**., in the Florida Room, Building C, Brevard County Government Center, 2725 Judge Fran Jamieson Way, Viera, Florida.

The meeting was called to order at 3:00 p.m.

Board members present were: Ron Bartcher; Brian Woltz; Ian Golden; Brian Hodgers; Mark Wadsworth, Chair; Peter Filiberto, Vice Chair; and Bruce Moia.

Staff members present were: Jeffrey Ball, Planning and Zoning Manager; Abigail Jorandby, Assistant County Attorney; and Jennifer Jones, Special Projects Coordinator.

Excerpt of Complete Minutes

Jennifer Robbins

A change of zoning classification from GU (General Use) to RR-1 (Rural Residential). The property is 2.02 acres, located on the north side of Simpson Place, approx. 833 feet west of Ocala Street. (5490 Simpson Place, Cocoa) (20Z00021) (Tax Account 2402990) (District 1)

Jennifer Robbins, 5490 Simpson Place, Cocoa, stated she would like to rezone so she can have a couple of horses and a barn.

No public comment.

Brian Hodgers stated the staff comments note that the rezoning is going from one family unit to two family units, and asked if she needs to change the number of units for livestock purposes.

Jeffrey Ball replied the current zoning is on a non-conforming lot, which is why she needs to change the zoning so that the lot meets the zoning classification standards. Mr. Hodgers asked if the standard for the lot would be two units. Mr. Ball replied RR-1 allows for a one-acre lot. Potentially, there could be two units because the lot is two acres, but there would be issues with getting access to a second lot.

Motion by Ron Bartcher, seconded by Peter Filiberto, to approve a change of classification from GU to RR-1. The motion passed unanimously. (Bruce Moia absent)
